me @@ non-natives esp. white people acting like the water protectors are already dead when listen up binch this fight has been going on for over five hundred years and you’ve only been in it in, what? five? 2? how old is your tumblr account?

Cuz buckle up, we’re fighting, and this is the meme i meant to post before all the stuff about five hundred years of resistance anyways fuck trumasdfa #noDAPL

YEAH IF YOU COULD DONATE TO STANDING ROCK
THAT'D BE GREAT
MEMES & FUNNY memegenerator.net

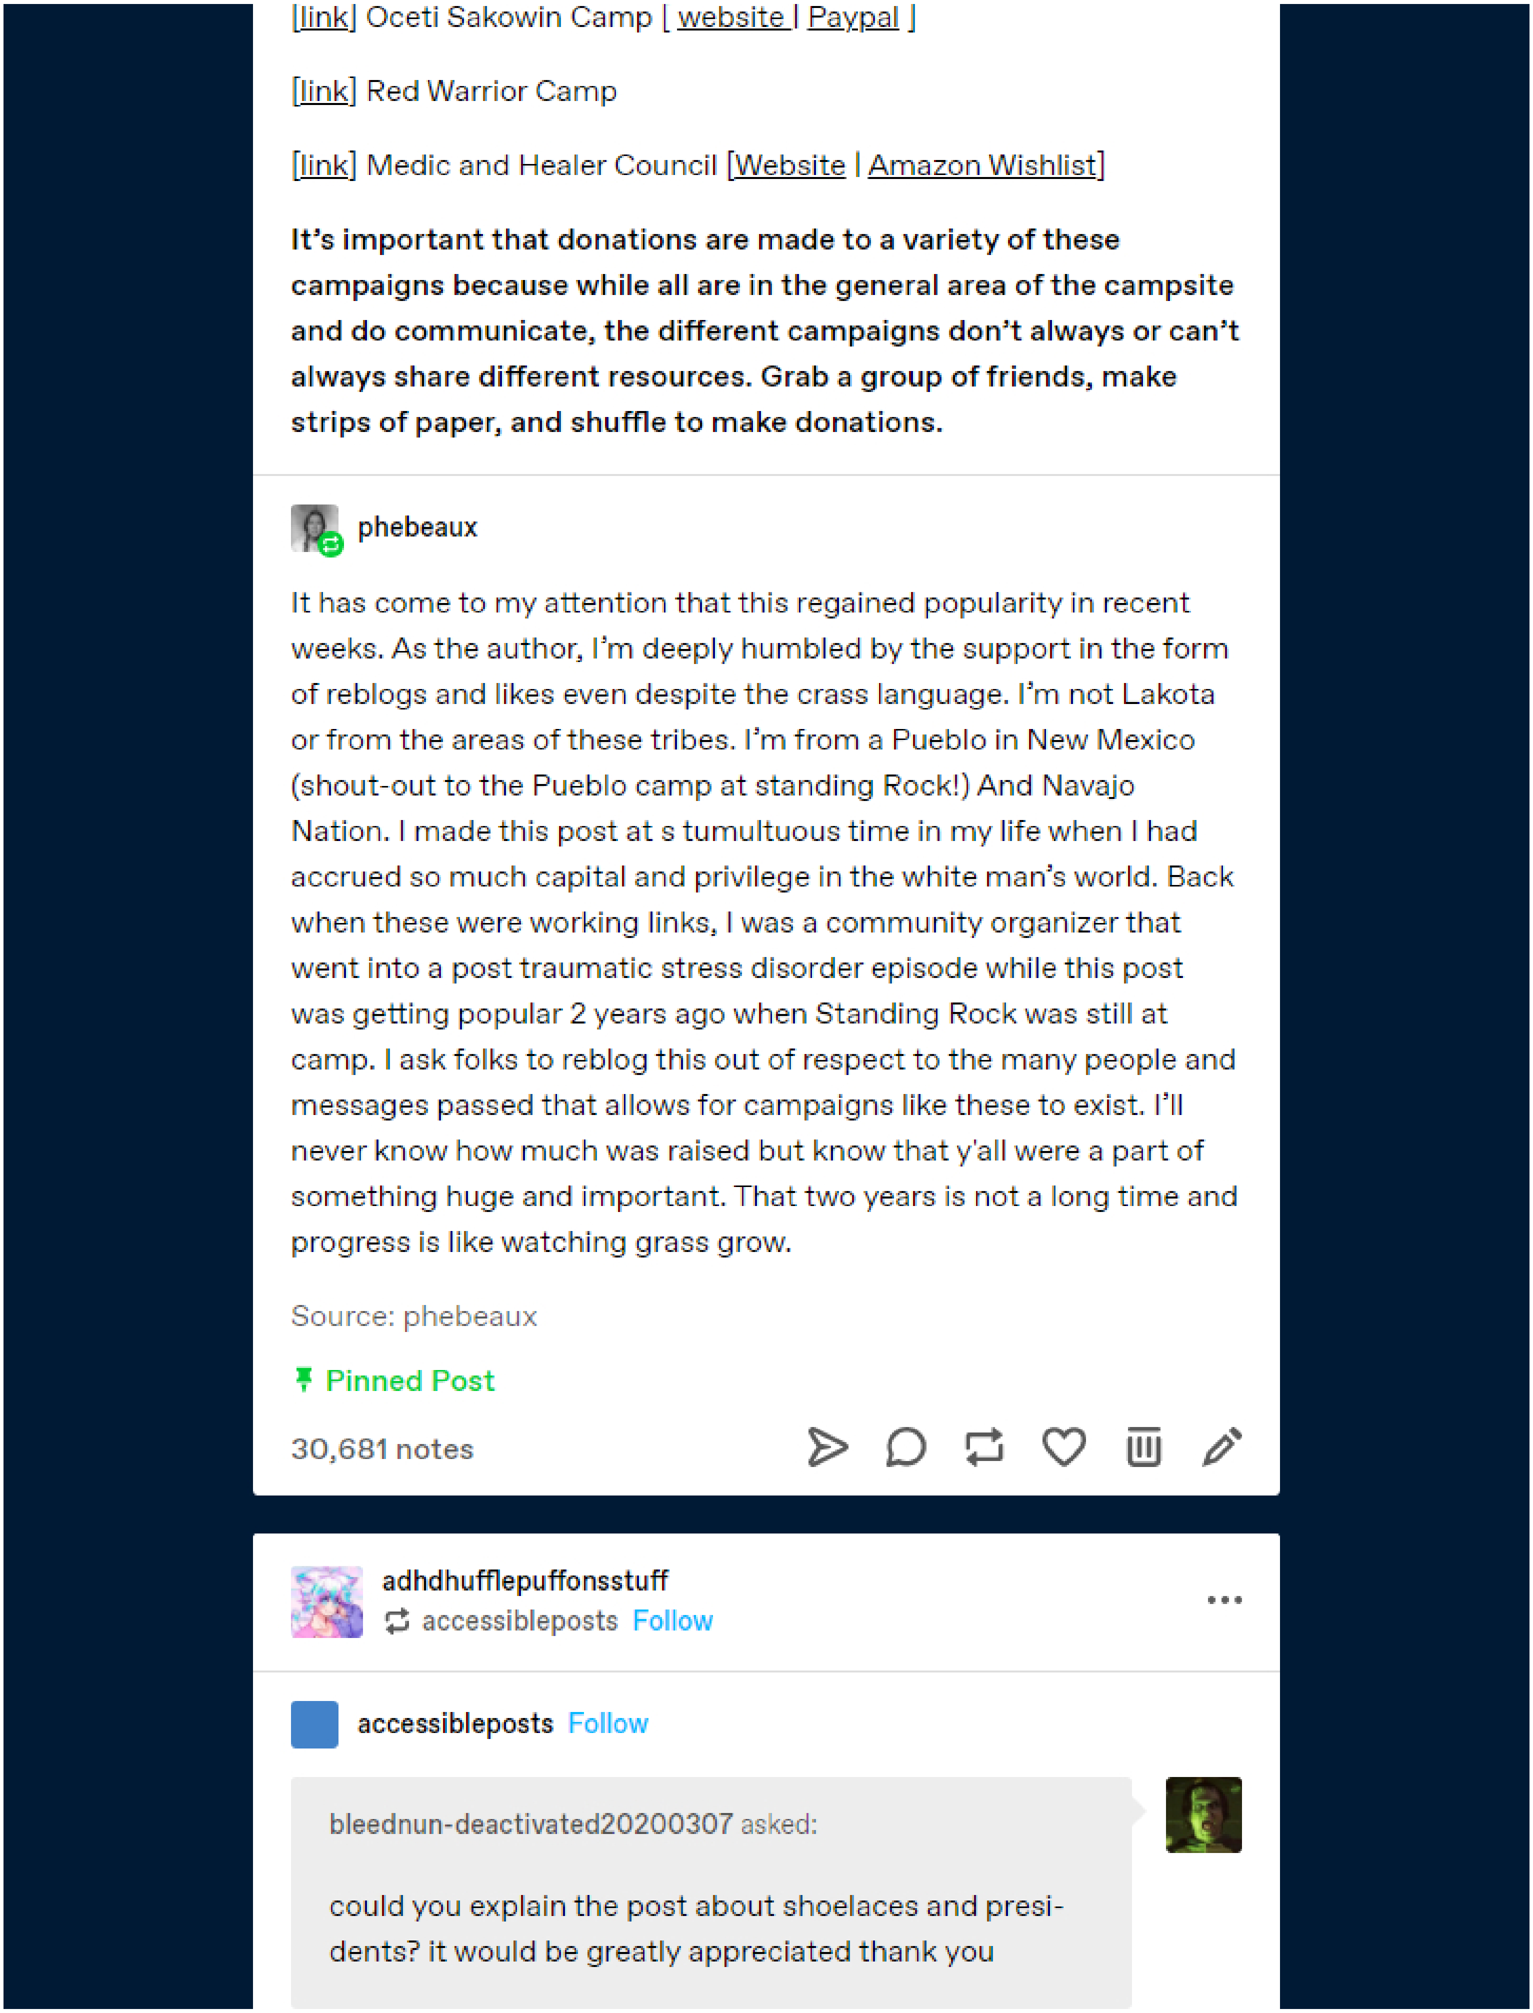
[link] Standing Rock Sioux DAPL Donation Fund

[link] Sacred Stone Camp Amazon Wishlist

[link] Sacred Stone Legal Defense Fund

[link] MI Canoe Cold Water Rescue Team

[link] Sacred Stone Camp GoFundMe



[link] Oceti Sakowin Camp [website | Paypal]

[link] Red Warrior Camp

[link] Medic and Healer Council [Website | Amazon Wishlist]

It's important that donations are made to a variety of these campaigns because while all are in the general area of the campsite and do communicate, the different campaigns don't always or can't always share different resources. Grab a group of friends, make strips of paper, and shuffle to make donations.

phebeaux

It has come to my attention that this regained popularity in recent weeks. As the author, I'm deeply humbled by the support in the form of reblogs and likes even despite the crass language. I'm not Lakota or from the areas of these tribes. I'm from a Pueblo in New Mexico (shout-out to the Pueblo camp at standing Rock!) And Navajo Nation. I made this post at s tumultuous time in my life when I had accrued so much capital and privilege in the white man's world. Back when these were working links, I was a community organizer that went into a post traumatic stress disorder episode while this post was getting popular 2 years ago when Standing Rock was still at camp. I ask folks to reblog this out of respect to the many people and messages passed that allows for campaigns like these to exist. I'll never know how much was raised but know that y'all were a part of something huge and important. That two years is not a long time and progress is like watching grass grow.

> > >
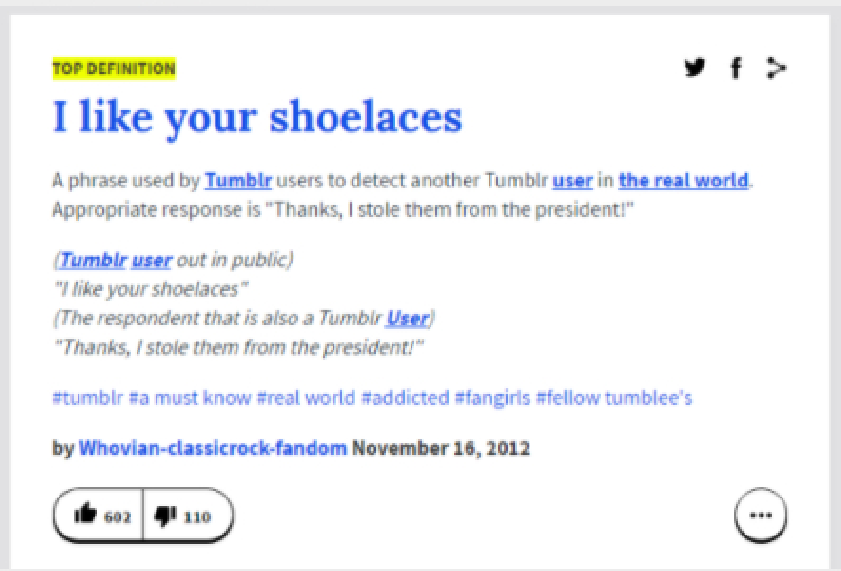
> > > must keep reblogering!! Im going to be so suspicious if any one tells me this now!
> >
> > Remember the answer is: I stole them from the president.



TOP DEFINITION

I like your shoelaces

A phrase used by **Tumblr** users to detect another Tumblr **user** in **the real world**. Appropriate response is "Thanks, I stole them from the president!"

*(**Tumblr** **user** out in public)*
"I like your shoelaces"
*(The respondent that is also a Tumblr **User**)*
"Thanks, I stole them from the president!"

#tumblr #a must know #real world #addicted #fangirls #fellow tumblee's

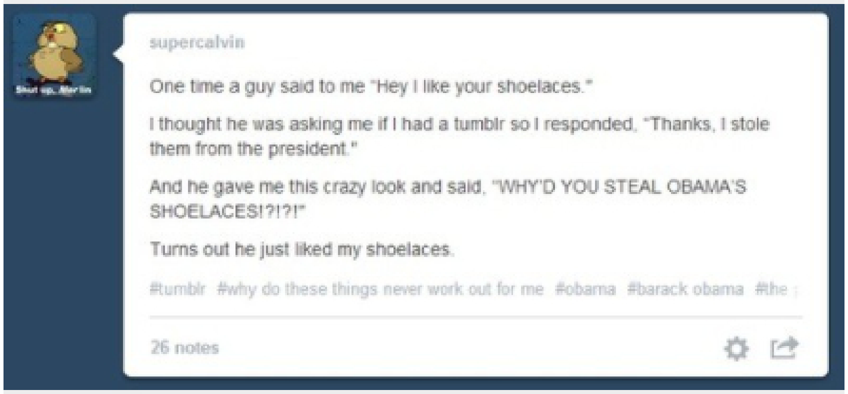
by Whovian-classicrock-fandom November 16, 2012

So, it started in a post in 2012 (or earlier, I don't know the exact date). As the Urban Dictionary entry explains, you would say "I like your shoelaces" in public as a sort of secret code if you suspect there's another Tumblr user there. And if there is another Tumblr user, they would reply "Thanks, I stole them from the president" to let you know they understood the message and are, in fact, a Tumblr user.

I don't think people do this anymore, and if they ever did, it probably wasn't a very common thing to do. Maybe they did back in 2012 when the post was recent and Tumblr wasn't as popular as it is now.

I also don't think there's any deeper meaning to the phrases. "I like your shoelaces" seems like a pretty common and nice thing to say, and if it turns out the person you thought was a Tumblr user doesn't recognise the 'secret message', nothing would happen. But then "Thanks, I stole them from the president" seems weird and specific enough that you would know they understood the 'secret message', unlike if they just replied "Thank you".

Then other posts appeared making references to the shoelaces and president posts:



supercalvin

One time a guy said to me "Hey I like your shoelaces."

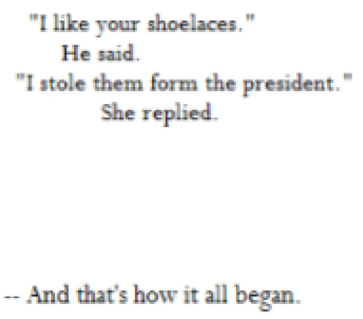
I thought he was asking me if I had a tumblr so I responded, "Thanks, I stole them from the president."

And he gave me this crazy look and said, "WHY'D YOU STEAL OBAMA'S SHOELACES!?!?!"

Turns out he just liked my shoelaces.

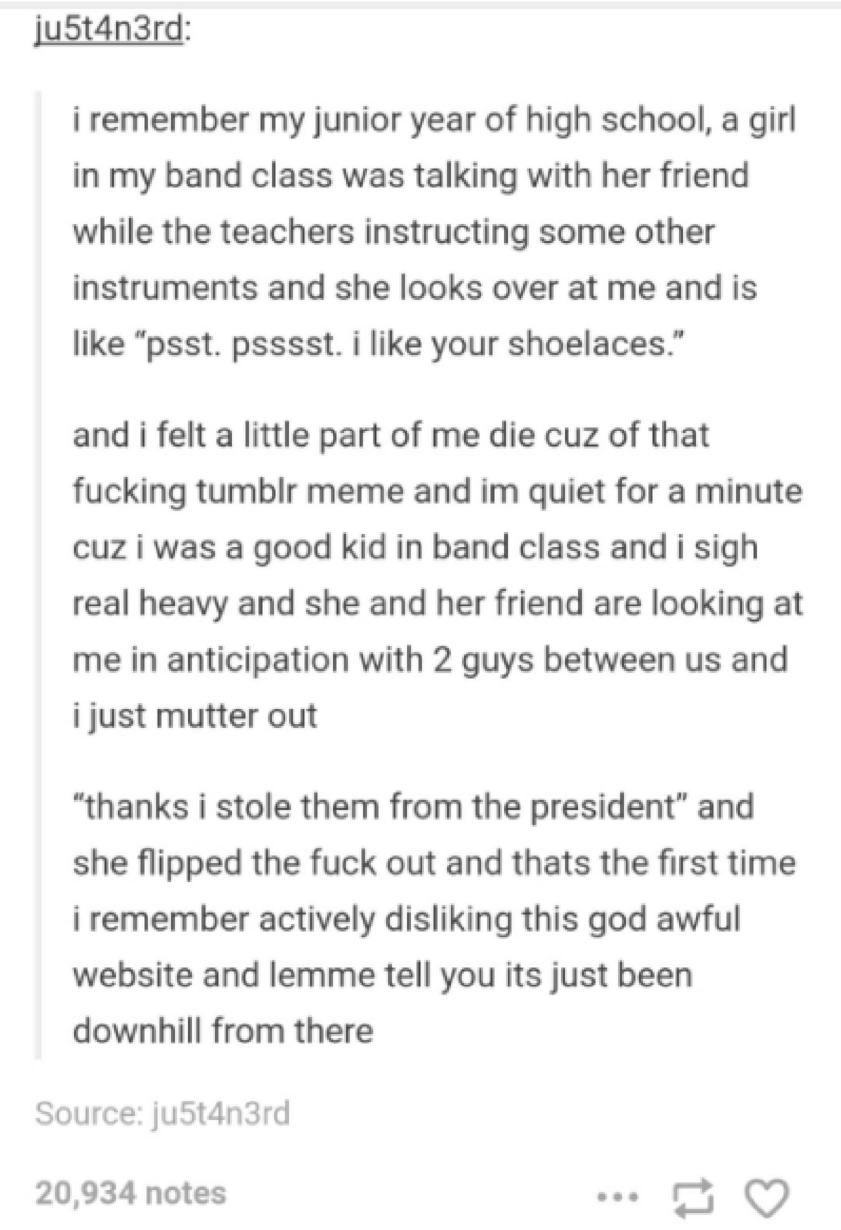
#tumblr #why do these things never work out for me #obama #barack obama #the

26 notes



"I like your shoelaces."
He said.
"I stole them form the president."
She replied.

-- And that's how it all began.



ju5t4n3rd:

> i remember my junior year of high school, a girl in my band class was talking with her friend while the teachers instructing some other instruments and she looks over at me and is like "psst. psssst. i like your shoelaces."
>
> and i felt a little part of me die cuz of that fucking tumblr meme and im quiet for a minute cuz i was a good kid in band class and i sigh real heavy and she and her friend are looking at me in anticipation with 2 guys between us and i just mutter out
>
> "thanks i stole them from the president" and she flipped the fuck out and thats the first time i remember actively disliking this god awful website and lemme tell you its just been downhill from there

My character's name is Rocket.
He's a genetically enhanced raccoon with a gun fetish.

so I've got this headcanon that Guardians of the Galaxy is really the Avengers playing a table top roleplaying game, where Bucky's the DM who suffers through heaps and loads of trolling

Mostly from Steve

Especially from Steve

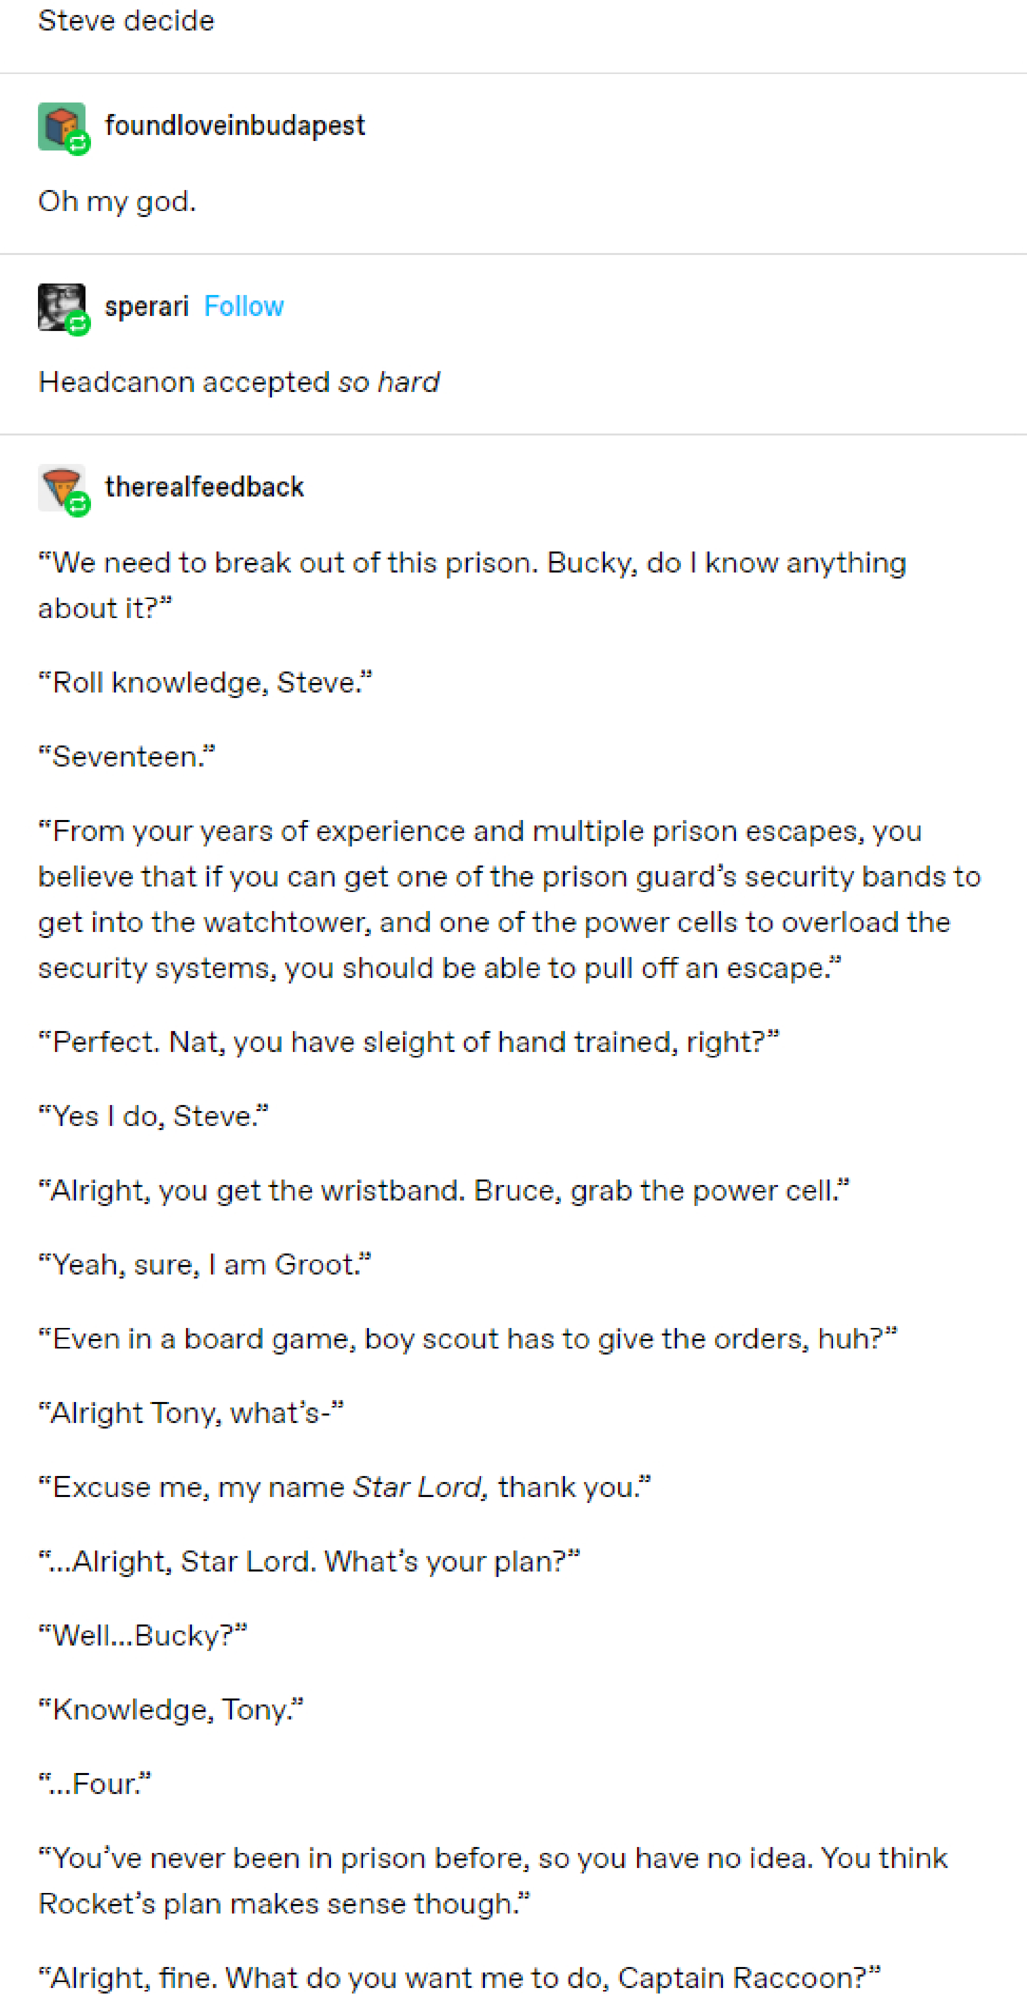
obsessiforge Follow

Which means Natasha was the one who sat down and wrote out the long, comprehensive backstory for her kickass space assassin Gamora, that Bucky keeps trying to work into the campaign but they keep getting sidetracked by –

Tony who just created what he sees himself as – the suave, wise-cracking space vagabond.

Thor who needed a lot of help building his character and decided on a couple easy to remember traits (Strong, honor, doesn't get metaphors)

and Bruce who's actually too busy to pay full attention so any time Bucky asks what he wants to do he just says "I am Groot" and lets



Steve decide

---

foundloveinbudapest

Oh my god.

sperari Follow

Headcanon accepted *so hard*

---

therealfeedback

“We need to break out of this prison. Bucky, do I know anything about it?”

“Roll knowledge, Steve.”

“Seventeen.”

“From your years of experience and multiple prison escapes, you believe that if you can get one of the prison guard’s security bands to get into the watchtower, and one of the power cells to overload the security systems, you should be able to pull off an escape.”

“Perfect. Nat, you have sleight of hand trained, right?”

“Yes I do, Steve.”

“Alright, you get the wristband. Bruce, grab the power cell.”

“Yeah, sure, I am Groot.”

“Even in a board game, boy scout has to give the orders, huh?”

“Alright Tony, what’s-”

“Excuse me, my name *Star Lord*, thank you.”

“…Alright, Star Lord. What’s your plan?”

“Well…Bucky?”

“Knowledge, Tony.”

“…Four.”

“You’ve never been in prison before, so you have no idea. You think Rocket’s plan makes sense though.”

“Alright, fine. What do you want me to do, Captain Raccoon?”

“Only the most important for you, Space King. Bucky, does anyone in the prison have a robotic arm?”

“I swear if you’re going where I think you’re going with–”

“Okay, leg. Robotic leg, not arm.”

“Yes, there is one guy with a prosthetic leg.”

“Tony I want you to get me that guy’s leg.”

“…Why?”

“Just trust me, we need it for the plan.”

“Bucky, can I sense motive on Rocket?”

“Go ahead.”

“…These dice are weighted.”

“What?”

“What’d you get, Stark?”

“One.”

“Not only do you believe that Rocket needs the leg, you believe it is the single most important part of the plan. Without that leg, everything will fall to pieces.”

“Okay, fine, I’ll get the leg.”

“Perfect. Avengers, let’s get to work.”

“Removing the power cell will set off the alarm, so you believe you should start with–”

“I go remove the power cell.”

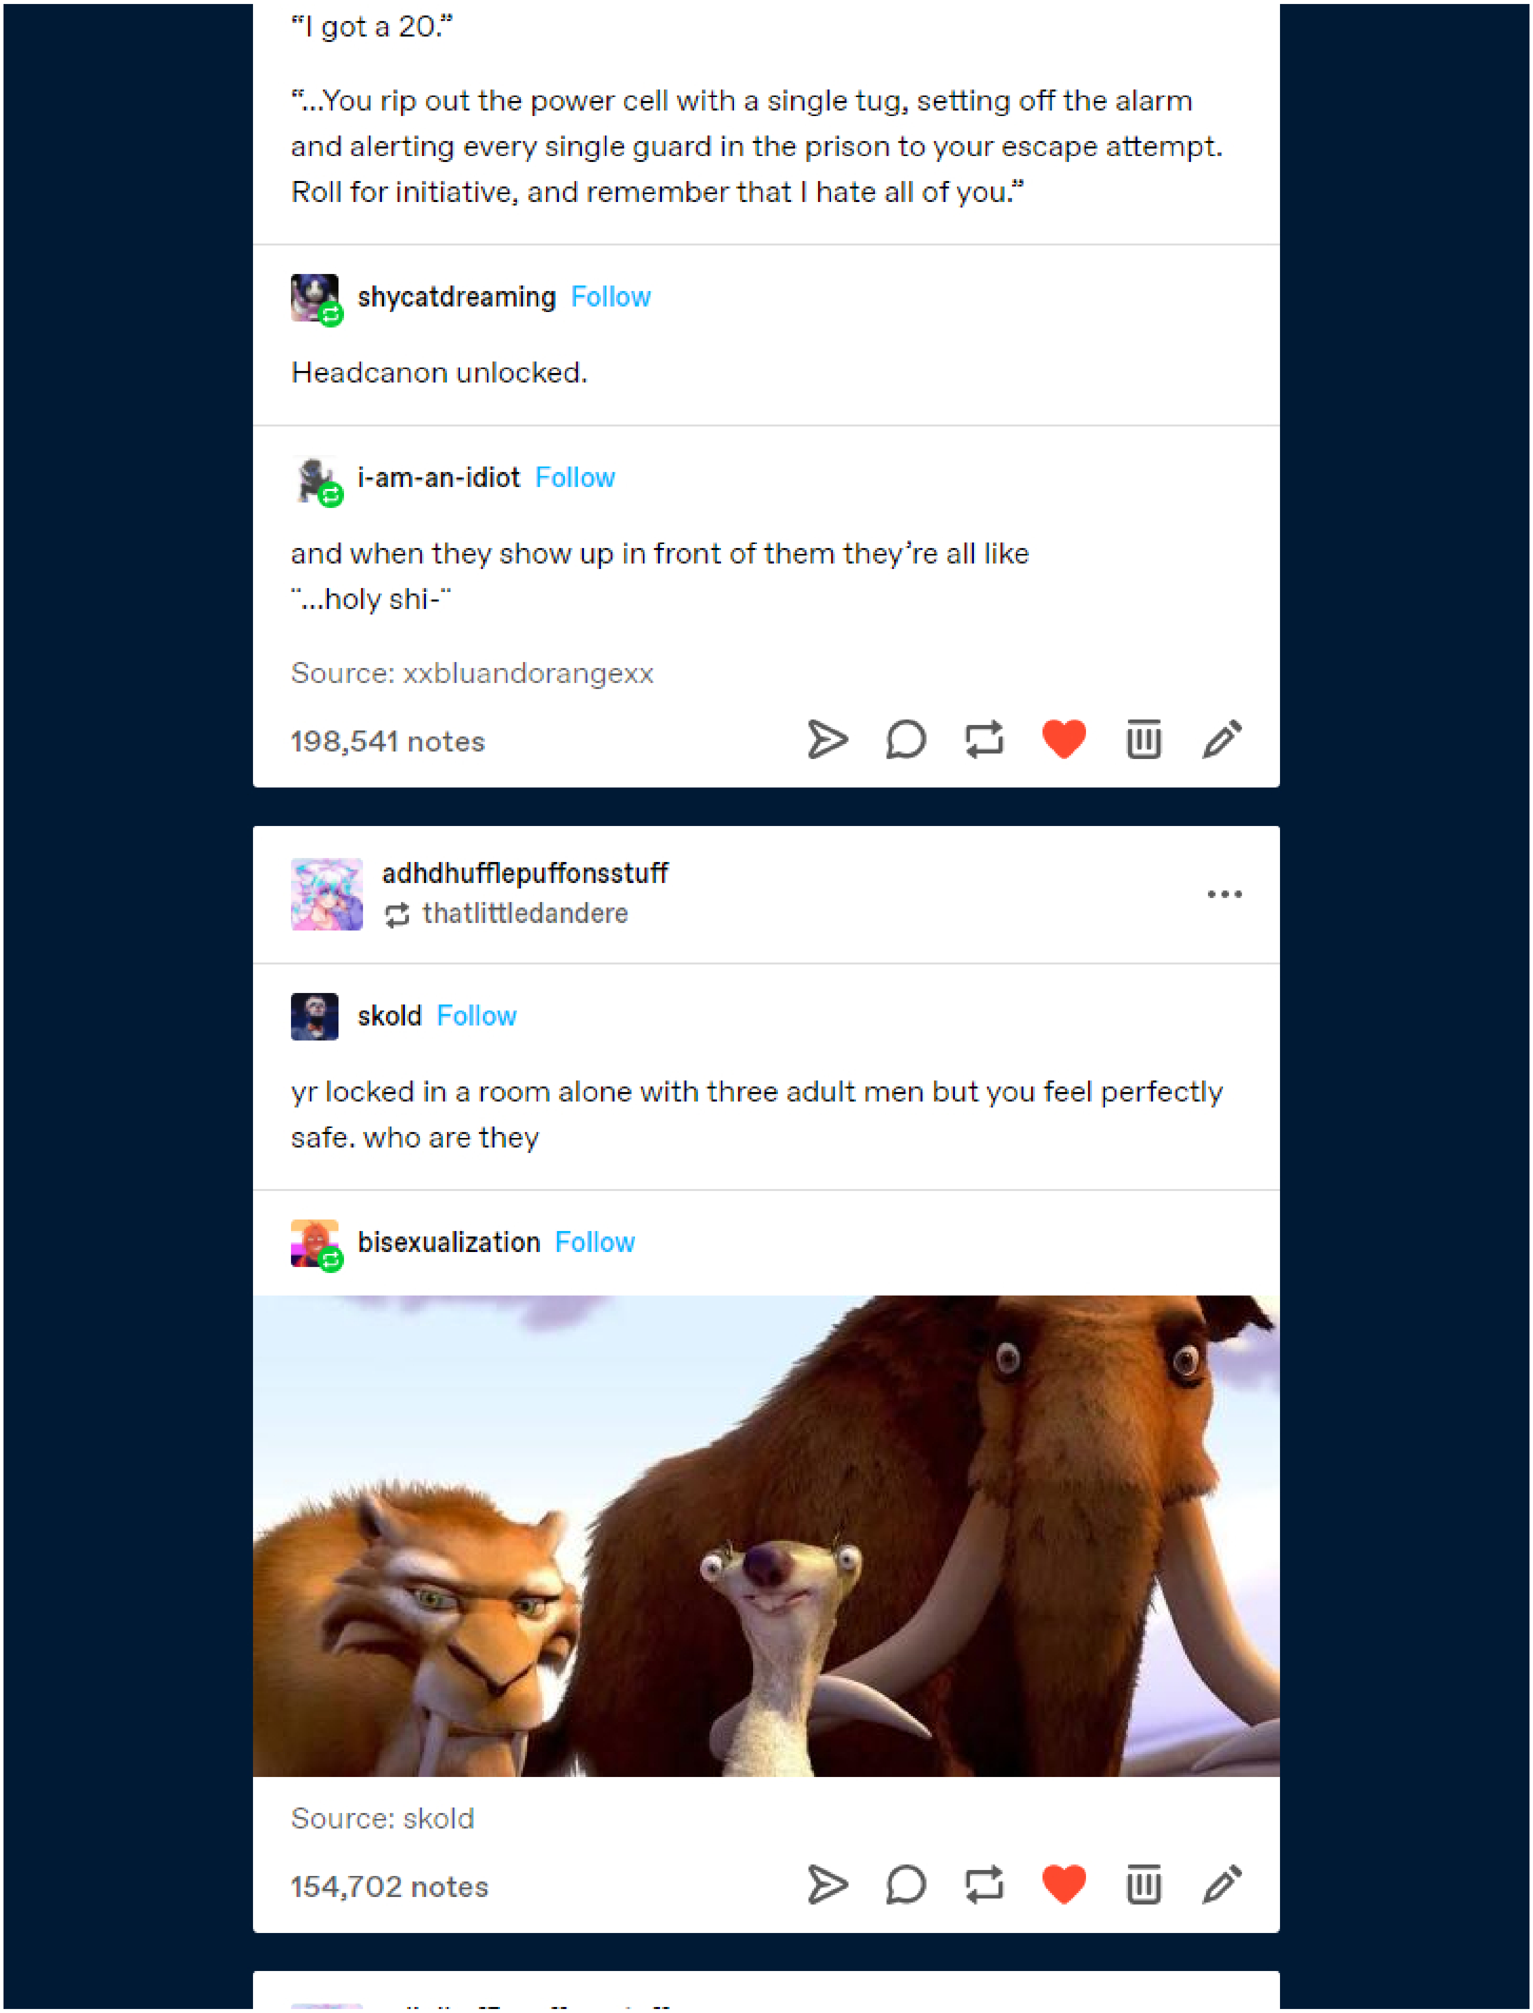
“…Bruce, that’s…not a good idea. Like I said, ripping that out will set off the alarm.”

“Right, exactly, sounds like fun. I go to rip it out.”

“But…but I spent all week coming up with persuasion and stealth scenarios for–-”

“This is what, a strength check?”

“…Yes Bruce, it’s a strength check.”



"I got a 20."

"...You rip out the power cell with a single tug, setting off the alarm and alerting every single guard in the prison to your escape attempt. Roll for initiative, and remember that I hate all of you."

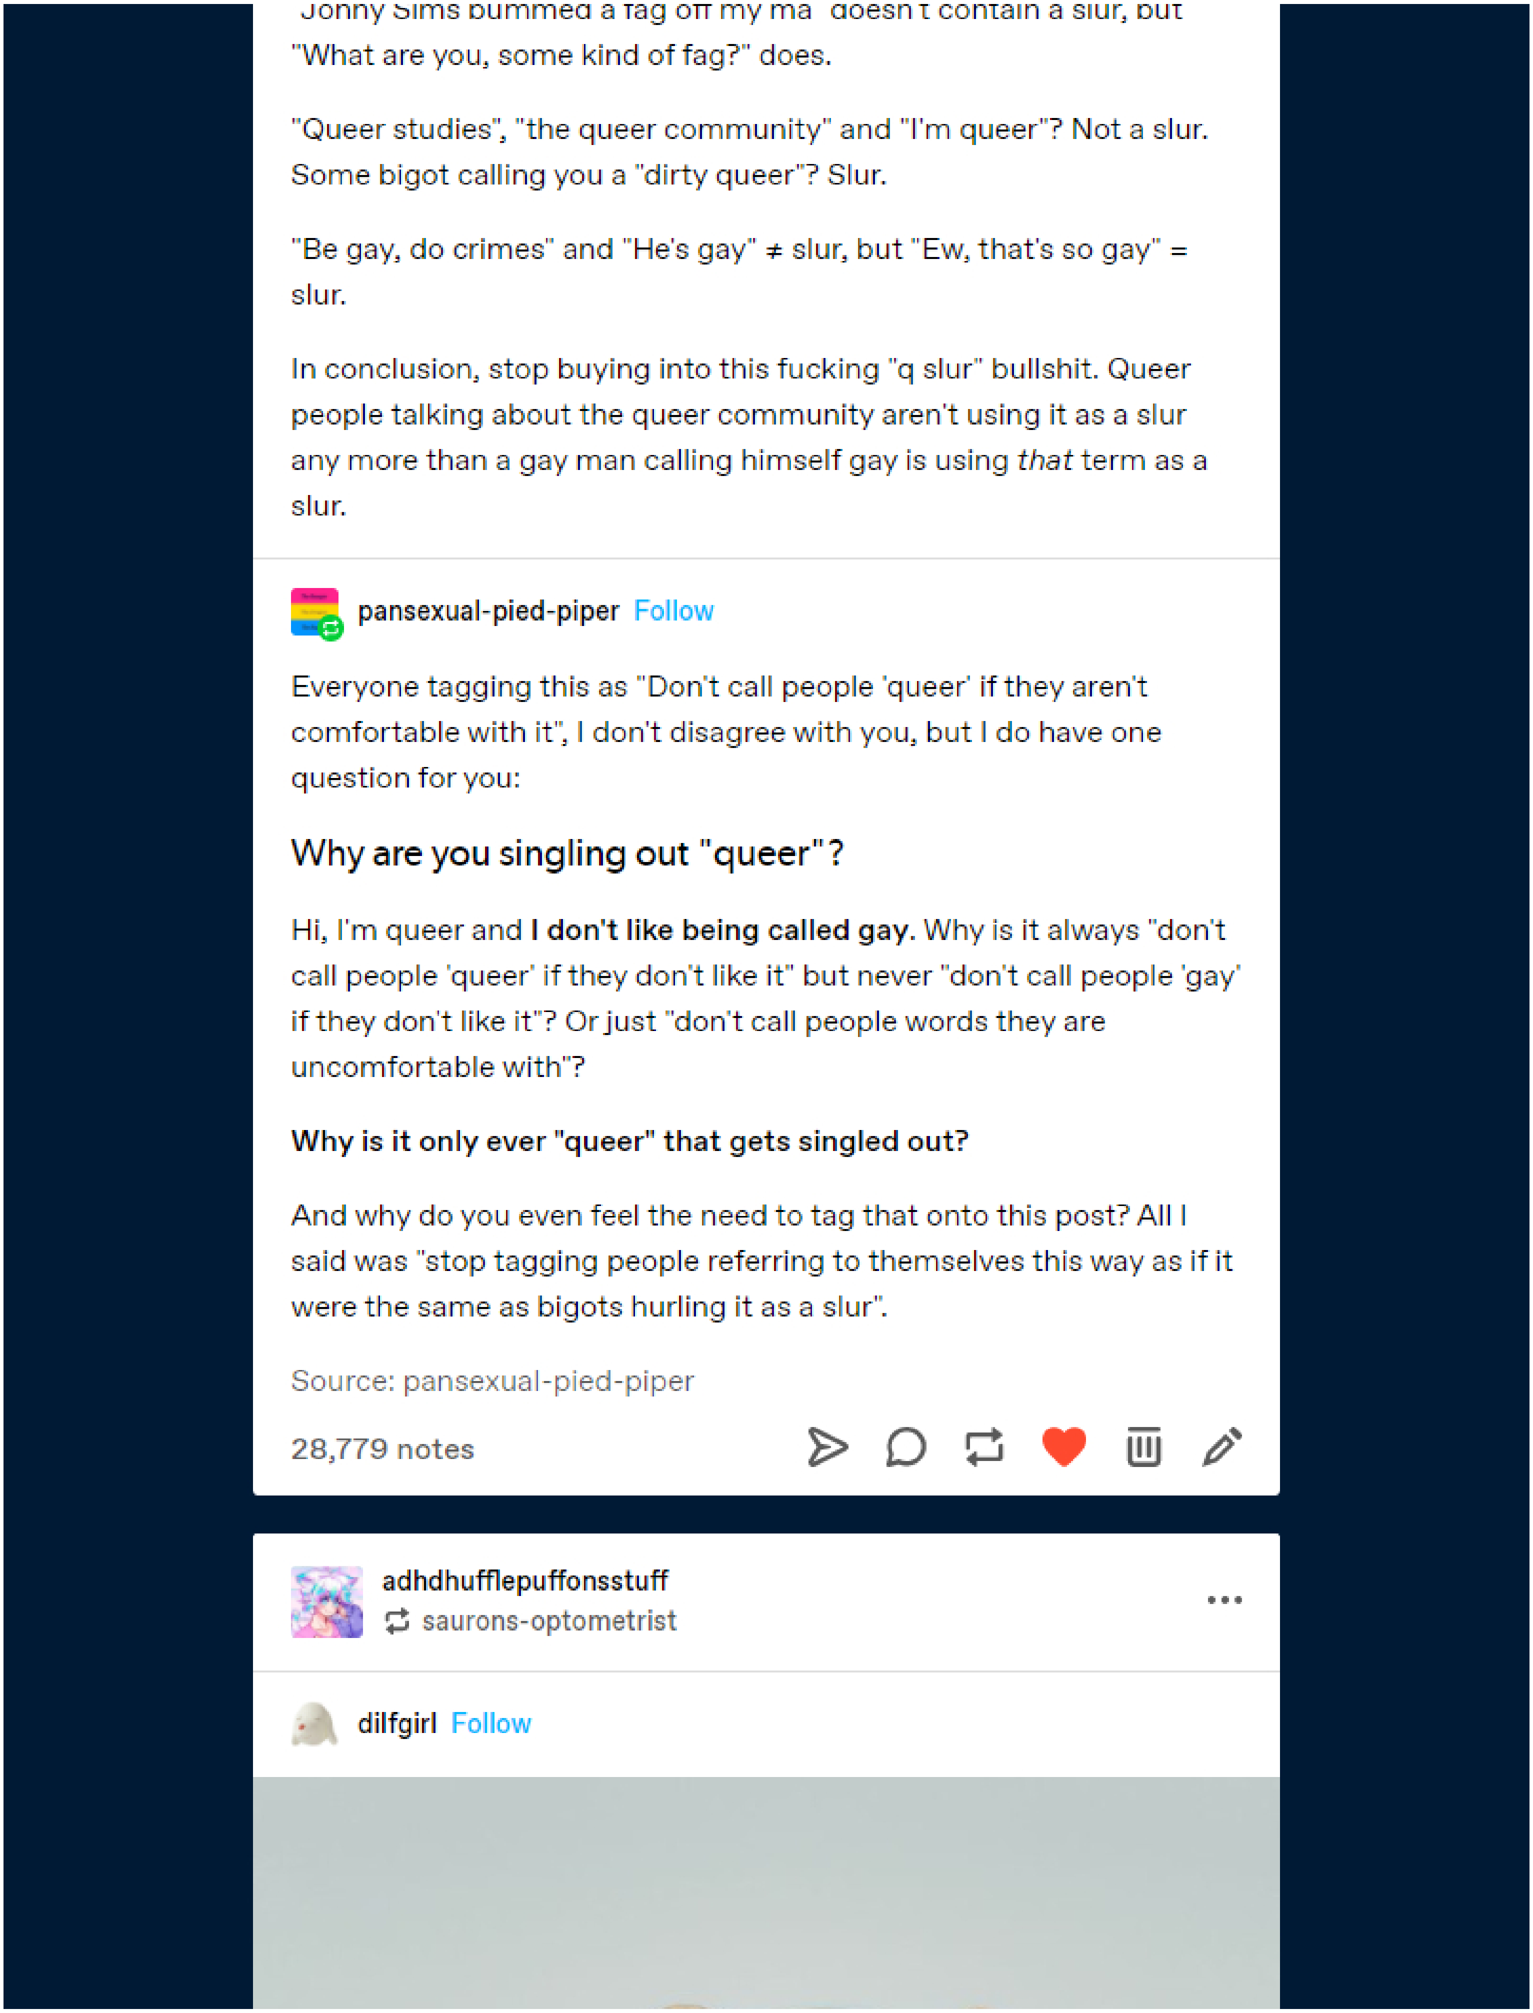
pansexual-pied-piper Follow

What is or isn't a slur can be highly contextual, y'all.



"Jonny Sims bummed a fag off my ma" doesn't contain a slur, but "What are you, some kind of fag?" does.

"Queer studies", "the queer community" and "I'm queer"? Not a slur. Some bigot calling you a "dirty queer"? Slur.

"Be gay, do crimes" and "He's gay" ≠ slur, but "Ew, that's so gay" = slur.

In conclusion, stop buying into this fucking "q slur" bullshit. Queer people talking about the queer community aren't using it as a slur any more than a gay man calling himself gay is using *that* term as a slur.

pansexual-pied-piper

Everyone tagging this as "Don't call people 'queer' if they aren't comfortable with it", I don't disagree with you, but I do have one question for you:

Why are you singling out "queer"?

Hi, I'm queer and **I don't like being called gay.** Why is it always "don't call people 'queer' if they don't like it" but never "don't call people 'gay' if they don't like it"? Or just "don't call people words they are uncomfortable with"?

Why is it only ever "queer" that gets singled out?

And why do you even feel the need to tag that onto this post? All I said was "stop tagging people referring to themselves this way as if it were the same as bigots hurling it as a slur".

i re-watched it several times, looking for what he does differently. finally i spotted it. look at the line of motion in his strike. it's not especially fast, he doesn't wind up more than the others, and it's not a matter of strength – the guy who knocked over the stand probably put more muscle into it. but there's a unity of movement he has that the others lack. his body and sword are all one curve. everything moves at once along the same line.

from a physics perspective, that means all the force he's applying is concentrated at the point of contact between his sword's edge and the target, and it moves at just the speed that breakage propogates through the material. too slow and it wouldn't have enough force; too fast and he'd get ahead of the break, shoving the target over instead of cutting it.

from a writing perspective, that means that i should focus on describing a master swordsman's smoothness more than their strength or speed, and can also have witnesses be confused at the effectiveness of strikes that don't actually seem all that fast.

I made a fake disability ID card does that make me a bad person

killorbekillian Follow

"We were in Europe a couple years ago and we went to this museum and I went up to the ticket taker and I was like, 'Hey, I read on your website that you let people with disabilities come to the museum for free?' And she was like, 'Yes, but I'm gonna need to see some ID proving that you have a disability.' And I was like, 'What do… I mean, I have one leg.' And she's like, 'Yeah yeah, but do you have disability ID proving..?' I was like, 'I don't - I mean, do you think this is an optical illusion? Or like an elaborate costume I've created to get into your museum for free?' She's like, 'Alright, I'll let it slide just this once, but next time, make sure you have the ID.'

"Now it turns out that in Europe they do have these disability ID cards. We don't have anything quite like it in the United States, but we went back to Europe the next year and we wanted to go to that museum again, so before we did, I printed off this, like, fake disability card. [Laughing] It's just an American flag and a disability symbol. We went back to that museum, I showed them the card, they're like, 'Oh great. Yeah, go on in, for free, to our museum.'"

analogueswords Follow

Bless the hearts of every single european in the notes going, "but if americans don't have disabled IDs, how do people with invisible disabilities get free museum passes / free trains / other nice service?"

Disabled people in america get slightly better parking and that's it. And you get that with a doctor's approval.

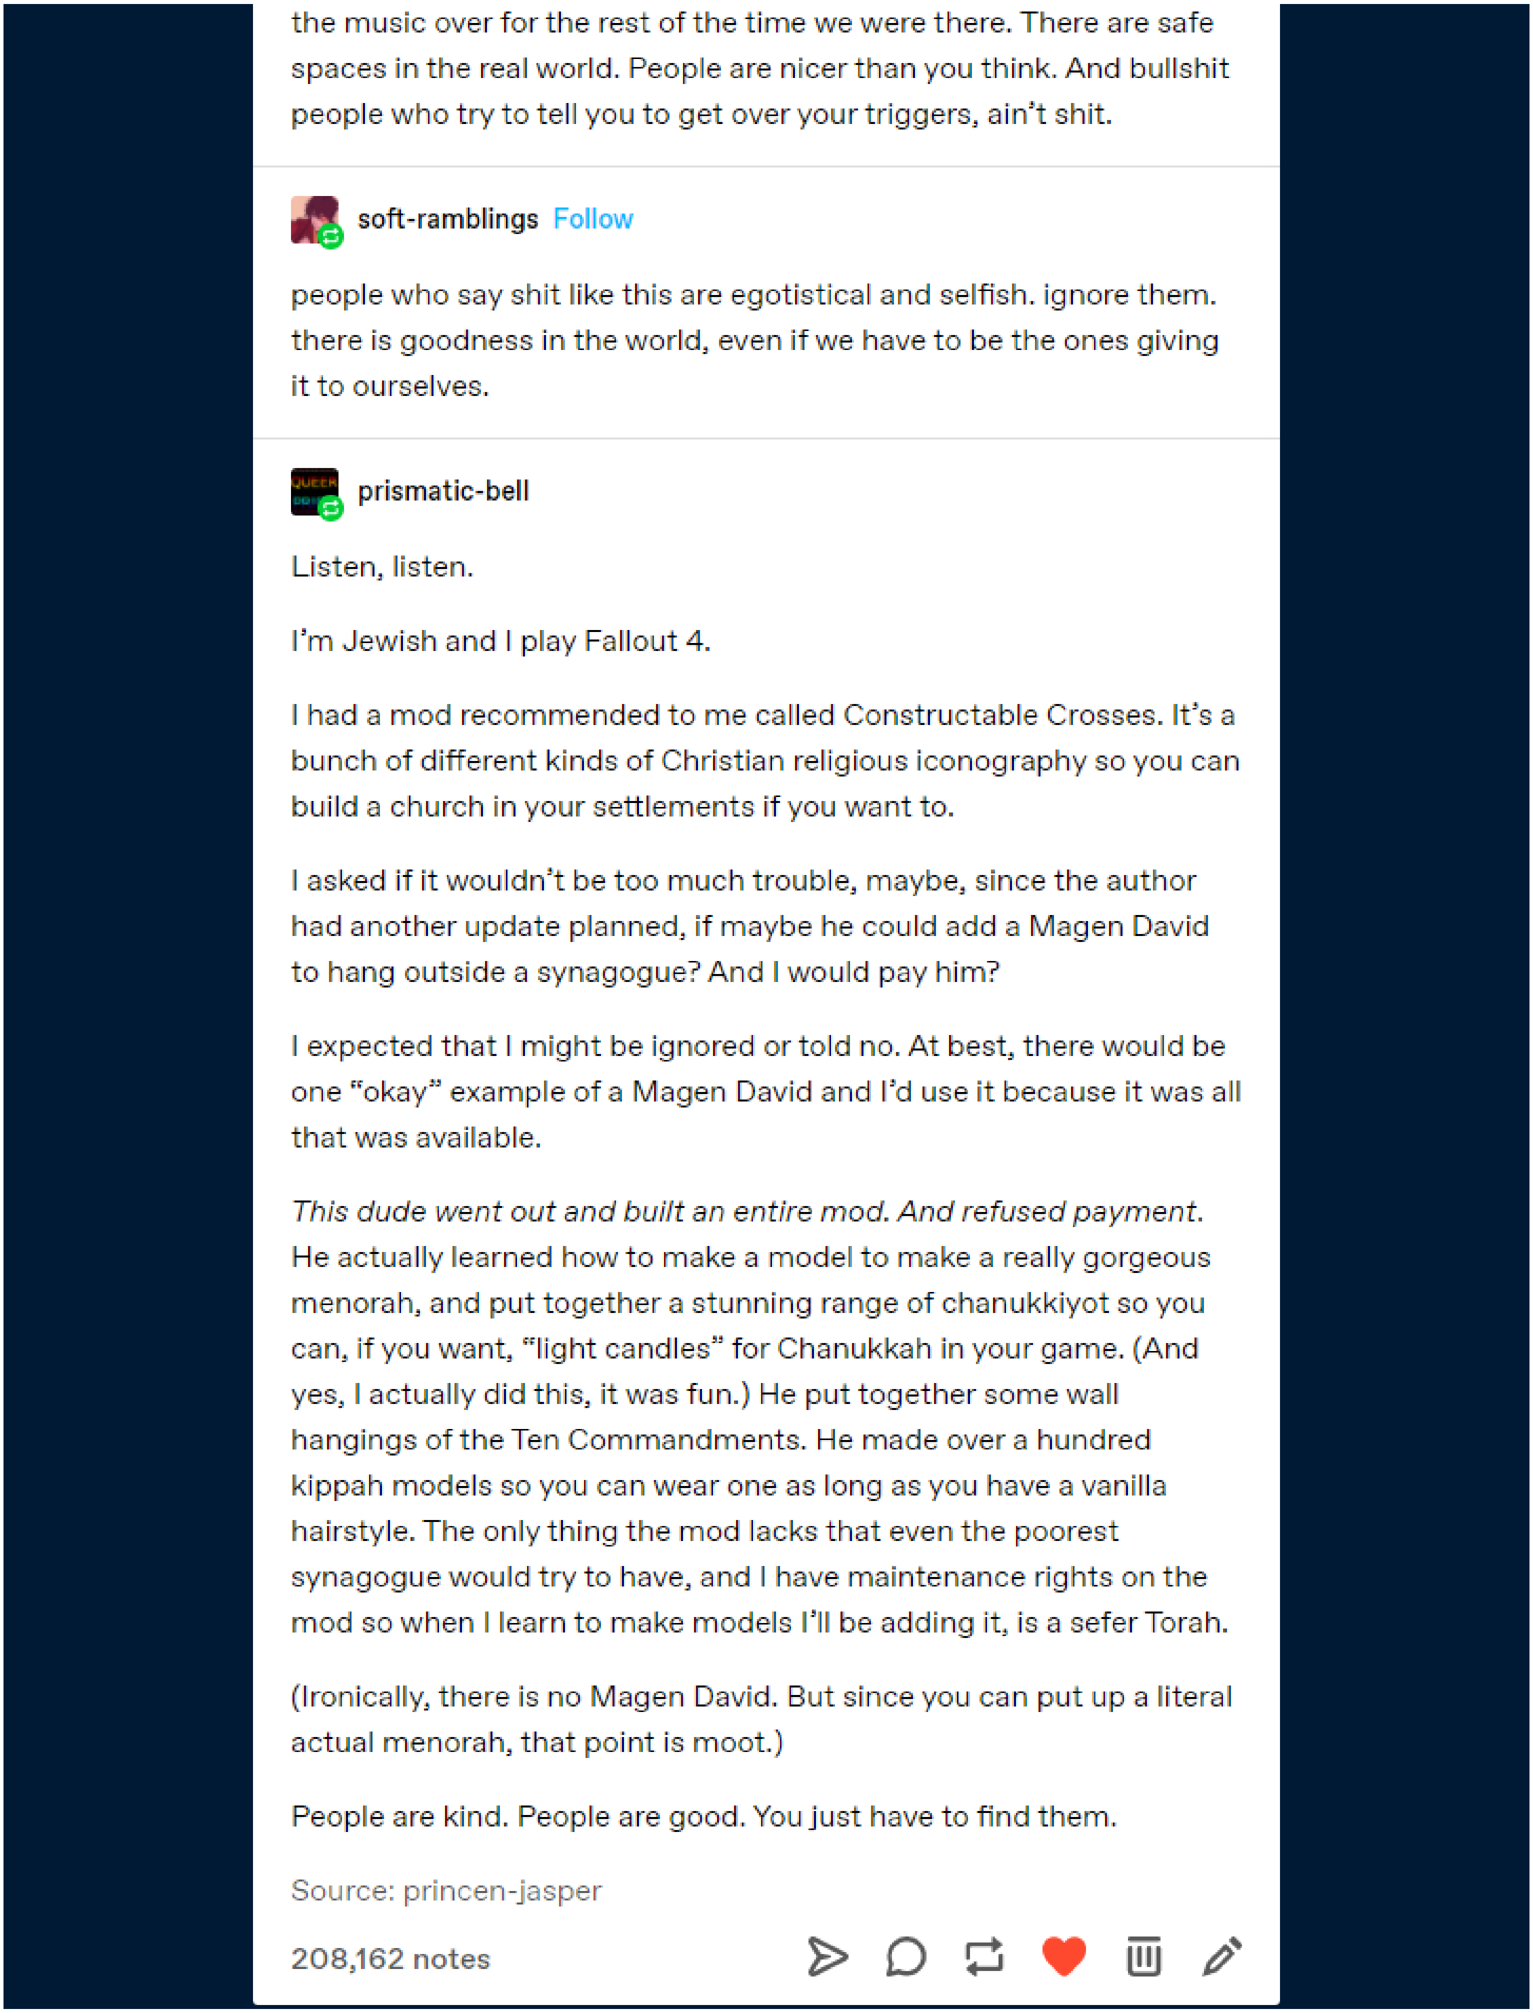
"There are no trigger warnings in real life"

"The real world is cruel, get over it."

My boyfriend is triggered by Christmas and Christmas music. We were in a restaurant, and Christmas music was playing, and he started panicking so he went outside for a cigarette. The manager of the restaurant overheard him saying he had to get out, and changed



the music over for the rest of the time we were there. There are safe spaces in the real world. People are nicer than you think. And bullshit people who try to tell you to get over your triggers, ain't shit.

soft-ramblings

people who say shit like this are egotistical and selfish. ignore them. there is goodness in the world, even if we have to be the ones giving it to ourselves.

prismatic-bell

Listen, listen.

I'm Jewish and I play Fallout 4.

I had a mod recommended to me called Constructable Crosses. It's a bunch of different kinds of Christian religious iconography so you can build a church in your settlements if you want to.

I asked if it wouldn't be too much trouble, maybe, since the author had another update planned, if maybe he could add a Magen David to hang outside a synagogue? And I would pay him?

I expected that I might be ignored or told no. At best, there would be one "okay" example of a Magen David and I'd use it because it was all that was available.

This dude went out and built an entire mod. And refused payment. He actually learned how to make a model to make a really gorgeous menorah, and put together a stunning range of chanukkiyot so you can, if you want, "light candles" for Chanukkah in your game. (And yes, I actually did this, it was fun.) He put together some wall hangings of the Ten Commandments. He made over a hundred kippah models so you can wear one as long as you have a vanilla hairstyle. The only thing the mod lacks that even the poorest synagogue would try to have, and I have maintenance rights on the mod so when I learn to make models I'll be adding it, is a sefer Torah.

(Ironically, there is no Magen David. But since you can put up a literal actual menorah, that point is moot.)

People are kind. People are good. You just have to find them.

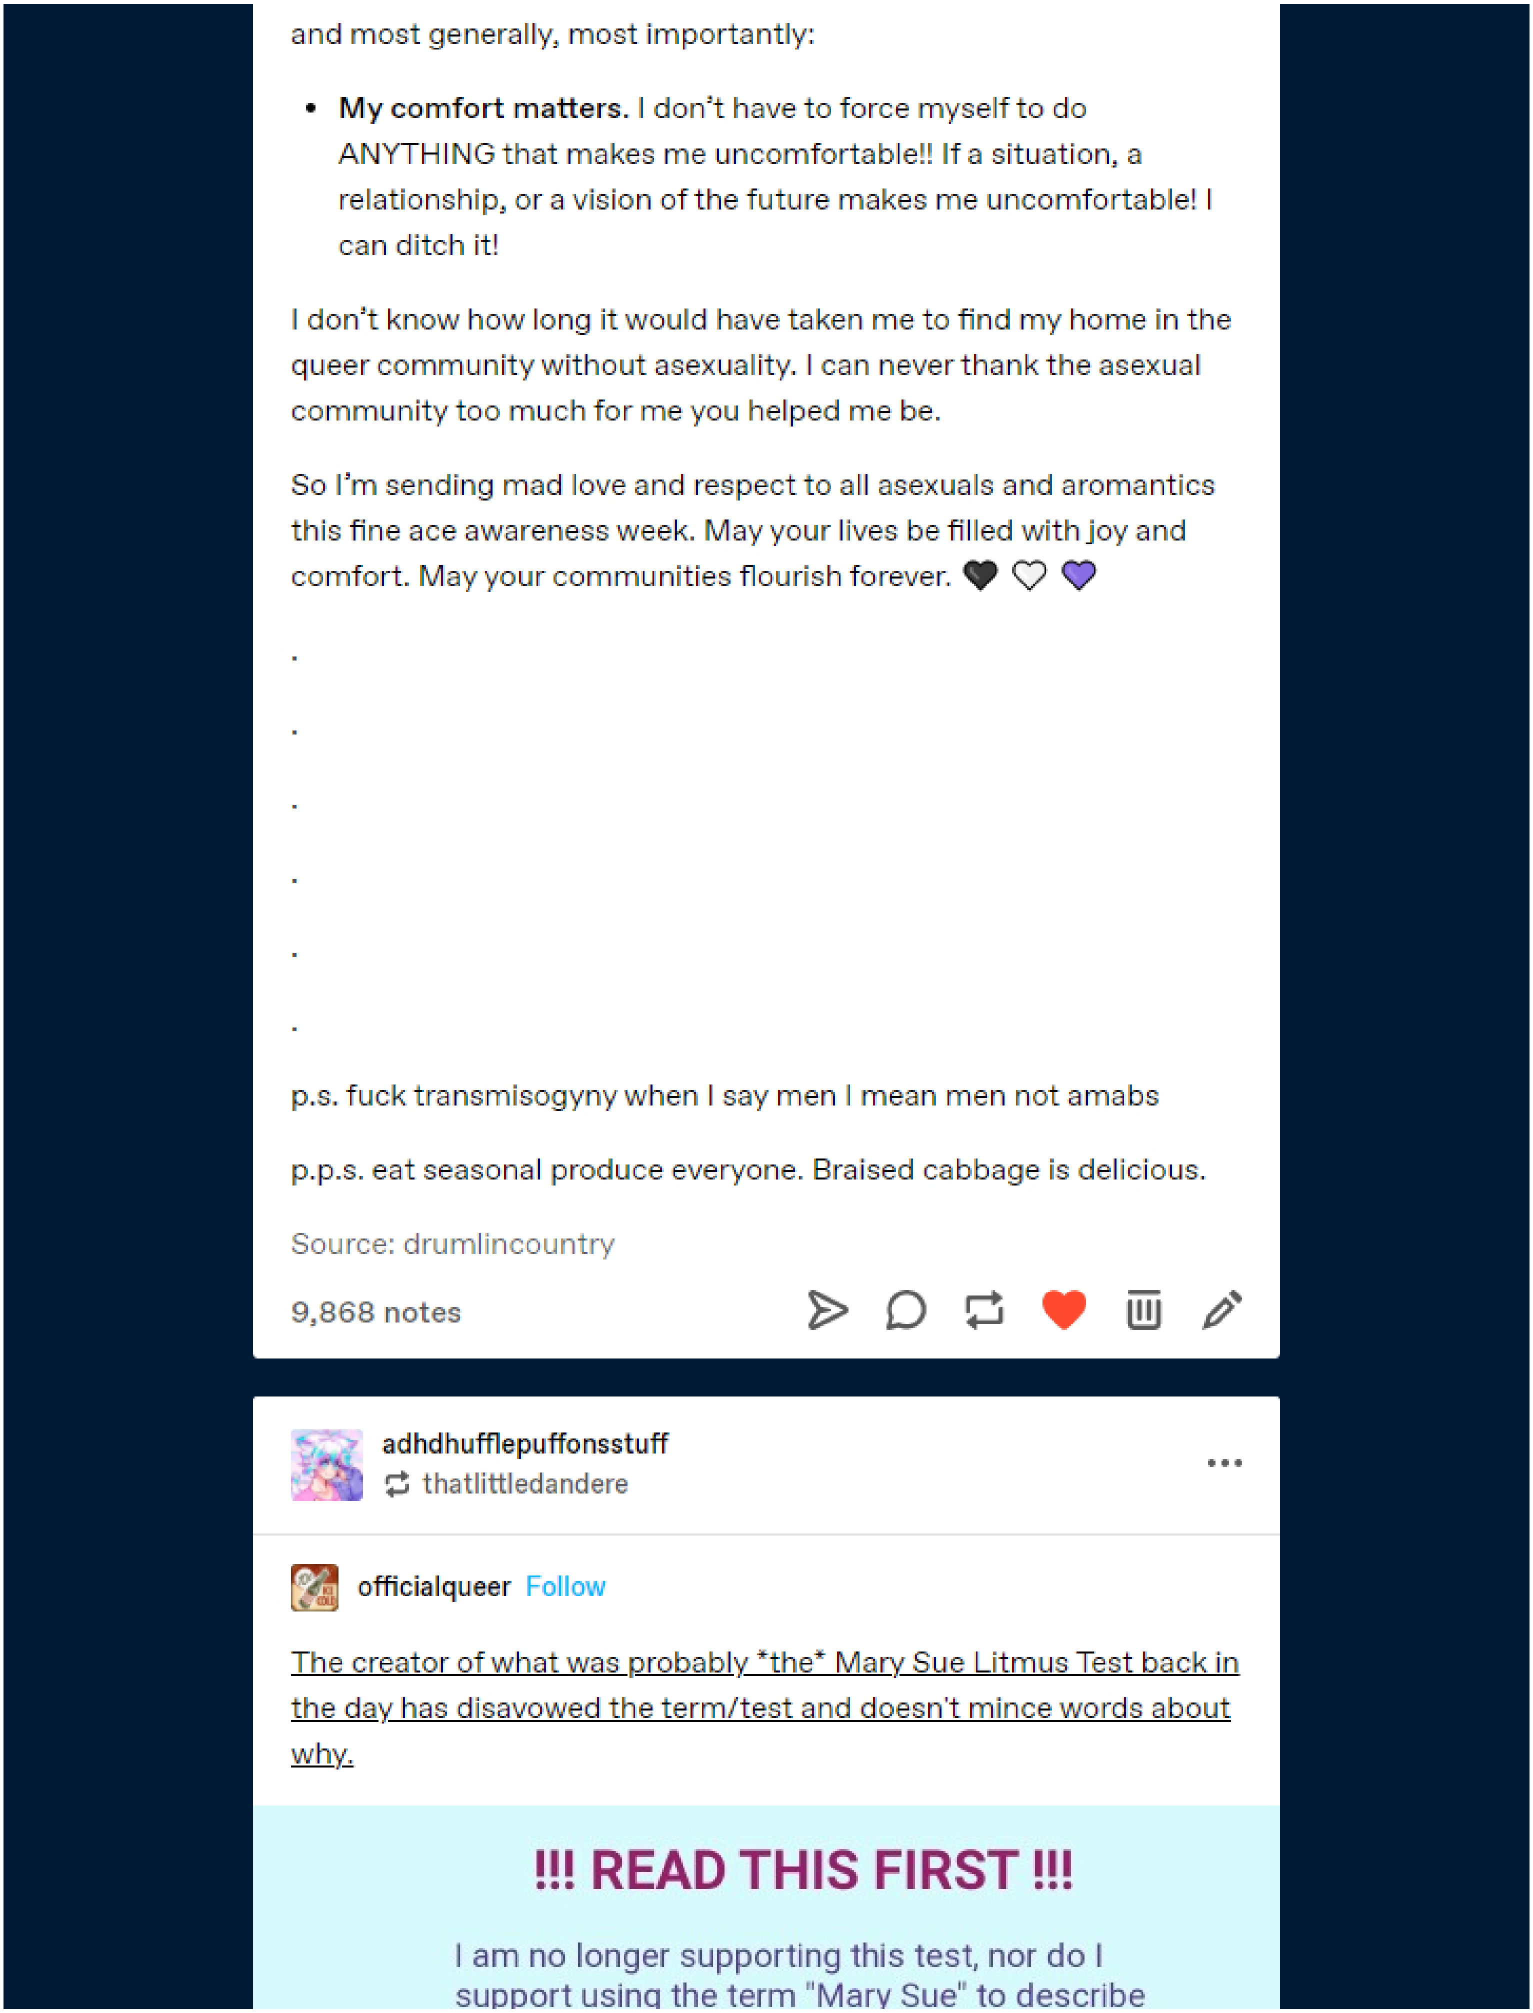
As a baby teen who didn't know she was gay, it was the asexual community that taught me;

- Intimacy doesn't have to mean sex.
- I don't have to have sex if I don't want to. I don't have to have sex full stop!
- I can love boys and not want to have sex with them.
- I should trust my gut on what I do and don't want to do.
- I can picture a future that isn't marrying a man. I can picture a future that doesn't involve marrying anyone. I can picture whatever future I want and then I can go get it.
- I don't need an iron clad justification to say no to things. I can just, not want to.



and most generally, most importantly:

- **My comfort matters.** I don’t have to force myself to do ANYTHING that makes me uncomfortable!! If a situation, a relationship, or a vision of the future makes me uncomfortable! I can ditch it!

I don’t know how long it would have taken me to find my home in the queer community without asexuality. I can never thank the asexual community too much for me you helped me be.

So I’m sending mad love and respect to all asexuals and aromantics this fine ace awareness week. May your lives be filled with joy and comfort. May your communities flourish forever. 🖤 🤍 💜

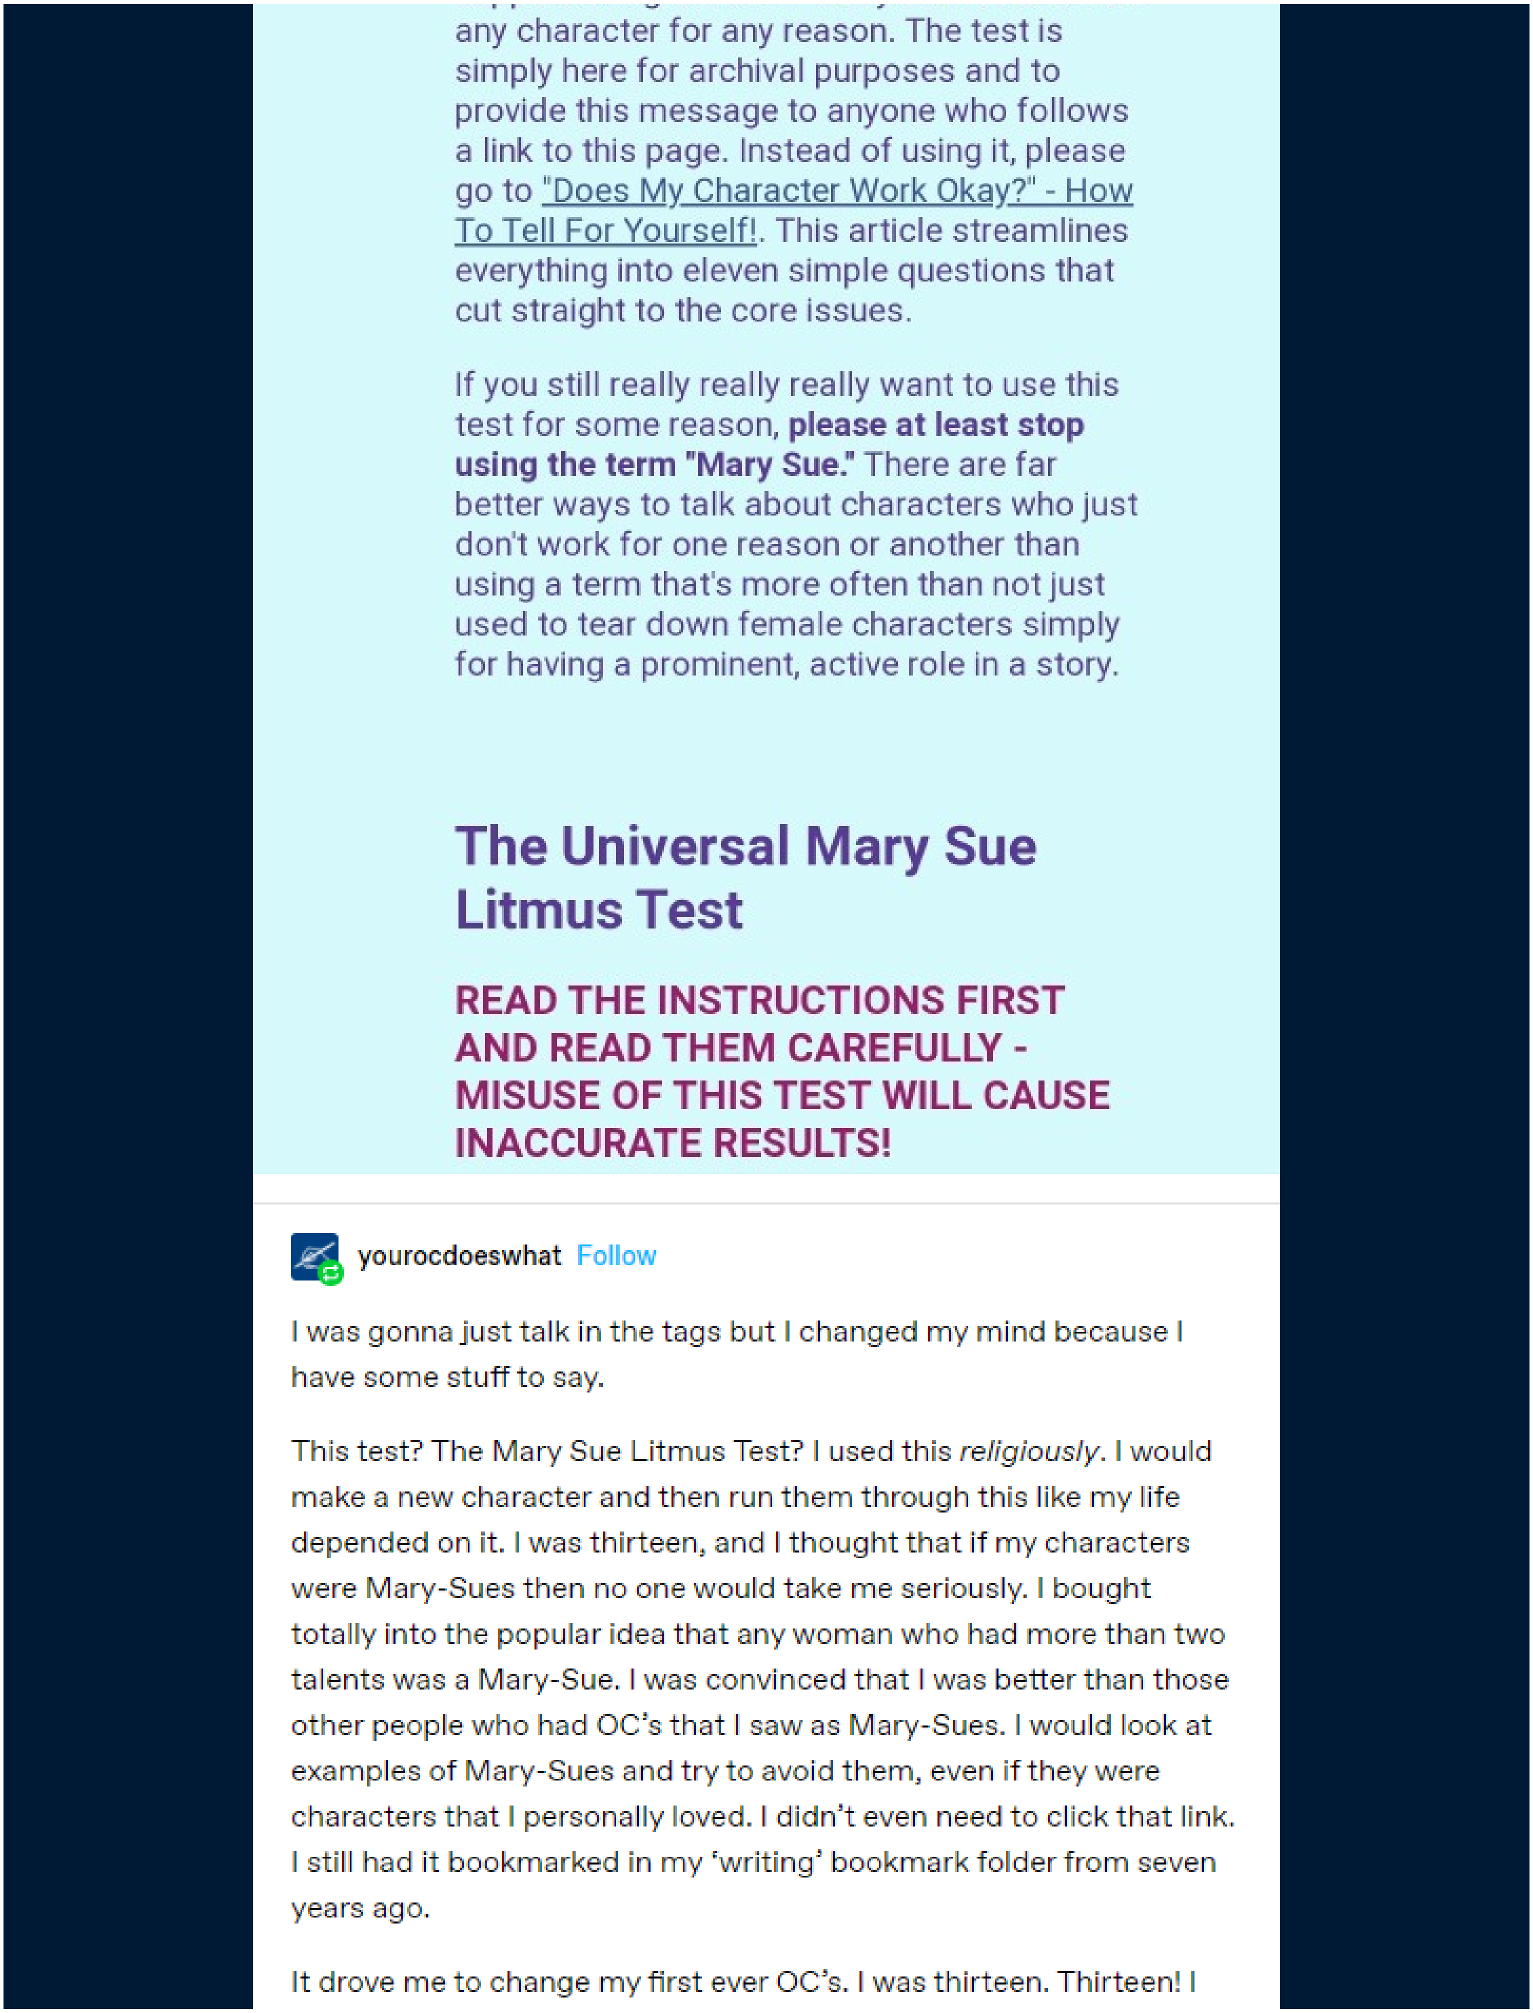
!!! READ THIS FIRST !!!

I am no longer supporting this test, nor do I support using the term "Mary Sue" to describe



any character for any reason. The test is simply here for archival purposes and to provide this message to anyone who follows a link to this page. Instead of using it, please go to "Does My Character Work Okay?" - How To Tell For Yourself!. This article streamlines everything into eleven simple questions that cut straight to the core issues.

If you still really really really want to use this test for some reason, **please at least stop using the term "Mary Sue."** There are far better ways to talk about characters who just don't work for one reason or another than using a term that's more often than not just used to tear down female characters simply for having a prominent, active role in a story.

The Universal Mary Sue Litmus Test

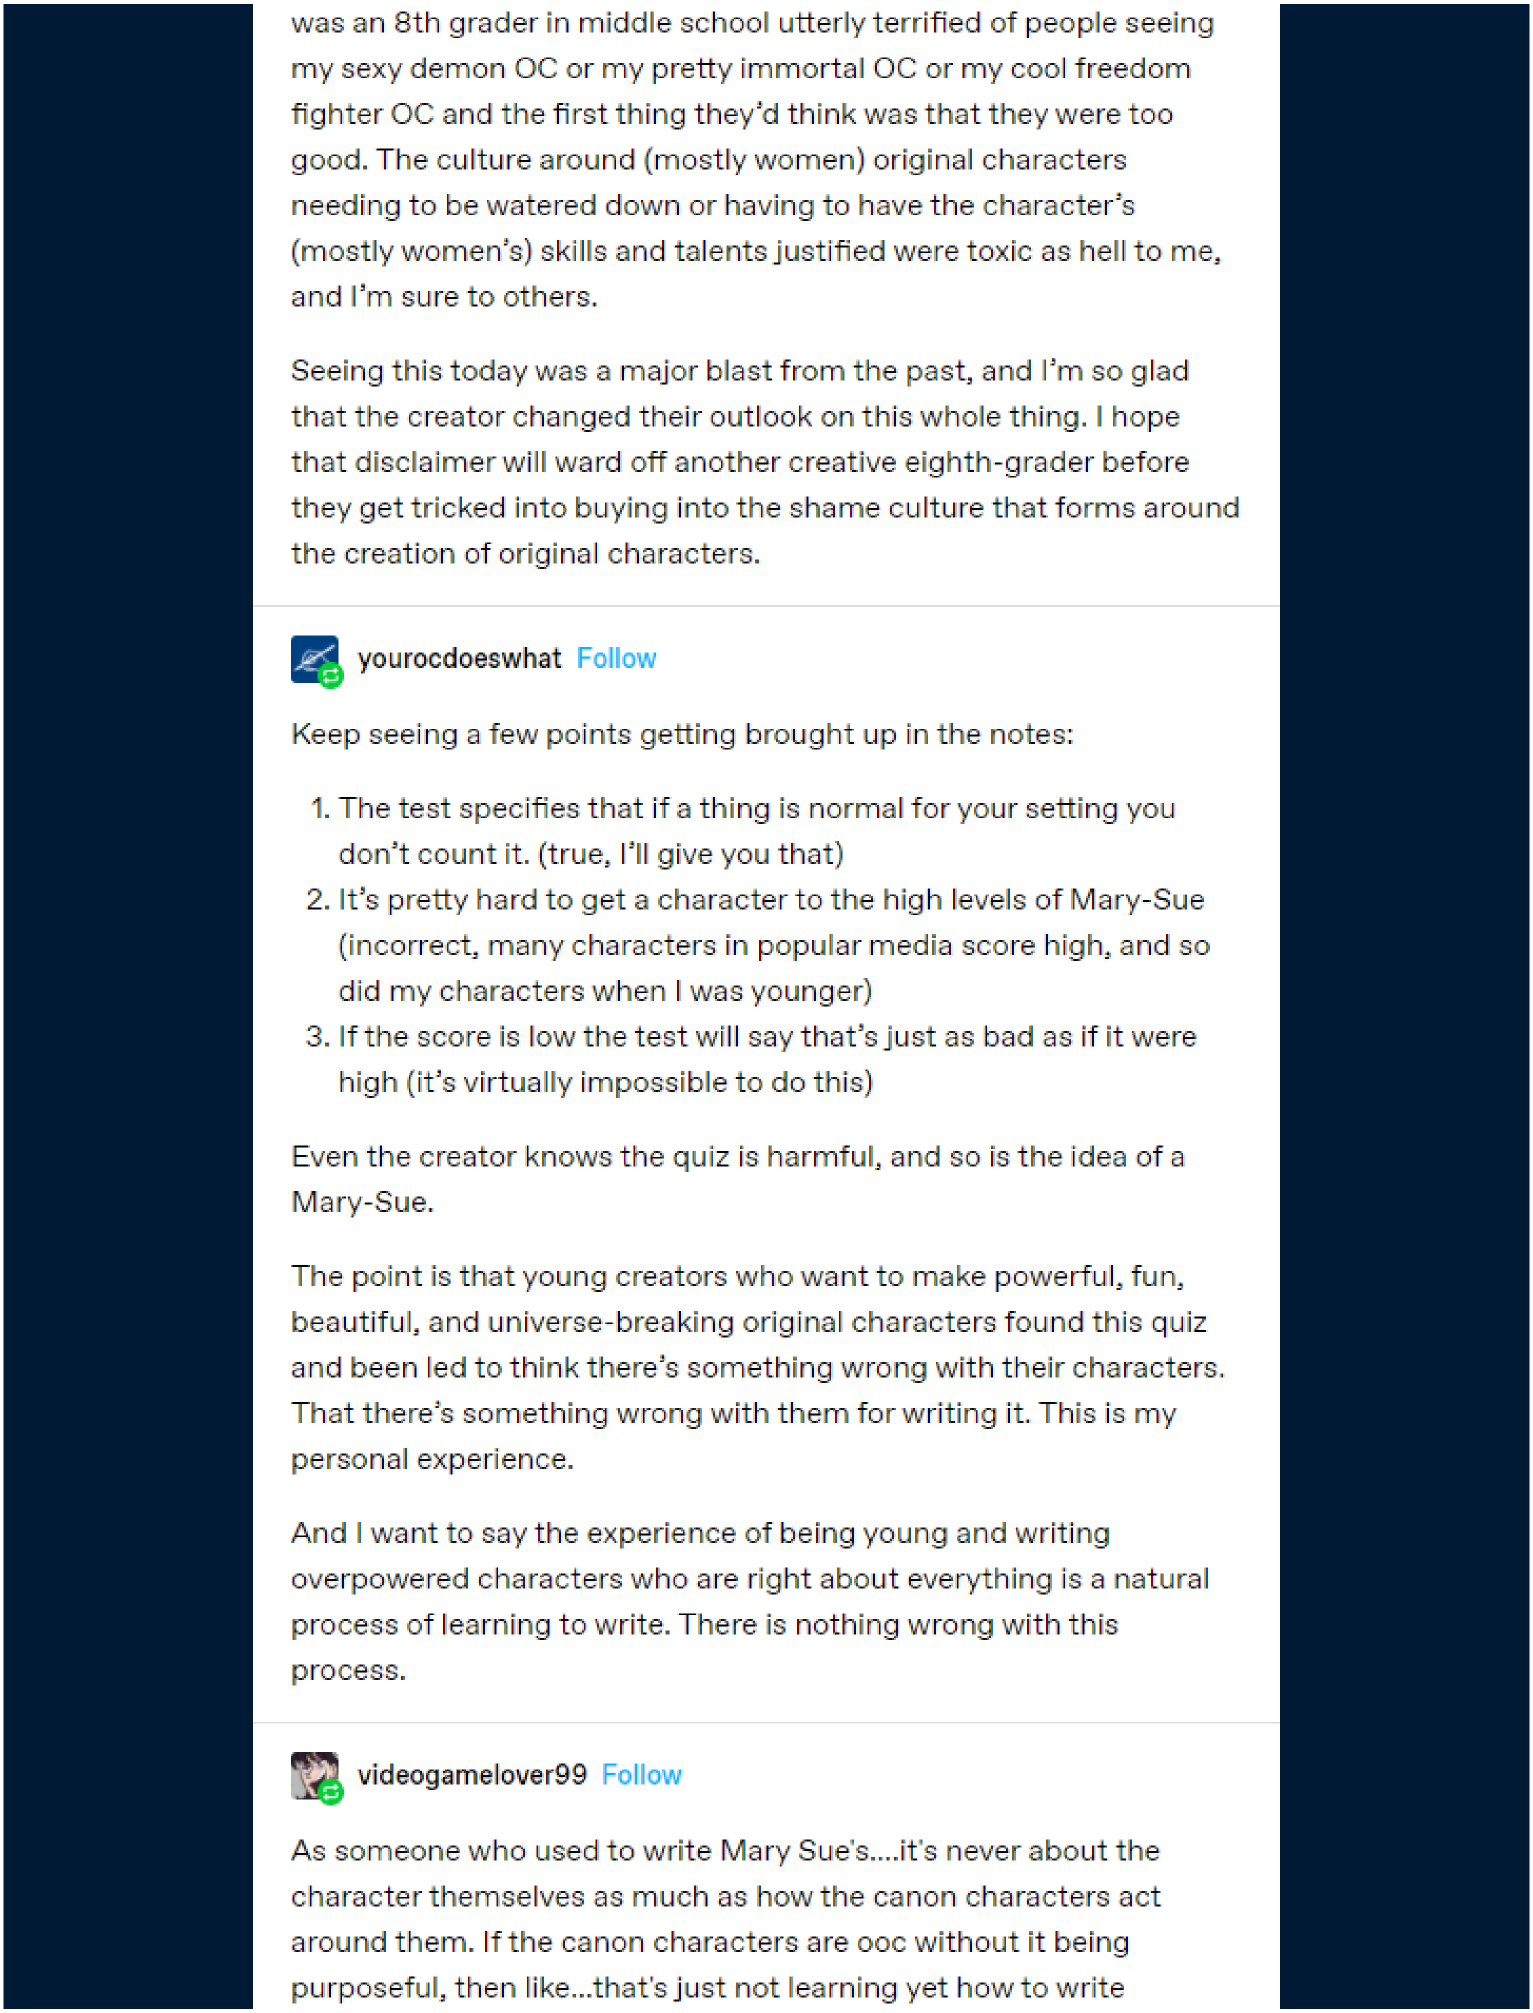
READ THE INSTRUCTIONS FIRST AND READ THEM CAREFULLY - MISUSE OF THIS TEST WILL CAUSE INACCURATE RESULTS!

yourocdoeswhat Follow

I was gonna just talk in the tags but I changed my mind because I have some stuff to say.

This test? The Mary Sue Litmus Test? I used this *religiously*. I would make a new character and then run them through this like my life depended on it. I was thirteen, and I thought that if my characters were Mary-Sues then no one would take me seriously. I bought totally into the popular idea that any woman who had more than two talents was a Mary-Sue. I was convinced that I was better than those other people who had OC's that I saw as Mary-Sues. I would look at examples of Mary-Sues and try to avoid them, even if they were characters that I personally loved. I didn't even need to click that link. I still had it bookmarked in my 'writing' bookmark folder from seven years ago.

It drove me to change my first ever OC's. I was thirteen. Thirteen! I



was an 8th grader in middle school utterly terrified of people seeing my sexy demon OC or my pretty immortal OC or my cool freedom fighter OC and the first thing they'd think was that they were too good. The culture around (mostly women) original characters needing to be watered down or having to have the character's (mostly women's) skills and talents justified were toxic as hell to me, and I'm sure to others.

Seeing this today was a major blast from the past, and I'm so glad that the creator changed their outlook on this whole thing. I hope that disclaimer will ward off another creative eighth-grader before they get tricked into buying into the shame culture that forms around the creation of original characters.

---

yourocdoeswhat Follow

Keep seeing a few points getting brought up in the notes:

1. The test specifies that if a thing is normal for your setting you don't count it. (true, I'll give you that)
2. It's pretty hard to get a character to the high levels of Mary-Sue (incorrect, many characters in popular media score high, and so did my characters when I was younger)
3. If the score is low the test will say that's just as bad as if it were high (it's virtually impossible to do this)

Even the creator knows the quiz is harmful, and so is the idea of a Mary-Sue.

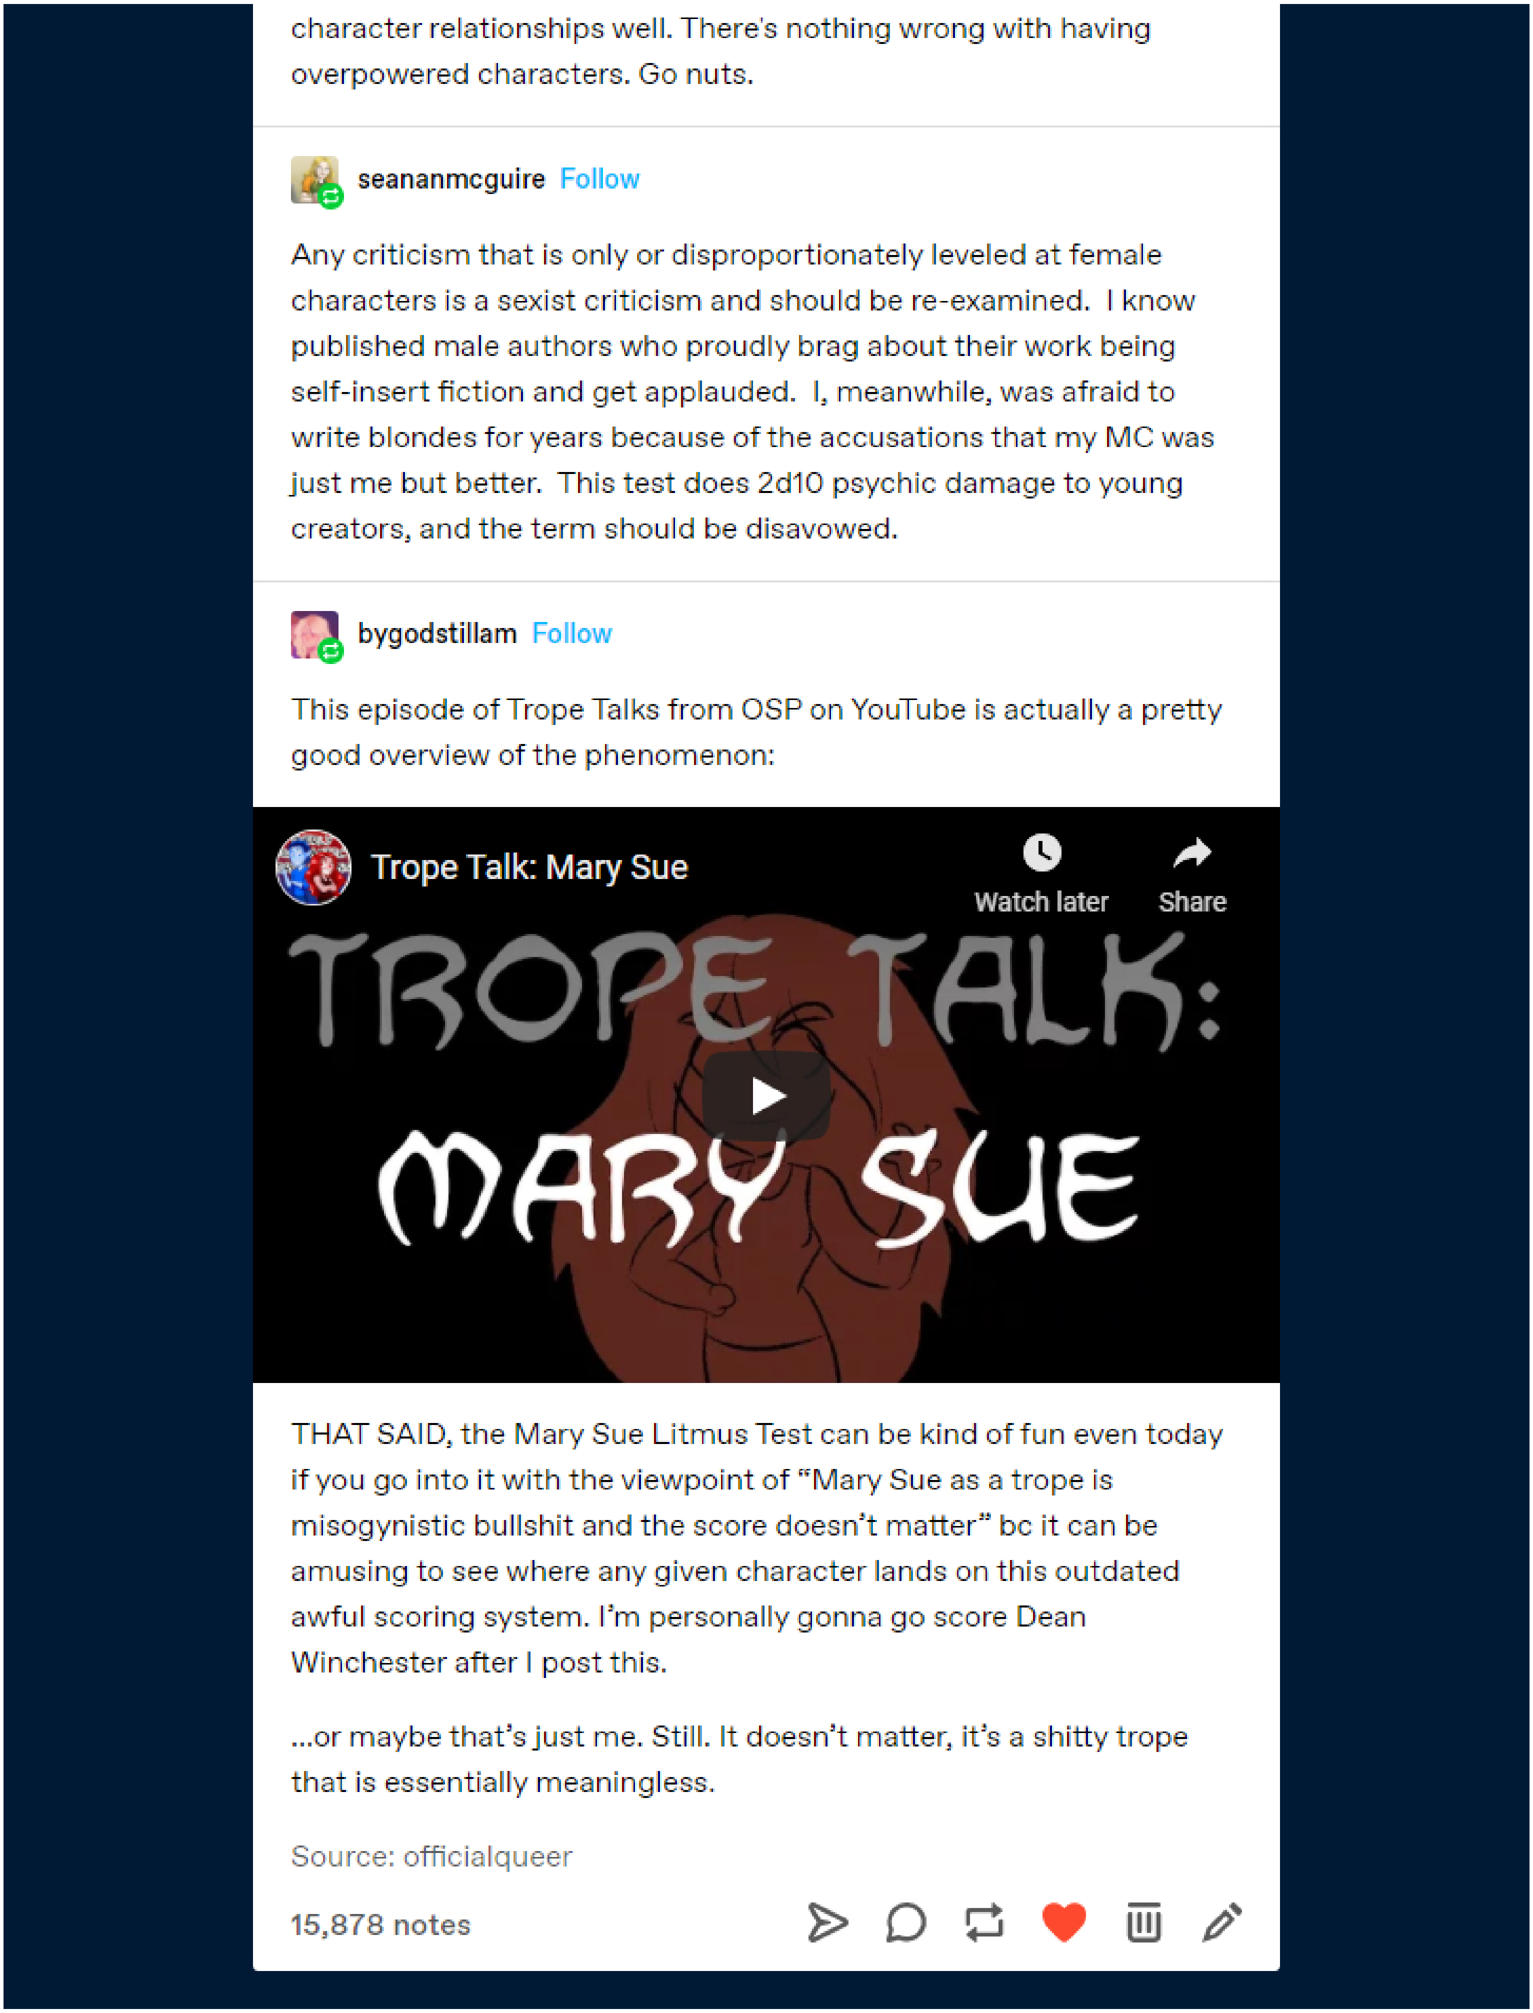
The point is that young creators who want to make powerful, fun, beautiful, and universe-breaking original characters found this quiz and been led to think there's something wrong with their characters. That there's something wrong with them for writing it. This is my personal experience.

And I want to say the experience of being young and writing overpowered characters who are right about everything is a natural process of learning to write. There is nothing wrong with this process.

---

videogamelover99 Follow

As someone who used to write Mary Sue's....it's never about the character themselves as much as how the canon characters act around them. If the canon characters are ooc without it being purposeful, then like...that's just not learning yet how to write



character relationships well. There's nothing wrong with having overpowered characters. Go nuts.

seananmcguire

Any criticism that is only or disproportionately leveled at female characters is a sexist criticism and should be re-examined. I know published male authors who proudly brag about their work being self-insert fiction and get applauded. I, meanwhile, was afraid to write blondes for years because of the accusations that my MC was just me but better. This test does 2d10 psychic damage to young creators, and the term should be disavowed.

bygodstillam

This episode of Trope Talks from OSP on YouTube is actually a pretty good overview of the phenomenon:

THAT SAID, the Mary Sue Litmus Test can be kind of fun even today if you go into it with the viewpoint of "Mary Sue as a trope is misogynistic bullshit and the score doesn't matter" bc it can be amusing to see where any given character lands on this outdated awful scoring system. I'm personally gonna go score Dean Winchester after I post this.

...or maybe that's just me. Still. It doesn't matter, it's a shitty trope that is essentially meaningless.

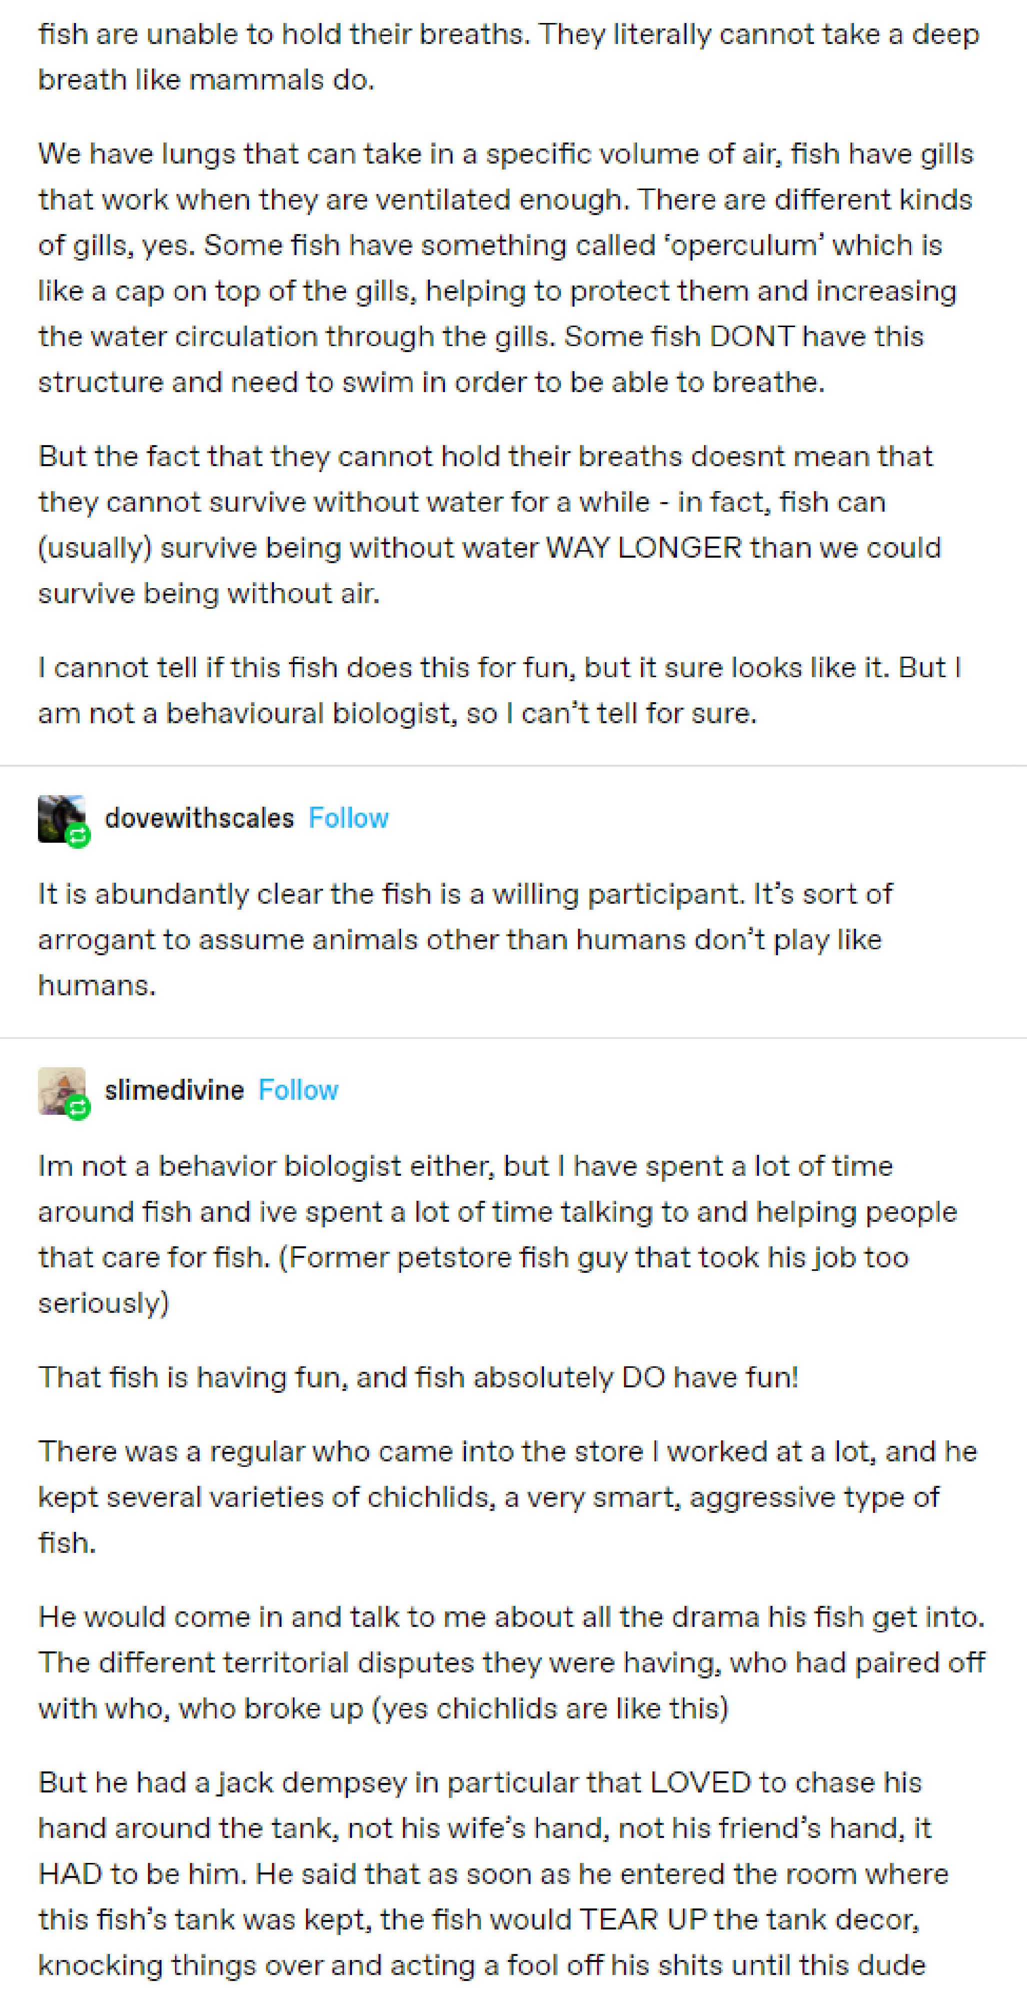
how what???

tandicoofficial Follow

I'm not good with the science of this or anything (someone who knows more feel free to add) but fish can play??? Fish can play like any other animal?? People saying it couldn't breathe, do human kids not hold their breaths to go under water for fun? It's just the opposite. Air is water, water is air. In the same vein as a kid being thrown up and into the pool and enjoying it, the fish is playing.

shiekah Follow

okay... as someone who studies marine biology I need to clarify something:



fish are unable to hold their breaths. They literally cannot take a deep breath like mammals do.

We have lungs that can take in a specific volume of air, fish have gills that work when they are ventilated enough. There are different kinds of gills, yes. Some fish have something called ‘operculum’ which is like a cap on top of the gills, helping to protect them and increasing the water circulation through the gills. Some fish DONT have this structure and need to swim in order to be able to breathe.

But the fact that they cannot hold their breaths doesnt mean that they cannot survive without water for a while - in fact, fish can (usually) survive being without water WAY LONGER than we could survive being without air.

I cannot tell if this fish does this for fun, but it sure looks like it. But I am not a behavioural biologist, so I can’t tell for sure.

---

dovewithscales Follow

It is abundantly clear the fish is a willing participant. It’s sort of arrogant to assume animals other than humans don’t play like humans.

---

slimedivine Follow

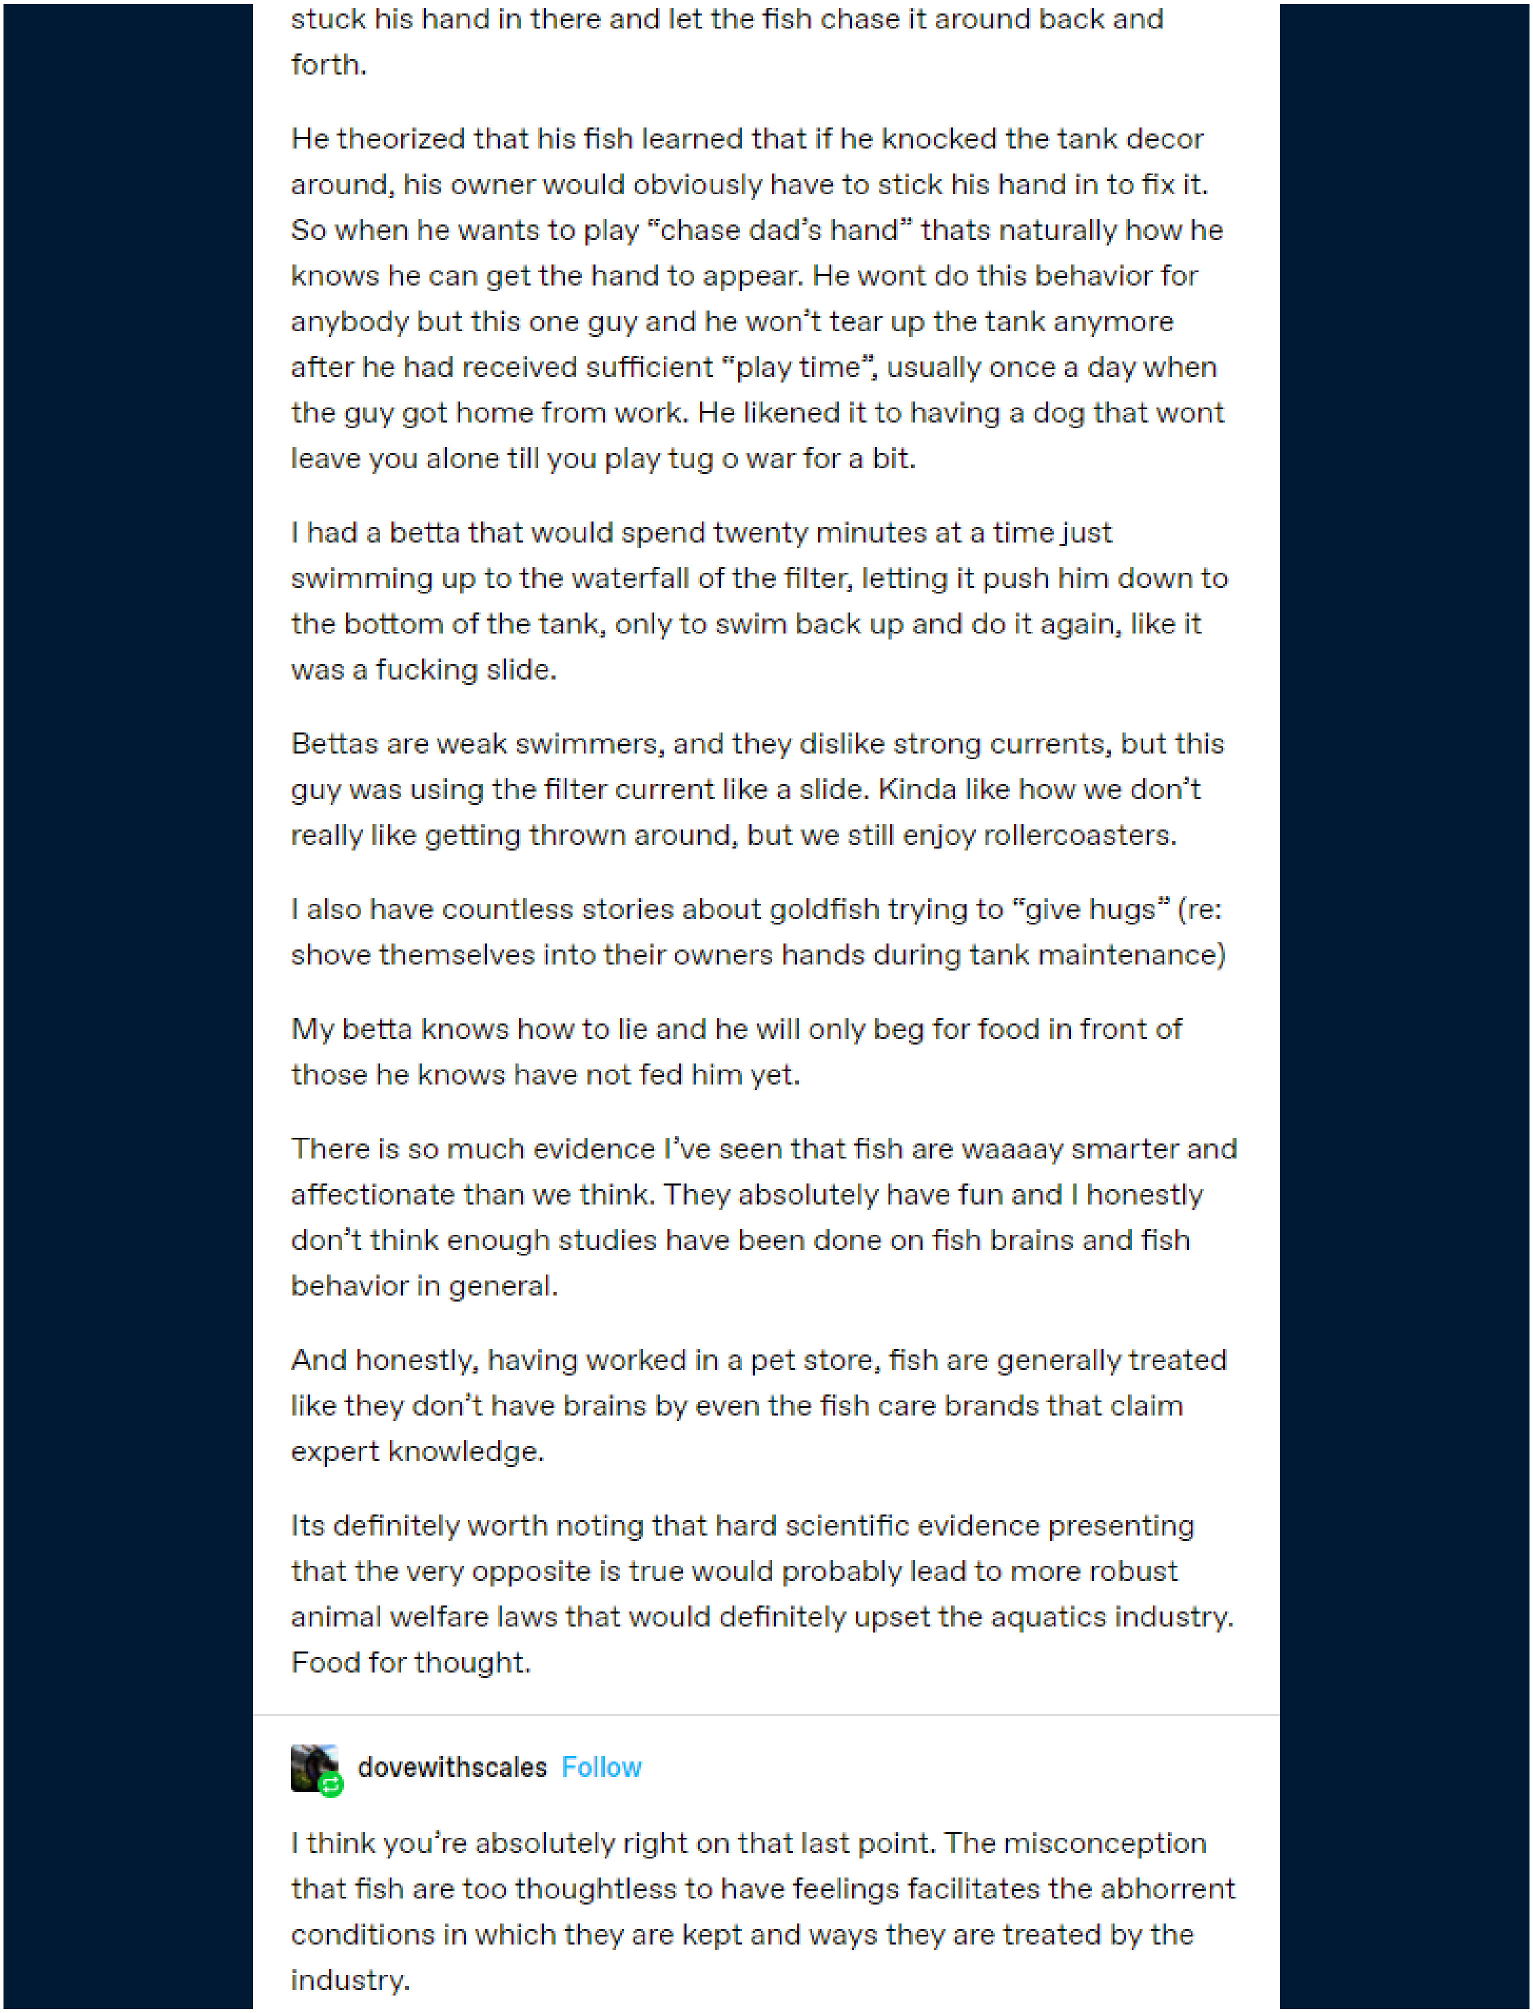
Im not a behavior biologist either, but I have spent a lot of time around fish and ive spent a lot of time talking to and helping people that care for fish. (Former petstore fish guy that took his job too seriously)

That fish is having fun, and fish absolutely DO have fun!

There was a regular who came into the store I worked at a lot, and he kept several varieties of chichlids, a very smart, aggressive type of fish.

He would come in and talk to me about all the drama his fish get into. The different territorial disputes they were having, who had paired off with who, who broke up (yes chichlids are like this)

But he had a jack dempsey in particular that LOVED to chase his hand around the tank, not his wife’s hand, not his friend’s hand, it HAD to be him. He said that as soon as he entered the room where this fish’s tank was kept, the fish would TEAR UP the tank decor, knocking things over and acting a fool off his shits until this dude



stuck his hand in there and let the fish chase it around back and forth.

He theorized that his fish learned that if he knocked the tank decor around, his owner would obviously have to stick his hand in to fix it. So when he wants to play "chase dad's hand" thats naturally how he knows he can get the hand to appear. He wont do this behavior for anybody but this one guy and he won't tear up the tank anymore after he had received sufficient "play time", usually once a day when the guy got home from work. He likened it to having a dog that wont leave you alone till you play tug o war for a bit.

I had a betta that would spend twenty minutes at a time just swimming up to the waterfall of the filter, letting it push him down to the bottom of the tank, only to swim back up and do it again, like it was a fucking slide.

Bettas are weak swimmers, and they dislike strong currents, but this guy was using the filter current like a slide. Kinda like how we don't really like getting thrown around, but we still enjoy rollercoasters.

I also have countless stories about goldfish trying to "give hugs" (re: shove themselves into their owners hands during tank maintenance)

My betta knows how to lie and he will only beg for food in front of those he knows have not fed him yet.

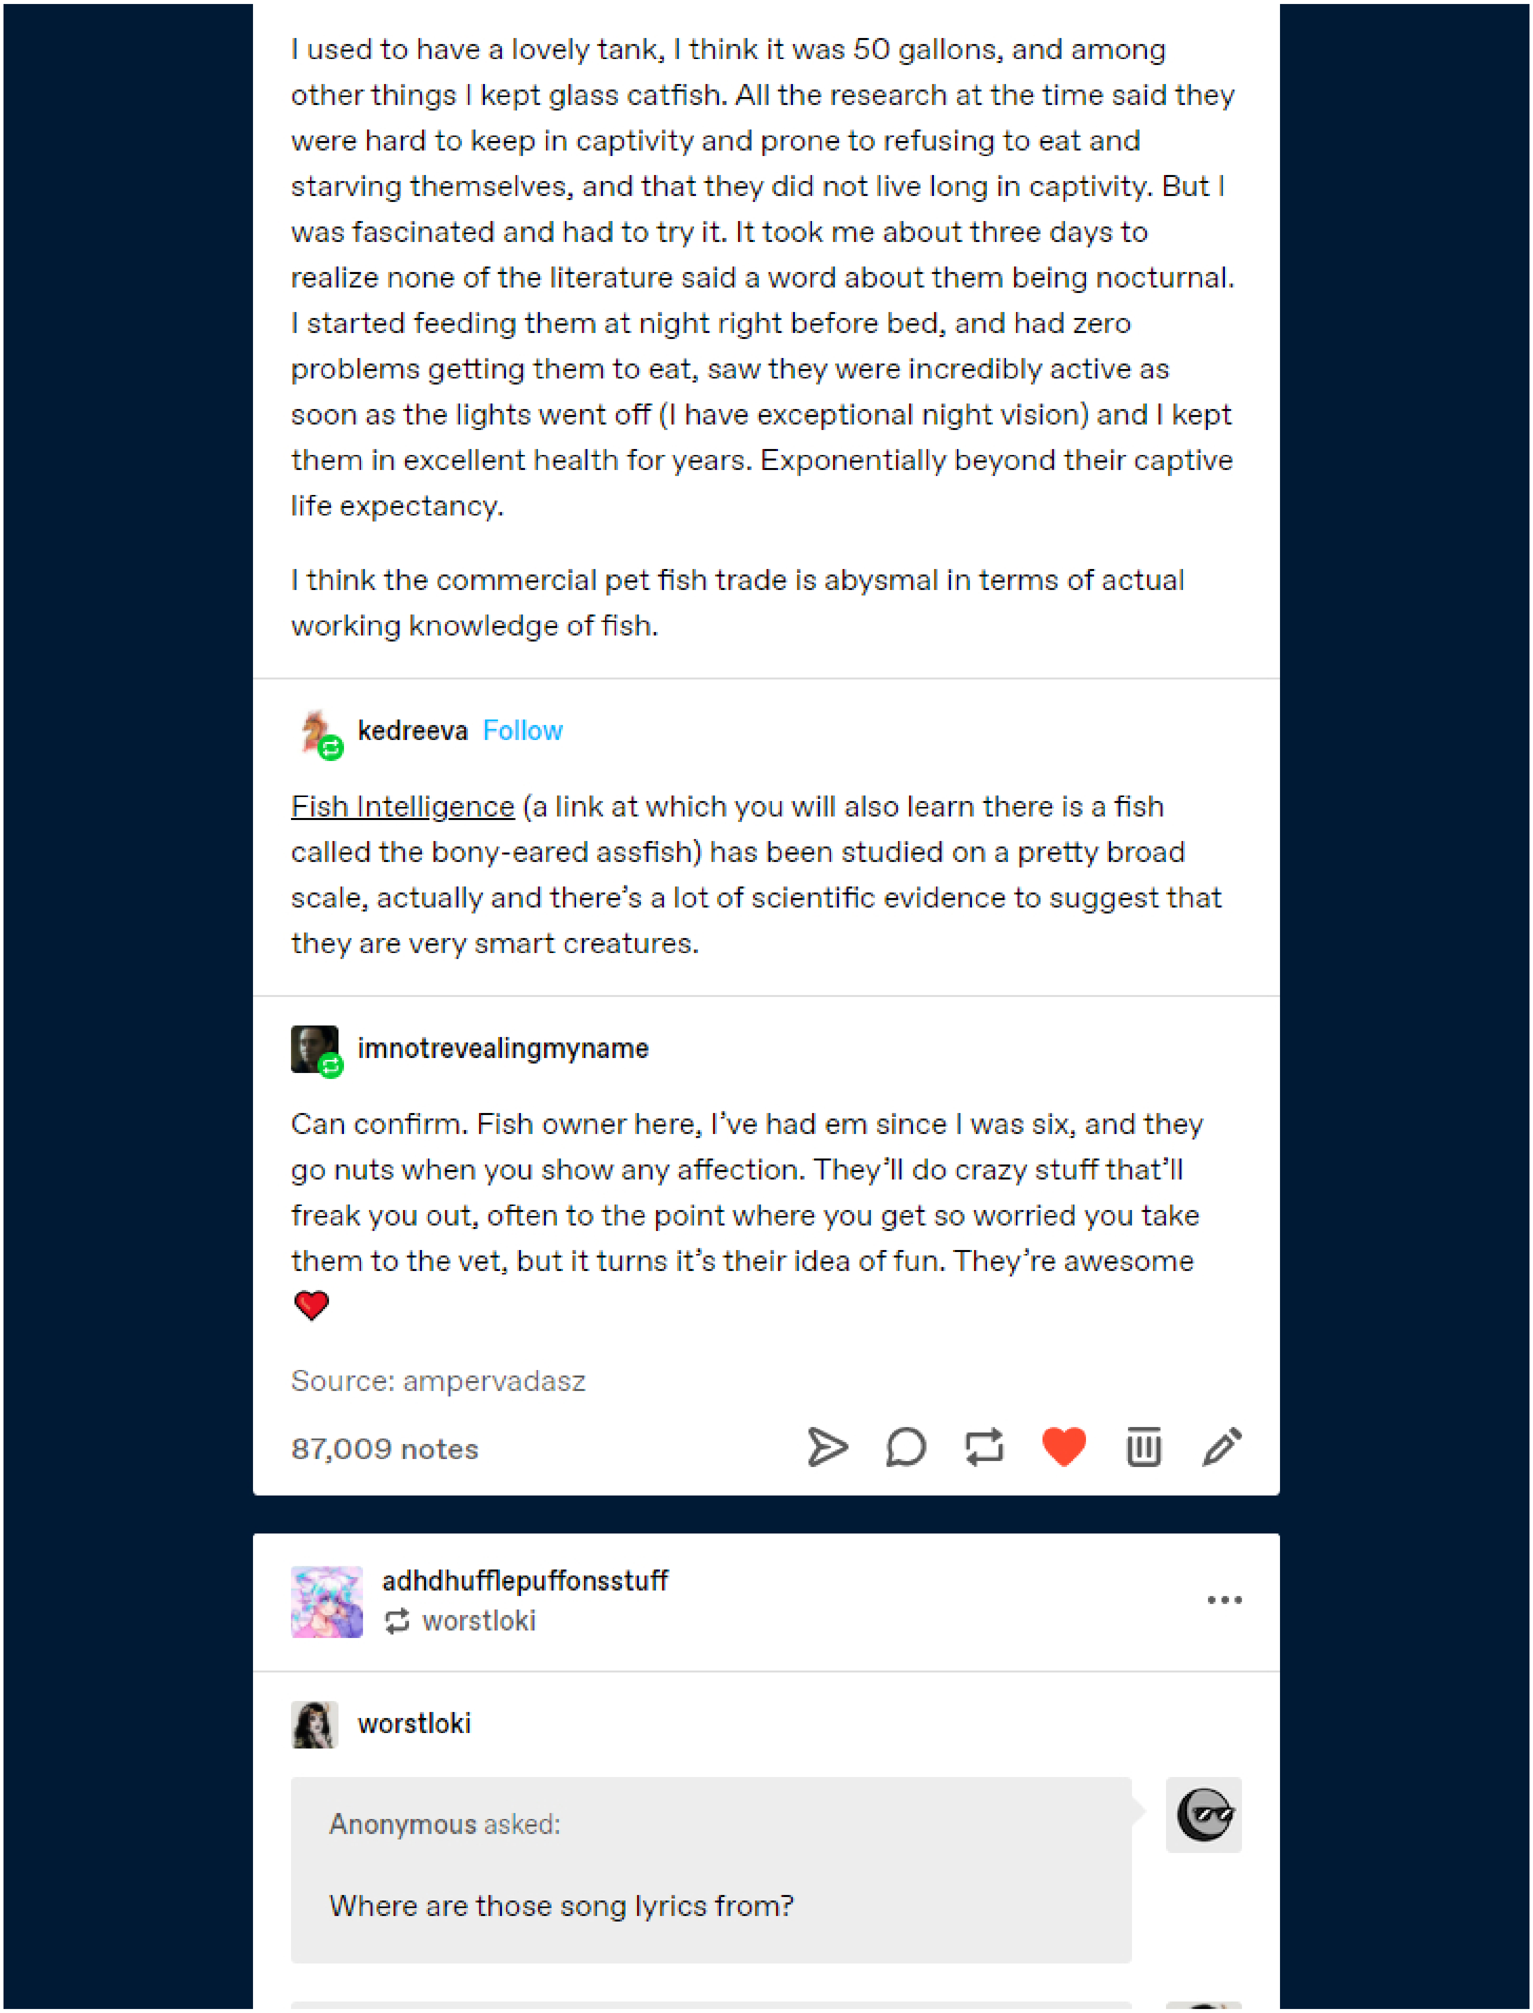
There is so much evidence I've seen that fish are waaaay smarter and affectionate than we think. They absolutely have fun and I honestly don't think enough studies have been done on fish brains and fish behavior in general.

And honestly, having worked in a pet store, fish are generally treated like they don't have brains by even the fish care brands that claim expert knowledge.

Its definitely worth noting that hard scientific evidence presenting that the very opposite is true would probably lead to more robust animal welfare laws that would definitely upset the aquatics industry. Food for thought.

dovewithscales Follow

I think you're absolutely right on that last point. The misconception that fish are too thoughtless to have feelings facilitates the abhorrent conditions in which they are kept and ways they are treated by the industry.



I used to have a lovely tank, I think it was 50 gallons, and among other things I kept glass catfish. All the research at the time said they were hard to keep in captivity and prone to refusing to eat and starving themselves, and that they did not live long in captivity. But I was fascinated and had to try it. It took me about three days to realize none of the literature said a word about them being nocturnal. I started feeding them at night right before bed, and had zero problems getting them to eat, saw they were incredibly active as soon as the lights went off (I have exceptional night vision) and I kept them in excellent health for years. Exponentially beyond their captive life expectancy.

I think the commercial pet fish trade is abysmal in terms of actual working knowledge of fish.

kedreeva

Fish Intelligence (a link at which you will also learn there is a fish called the bony-eared assfish) has been studied on a pretty broad scale, actually and there's a lot of scientific evidence to suggest that they are very smart creatures.

imnotrevealingmyname

Can confirm. Fish owner here, I've had em since I was six, and they go nuts when you show any affection. They'll do crazy stuff that'll freak you out, often to the point where you get so worried you take them to the vet, but it turns it's their idea of fun. They're awesome ❤️

This poem really has *strong Loki energy.*

And only where the forest fires have sped,
Scorching relentlessly the cool north lands,
A sweet wild flower lifts its purple head,
And, like some gentle spirit sorrow-fed,
It hides the scars with almost human hands.

And only to the heart that knows of grief,
Of desolating fire, of human pain,
There comes some purifying sweet belief,
Some fellow-feeling beautiful, if brief.
And life revives, and blossoms once again.

the-blue-fairie

the-blue-fairie

Iduna being rewarded by the spirits for saving the son of her oppressor feels very "Pocahontas saving John Smith" to me. Very "Squanto saving the Pilgrims."

It's a pattern I remember experiencing often in elementary school - the celebration of the indigenous person who acts as "helper" to the settlers - singling out distorted/mythologized depictions of Pocahontas, of Sacajawea, of Squanto because they "aided" the white people my elementary school narrative was implicitly far more invested in.

And again, this has nothing to do with Agnarr as an individual. Agnarr as an individual is warm, loving, tender, and wonderful. **This isn't about individuals.**

This is about how the specific choice of Iduna's good deed feels... odd. The moment the film glorifies for the birth of Elsa's powers, the moment that becomes tied to the new statue in Arendelle and the notion of being "united by love" is... an indigenous girl saving the life of someone among her oppressors - a fellow child, yes... a good person, yes. But again, this isn't about individuals.

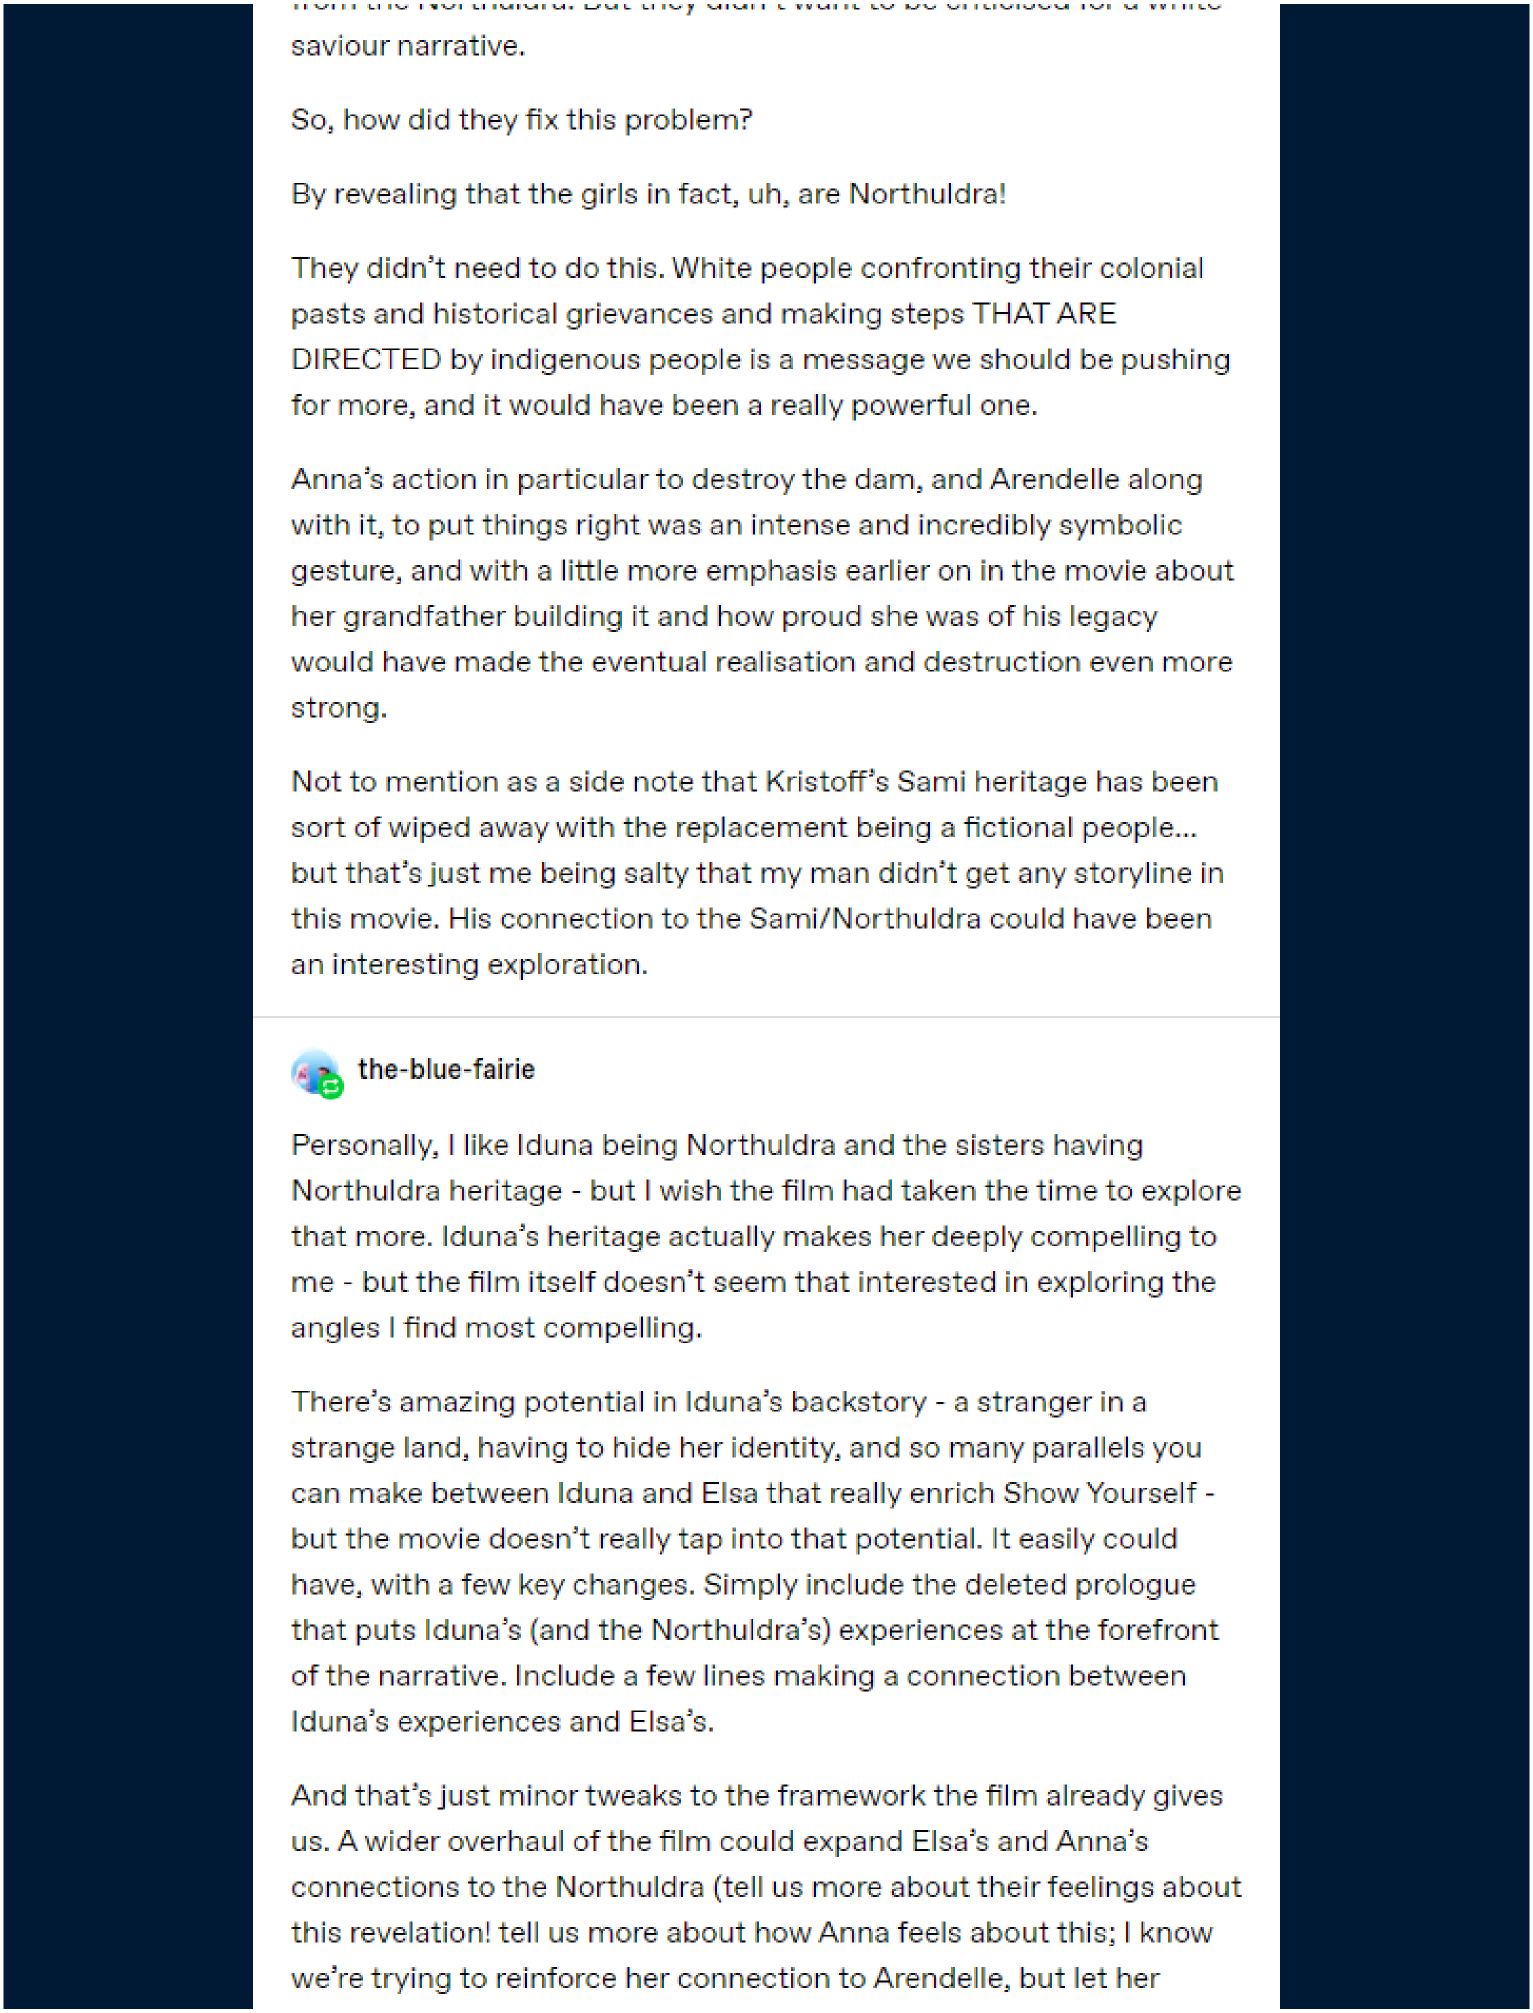
It's about the broader concepts and assumptions at play within the narrative.

It doesn't negate the good the film does. Elsa's confrontation with the memory of Runeard is raw and powerful and AMAZING. Elsa reaching out to stop the blade is equally breathtaking. Anna's conviction to destroy the dam and wash Arendelle away is awe-inspiring.

But it does complicate things and feel like the white writers falling into a pattern I was inculcated with myself as a white child in a U.S elementary school.

bumbler-of-a-bee Follow

See for me, I was very pissed off about how shoehorned Iduna's heritage looked and felt. It honestly seemed like Disney wanted to introduce these indigenous Northuldra with a problem brought about by colonisation and have Elsa and Anna rectify the past. Which could have been a great story if done right with more direct involvement from the Northuldra. But they didn't want to be criticised for a white



saviour narrative.

So, how did they fix this problem?

By revealing that the girls in fact, uh, are Northuldra!

They didn't need to do this. White people confronting their colonial pasts and historical grievances and making steps THAT ARE DIRECTED by indigenous people is a message we should be pushing for more, and it would have been a really powerful one.

Anna's action in particular to destroy the dam, and Arendelle along with it, to put things right was an intense and incredibly symbolic gesture, and with a little more emphasis earlier on in the movie about her grandfather building it and how proud she was of his legacy would have made the eventual realisation and destruction even more strong.

Not to mention as a side note that Kristoff's Sami heritage has been sort of wiped away with the replacement being a fictional people... but that's just me being salty that my man didn't get any storyline in this movie. His connection to the Sami/Northuldra could have been an interesting exploration.

the-blue-fairie

Personally, I like Iduna being Northuldra and the sisters having Northuldra heritage - but I wish the film had taken the time to explore that more. Iduna's heritage actually makes her deeply compelling to me - but the film itself doesn't seem that interested in exploring the angles I find most compelling.

There's amazing potential in Iduna's backstory - a stranger in a strange land, having to hide her identity, and so many parallels you can make between Iduna and Elsa that really enrich Show Yourself - but the movie doesn't really tap into that potential. It easily could have, with a few key changes. Simply include the deleted prologue that puts Iduna's (and the Northuldra's) experiences at the forefront of the narrative. Include a few lines making a connection between Iduna's experiences and Elsa's.

And that's just minor tweaks to the framework the film already gives us. A wider overhaul of the film could expand Elsa's and Anna's connections to the Northuldra (tell us more about their feelings about this revelation! tell us more about how Anna feels about this; I know we're trying to reinforce her connection to Arendelle, but let her interact with the Northuldra more - her face during the vuelie scene is exultant - build upon that!), give more screentime to the Northuldra characters, and so forth.

Iduna's and Elsa's and Anna's Northuldra heritage could be the beating heart of the film! The elements are all there. The film just... doesn't seem to want to emphasize those elements, for whatever reason!

Of course, "white people confronting their colonial pasts and historical grievances and making steps THAT ARE DIRECTED by indigenous people" is also a great message, especially if we expand the Northuldra's role to give them more direct involvement.

I'm just defending the Northuldra heritage plot element because it has such amazing story potential (the vuelie scene is one of the best of F2) and I love how it enriches Iduna.

But again, it enriches Iduna *conceptually*. The actual handling of her backstory in the film **(especially when you cut out the prologue from her perspective and you celebrate her for saving one among her oppressors)** kind of undermines all that potential.

Ahhhh Frozen 2, you fascinatingly interesting and sometimes horribly frustrating mixed bag!

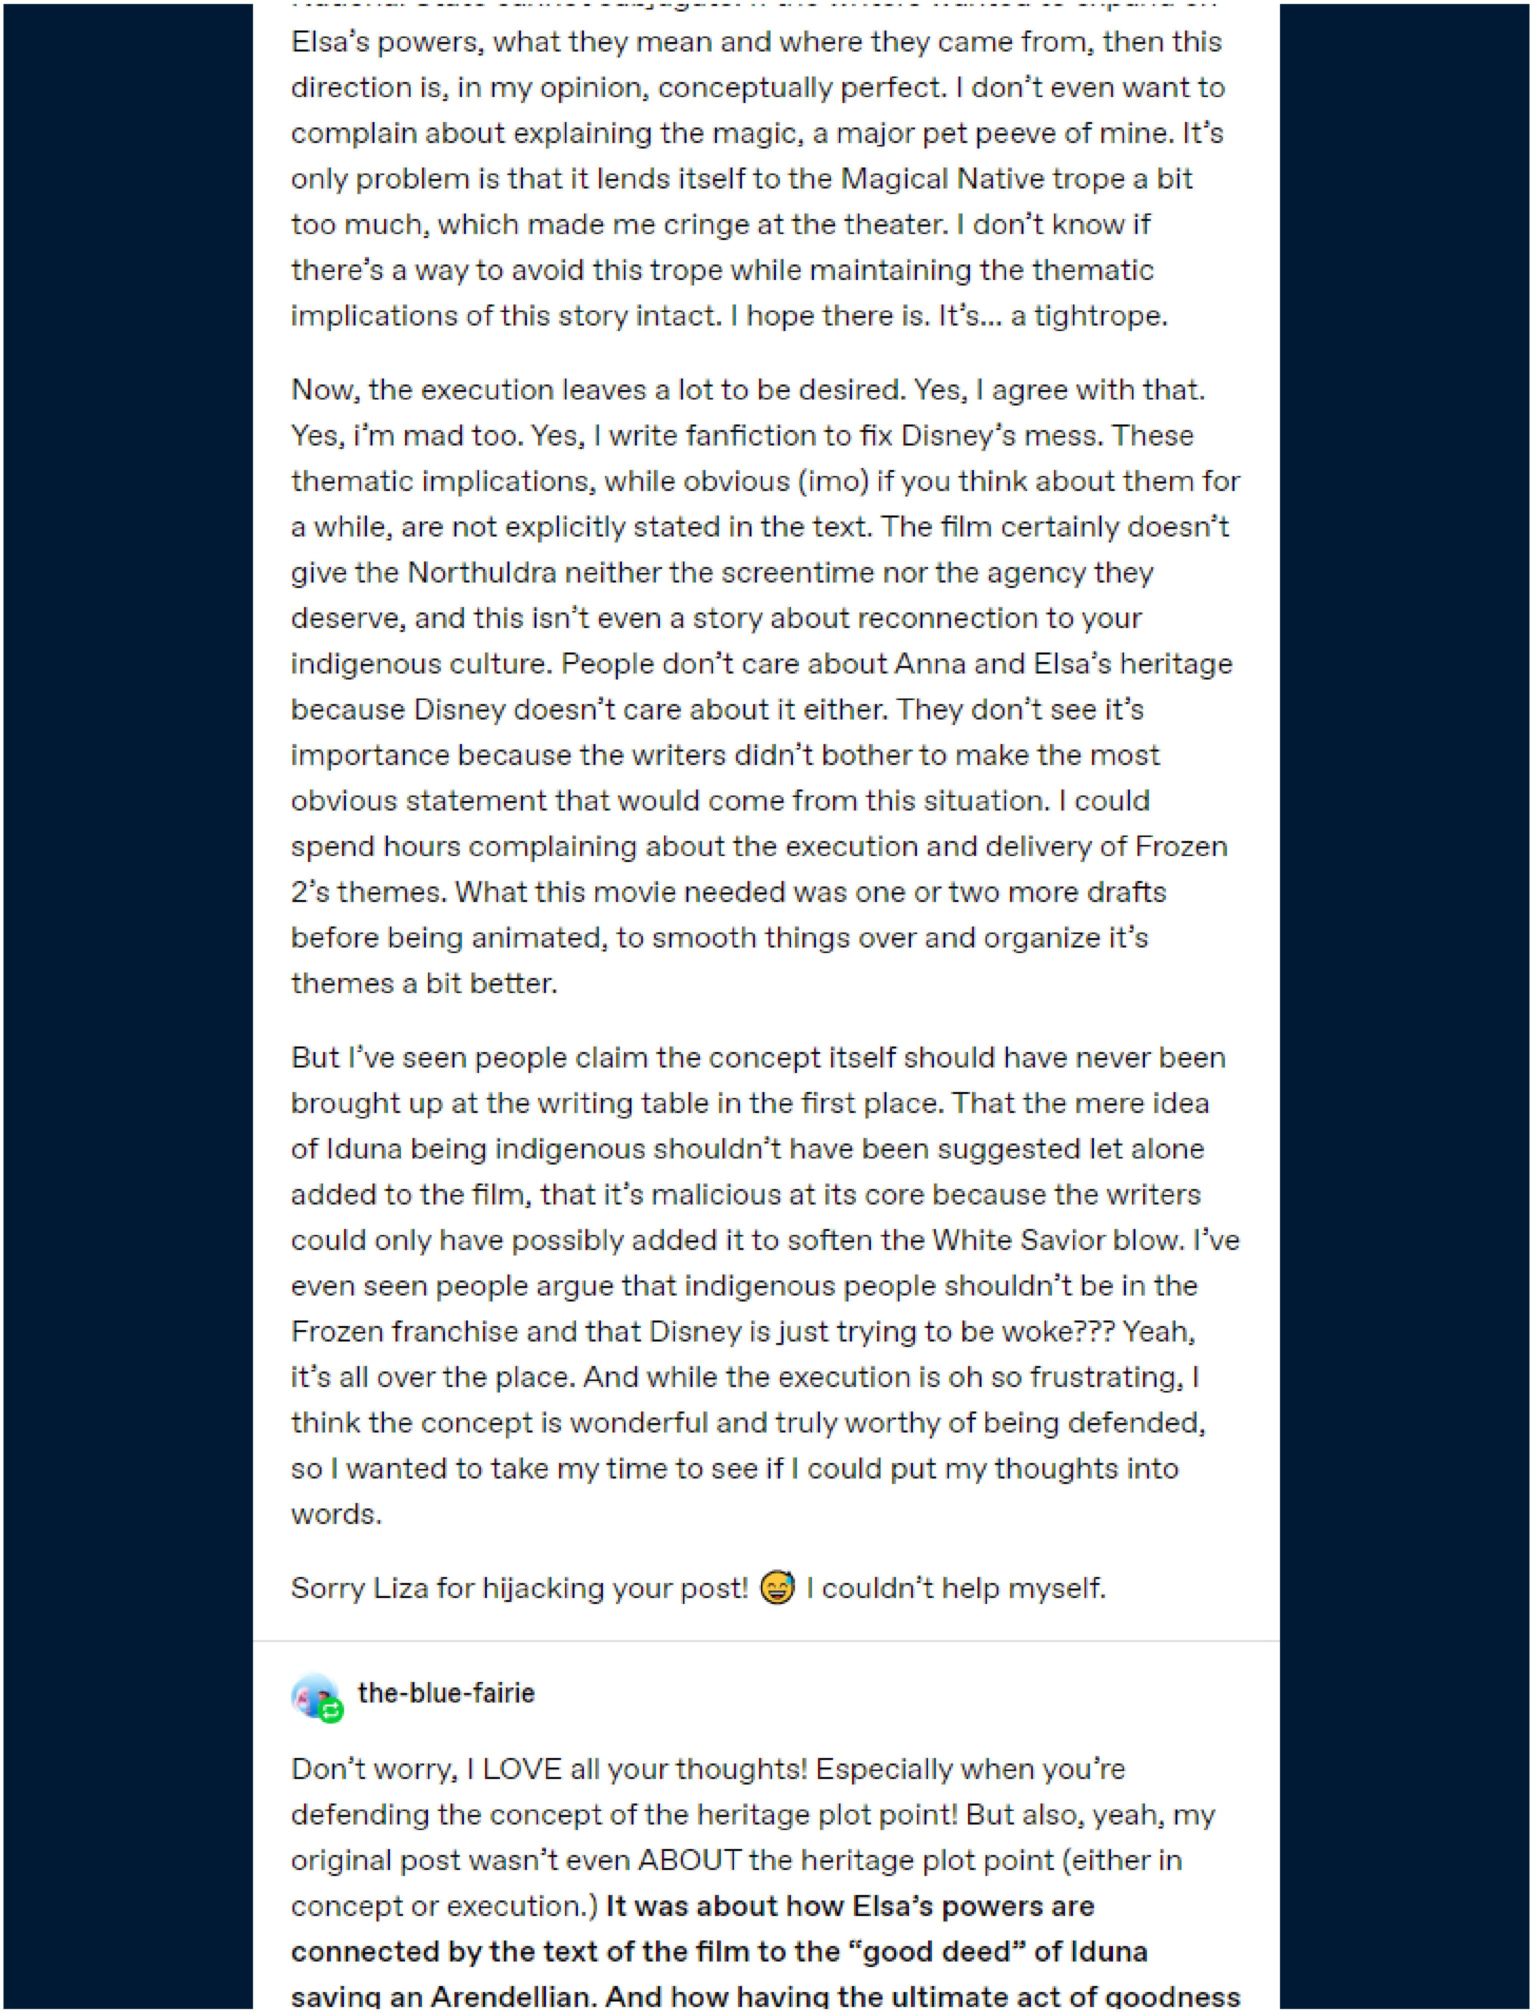
---

themountainsays Follow

Personally, I really love that Frozen 2 added the Northuldra heritage to the royal family, for multiple reasons ~~some of which are not even personal lmao.~~ As Liza mentions, it mostly remains as conceptual potential and i'm quite frustrated that the movie didn't build on that. However, the "forced diversity" argument always rubbed me the wrong way, partially because I never felt more represented by the movie before but also, on a less personal note, because I find it frustrating when people see it as Disney grabbing a bunch of white settlers and slapping an "arctic native" label on them to claim it's ok, that the White Savior aspects of the movie as just fiiiiiiine. They see it that way, rather than taking canon as a whole text and not as multiple phases that conflict with each other. They don't always see it as the second installment further expanding on the gaps and blanks the first movie left. Of course Iduna wasn't originally intended to be indigenous, but obviously the films don't expect you to interpret the text as "Iduna and her daughters were white settlers, now they are actually indigenous", but rather, as "Iduna has always been indigenous in-universe, her story has always been there even if it hadn't been told until now, and her daughters always had this heritage hidden from them". I firmly believe this way to interpret the additions made by Frozen 2 is the best way to read the text, because it's the most logical way to view it, because it's how the authors intended it to be seen, and because I also think it's the one that lends to the better story (again, because it was written to function in this way). One of my favorite things that the Frozen 2 additions does to the franchise is to recontextualize the events of Frozen 1. Knowing that Elsa's mother is Northuldra, that her magic steems from this origin, that the Northuldra and the magic from their homeland has historically been opressed by the same country persecuting Elsa and that her mother lived similar experiences to hers... It turns Frozen 1 into a different movie.

And one last thing: yes, you could say these are benefits and good, rich, interesting additions that Frozen 2 brings to the table, but that they're still ultimately unecessary. You could say that the Frozen franchise, while it doesn't *suffer* from the additions of Frozen 2, *didn't need* a recontextualization, didn't need the new lore or more worldbuilding. That these additions don't fill any important gaps left by the first movie, only the ones we didn't actually care about, like where Agnarr and Iduna's ship was heading or why it sank, of Iduna's full backstory.

But... here's what I think. The writers seemed particularly interested in exploring the reason behind Elsa's powers, which is a decision I don't personally agree with. But... of all the options they could have chosen, of all the reasons or paths they could have decided on... I believe going for the lost heritage was one of the only that were actually good. Because it's something that's important but it is hidden from you, and you may not learn about it until you're older and it fits so perfectly with the politics and social issues previously stablished by the Frozen universe, that it practically writes itself: the Northuldra were familiar with magic and didn't try to suppress it's nature. The Arendellian crown sought to control nature and suppress magic. Later, in Frozen 1, the Arendellian people are horribly averse to magic and persecute Elsa and we don't really know *why*, other than they fear magic even though it is... her nature. Eventually, we learn than unconditional love and freedom to let her be herself is the right answer. And in Frozen 2, we learn that the protagonists come from a culture that would have been so much kinder to them, where they could have grown up surrounded by love and freedom and acceptance but it was denied to them, by the crimes of the same royal house that instilled the initial fear of magic, of forces that a National State cannot subjugate. If the writers wanted to expand on



Elsa's powers, what they mean and where they came from, then this direction is, in my opinion, conceptually perfect. I don't even want to complain about explaining the magic, a major pet peeve of mine. It's only problem is that it lends itself to the Magical Native trope a bit too much, which made me cringe at the theater. I don't know if there's a way to avoid this trope while maintaining the thematic implications of this story intact. I hope there is. It's... a tightrope.

Now, the execution leaves a lot to be desired. Yes, I agree with that. Yes, i'm mad too. Yes, I write fanfiction to fix Disney's mess. These thematic implications, while obvious (imo) if you think about them for a while, are not explicitly stated in the text. The film certainly doesn't give the Northuldra neither the screentime nor the agency they deserve, and this isn't even a story about reconnection to your indigenous culture. People don't care about Anna and Elsa's heritage because Disney doesn't care about it either. They don't see it's importance because the writers didn't bother to make the most obvious statement that would come from this situation. I could spend hours complaining about the execution and delivery of Frozen 2's themes. What this movie needed was one or two more drafts before being animated, to smooth things over and organize it's themes a bit better.

But I've seen people claim the concept itself should have never been brought up at the writing table in the first place. That the mere idea of Iduna being indigenous shouldn't have been suggested let alone added to the film, that it's malicious at its core because the writers could only have possibly added it to soften the White Savior blow. I've even seen people argue that indigenous people shouldn't be in the Frozen franchise and that Disney is just trying to be woke??? Yeah, it's all over the place. And while the execution is oh so frustrating, I think the concept is wonderful and truly worthy of being defended, so I wanted to take my time to see if I could put my thoughts into words.

Sorry Liza for hijacking your post! 😅 I couldn't help myself.

the-blue-fairie

Don't worry, I LOVE all your thoughts! Especially when you're defending the concept of the heritage plot point! But also, yeah, my original post wasn't even ABOUT the heritage plot point (either in concept or execution.) **It was about how Elsa's powers are connected by the text of the film to the "good deed" of Iduna saving an Arendellian. And how having the ultimate act of goodness** that convinces the spirits to gift Iduna with Elsa be... her saving an Arendellian... has.. ramifications.

#so did they miss the part where gatsby ends up floating dead in a pool and all the miserable deaths in wuthering heights#or did they miss that because there weren't any chapters titled In Which The Sinners Are Punished For Their Errors#like. even if you require explicit moral instruction from literature it's pretty hard to miss the comeuppance in those.

pennie-dreadful Follow

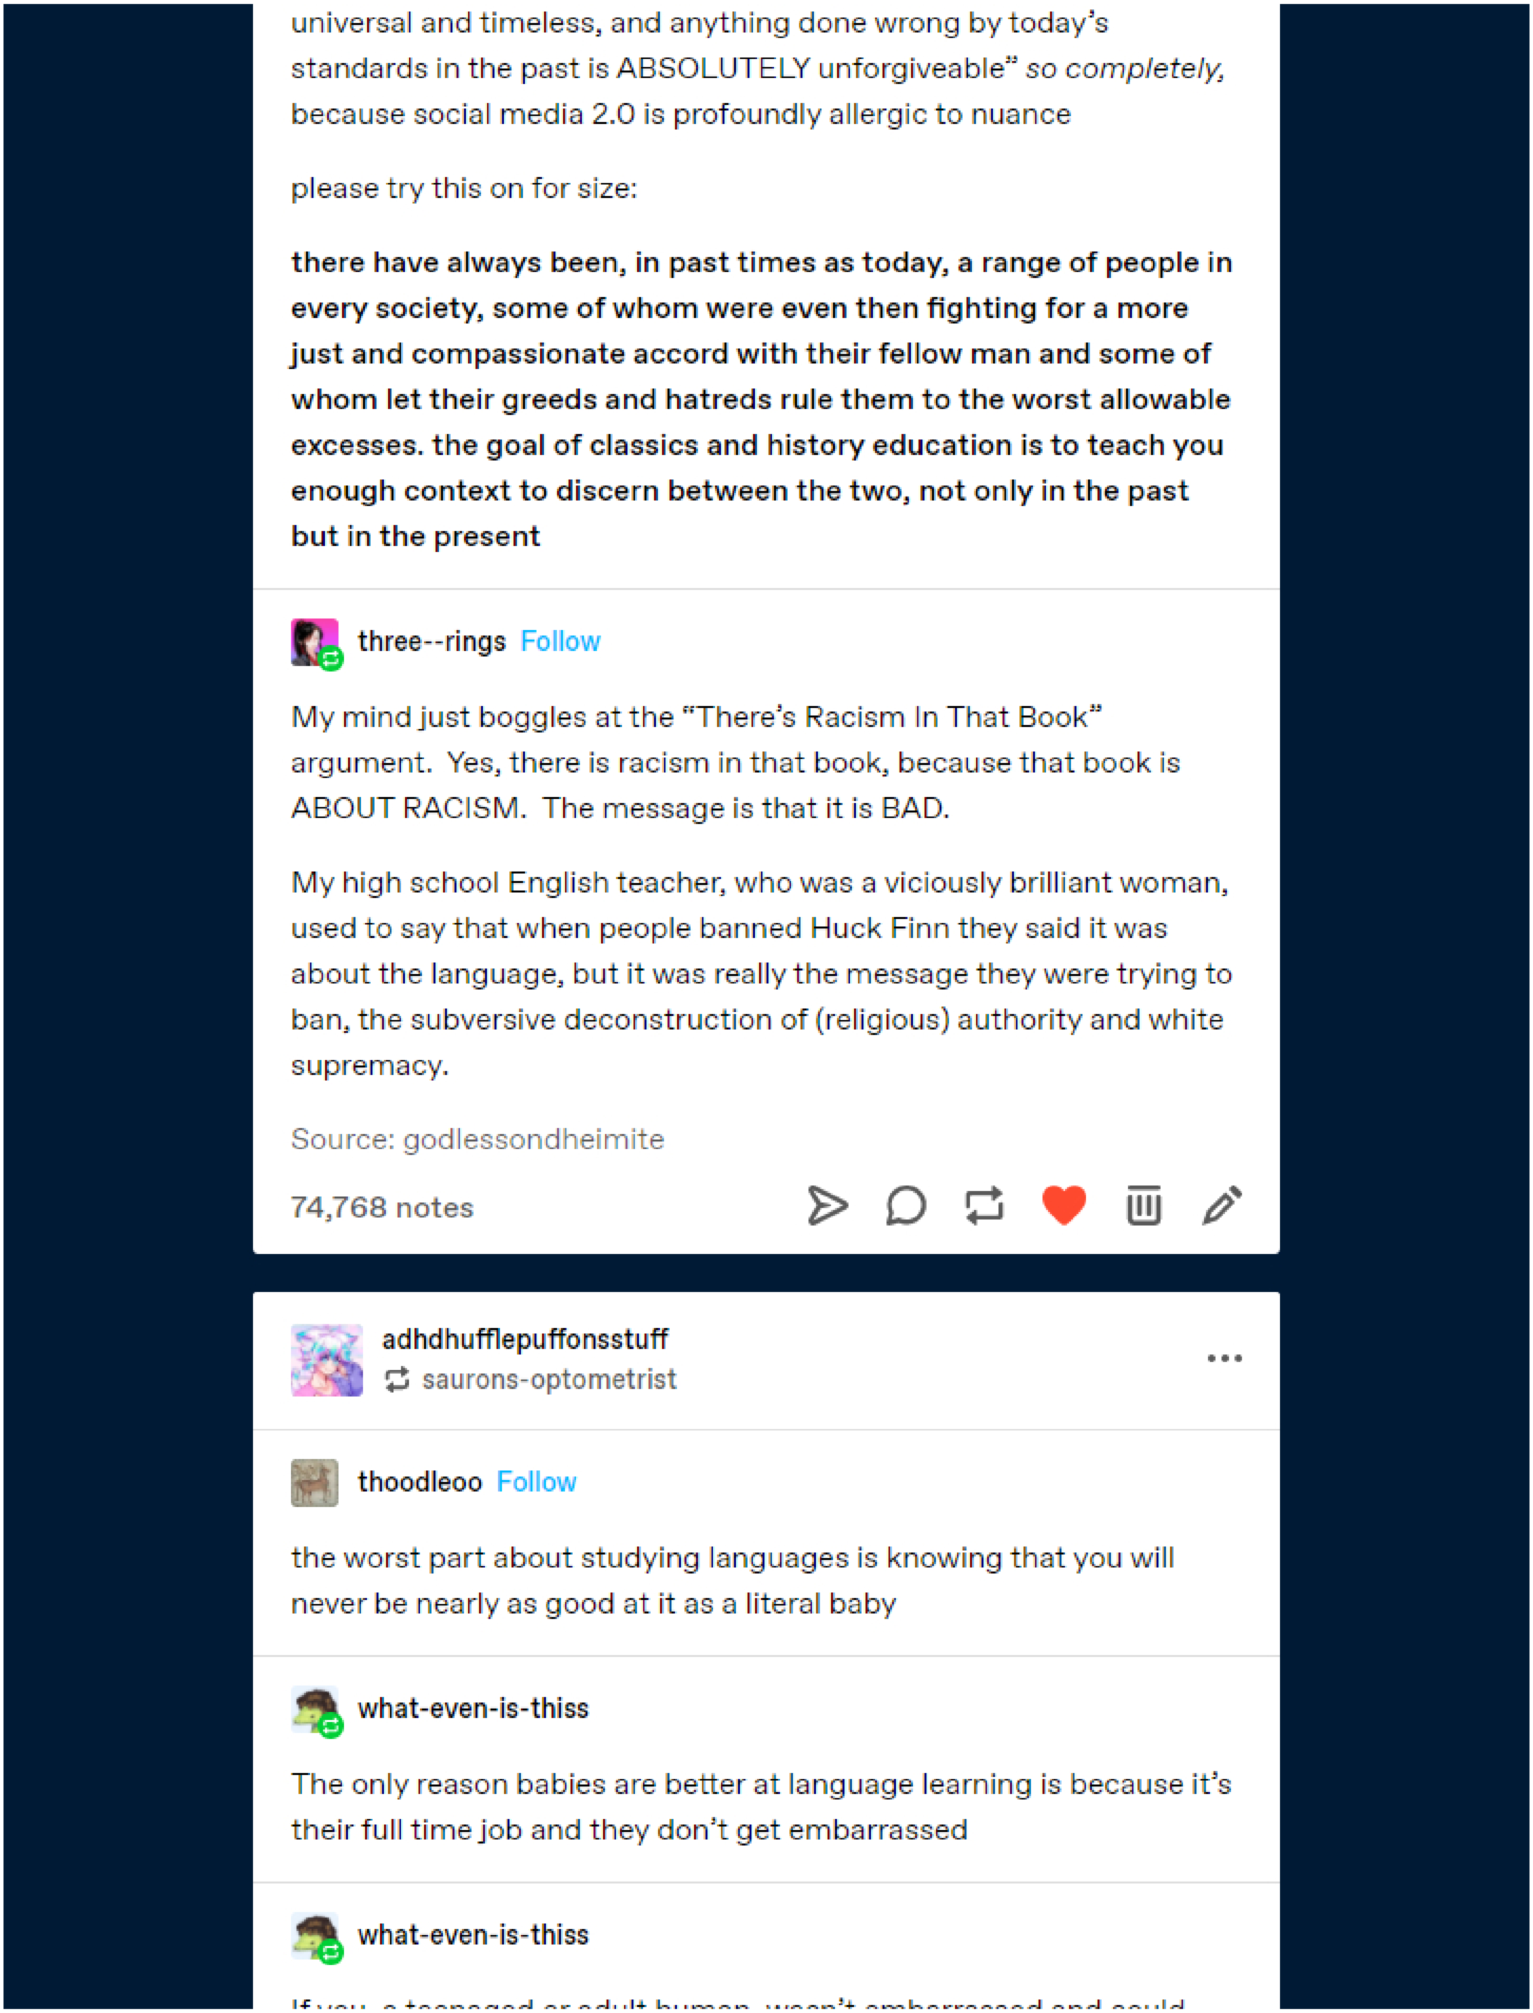
"What I assume my teachers were trying to teach me"

doctorbluesmanreturns Follow

Huck Finn is about a white Southern boy who was raised to believe that freeing slaves is a sin that would send you directly to hell who forges a familial bond with a runaway slave and chooses to free him and thereby in his mind lose his salvation because he refuses to believe that his best friend and surrogate father is less of a man just because he's black. Yes it features what we now consider racial slurs but this is a book written only 20 years after people were literally fighting to be allowed to keep other human beings as property, we cannot expect people from the 1880s to exactly conform with the social mores of 2020, and more to the point if we ourselves had been raised during that time period there's very little doubt that we would also hold most if not all of the prevalent views of the time because actual history isn't like period novels written now where the heroes are perfect 21st century social justice crusaders and the villains are all as racist and sexist as humanly possible. Change happens slowly and ignoring the radical statement that we're all human beings that Twain wrote at a time when segregation and racial tensions were still hugely prevalent just because he wrote using the language of his time period is short-sighted and foolhardy to the highest degree.

mikkeneko Follow

I'm really kind of alarmed at the rise in the past few years of the "and we do condemn! wholeheartedly!" discourse around historical figures. it seems like people have somehow boomeranged between "morals were different in the past, therefore nobody in the past can ever be held accountable for ANY wrongs" to "morals are



universal and timeless, and anything done wrong by today's standards in the past is ABSOLUTELY unforgiveable" *so completely,* because social media 2.0 is profoundly allergic to nuance

please try this on for size:

there have always been, in past times as today, a range of people in every society, some of whom were even then fighting for a more just and compassionate accord with their fellow man and some of whom let their greeds and hatreds rule them to the worst allowable excesses. the goal of classics and history education is to teach you enough context to discern between the two, not only in the past but in the present

three--rings Follow

My mind just boggles at the "There's Racism In That Book" argument. Yes, there is racism in that book, because that book is ABOUT RACISM. The message is that it is BAD.

My high school English teacher, who was a viciously brilliant woman, used to say that when people banned Huck Finn they said it was about the language, but it was really the message they were trying to ban, the subversive deconstruction of (religious) authority and white supremacy.

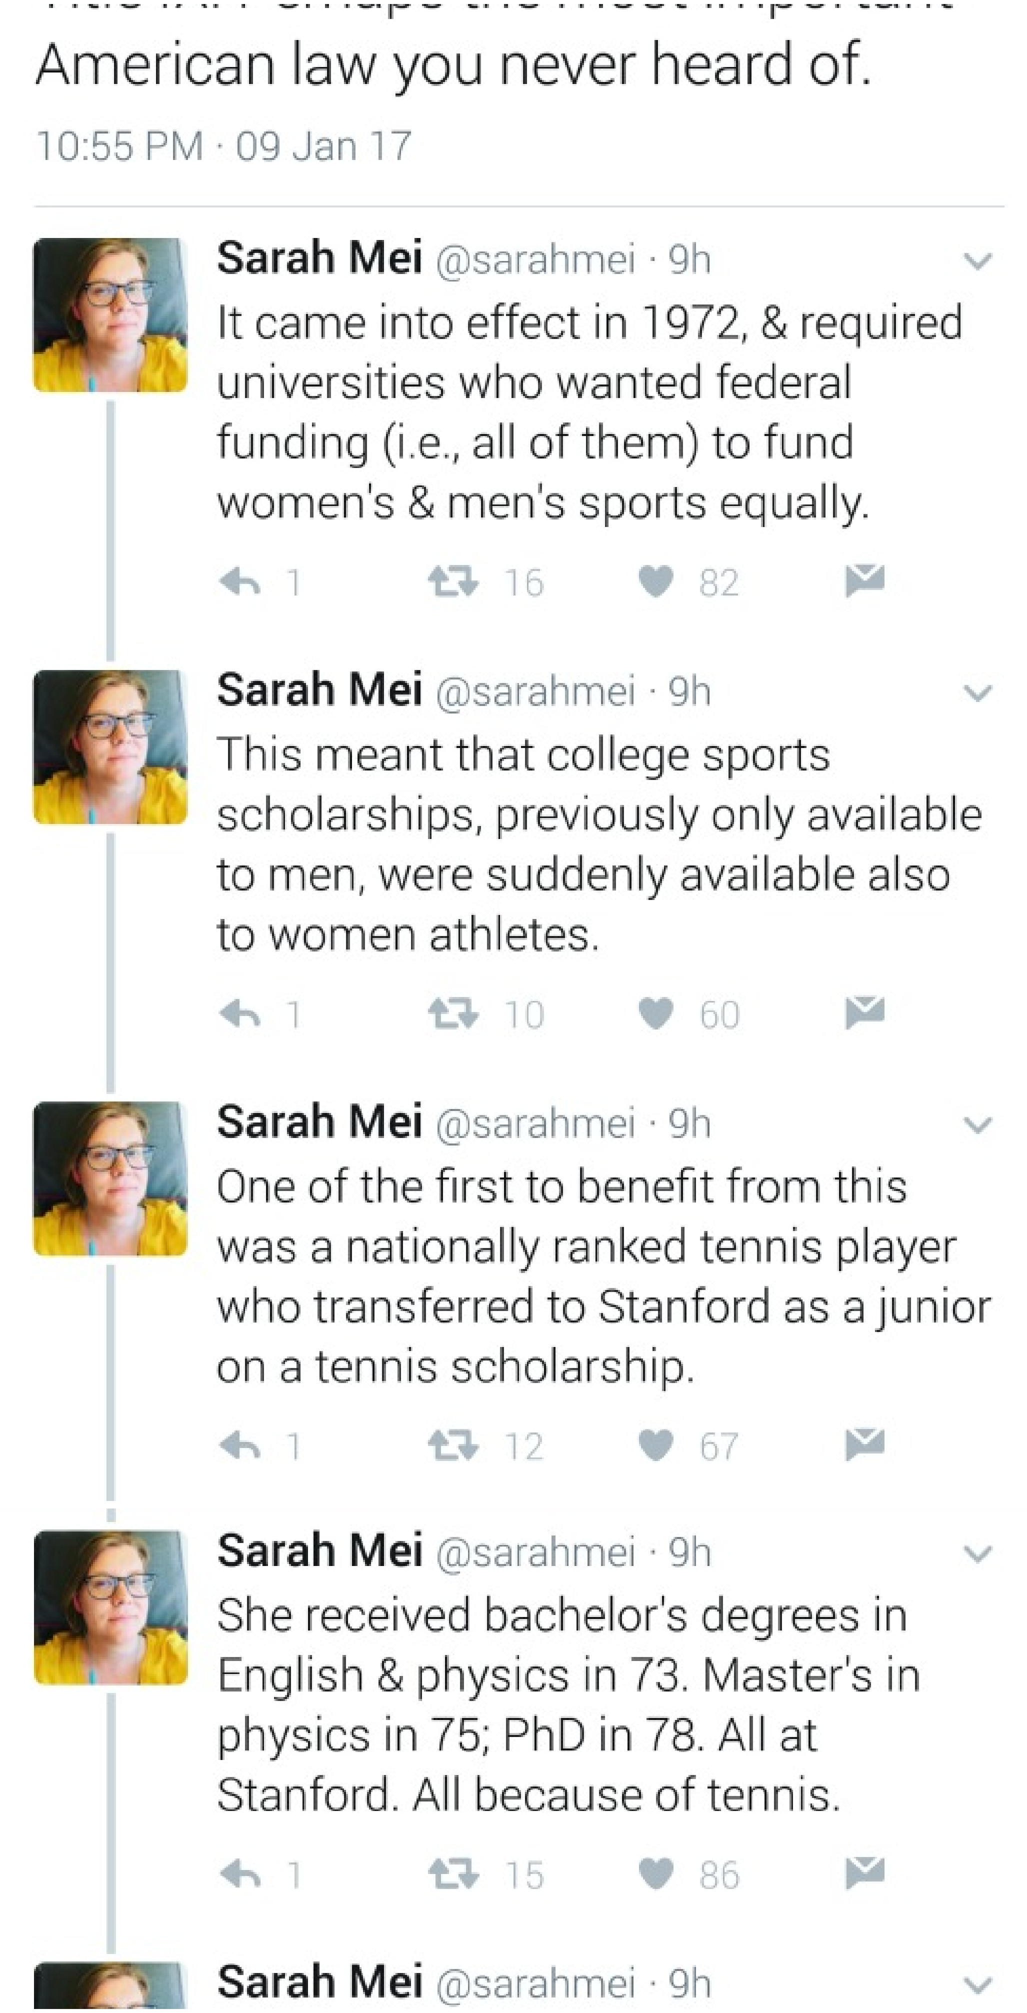
Sarah Mei
@sarahmei

If you're not into playing organized sports, you may not be aware of Title IX. Perhaps the most important



American law you never heard of.

10:55 PM · 09 Jan 17

Sarah Mei @sarahmei · 9h

It came into effect in 1972, & required universities who wanted federal funding (i.e., all of them) to fund women's & men's sports equally.

1 16 82

Sarah Mei @sarahmei · 9h

This meant that college sports scholarships, previously only available to men, were suddenly available also to women athletes.

1 10 60

Sarah Mei @sarahmei · 9h

One of the first to benefit from this was a nationally ranked tennis player who transferred to Stanford as a junior on a tennis scholarship.

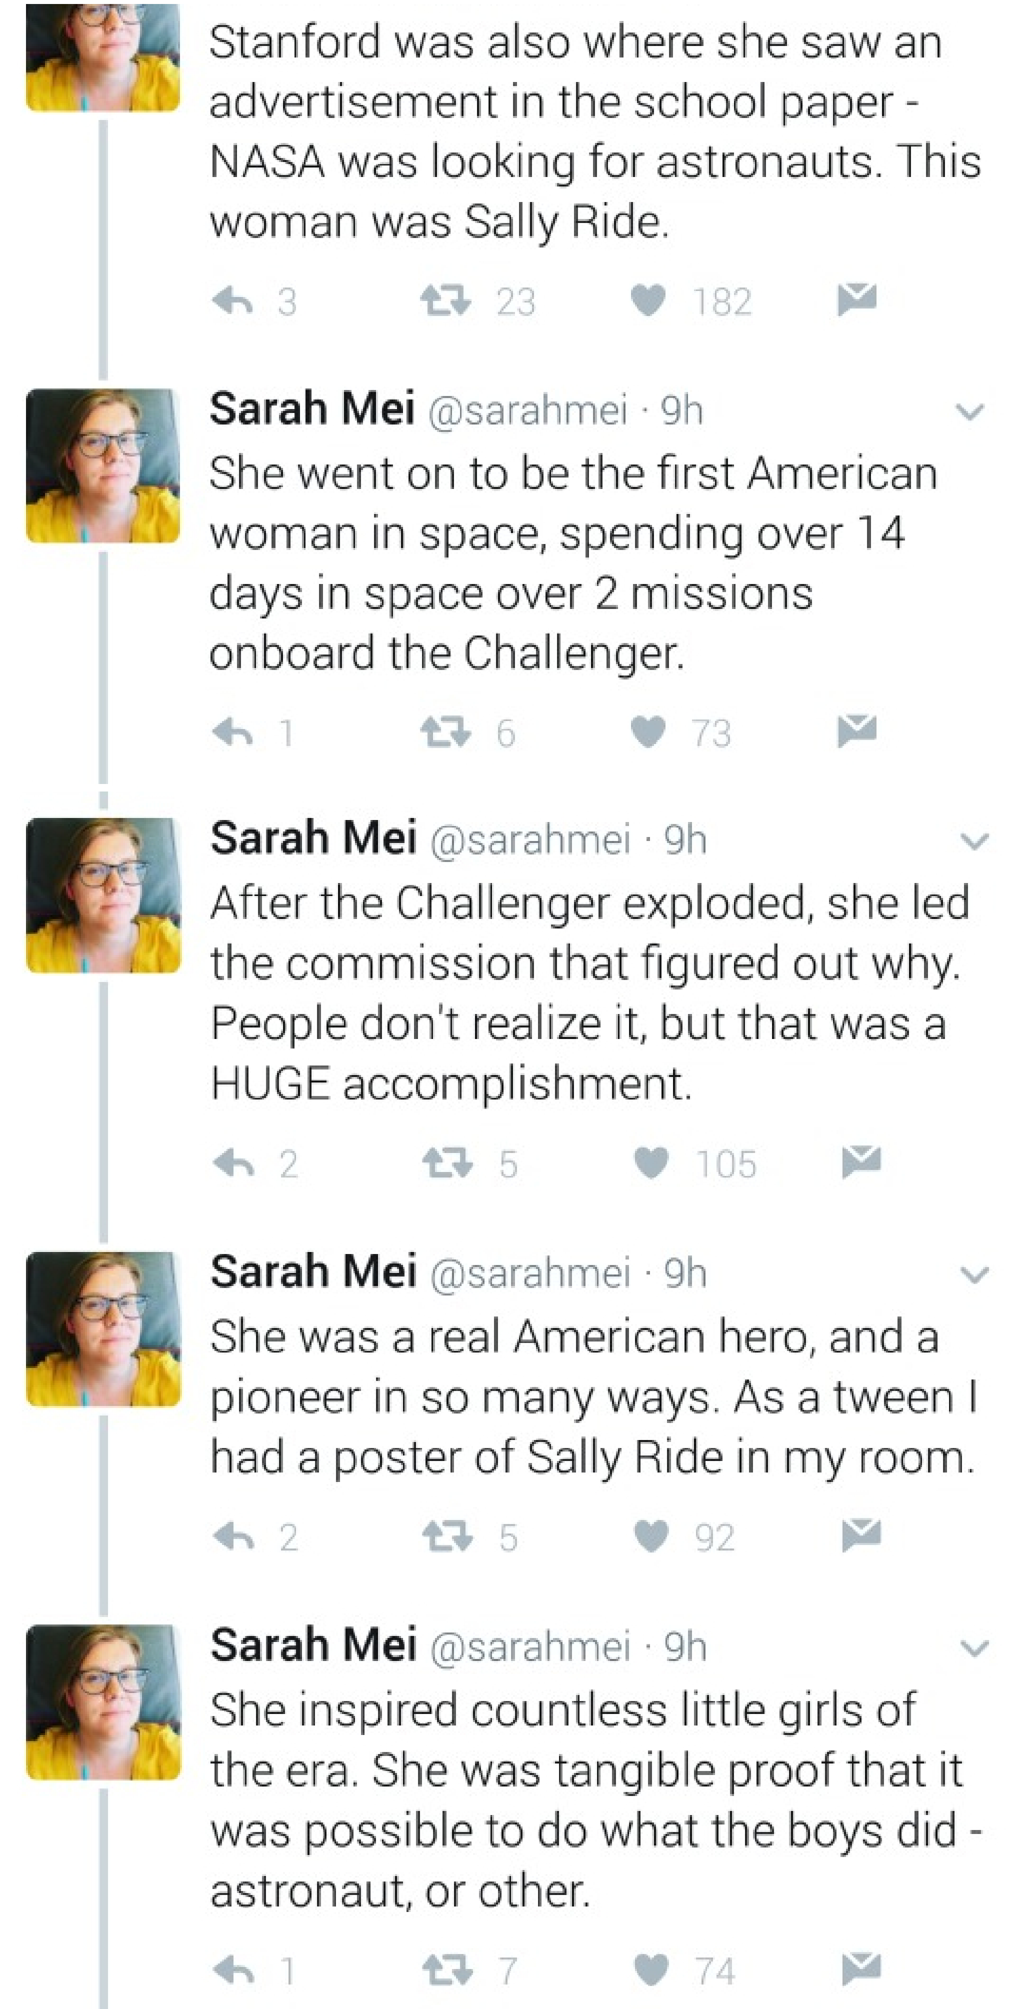
1 12 67

Sarah Mei @sarahmei · 9h

She received bachelor's degrees in English & physics in 73. Master's in physics in 75; PhD in 78. All at Stanford. All because of tennis.

1 15 86

Sarah Mei @sarahmei · 9h



Stanford was also where she saw an advertisement in the school paper - NASA was looking for astronauts. This woman was Sally Ride.

Sarah Mei @sarahmei · 9h

She went on to be the first American woman in space, spending over 14 days in space over 2 missions onboard the Challenger.

Sarah Mei @sarahmei · 9h

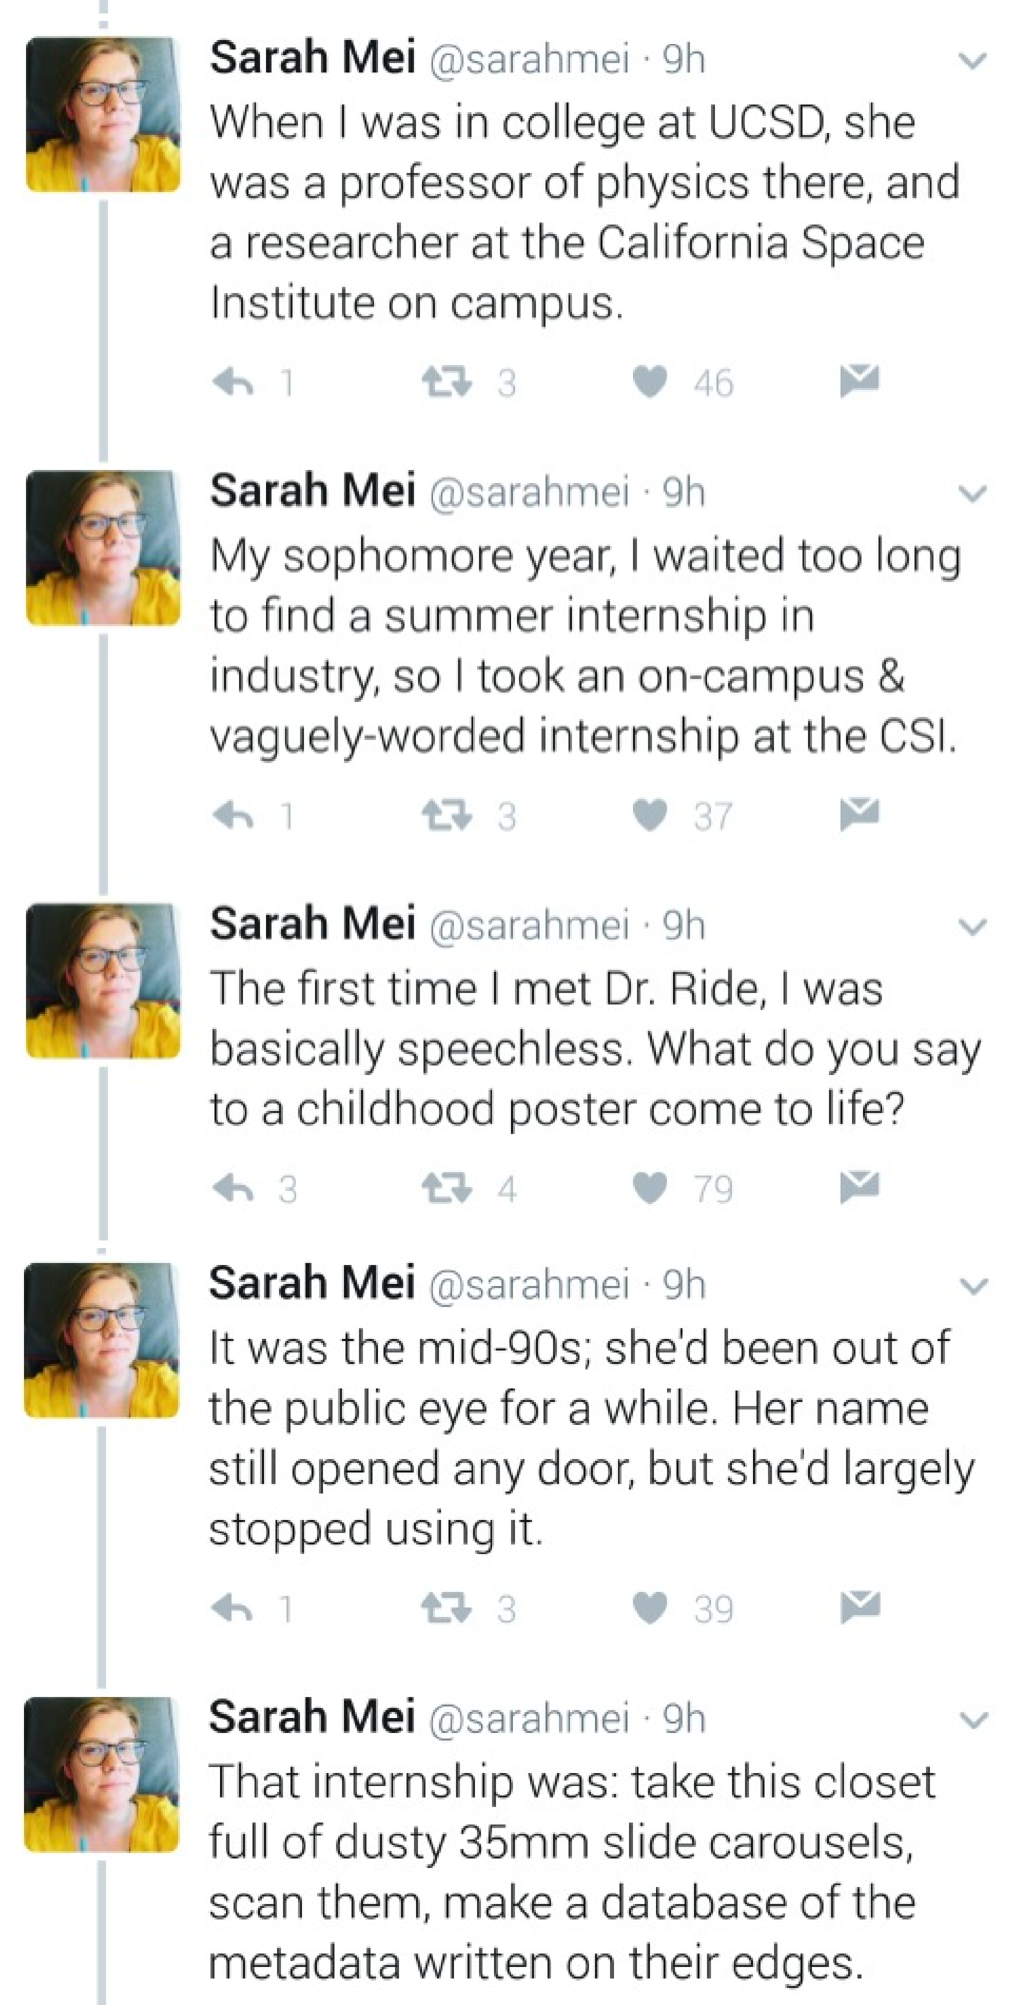
After the Challenger exploded, she led the commission that figured out why. People don't realize it, but that was a HUGE accomplishment.

Sarah Mei @sarahmei · 9h

She was a real American hero, and a pioneer in so many ways. As a tween I had a poster of Sally Ride in my room.

Sarah Mei @sarahmei · 9h

She inspired countless little girls of the era. She was tangible proof that it was possible to do what the boys did - astronaut, or other.



Sarah Mei @sarahmei · 9h

When I was in college at UCSD, she was a professor of physics there, and a researcher at the California Space Institute on campus.

Sarah Mei @sarahmei · 9h

My sophomore year, I waited too long to find a summer internship in industry, so I took an on-campus & vaguely-worded internship at the CSI.

Sarah Mei @sarahmei · 9h

The first time I met Dr. Ride, I was basically speechless. What do you say to a childhood poster come to life?

Sarah Mei @sarahmei · 9h

It was the mid-90s; she'd been out of the public eye for a while. Her name still opened any door, but she'd largely stopped using it.

Sarah Mei @sarahmei · 9h

That internship was: take this closet full of dusty 35mm slide carousels, scan them, make a database of the metadata written on their edges.

1 5 48

Sarah Mei @sarahmei · 9h

Those slides were all of the pictures astronauts had taken _of earth_ since the Apollo missions. The metadata was generally location & time.

1 7 66

Sarah Mei @sarahmei · 9h

Dr. Ride liked to remind us that these images belonged to the American people.

1 2 53

Sarah Mei @sarahmei · 9h

Many of them were breathtakingly beautiful. Most of them had never been seen by anyone outside of NASA.

1 5 52

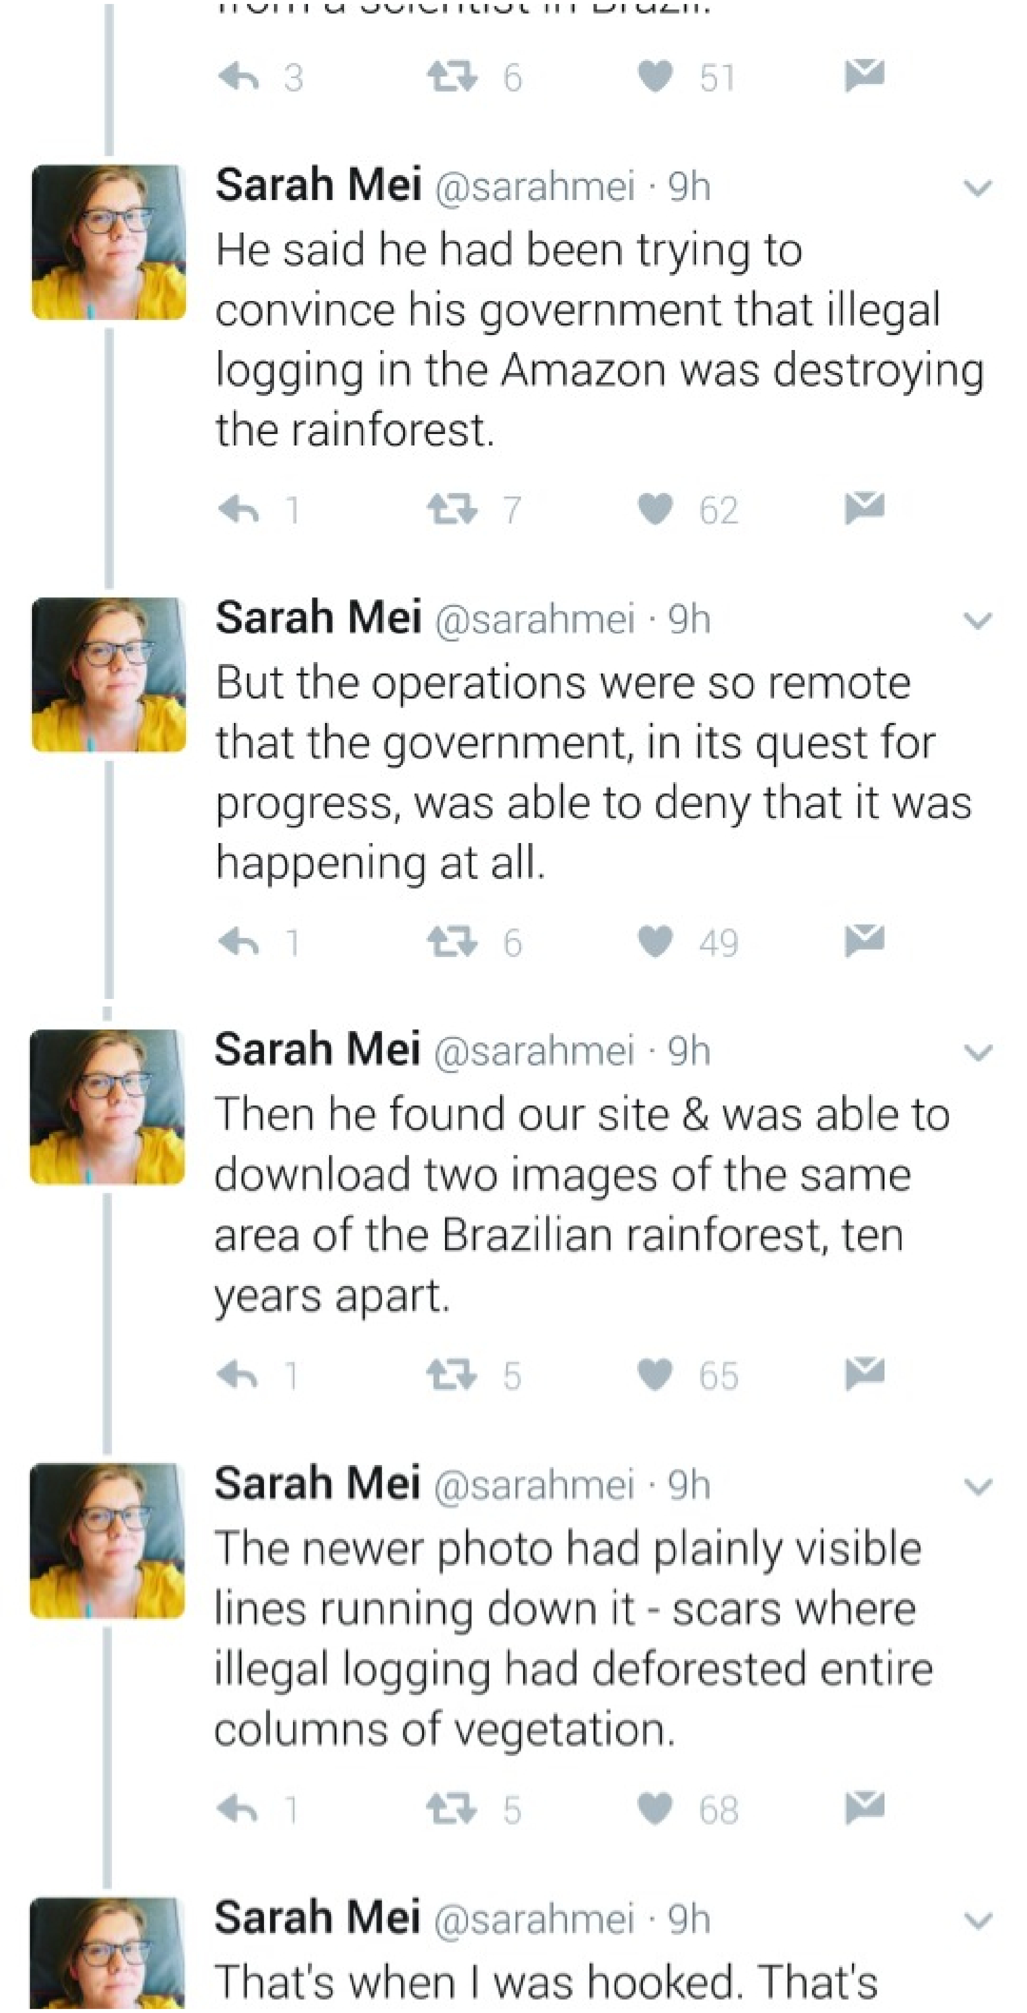
Sarah Mei @sarahmei · 9h

We scanned them in (omg tedious) and put them on the web (also kinda tedious, it was C after all) for anyone, anywhere, to access.

2 3 46

Sarah Mei @sarahmei · 9h

It didn't seem like a huge deal to me until one day, a few months after the summer was over, we got an email from a scientist in Brazil



from a scientist in Brazil.

Sarah Mei @sarahmei · 9h

He said he had been trying to convince his government that illegal logging in the Amazon was destroying the rainforest.

Sarah Mei @sarahmei · 9h

But the operations were so remote that the government, in its quest for progress, was able to deny that it was happening at all.

Sarah Mei @sarahmei · 9h

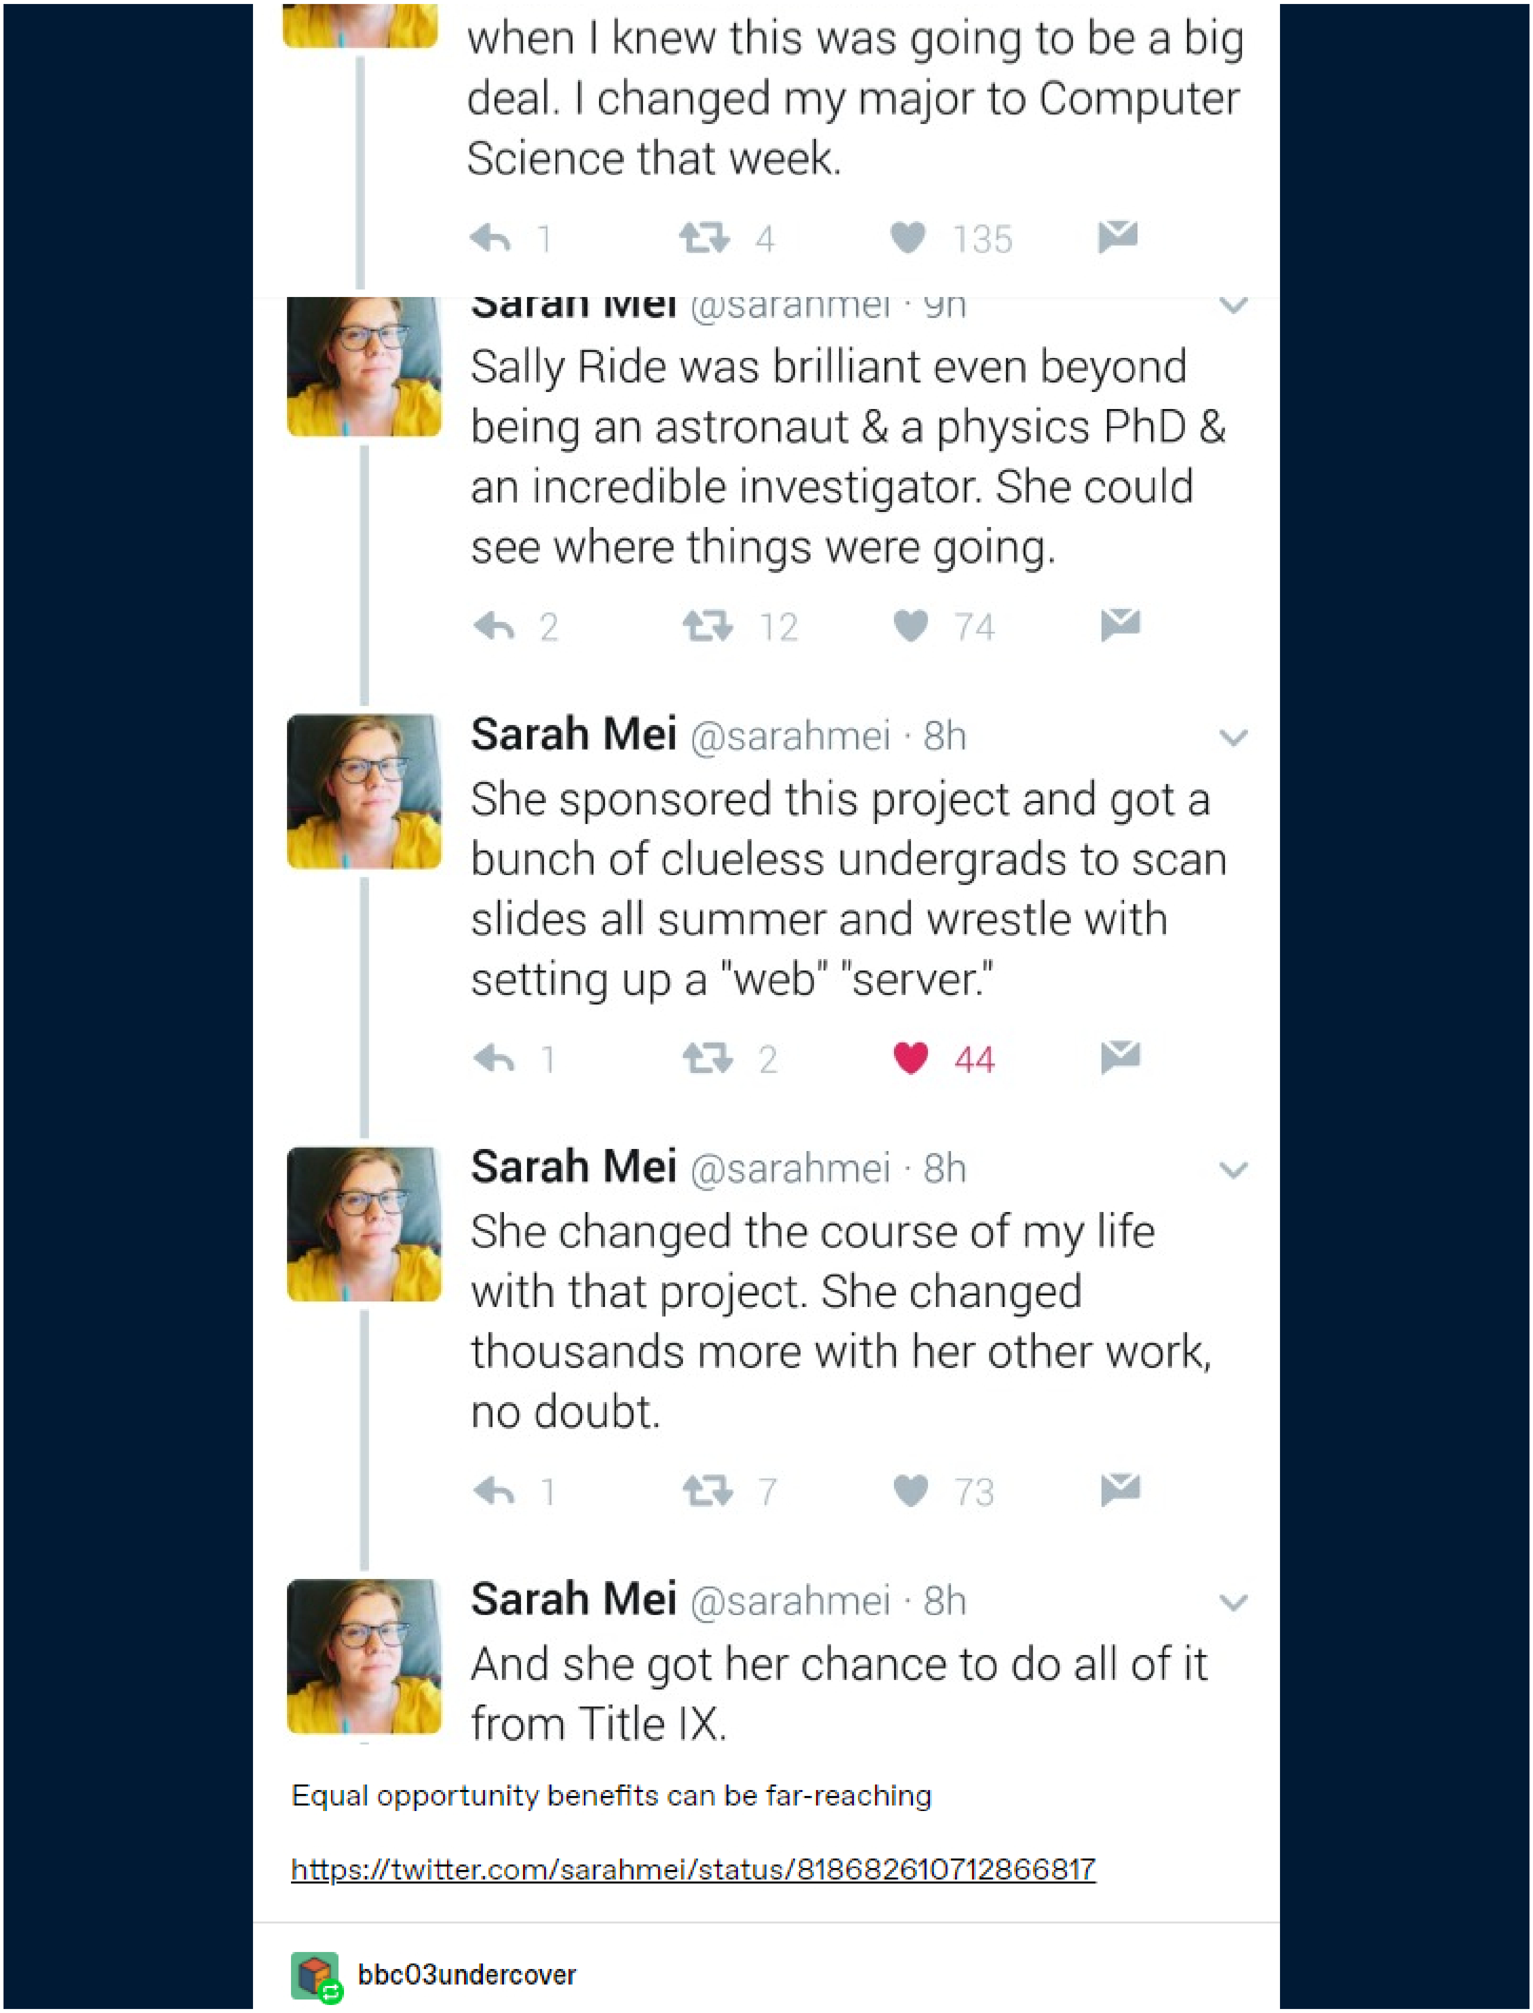
Then he found our site & was able to download two images of the same area of the Brazilian rainforest, ten years apart.

Sarah Mei @sarahmei · 9h

The newer photo had plainly visible lines running down it - scars where illegal logging had deforested entire columns of vegetation.

Sarah Mei @sarahmei · 9h

That's when I was hooked. That's



when I knew this was going to be a big deal. I changed my major to Computer Science that week.

Sarah Mei @sarahmei · 9h

Sally Ride was brilliant even beyond being an astronaut & a physics PhD & an incredible investigator. She could see where things were going.

Sarah Mei @sarahmei · 8h

She sponsored this project and got a bunch of clueless undergrads to scan slides all summer and wrestle with setting up a "web" "server."

Sarah Mei @sarahmei · 8h

She changed the course of my life with that project. She changed thousands more with her other work, no doubt.

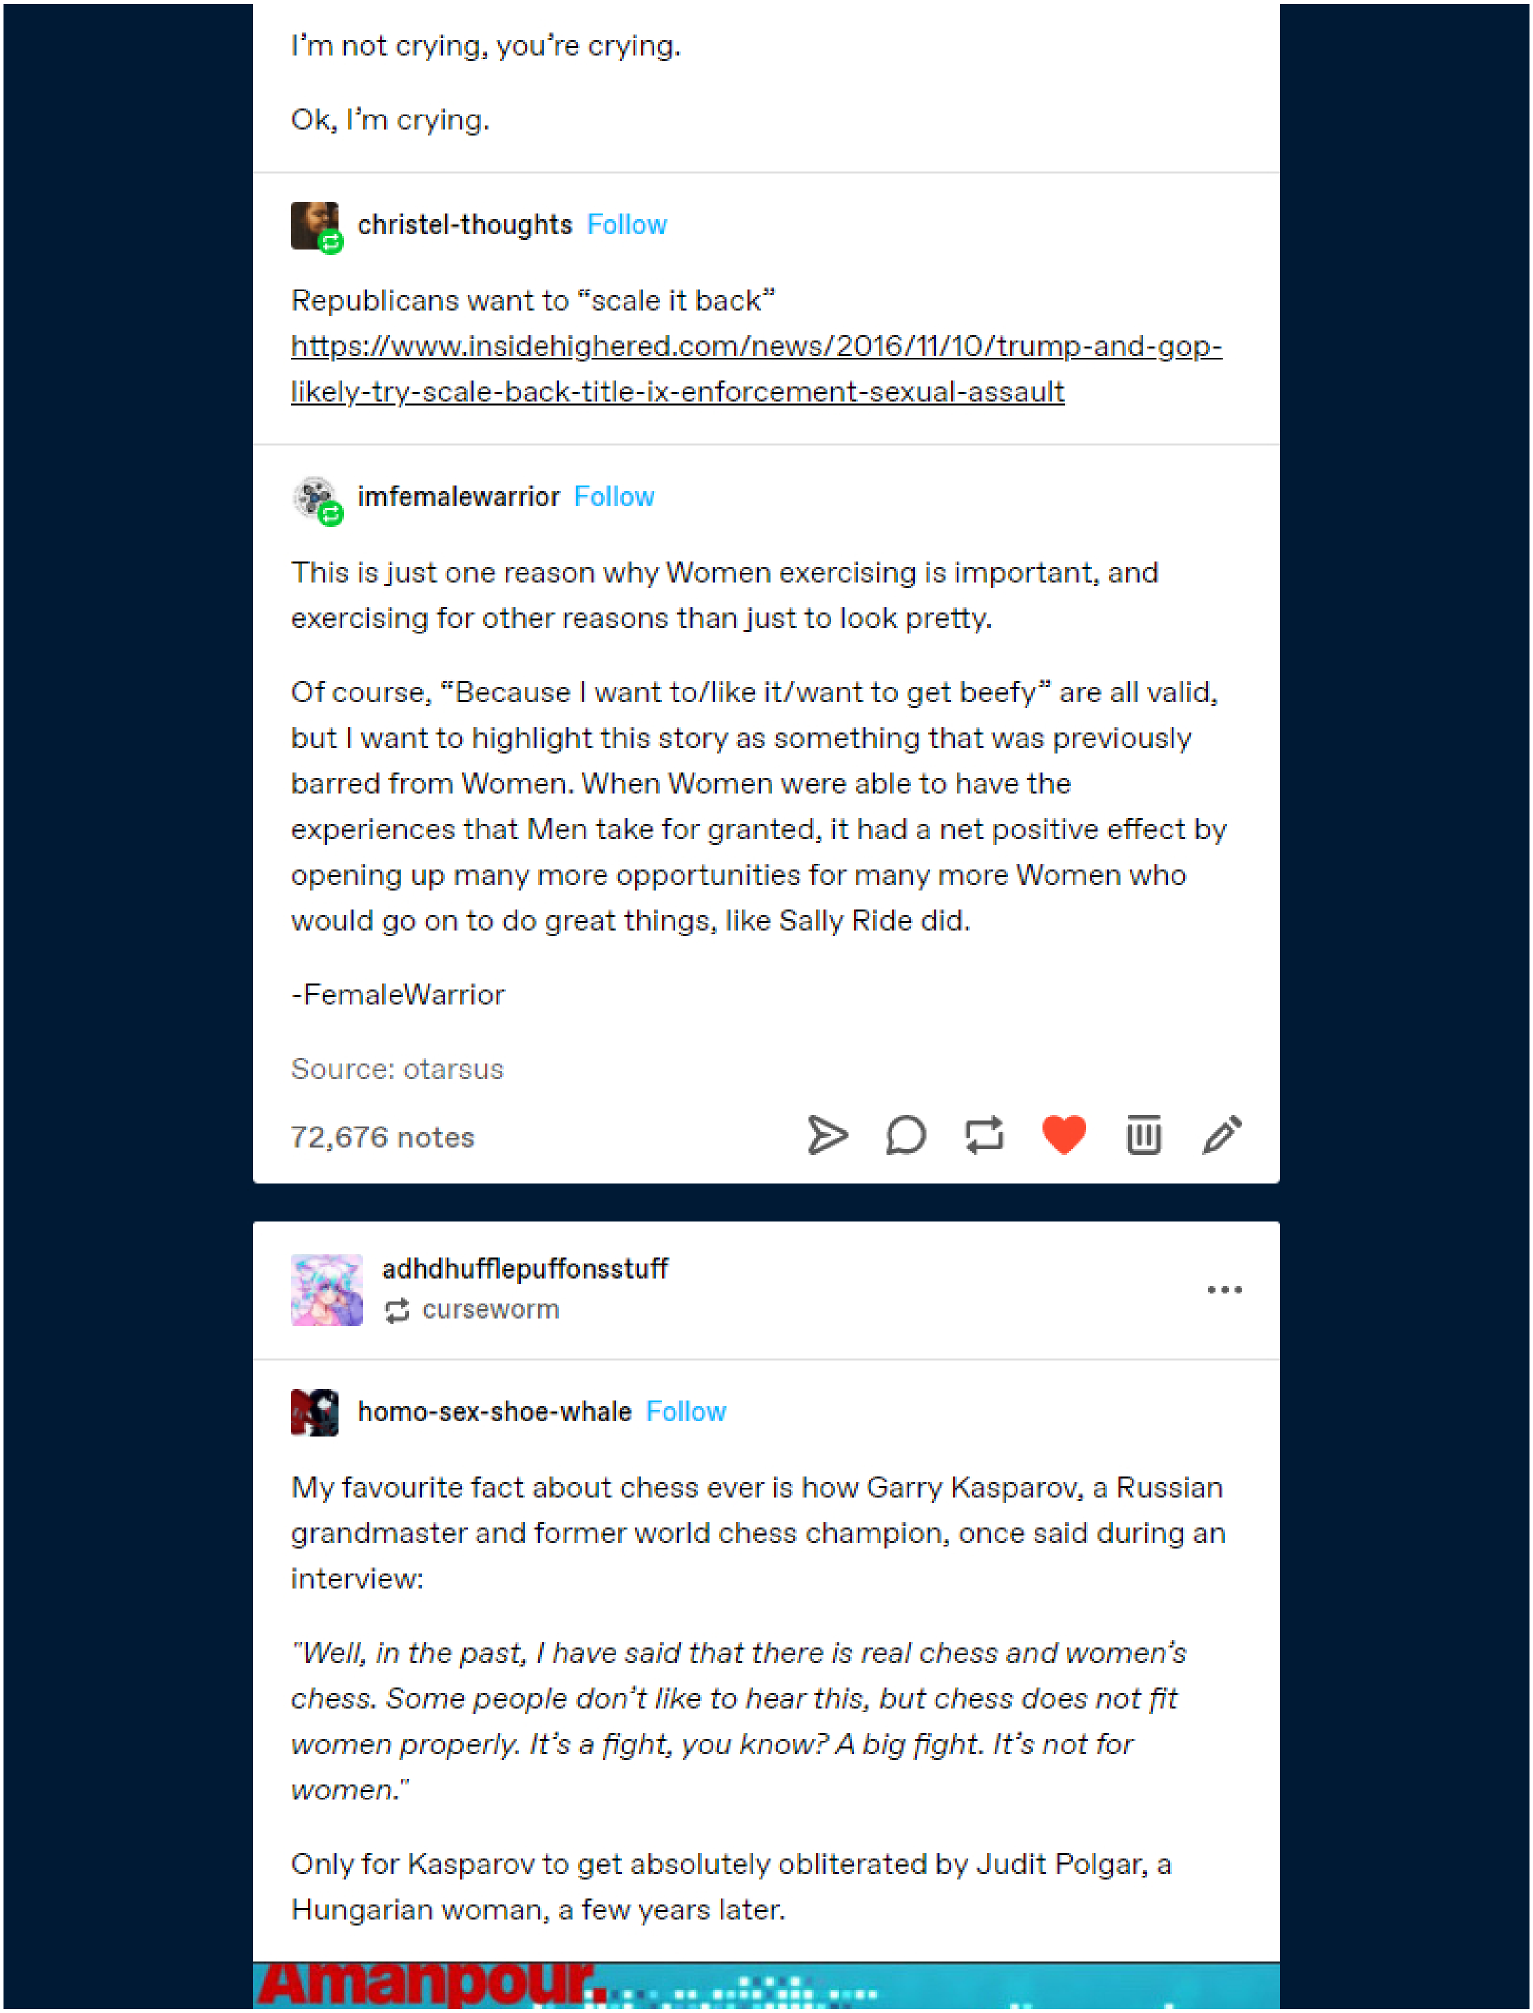
Sarah Mei @sarahmei · 8h

And she got her chance to do all of it from Title IX.

Equal opportunity benefits can be far-reaching

https://twitter.com/sarahmei/status/818682610712866817

bbc03undercover



I'm not crying, you're crying.

Ok, I'm crying.

Republicans want to "scale it back"
https://www.insidehighered.com/news/2016/11/10/trump-and-gop-likely-try-scale-back-title-ix-enforcement-sexual-assault

imfemalewarrior

This is just one reason why Women exercising is important, and exercising for other reasons than just to look pretty.

Of course, "Because I want to/like it/want to get beefy" are all valid, but I want to highlight this story as something that was previously barred from Women. When Women were able to have the experiences that Men take for granted, it had a net positive effect by opening up many more opportunities for many more Women who would go on to do great things, like Sally Ride did.

homo-sex-shoe-whale

My favourite fact about chess ever is how Garry Kasparov, a Russian grandmaster and former world chess champion, once said during an interview:

"Well, in the past, I have said that there is real chess and women's chess. Some people don't like to hear this, but chess does not fit women properly. It's a fight, you know? A big fight. It's not for women."

Only for Kasparov to get absolutely obliterated by Judit Polgar, a Hungarian woman, a few years later.

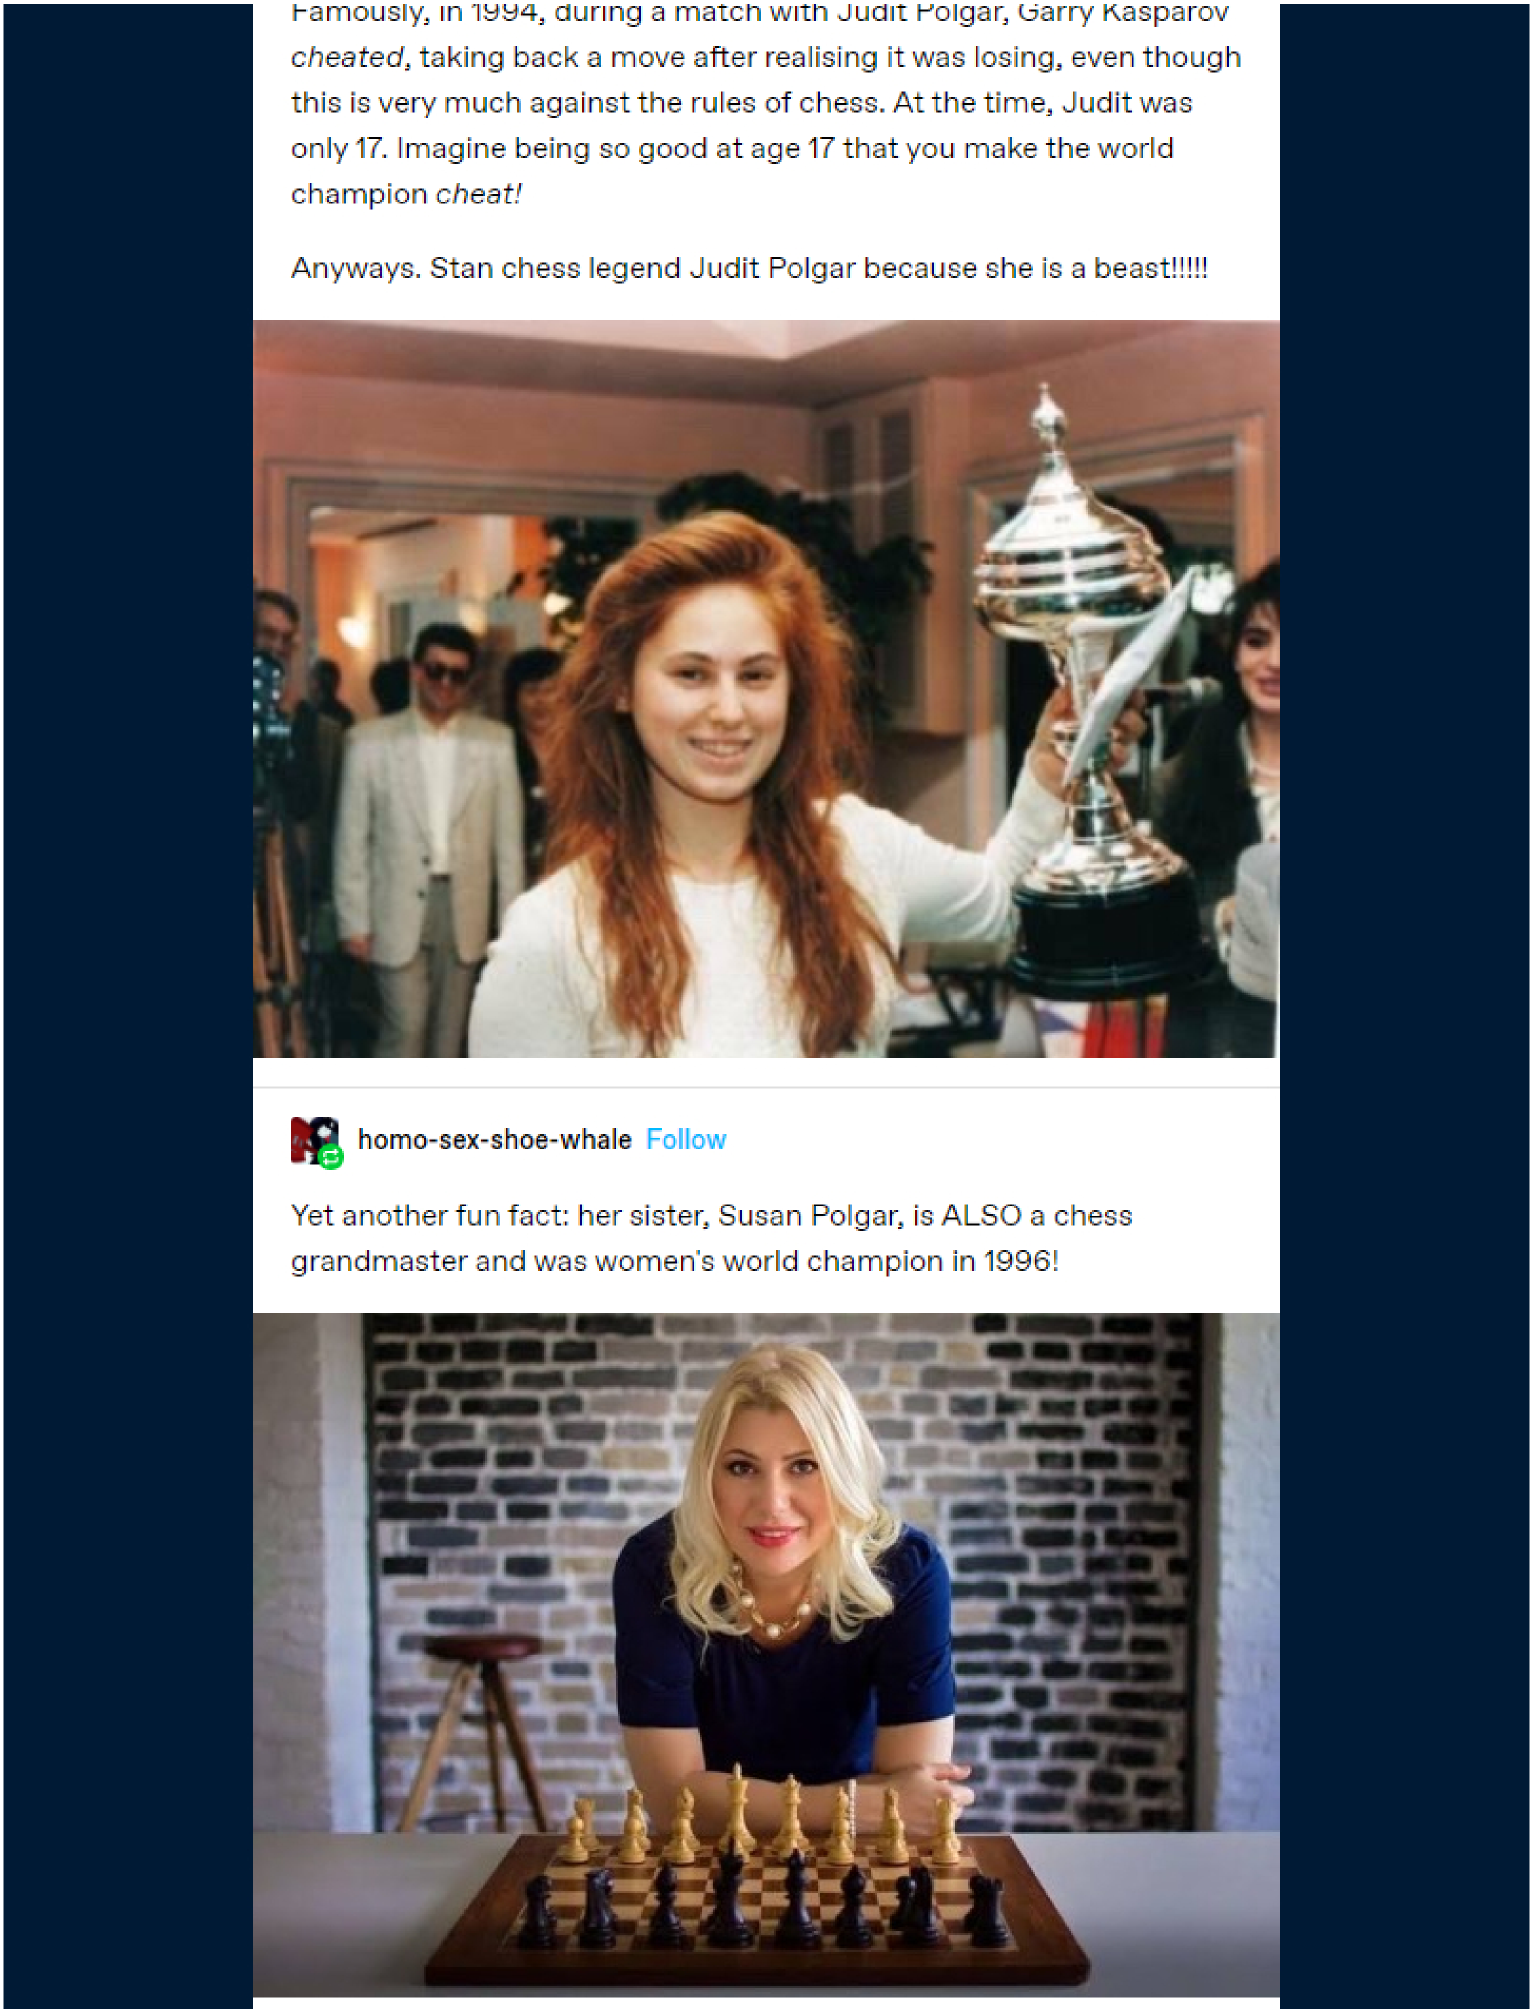
ПОЛГАР Ю.
ВЕНГРИЯ
КАСПАРОВ Г.
РОССИЯ
iru

homo-sex-shoe-whale Follow

Another fun fact: Judit Polgar, at the time of receiving her grandmaster title in 1991, was the youngest player to EVER receive the title at only age 15. Judit Polgar is straight up a chess *legend*. She was also the youngest player to ever be inducted into the FIDE top 100, ranking 55 at only age 12.

Hotel Béke Radisson Budapest
POLGÁR JUDIT
BORIS SPASSKY

Judit has defeated numerous other chess legends, such as Anatoly Karpov, Viswanathan Anand, and Boris Spassky, *all* former world chess champions. She has even won a match against Magnus Carlsen, who is the *current* world chess champion as of 2021. When I tell you this woman is a beast I mean she is RUTHLESS.

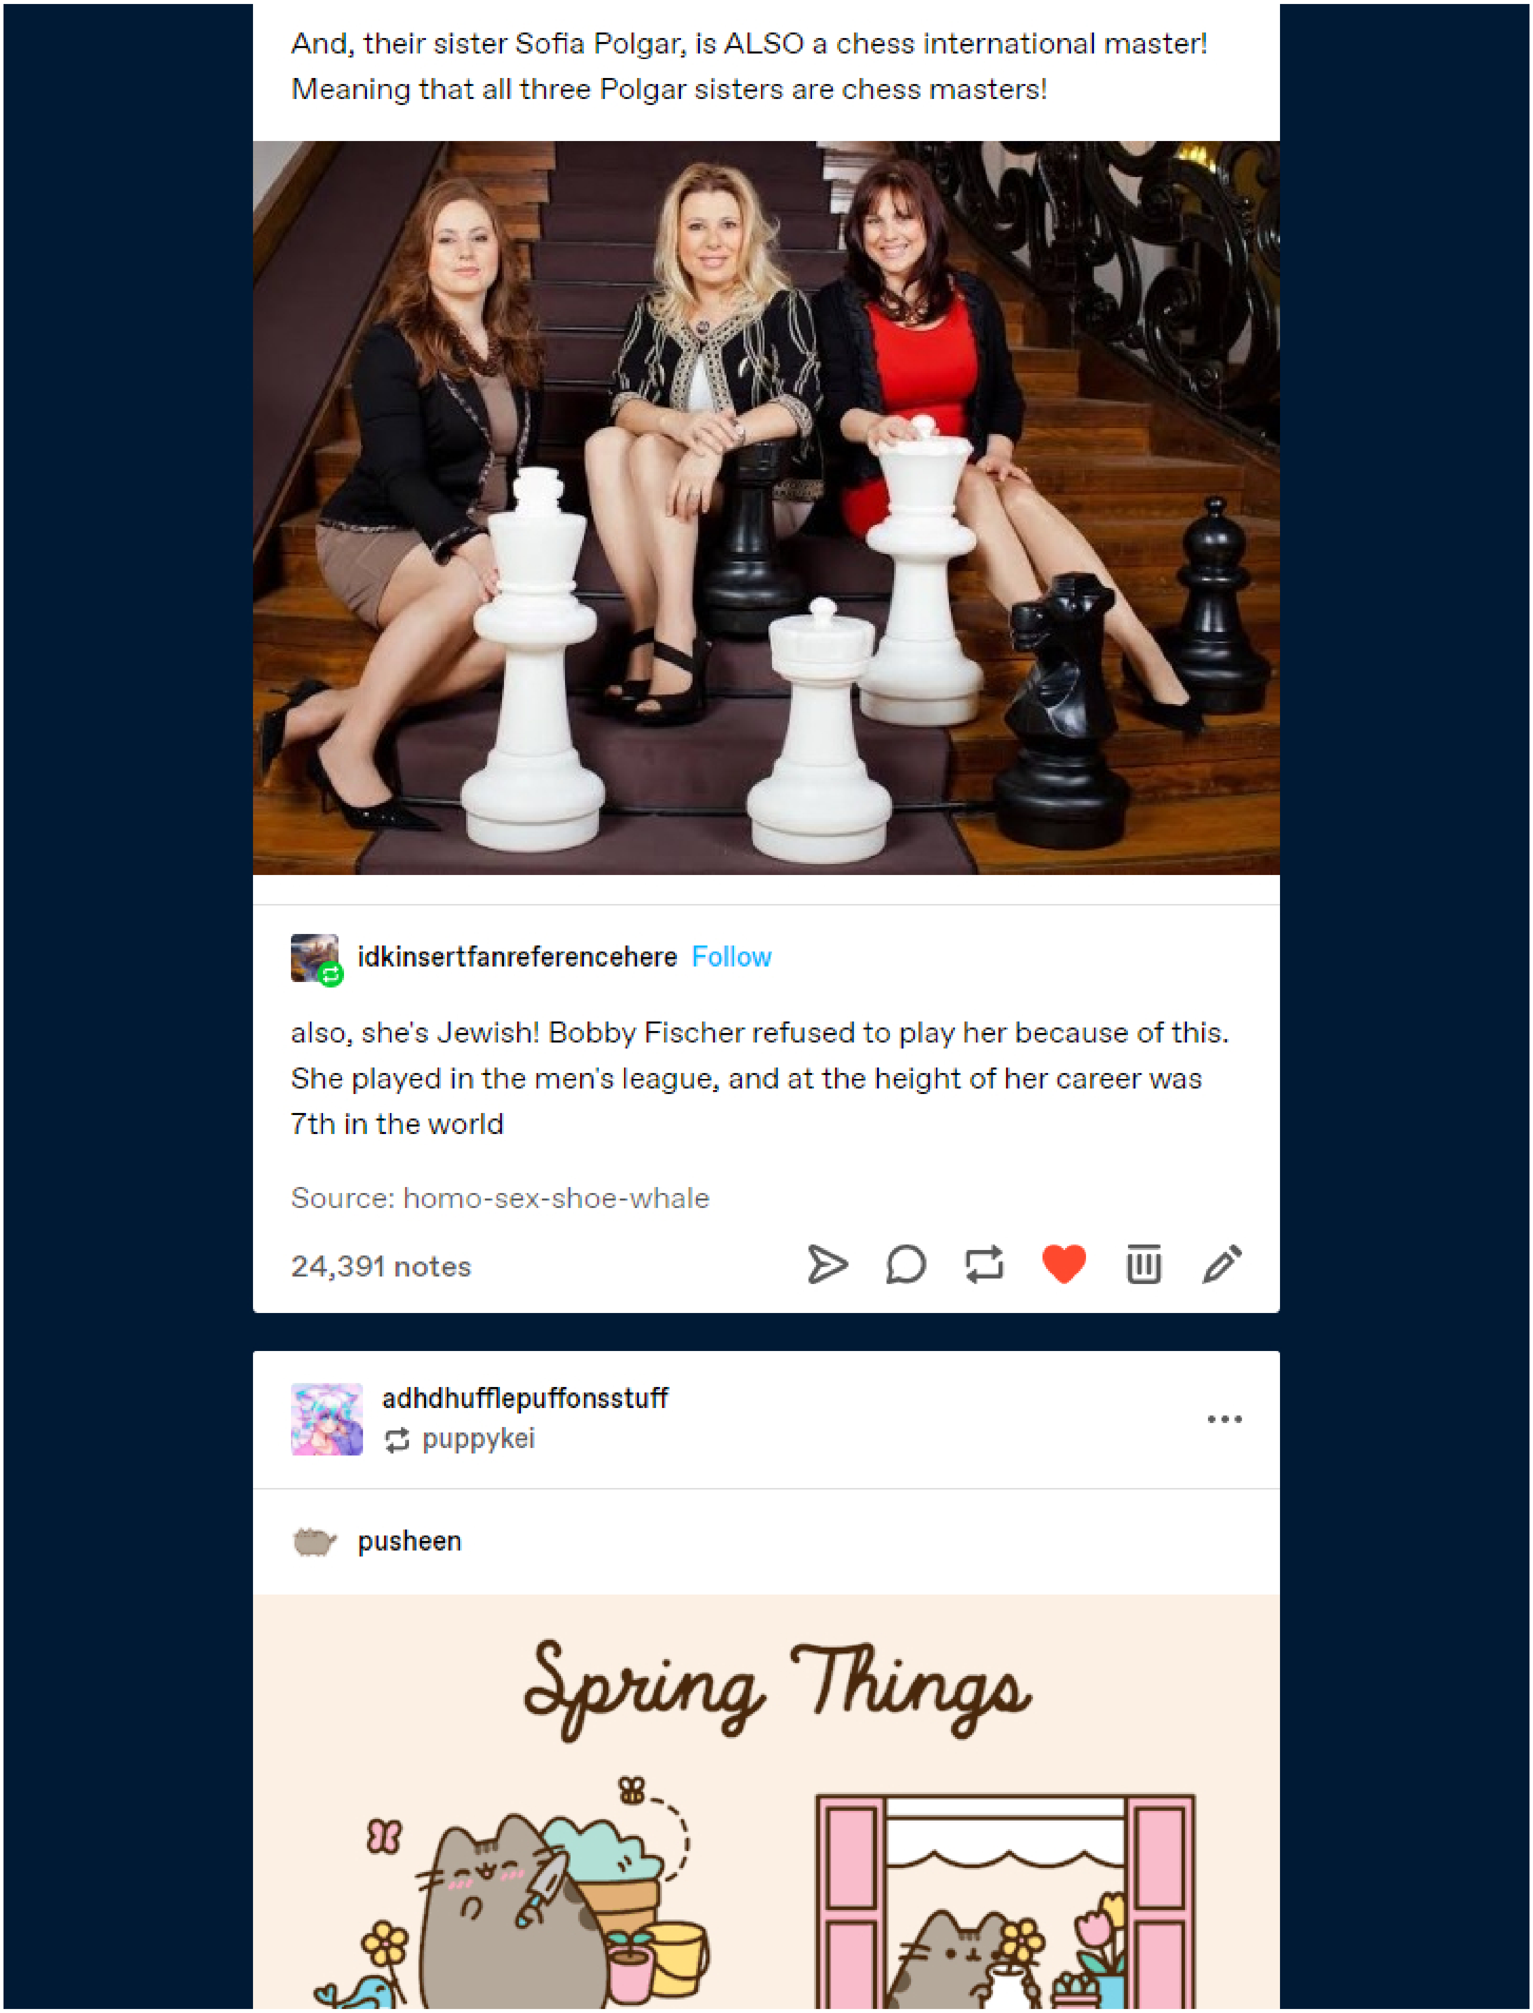


Famously, in 1994, during a match with Judit Polgar, Garry Kasparov *cheated*, taking back a move after realising it was losing, even though this is very much against the rules of chess. At the time, Judit was only 17. Imagine being so good at age 17 that you make the world champion *cheat!*

Anyways. Stan chess legend Judit Polgar because she is a beast!!!!!

homo-sex-shoe-whale Follow

Yet another fun fact: her sister, Susan Polgar, is ALSO a chess grandmaster and was women's world champion in 1996!



And, their sister Sofia Polgar, is ALSO a chess international master! Meaning that all three Polgar sisters are chess masters!

idkinsertfanreferencehere Follow

also, she's Jewish! Bobby Fischer refused to play her because of this. She played in the men's league, and at the height of her career was 7th in the world

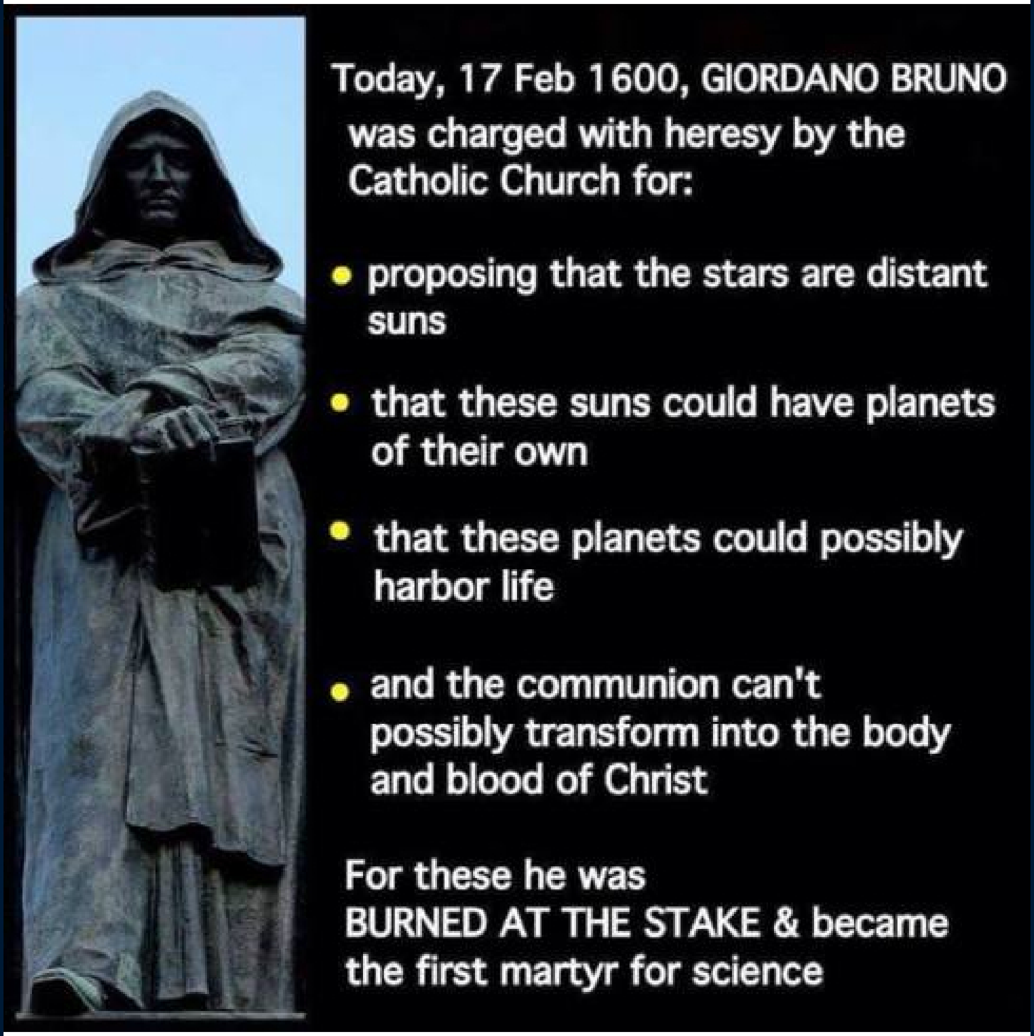
confrontingbabble-on Follow



Today, 17 Feb 1600, GIORDANO BRUNO was charged with heresy by the Catholic Church for:

- proposing that the stars are distant suns
- that these suns could have planets of their own
- that these planets could possibly harbor life
- and the communion can't possibly transform into the body and blood of Christ

For these he was BURNED AT THE STAKE & became the first martyr for science

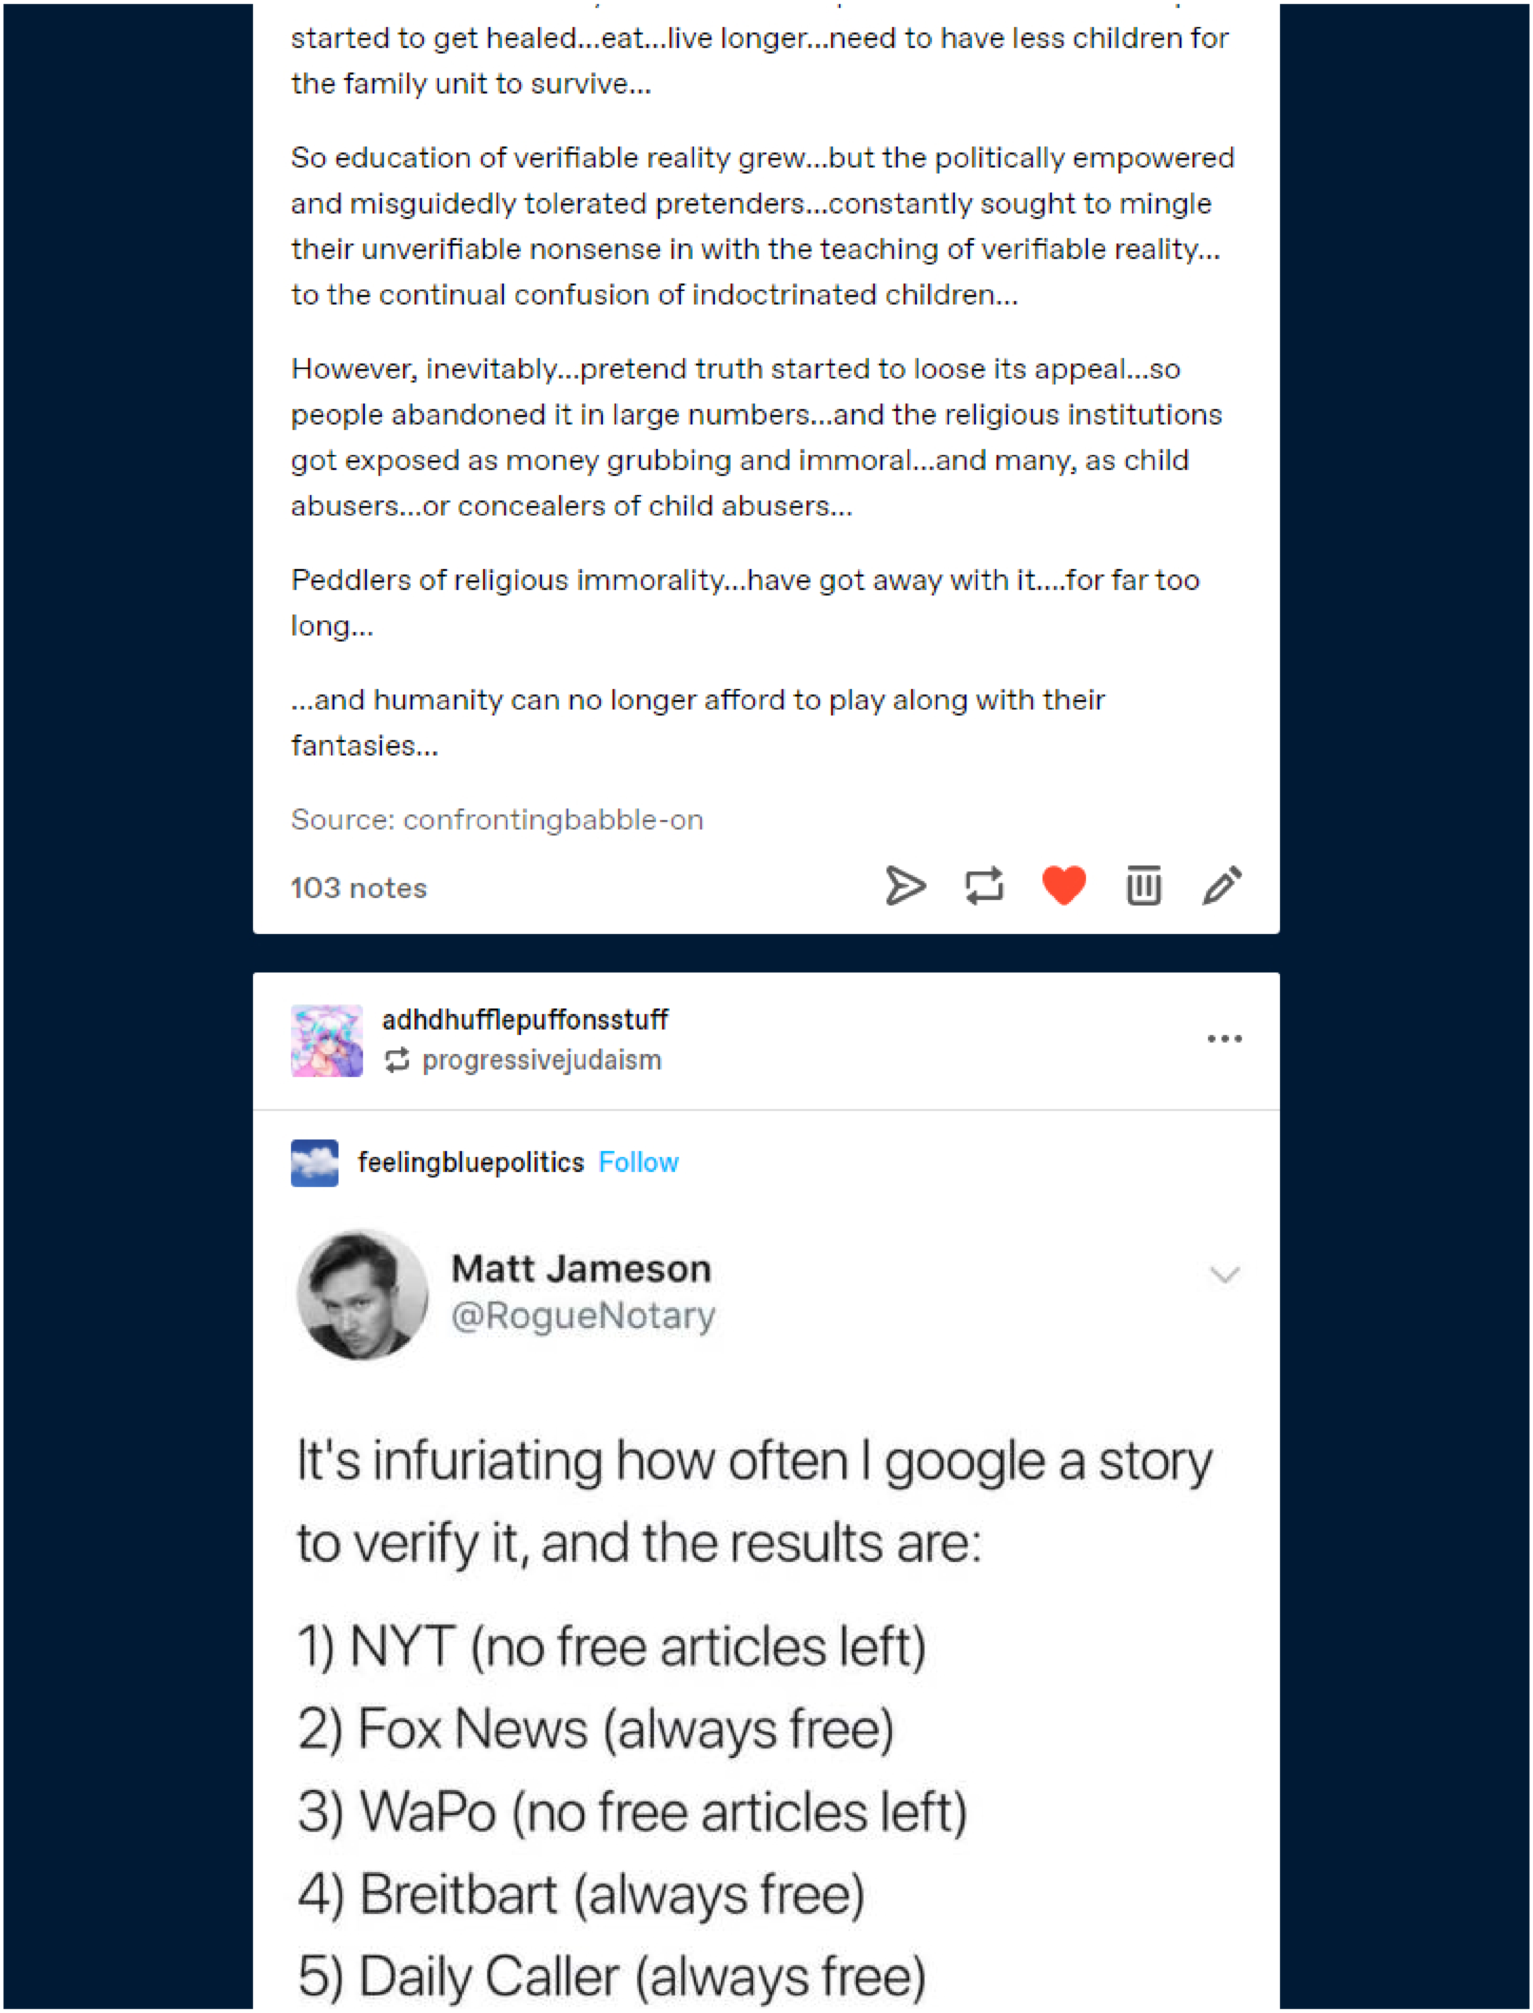
There is a very real danger...in enabling/politically empowering those...who seek to create/promote/forcefully impose pretend truth (religion/pseudoscience)... against the vulnerable in society...and all for personal enrichment...to be spent on self aggrandizement...

When religion was first concocted...those in the know...*knew*...that they were simply pulling mindless fantasy out of their ass...but the average person did not have the verifiable evidence to conclusively refute the enshrined nonsense...

But as verifiable truth about reality became progressively discovered...the pretenders had to urgently silence/conceal/eradicate the truth...An exercise which they carried out with divine enthusiasm...and extreme prejudice...

If peer pressure, bullying and ostracizing failed to produce the desired results... then enforced poverty through property confiscation...or imprisonment...or torture...or murder...were the tools god designated to be used...(*praise god...!*)

But while pretend truth only appeared to work...sometimes...real verifiable truth actually did work...so it spread like wild fire...! People



started to get healed...eat...live longer...need to have less children for the family unit to survive...

So education of verifiable reality grew...but the politically empowered and misguidedly tolerated pretenders...constantly sought to mingle their unverifiable nonsense in with the teaching of verifiable reality... to the continual confusion of indoctrinated children...

However, inevitably...pretend truth started to loose its appeal...so people abandoned it in large numbers...and the religious institutions got exposed as money grubbing and immoral...and many, as child abusers...or concealers of child abusers...

Peddlers of religious immorality...have got away with it....for far too long...

...and humanity can no longer afford to play along with their fantasies...

Pro tip: If you copy and paste a link that said “no free articles” into a private/incognito browser, it will let you read the whole thing.

hallaking99

also if u press the “esc” (escape) key on ur laptop before the page fully loads, it won’t load any pop-ups blocking u from reading. if the article has images, then this method sometimes does not u see them. but! the words will be fine :)

bestgirlsystem Follow

If the site is particularly badly designed, you might just be able to delete the overlay itself. Right click > Inspect element and delete the line of HTML (it’ll be highlighted automatically)

woodentempest Follow

hey kids there is a website called outline.com that will let you read from pretty much any news site with a paywall for free

runcibility Follow

outline.com is amazing - it hasn’t failed yet on **any** site that I’ve tried it on.

There’s a chrome extension and firefox extension.

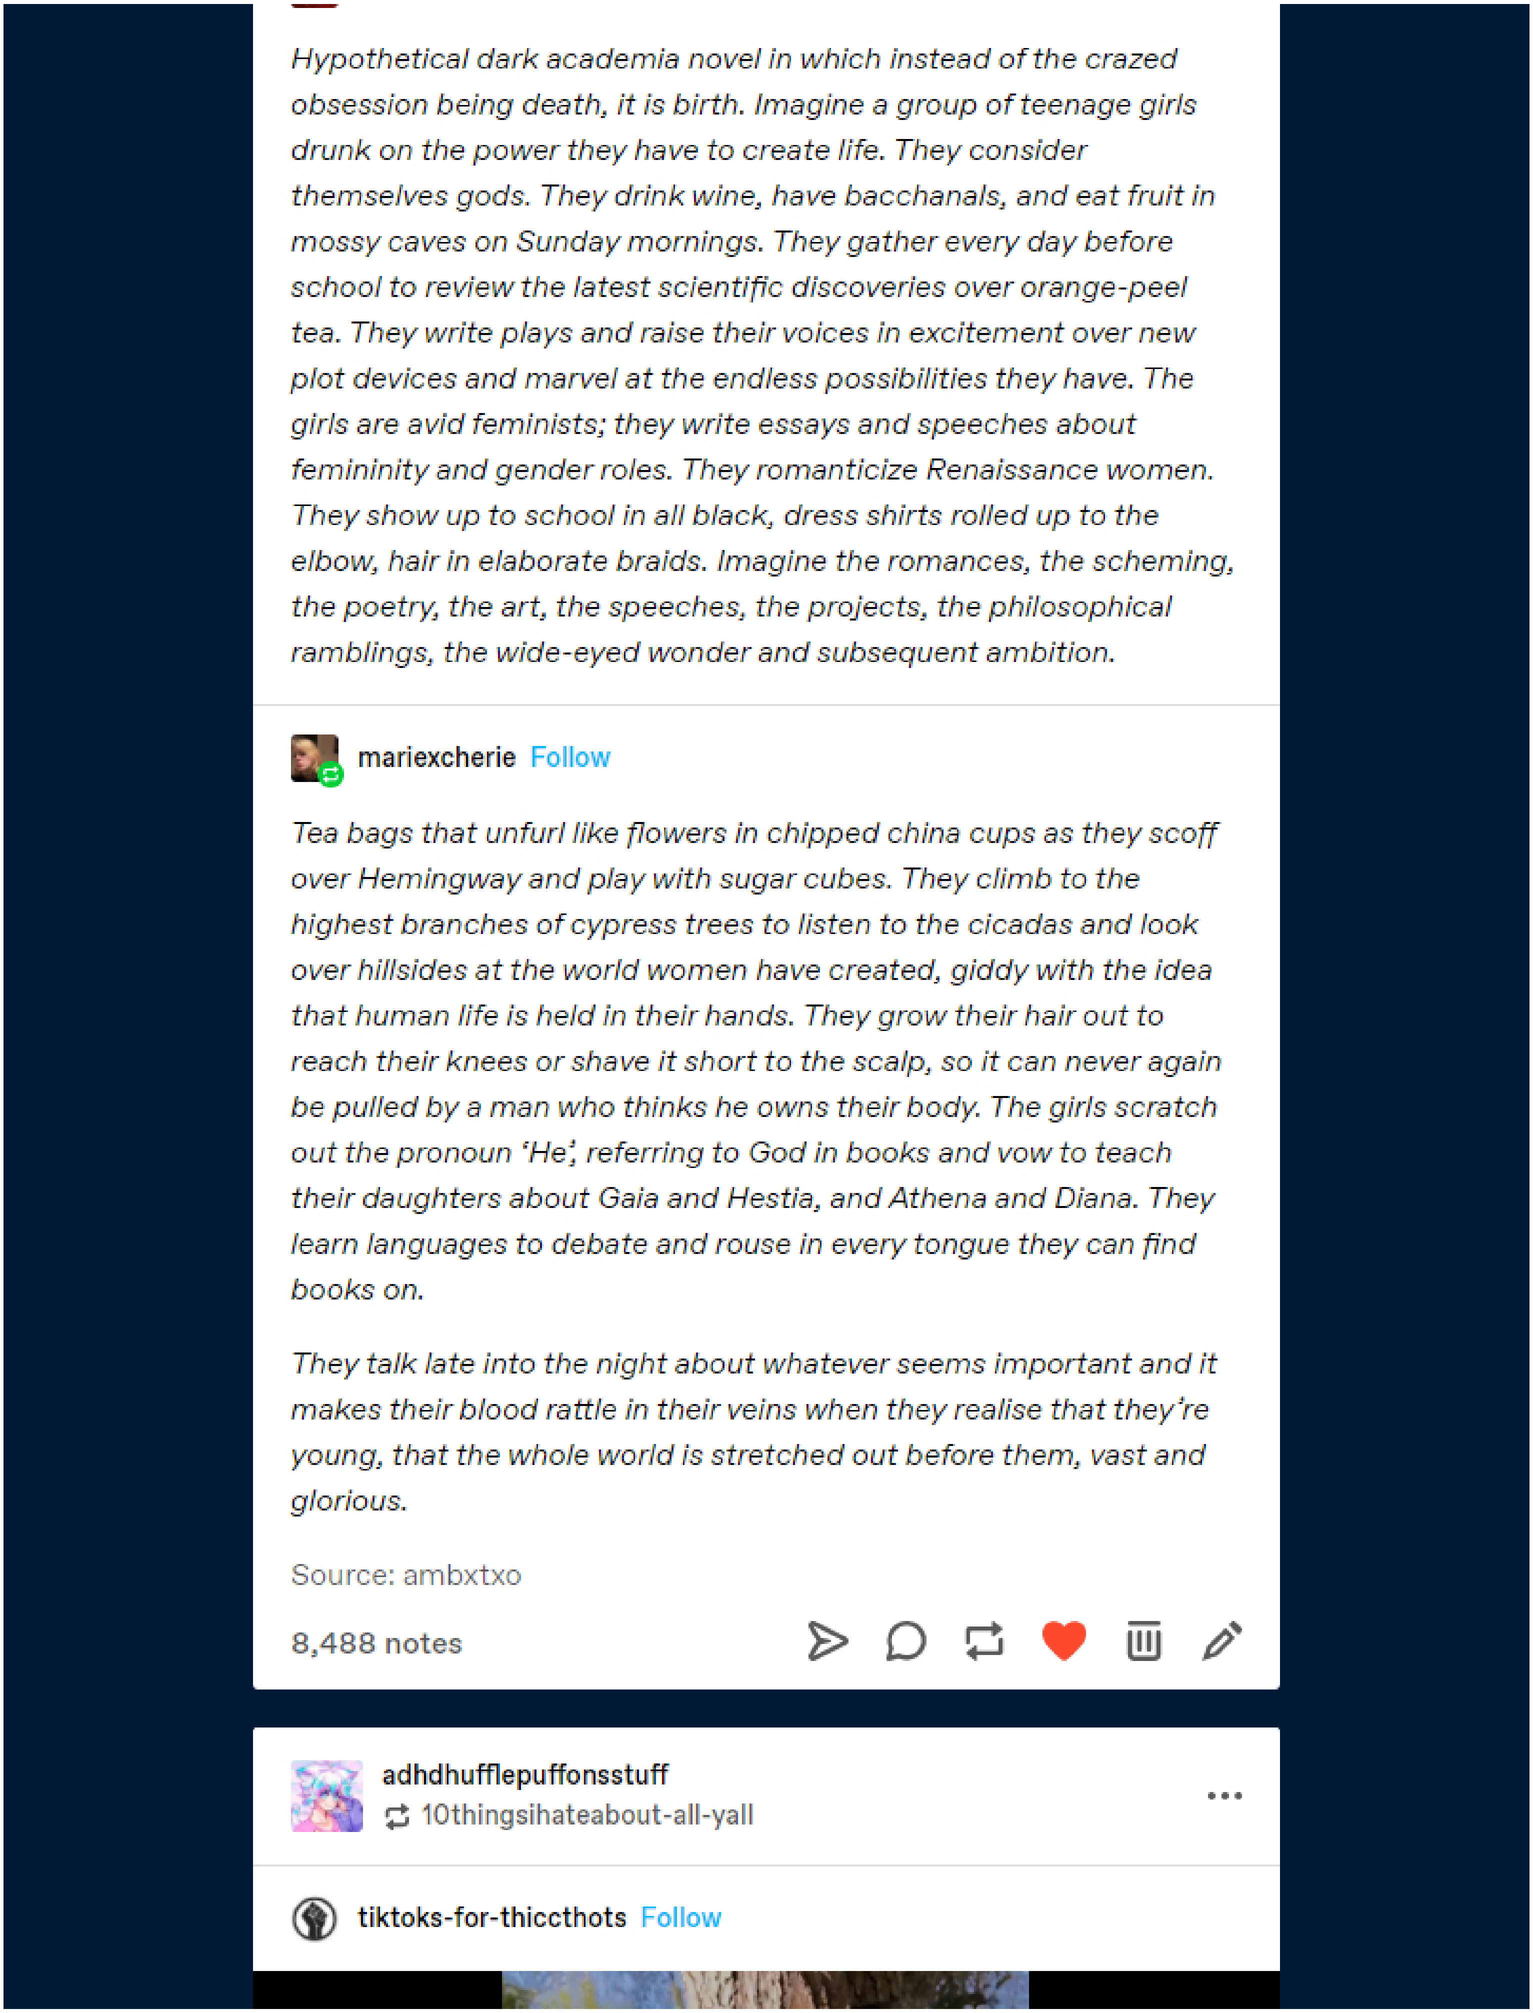
ambxtxo



Hypothetical dark academia novel in which instead of the crazed obsession being death, it is birth. Imagine a group of teenage girls drunk on the power they have to create life. They consider themselves gods. They drink wine, have bacchanals, and eat fruit in mossy caves on Sunday mornings. They gather every day before school to review the latest scientific discoveries over orange-peel tea. They write plays and raise their voices in excitement over new plot devices and marvel at the endless possibilities they have. The girls are avid feminists; they write essays and speeches about femininity and gender roles. They romanticize Renaissance women. They show up to school in all black, dress shirts rolled up to the elbow, hair in elaborate braids. Imagine the romances, the scheming, the poetry, the art, the speeches, the projects, the philosophical ramblings, the wide-eyed wonder and subsequent ambition.

mariexcherie

Tea bags that unfurl like flowers in chipped china cups as they scoff over Hemingway and play with sugar cubes. They climb to the highest branches of cypress trees to listen to the cicadas and look over hillsides at the world women have created, giddy with the idea that human life is held in their hands. They grow their hair out to reach their knees or shave it short to the scalp, so it can never again be pulled by a man who thinks he owns their body. The girls scratch out the pronoun 'He', referring to God in books and vow to teach their daughters about Gaia and Hestia, and Athena and Diana. They learn languages to debate and rouse in every tongue they can find books on.

They talk late into the night about whatever seems important and it makes their blood rattle in their veins when they realise that they're young, that the whole world is stretched out before them, vast and glorious.

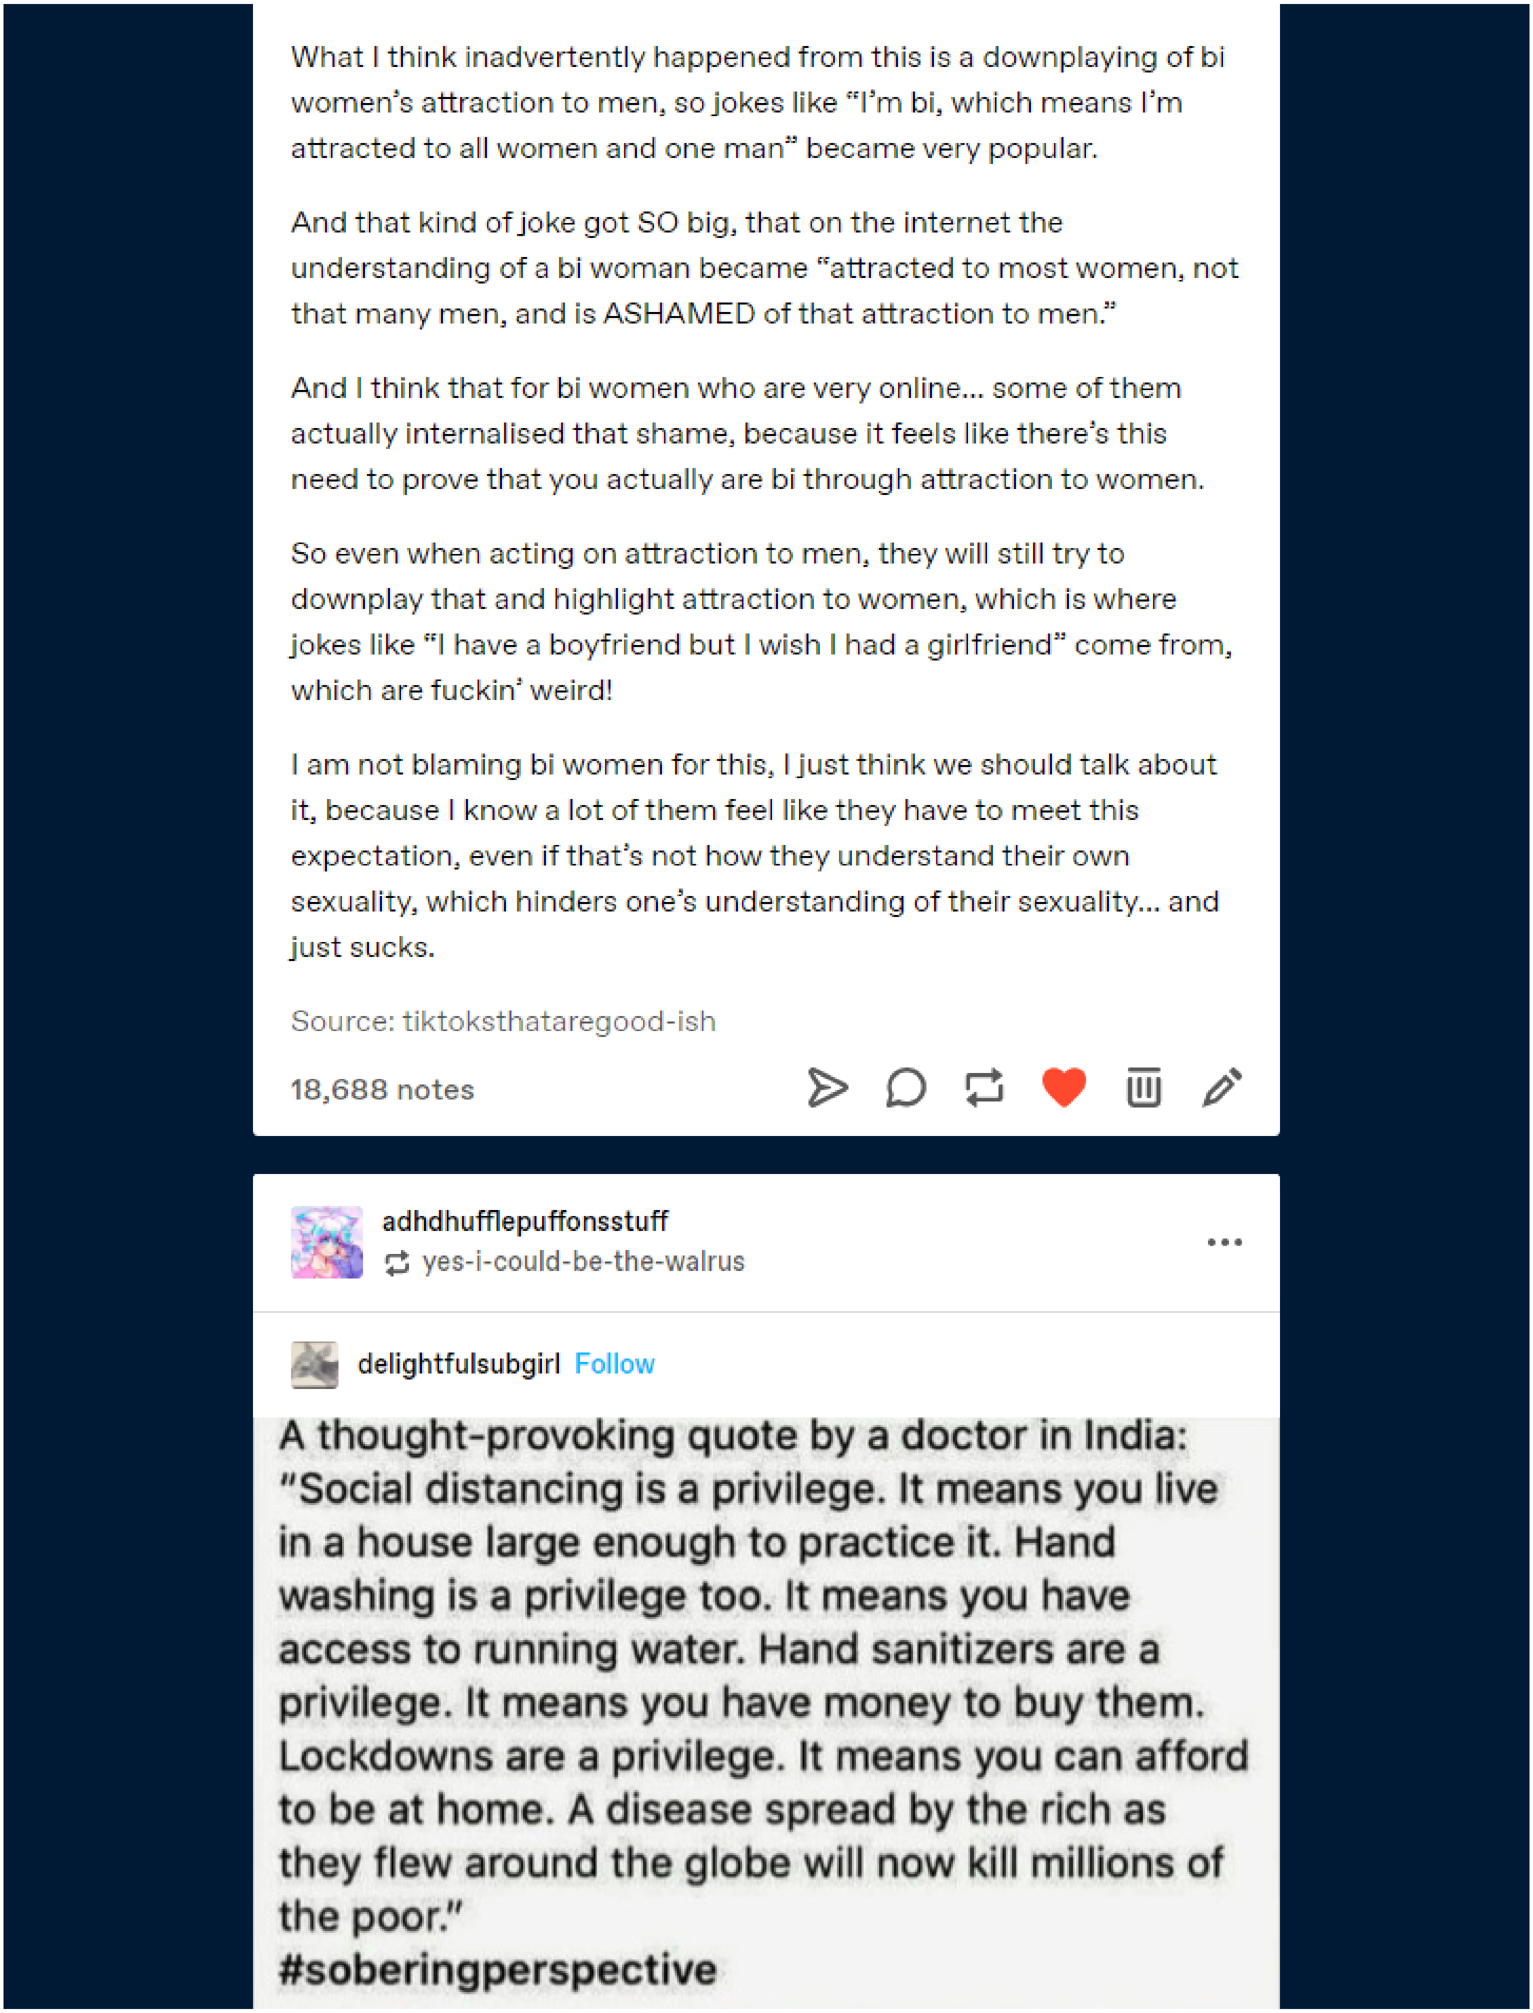
a take on being a bi woman online from someone who identified as a bi "woman" for a very long time

rosieisla

Transcript:

What I think is that obviously there's a long history of bi women being told they're "just straight."

So, around 2015, mostly on tumblr, there was a really big push to highlight bi women's attraction to other women.



What I think inadvertently happened from this is a downplaying of bi women's attraction to men, so jokes like "I'm bi, which means I'm attracted to all women and one man" became very popular.

And that kind of joke got SO big, that on the internet the understanding of a bi woman became "attracted to most women, not that many men, and is ASHAMED of that attraction to men."

And I think that for bi women who are very online… some of them actually internalised that shame, because it feels like there's this need to prove that you actually are bi through attraction to women.

So even when acting on attraction to men, they will still try to downplay that and highlight attraction to women, which is where jokes like "I have a boyfriend but I wish I had a girlfriend" come from, which are fuckin' weird!

I am not blaming bi women for this, I just think we should talk about it, because I know a lot of them feel like they have to meet this expectation, even if that's not how they understand their own sexuality, which hinders one's understanding of their sexuality… and just sucks.

lunah

And then she told me this.

Every Friday afternoon, she asks her students to take out a piece of paper and write down the names of four children with whom they'd like to sit the following week. The children know that these requests may or may not be honored. She also asks the students to nominate one student who they believe has been an exceptional classroom citizen that week. All ballots are privately submitted to her.

And every single Friday afternoon, after the students go home, she takes out those slips of paper, places them in front of her, and studies them. She looks for patterns.

Who is not getting requested by anyone else?

Who can't think of anyone to request?

Who never gets noticed enough to be nominated?

Who had a million friends last week and none this week?

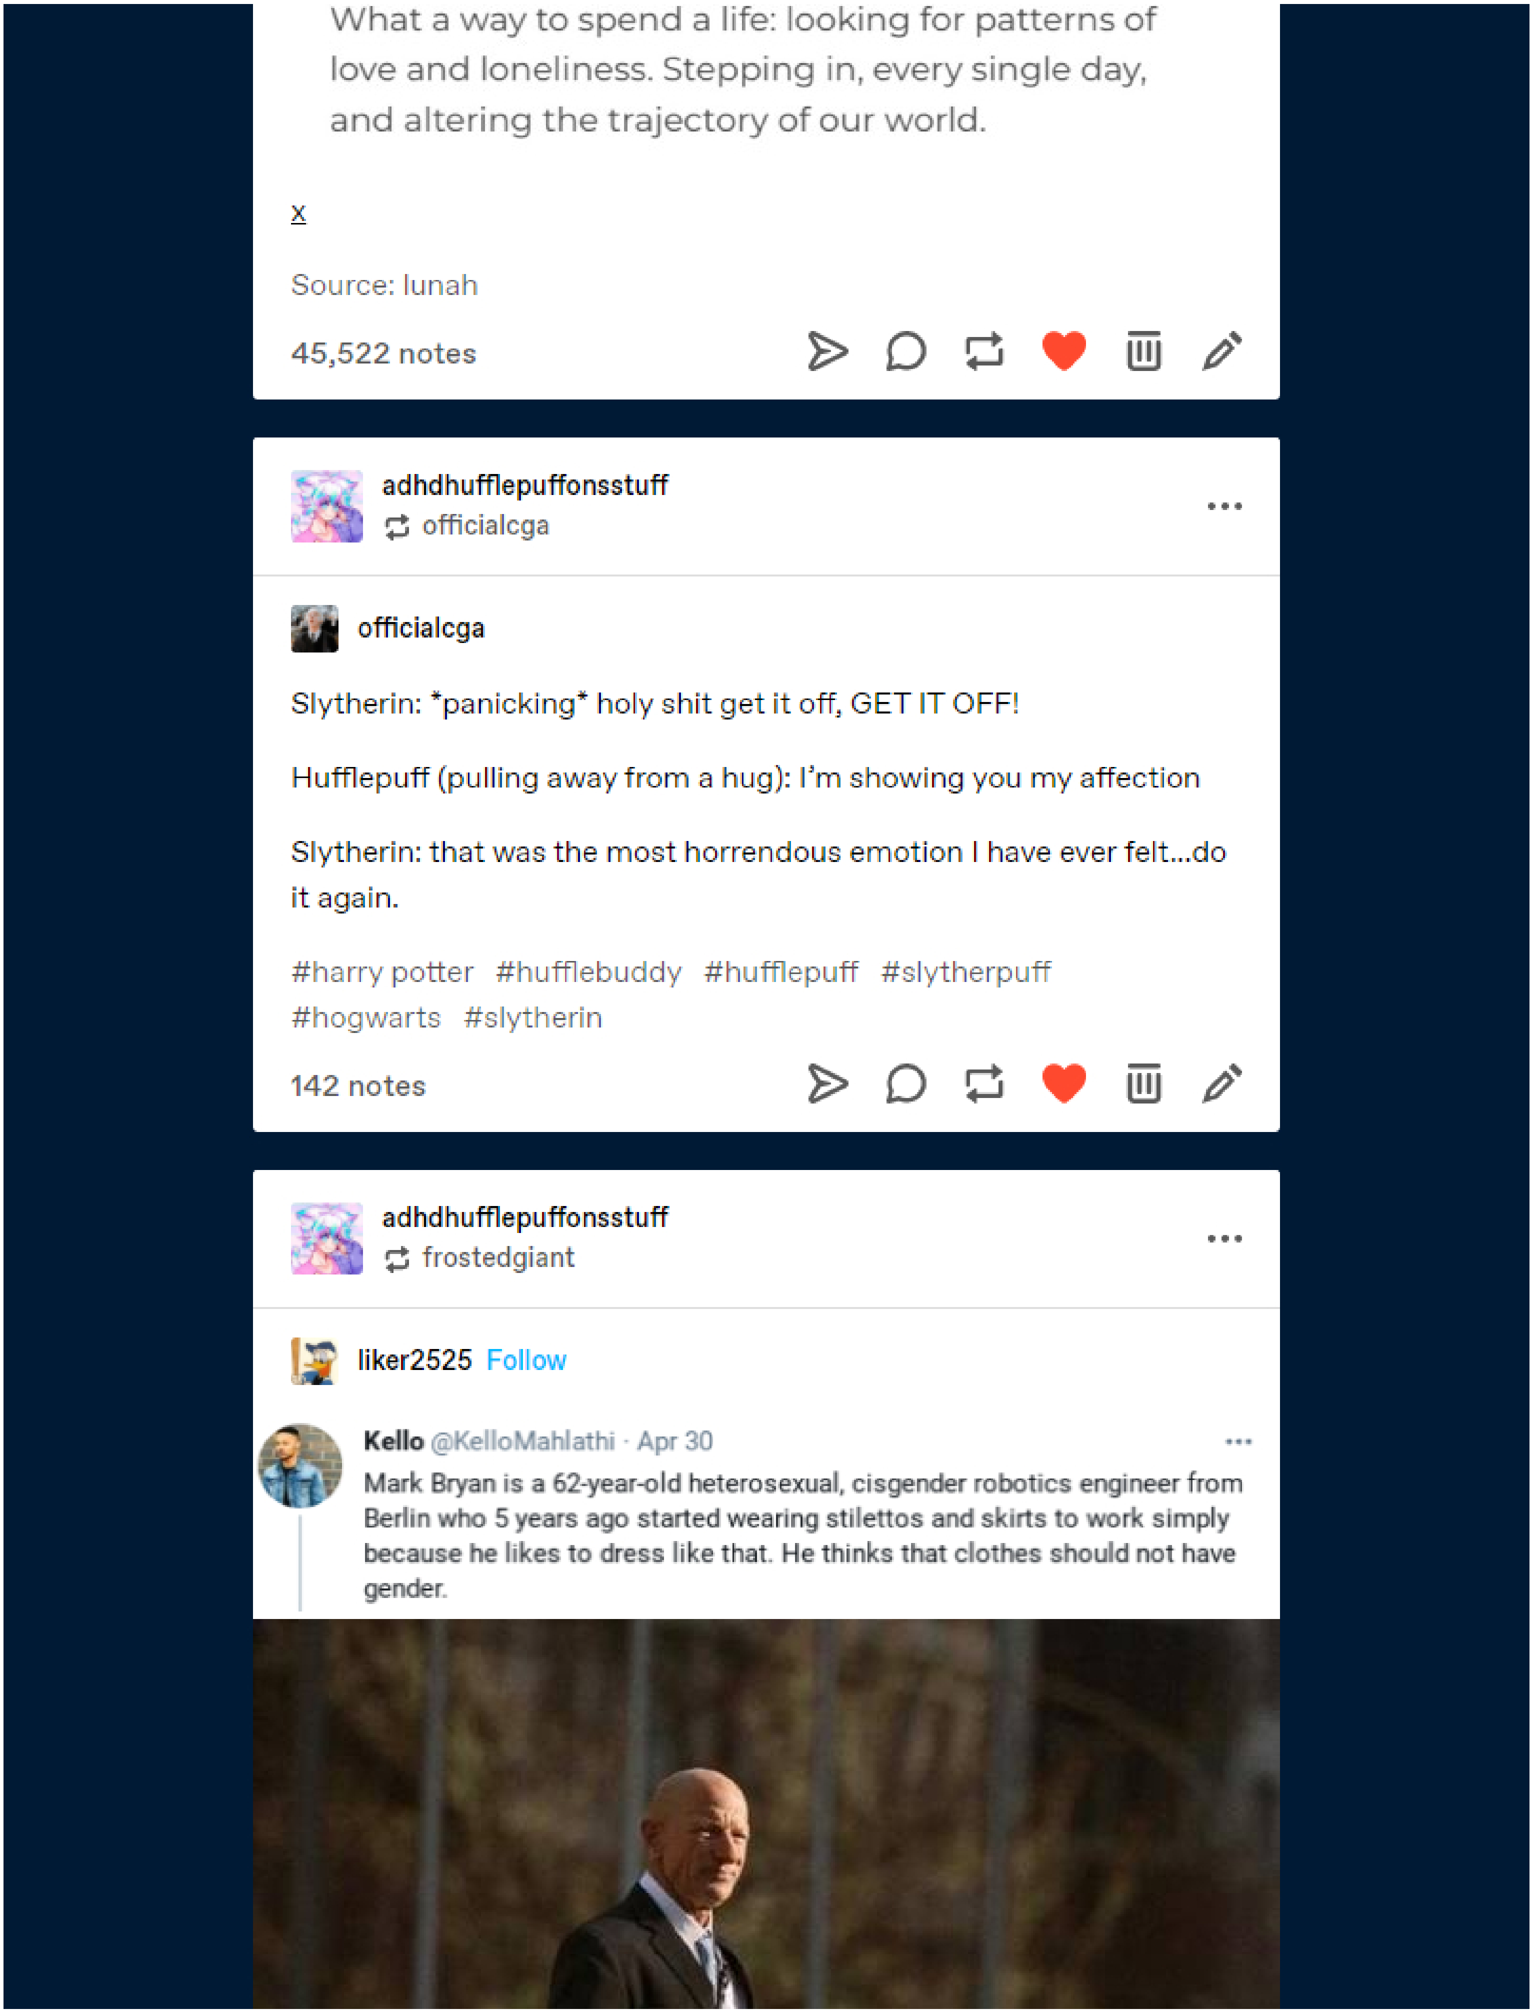
You see, Chase's teacher is not looking for a new seating chart or "exceptional citizens." Chase's teacher is looking for lonely children. She's looking for children who are struggling to connect with other children. She's identifying the little ones who are falling through the cracks of the class's social life. She is discovering whose gifts are going unnoticed by their peers. And she's pinning down—right away—who's being bullied and who is doing the bullying.

As Chase's teacher explained this simple, ingenious idea, I stared at her with my mouth hanging open. "How long have you been using this system?" I said.

Ever since Columbine, she said. Every single Friday afternoon since Columbine. Good Lord.

And what this mathematician has learned while using this system is something she really already knew: that everything—even love, even belonging—has a pattern to it. She finds the patterns, and through those lists she breaks the codes of disconnection. Then she gets lonely kids the help they need. It's math to her. It's *math*.

All is love—even math. Amazing.



What a way to spend a life: looking for patterns of love and loneliness. Stepping in, every single day, and altering the trajectory of our world.

x

Belgian farmer accidentally moves French border

4. MAI 2021

A farmer in Belgium has caused a stir after inadvertently redrawing the country's border with France.

A local history enthusiast was walking in the forest when he noticed the stone marking the boundary between the two countries had moved 2.29m (7.5ft).

The Belgian farmer, apparently annoyed by the stone in his tractor's path, had moved it inside French territory.

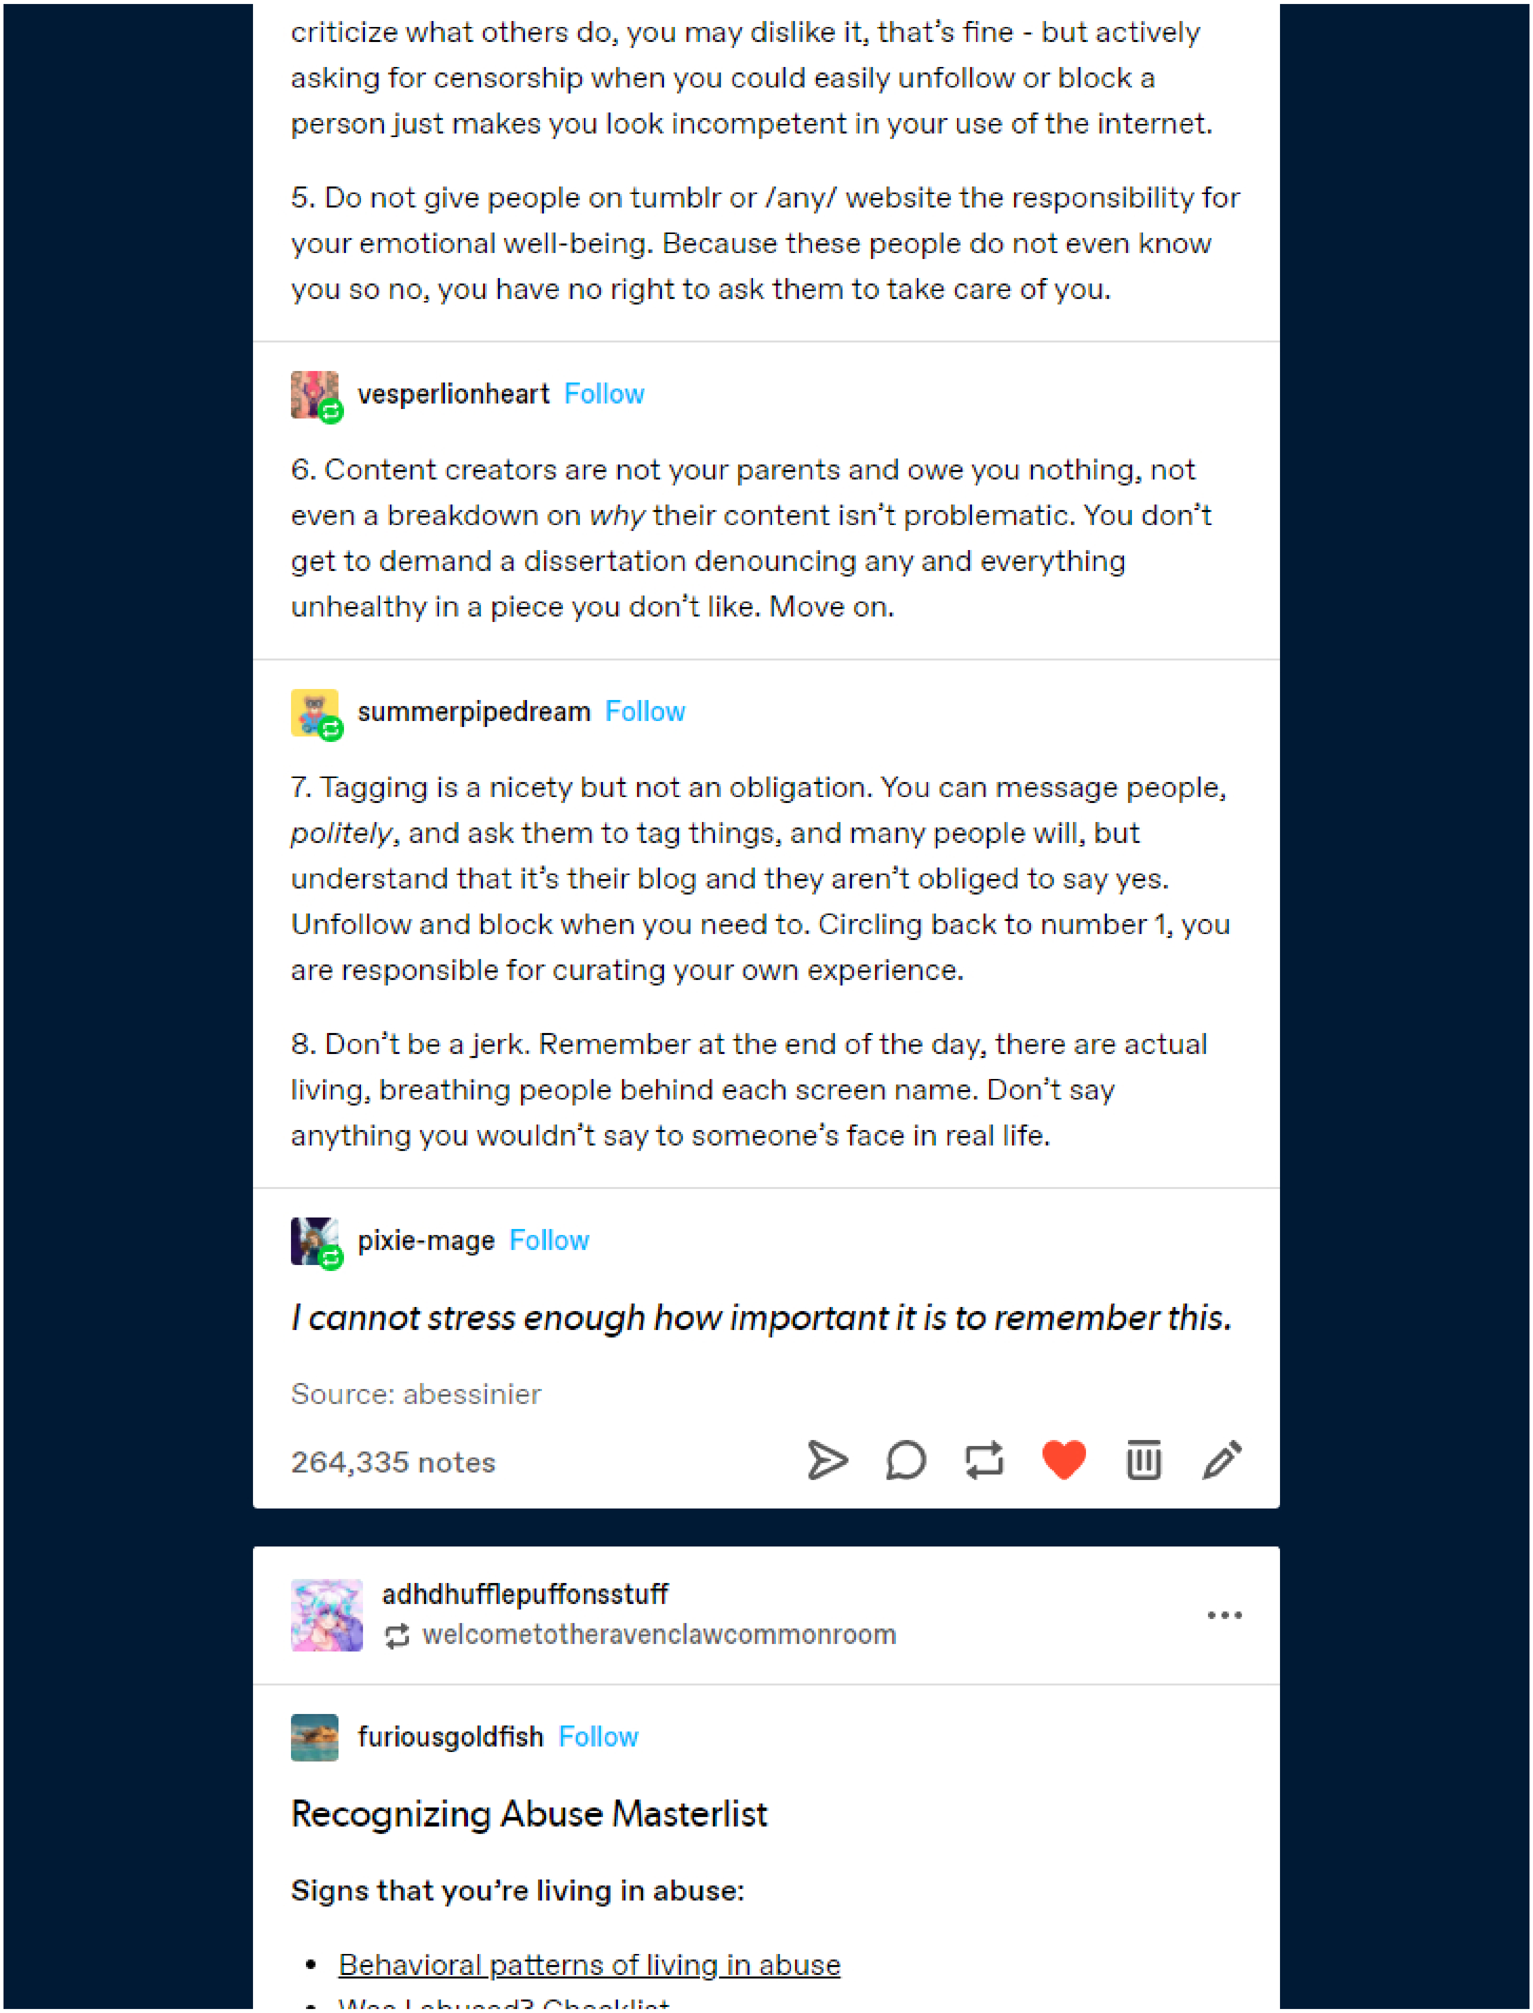
Stuff kids on tumblr better relearn

1. You are responsible for your own media experience.

2. There is such a thing as a healthy level of avoidance towards topics that make you feel unwell or even (in a real-life clinical definition of the term) trigger you - but you are the one to actively take care of what you view.

3. Avoiding does not mean policing others.

4. You have no right to tell artists to censor themselves - you may



criticize what others do, you may dislike it, that's fine - but actively asking for censorship when you could easily unfollow or block a person just makes you look incompetent in your use of the internet.

5. Do not give people on tumblr or /any/ website the responsibility for your emotional well-being. Because these people do not even know you so no, you have no right to ask them to take care of you.

vesperlionheart

6. Content creators are not your parents and owe you nothing, not even a breakdown on *why* their content isn't problematic. You don't get to demand a dissertation denouncing any and everything unhealthy in a piece you don't like. Move on.

summerpipedream

7. Tagging is a nicety but not an obligation. You can message people, *politely*, and ask them to tag things, and many people will, but understand that it's their blog and they aren't obliged to say yes. Unfollow and block when you need to. Circling back to number 1, you are responsible for curating your own experience.

8. Don't be a jerk. Remember at the end of the day, there are actual living, breathing people behind each screen name. Don't say anything you wouldn't say to someone's face in real life.

pixie-mage

I cannot stress enough how important it is to remember this.

Recognizing Abuse Masterlist

Signs that you're living in abuse:

- Behavioral patterns of living in abuse
- Was I abused? Checklist

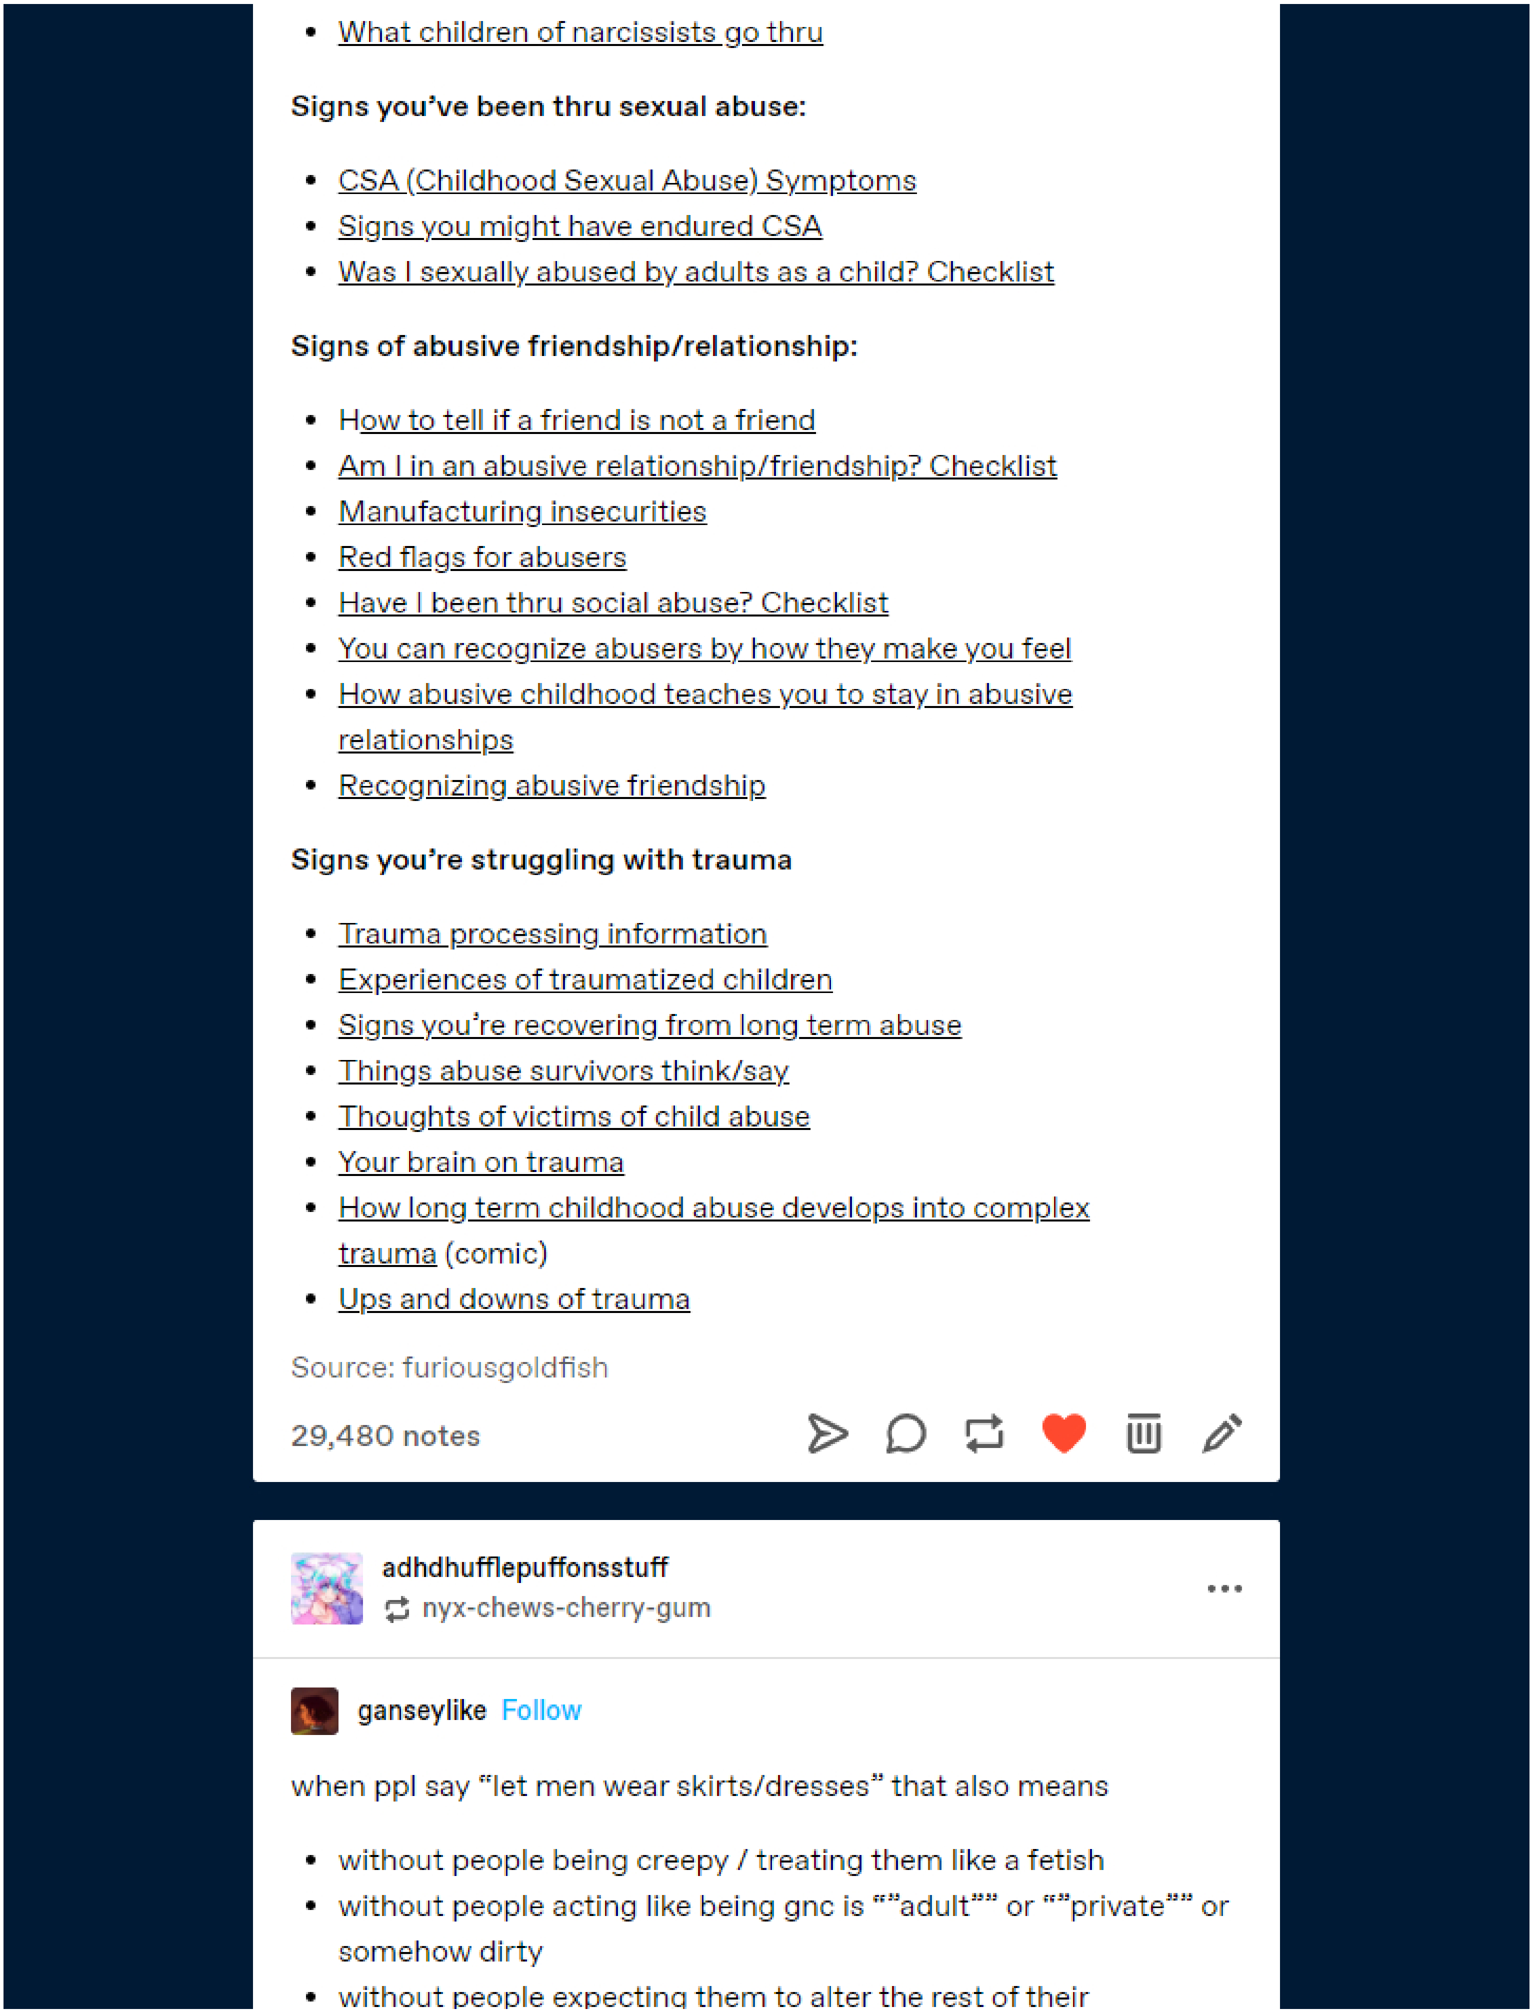
- Was I abused? Checklist
- Not knowing you are a victim
- Signs your family is abusive
- Making excuses for your abusive parents
- Experience of living in secrecy
- What they taught you was abuse
- Emotional experiences of living in abuse
- Shame and guilt: how abused children feel
- What makes parents abusers (actions)
- Have I been manipulated into believing abuse was my fault? Checklist
- Am I being held hostage by abusers? Checklist
- You are not allowed to mention the past
- Why you still love abusive parents
- Parental behaviour that isn't normal
- Shit parents aren't supposed to say to you
- Experience of "not belonging anywhere"
- Red flags for abusive parents
- Healthy vs Abusive Chores
- Was my childhood abusive or just had some bad parts?
- Rules always change (unpredictable environment is abusive)

Breakdown of abusive parent's behaviour:

- "This is my house" rule
- Start living in the real life!
- Why all the children aren't abused equally in an abusive home
- Common abuser hypocrisies
- Do your parents want you to be happy or look happy?
- Why do they try to convince you that you're worthless
- Why do they pretend you're a burden? Controlling behaviour
- Why your abusers are not good people
- Abusive parents are keeping you in false hope they'll change
- Are your parents preventing you from succeeding?
- Abusive parents pretending "it wasn't that bad"
- Double Bind (why every choice you make ends wrong)
- Incorporating trauma in raising children
- Abusers will not allow you to call them out on abuse

Signs your parents are narcissistic:

- Stuff delusional narcissists say
- Shit narcissistis parents say
- Recognizing emotional immaturity of narcissistic parents
- Examples of narcissistic behaviours
- Being punished for growing up by narcissistic parents



- What children of narcissists go thru

Signs you've been thru sexual abuse:

- CSA (Childhood Sexual Abuse) Symptoms
- Signs you might have endured CSA
- Was I sexually abused by adults as a child? Checklist

Signs of abusive friendship/relationship:

- How to tell if a friend is not a friend
- Am I in an abusive relationship/friendship? Checklist
- Manufacturing insecurities
- Red flags for abusers
- Have I been thru social abuse? Checklist
- You can recognize abusers by how they make you feel
- How abusive childhood teaches you to stay in abusive relationships
- Recognizing abusive friendship

Signs you're struggling with trauma

- Trauma processing information
- Experiences of traumatized children
- Signs you're recovering from long term abuse
- Things abuse survivors think/say
- Thoughts of victims of child abuse
- Your brain on trauma
- How long term childhood abuse develops into complex trauma (comic)
- Ups and downs of trauma

Source: furiousgoldfish

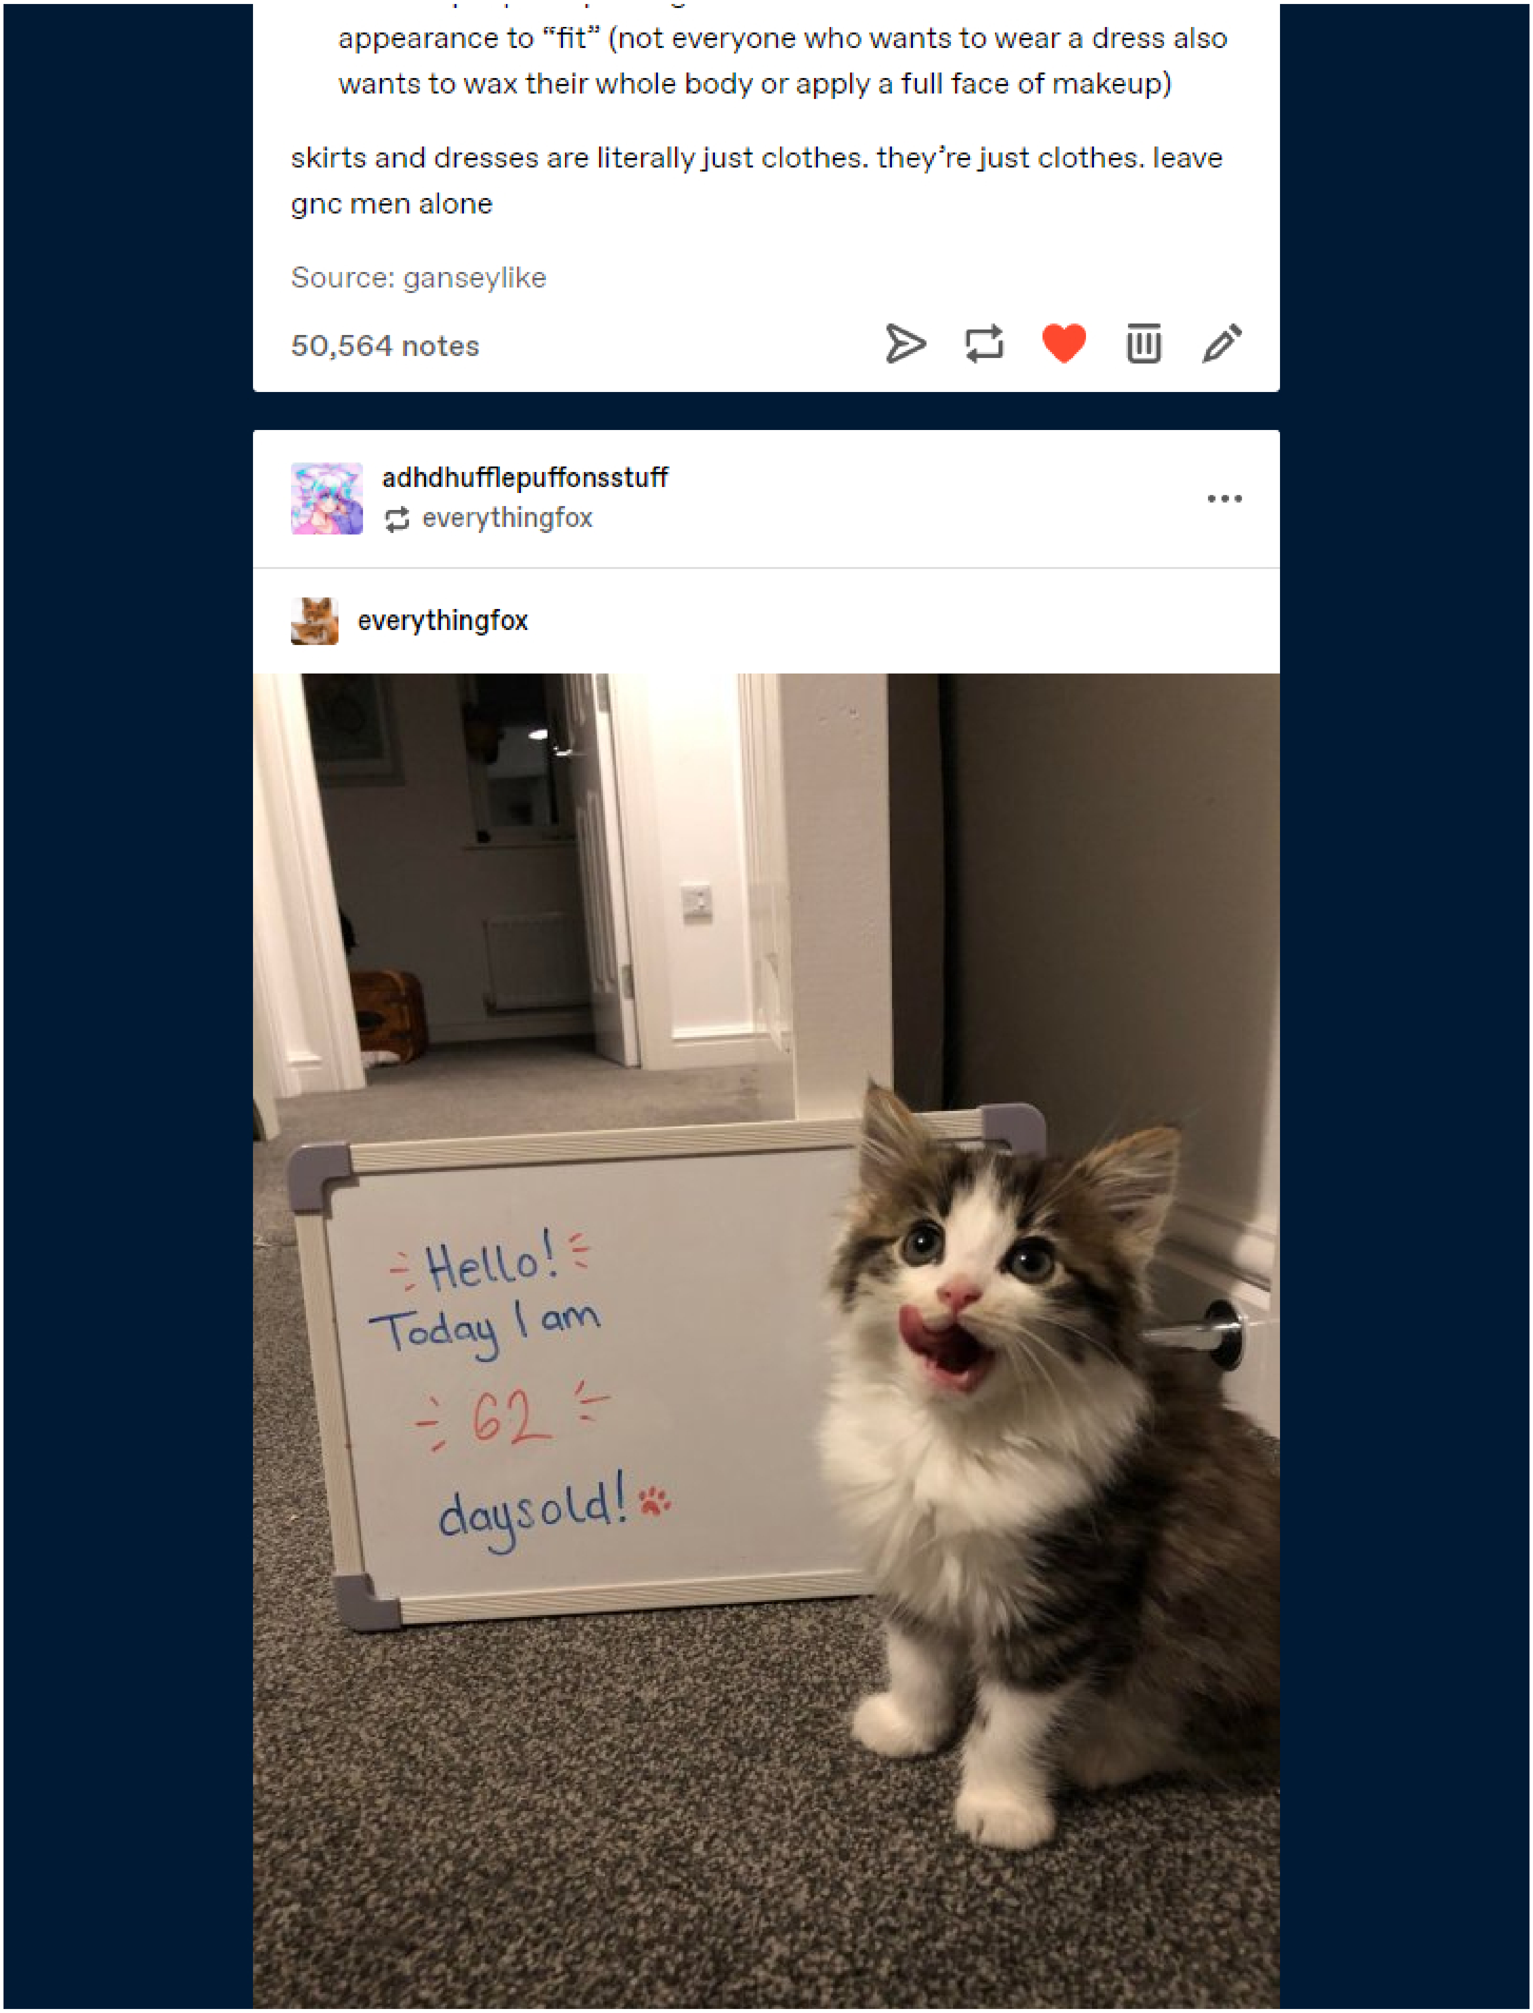
ganseylike Follow

when ppl say "let men wear skirts/dresses" that also means

- without people being creepy / treating them like a fetish
- without people acting like being gnc is ""adult"" or ""private"" or somehow dirty
- without people expecting them to alter the rest of their



appearance to "fit" (not everyone who wants to wear a dress also wants to wax their whole body or apply a full face of makeup)

skirts and dresses are literally just clothes. they're just clothes. leave gnc men alone

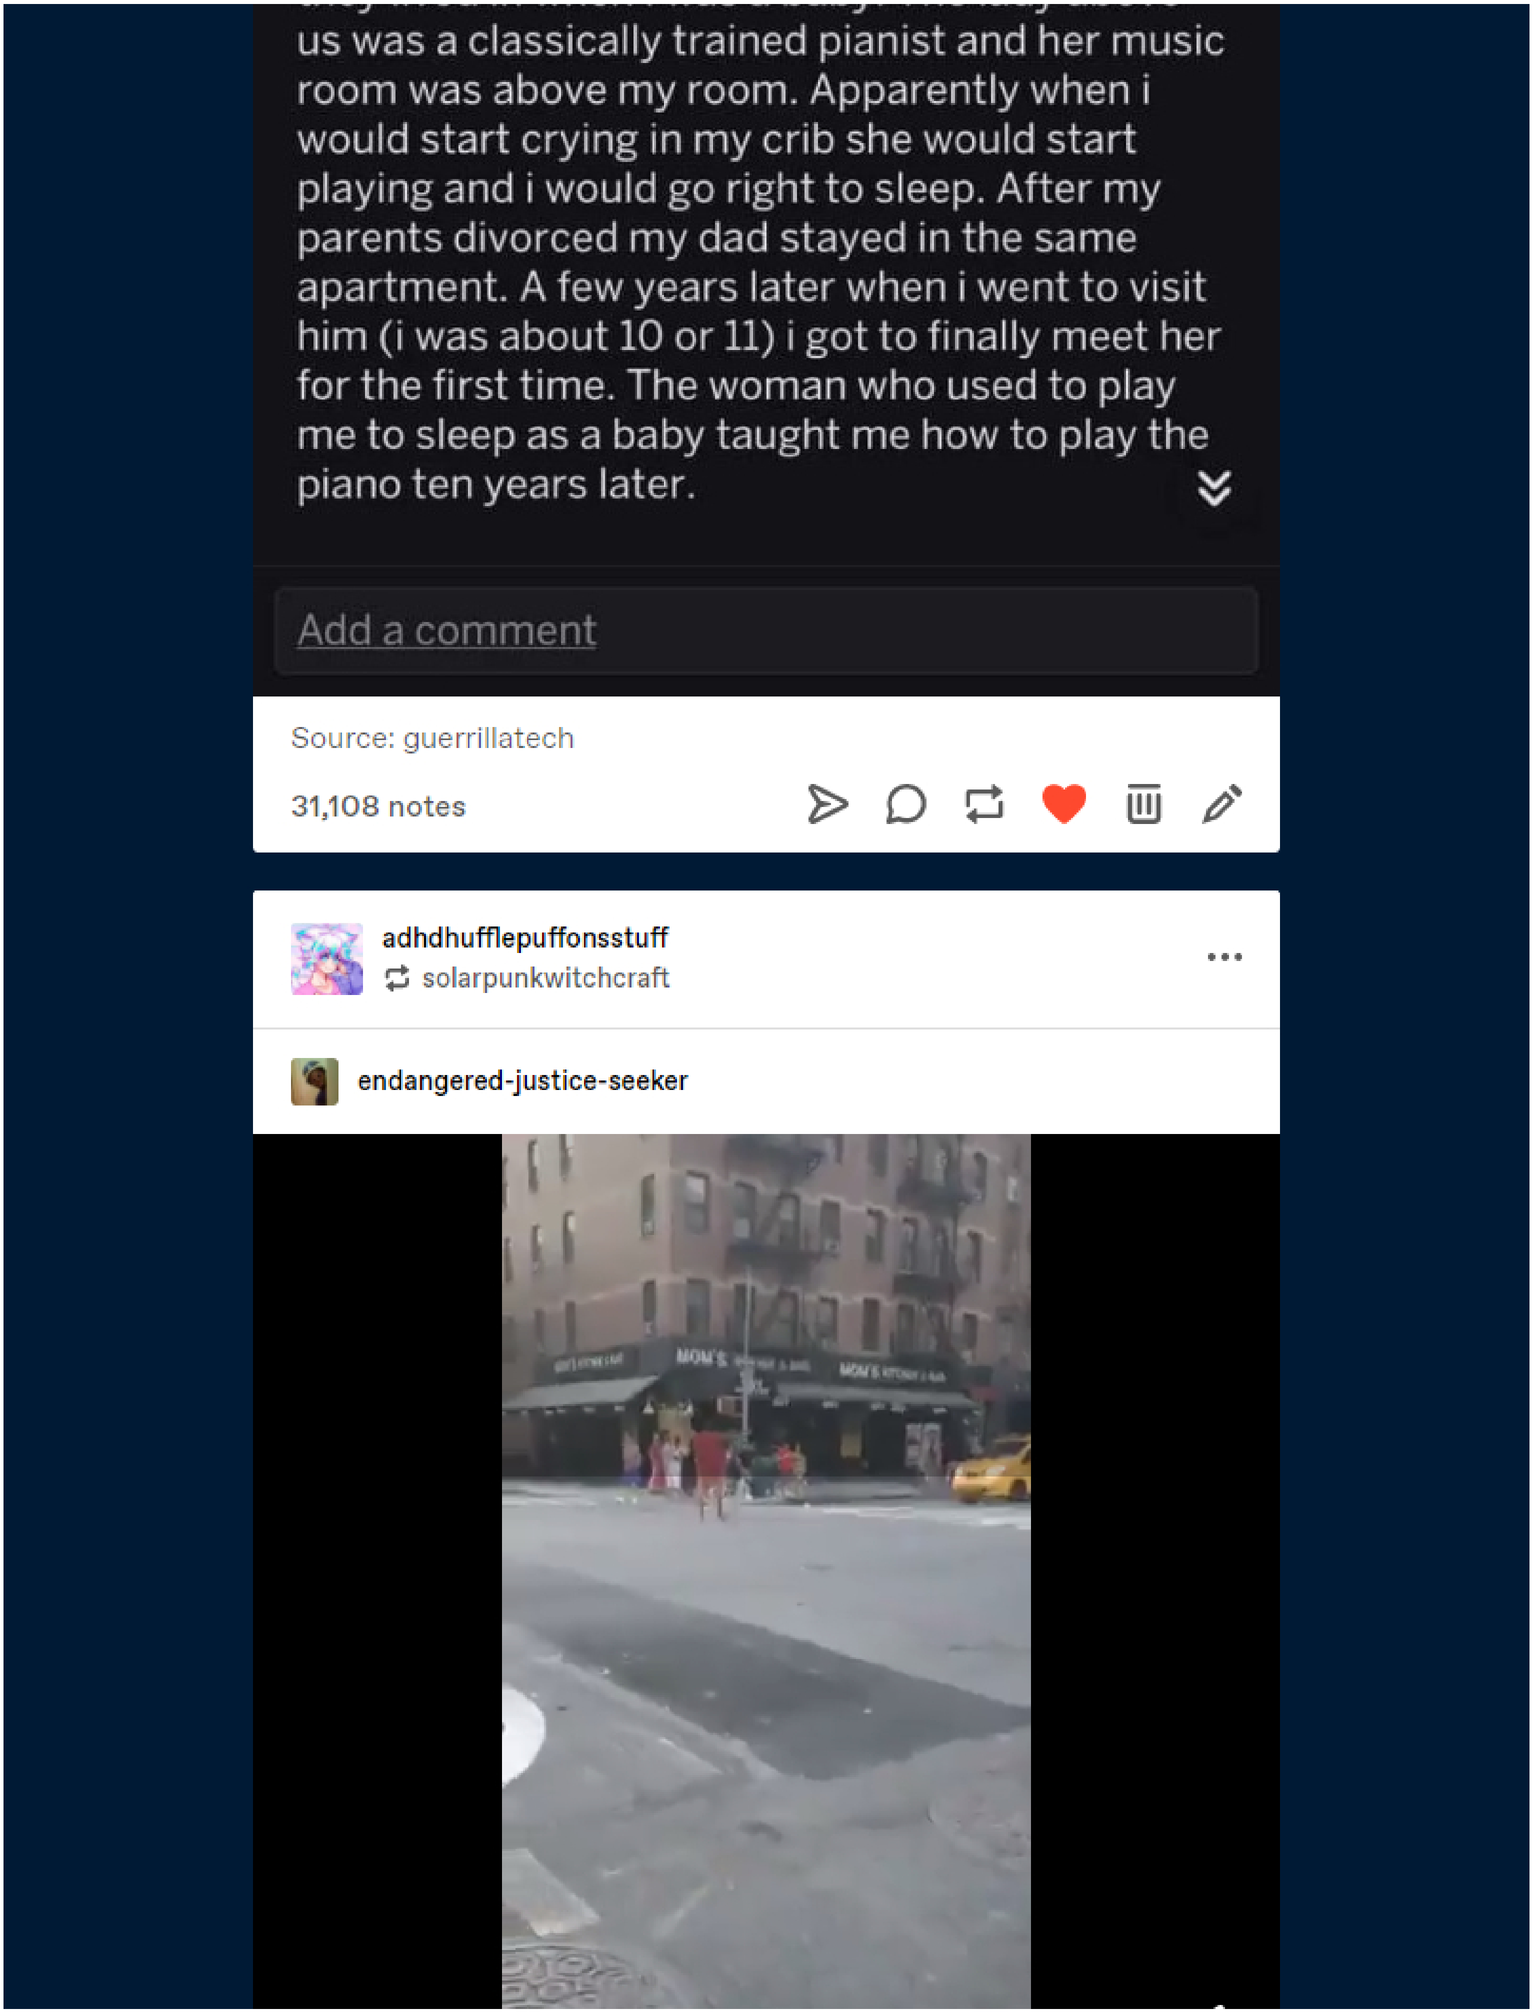
Craven_Hellsing • 3h

My parents told me stories about the apartment they lived in when i was a baby. The lady above



us was a classically trained pianist and her music room was above my room. Apparently when i would start crying in my crib she would start playing and i would go right to sleep. After my parents divorced my dad stayed in the same apartment. A few years later when i went to visit him (i was about 10 or 11) i got to finally meet her for the first time. The woman who used to play me to sleep as a baby taught me how to play the piano ten years later.

Oooh, I know this one! The FAA (Federal Aviation Administration - they make the rules for flying here in the US) has designated "roads" in the sky to keep all the commercial jets from running into each other. When you're headed the same direction at the same speed, you don't get in each other's way. If you're heading east you fly at one elevation, and west-bound planes fly at a different height. There are lots of rules to keep mid-air crashes to a minimum.

However, if you're running late, or weather in one spot is bad, you can call up Air Traffic Control and ask for a new route! And they will look at their little radar screens and maps of all the airplanes in the area, and tell you what shortcut you can take.

gareth-ritter Follow

Not to be controversial on main, but I feel like the one thing that people always forget with Wicked (the book anyway) is it's whole plot point of racism. I see so many fanarts/fanfictions that portray various characters as not being white - Glinda, Avaric, Crope, Tibbett, etc, take your pick. And whilst I get the need for inclusivity (I'm not white either) it's missing out the massive plot line of Fiyero being othered for his skin colour.

The whole POINT is that he's dark and different from the others: Elphaba says *"he must long for his own barbaric kind"*, Avaric saying *"And that skin. I wouldn't want to have skin the color of shit"* in reference to Fiyero, when Glinda's asked if she had an affair with Fiyero she says *"I was fond of Fiyero and he was a good man and a fine statesman. But you'll remember he was dark-skinned. Even if I took up dalliances - an inclination I believe rarely benefits anyone -*

you are once again being suspicious and cranky to suspect me and Fiyero! The idea!". She isn't horrified by the accusation of having an affair, but by the accusation of having an affair with man with **dark skin**.

It's a big part of why Fiyero connects with Elphaba as her own story is an analogy for racism and racist attitudes, and by making the other characters not white you're actually subtracting from Fiyero's struggles and character arc. He's literally the only brown Native at Shiz, and his very presence at Shiz causes gossip and speculation because he's different and his main purpose in the novel is to show just how ignorant and racist literally all of the other characters are.

Seamas It Ever Was @shock... · 8h

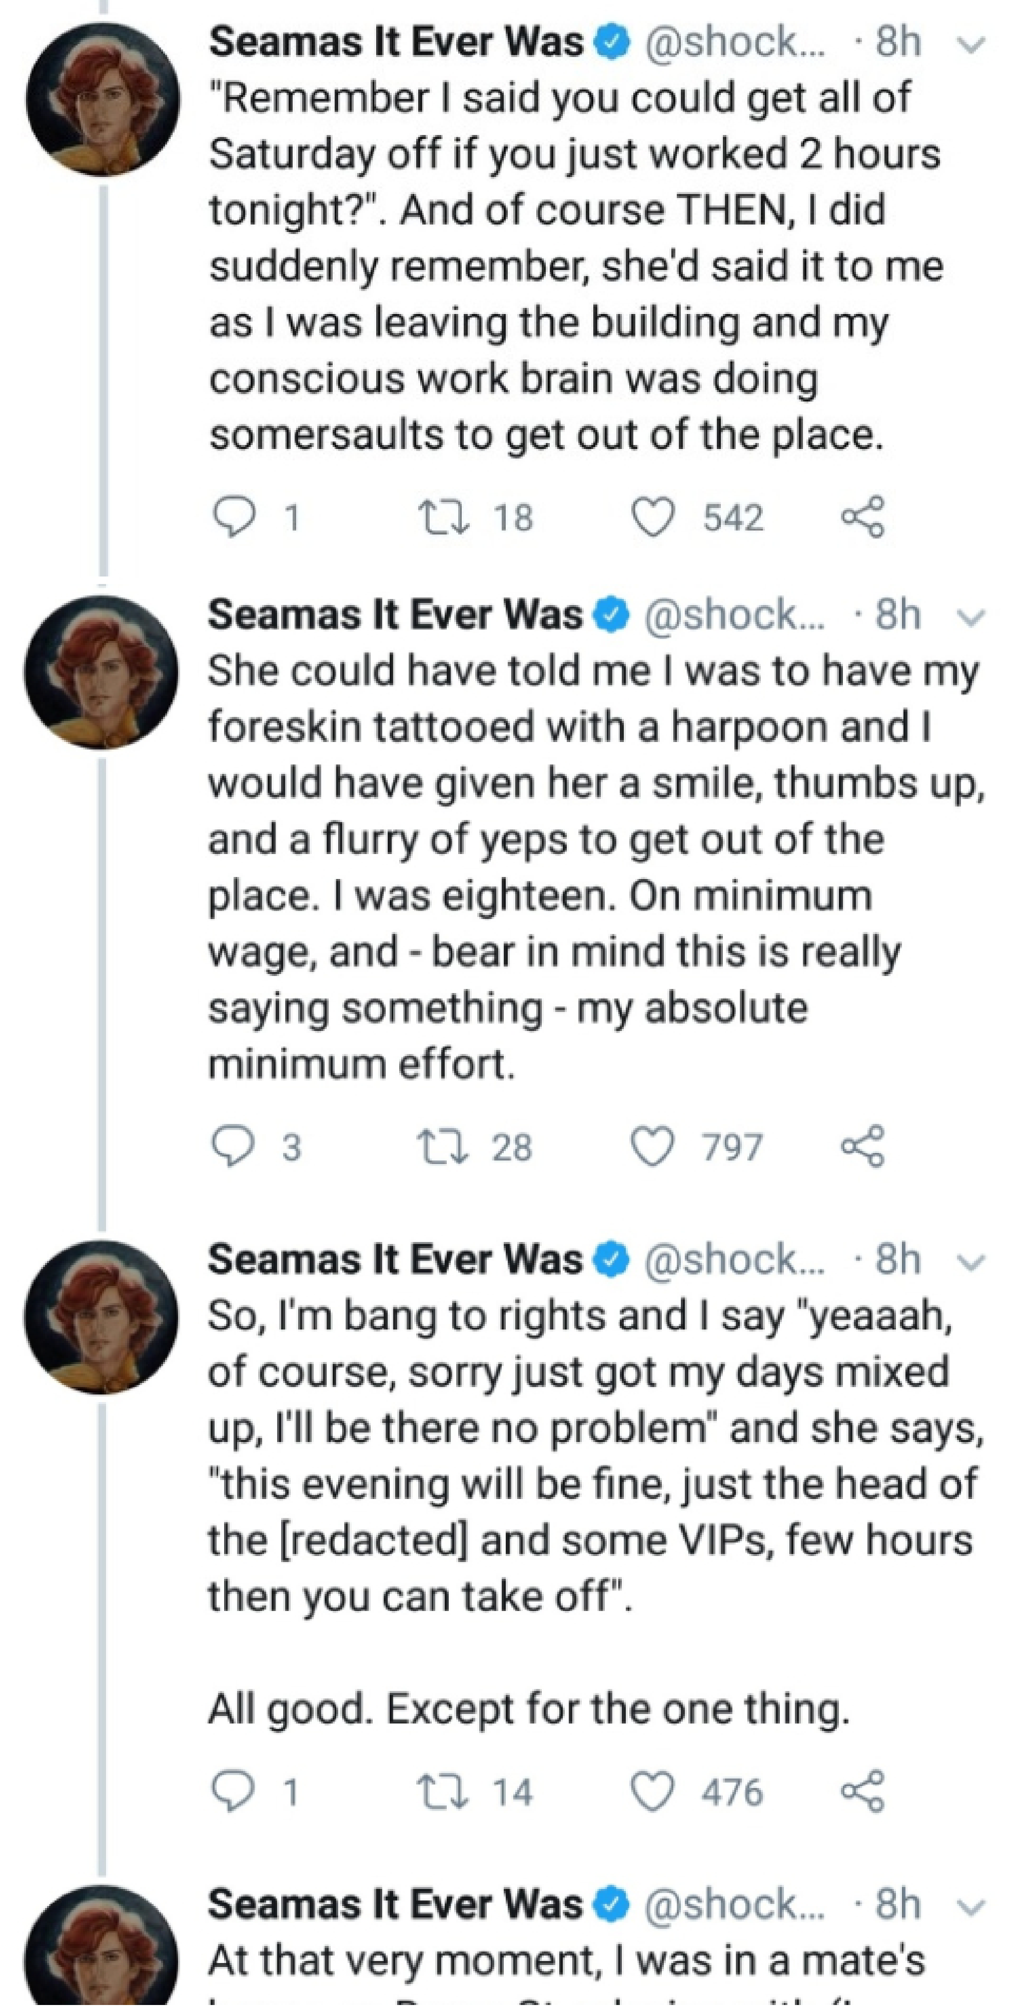
Right, this was when I was eighteen so don't judge me too harshly. Or if you think drugs are cool and I'm a legend, fill your boots. Anyway, at the time I was working through college in Dublin with bar shifts at [redacted] music venue. One day I get a call on my day off.

10 32 ♡ 872

Seamas It Ever Was @shock... · 8h

Way the gig worked, you'd either get Fri or Sat off. This week it was Fri, happy days. My manager, let's call her Dympna, pipes up on the phone: "So, when you come in this evening, just a few things to remember". I'm like, hold on Dympz, I'm off this eve, jog on. She corrects me.

2 20 551



Seamas It Ever Was @shock... · 8h

"Remember I said you could get all of Saturday off if you just worked 2 hours tonight?". And of course THEN, I did suddenly remember, she'd said it to me as I was leaving the building and my conscious work brain was doing somersaults to get out of the place.

1 18 542

Seamas It Ever Was @shock... · 8h

She could have told me I was to have my foreskin tattooed with a harpoon and I would have given her a smile, thumbs up, and a flurry of yeps to get out of the place. I was eighteen. On minimum wage, and - bear in mind this is really saying something - my absolute minimum effort.

3 28 797

Seamas It Ever Was @shock... · 8h

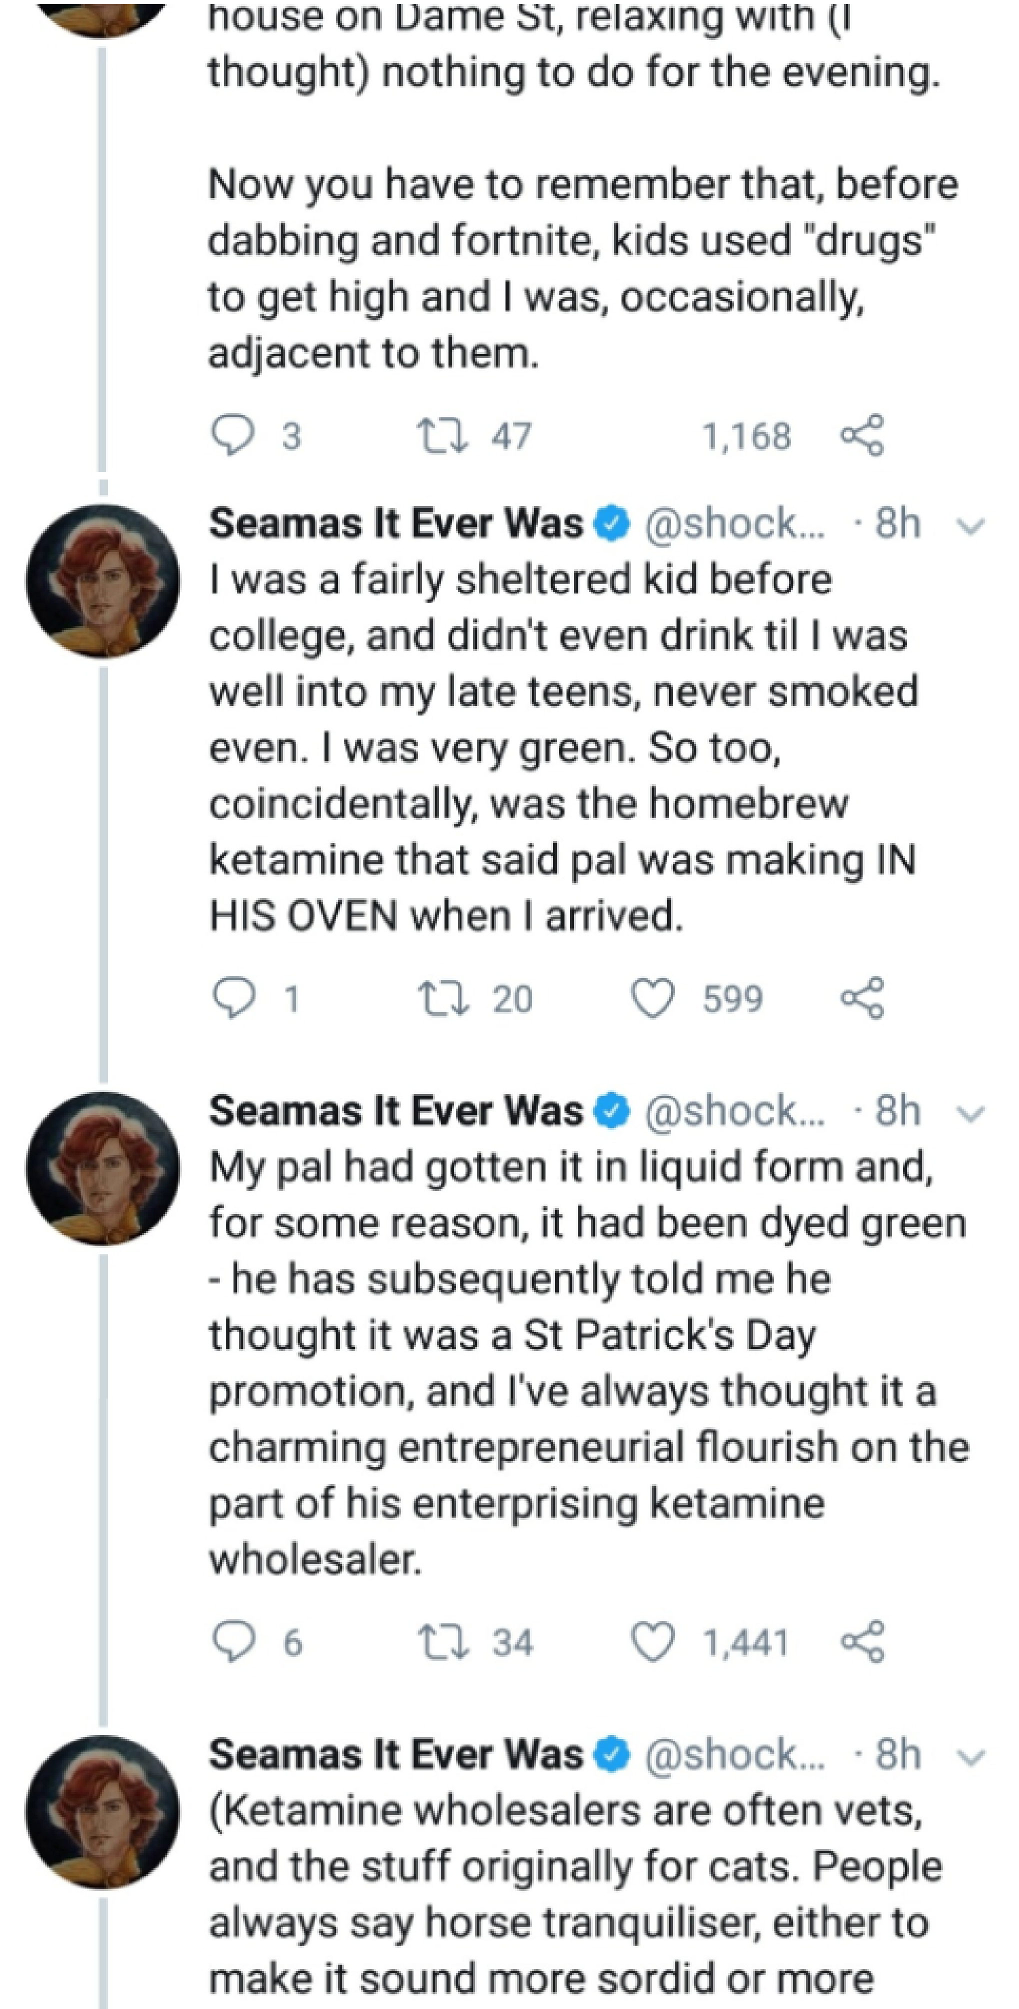
So, I'm bang to rights and I say "yeaaah, of course, sorry just got my days mixed up, I'll be there no problem" and she says, "this evening will be fine, just the head of the [redacted] and some VIPs, few hours then you can take off".

All good. Except for the one thing.

1 14 476

Seamas It Ever Was @shock... · 8h

At that very moment, I was in a mate's



house on Dame St, relaxing with (I thought) nothing to do for the evening.

Now you have to remember that, before dabbing and fortnite, kids used "drugs" to get high and I was, occasionally, adjacent to them.

3 47 1,168

Seamas It Ever Was @shock... · 8h

I was a fairly sheltered kid before college, and didn't even drink til I was well into my late teens, never smoked even. I was very green. So too, coincidentally, was the homebrew ketamine that said pal was making IN HIS OVEN when I arrived.

1 20 599

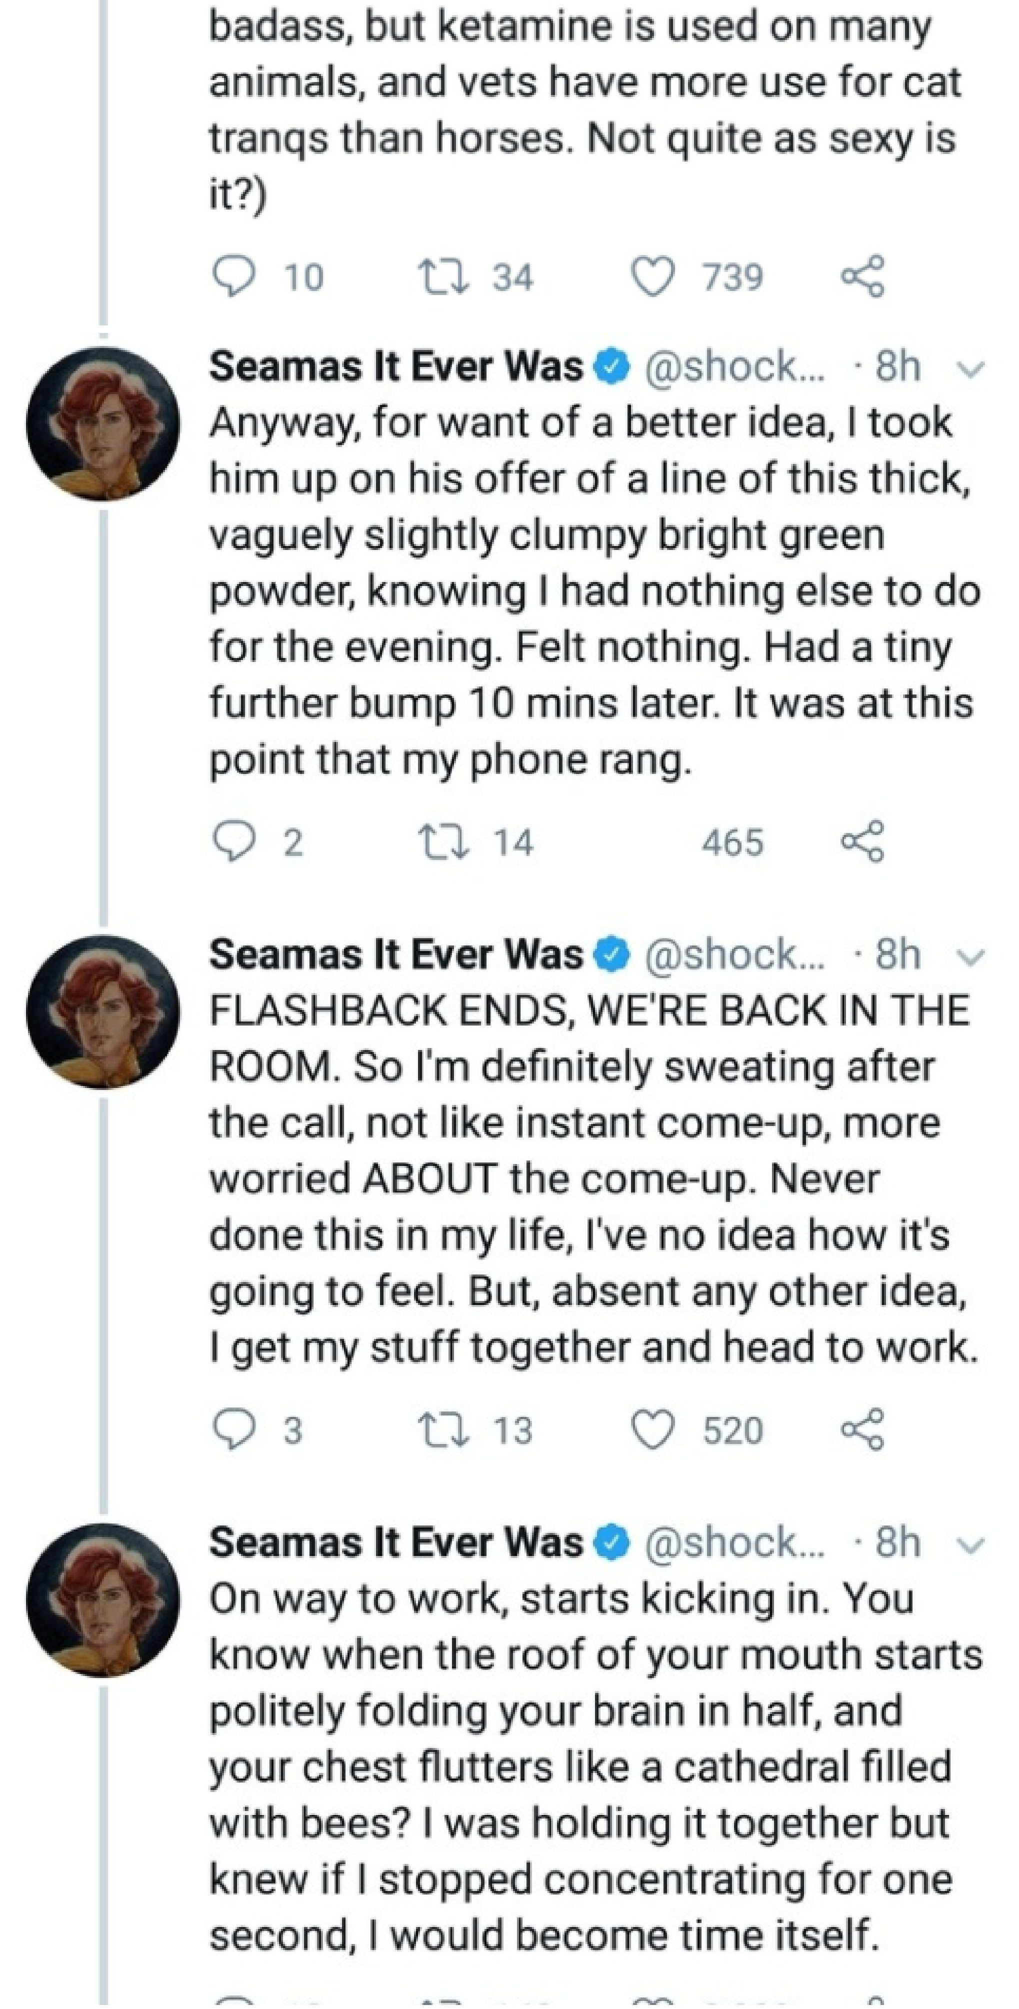
Seamas It Ever Was @shock... · 8h

My pal had gotten it in liquid form and, for some reason, it had been dyed green - he has subsequently told me he thought it was a St Patrick's Day promotion, and I've always thought it a charming entrepreneurial flourish on the part of his enterprising ketamine wholesaler.

6 34 1,441

Seamas It Ever Was @shock... · 8h

(Ketamine wholesalers are often vets, and the stuff originally for cats. People always say horse tranquiliser, either to make it sound more sordid or more



badass, but ketamine is used on many animals, and vets have more use for cat tranqs than horses. Not quite as sexy is it?)

10 34 739

Seamas It Ever Was @shock... · 8h

Anyway, for want of a better idea, I took him up on his offer of a line of this thick, vaguely slightly clumpy bright green powder, knowing I had nothing else to do for the evening. Felt nothing. Had a tiny further bump 10 mins later. It was at this point that my phone rang.

2 14 465

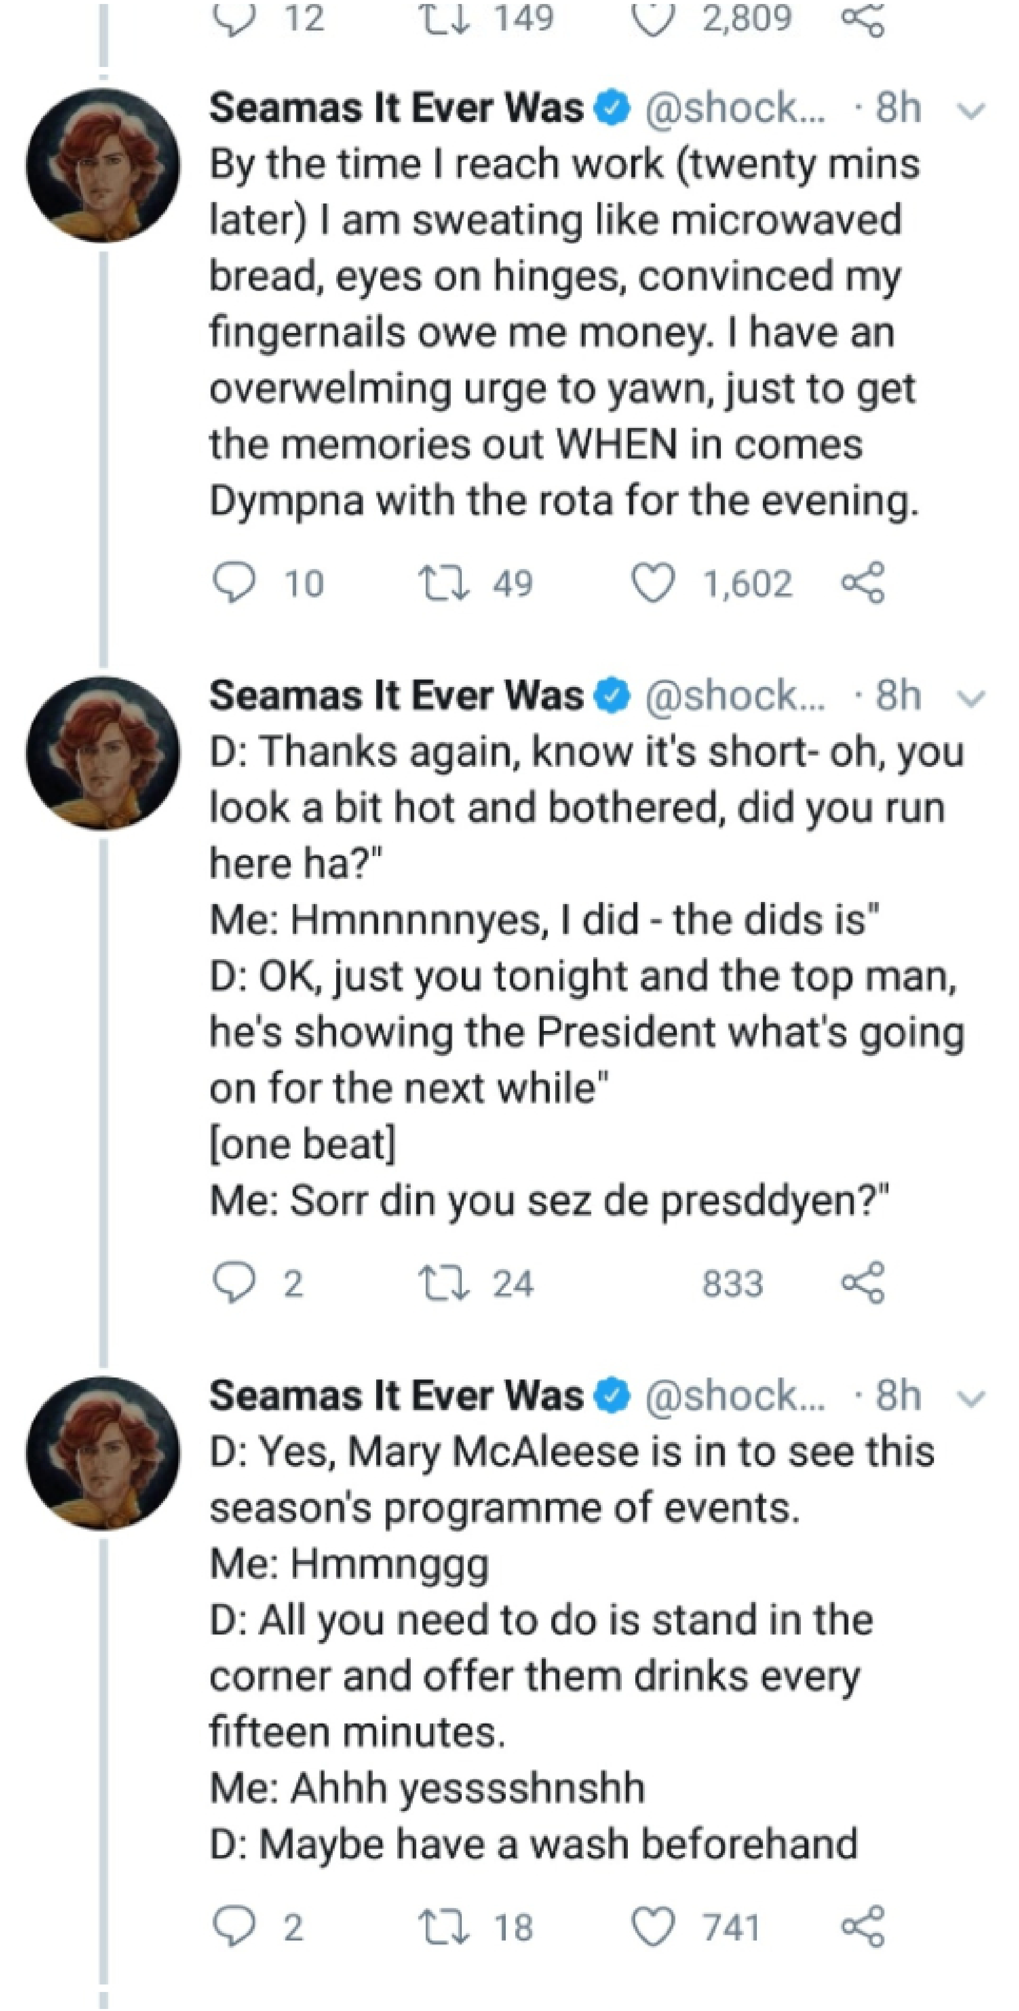
Seamas It Ever Was @shock... · 8h

FLASHBACK ENDS, WE'RE BACK IN THE ROOM. So I'm definitely sweating after the call, not like instant come-up, more worried ABOUT the come-up. Never done this in my life, I've no idea how it's going to feel. But, absent any other idea, I get my stuff together and head to work.

3 13 520

Seamas It Ever Was @shock... · 8h

On way to work, starts kicking in. You know when the roof of your mouth starts politely folding your brain in half, and your chest flutters like a cathedral filled with bees? I was holding it together but knew if I stopped concentrating for one second, I would become time itself.



Seamas It Ever Was @shock... · 8h

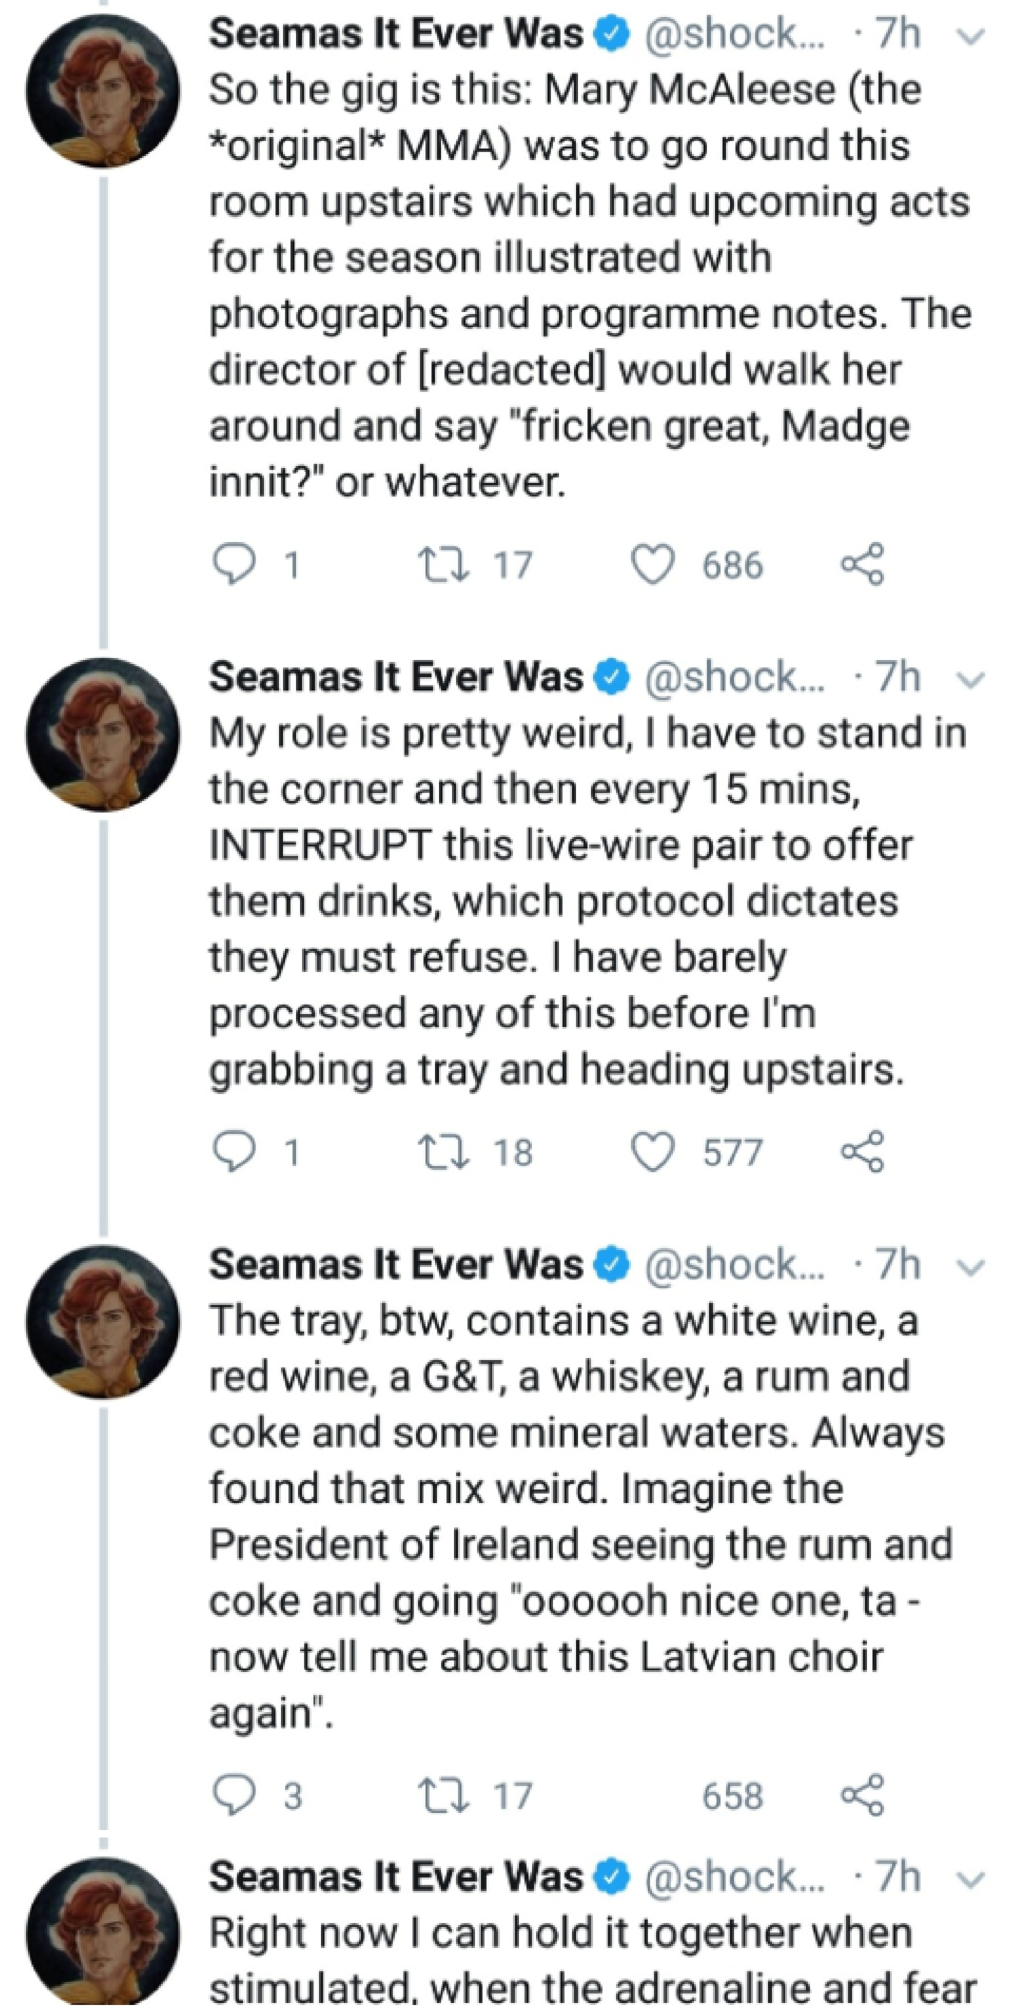
By the time I reach work (twenty mins later) I am sweating like microwaved bread, eyes on hinges, convinced my fingernails owe me money. I have an overwelming urge to yawn, just to get the memories out WHEN in comes Dympna with the rota for the evening.

Seamas It Ever Was @shock... · 8h

D: Thanks again, know it's short- oh, you look a bit hot and bothered, did you run here ha?"
Me: Hmnnnnnyes, I did - the dids is"
D: OK, just you tonight and the top man, he's showing the President what's going on for the next while"
[one beat]
Me: Sorr din you sez de presddyen?"

Seamas It Ever Was @shock... · 8h

D: Yes, Mary McAleese is in to see this season's programme of events.
Me: Hmmnggg
D: All you need to do is stand in the corner and offer them drinks every fifteen minutes.
Me: Ahhh yesssshnshh
D: Maybe have a wash beforehand



Seamas It Ever Was @shock... · 7h

So the gig is this: Mary McAleese (the *original* MMA) was to go round this room upstairs which had upcoming acts for the season illustrated with photographs and programme notes. The director of [redacted] would walk her around and say "fricken great, Madge innit?" or whatever.

1 17 686

Seamas It Ever Was @shock... · 7h

My role is pretty weird, I have to stand in the corner and then every 15 mins, INTERRUPT this live-wire pair to offer them drinks, which protocol dictates they must refuse. I have barely processed any of this before I'm grabbing a tray and heading upstairs.

1 18 577

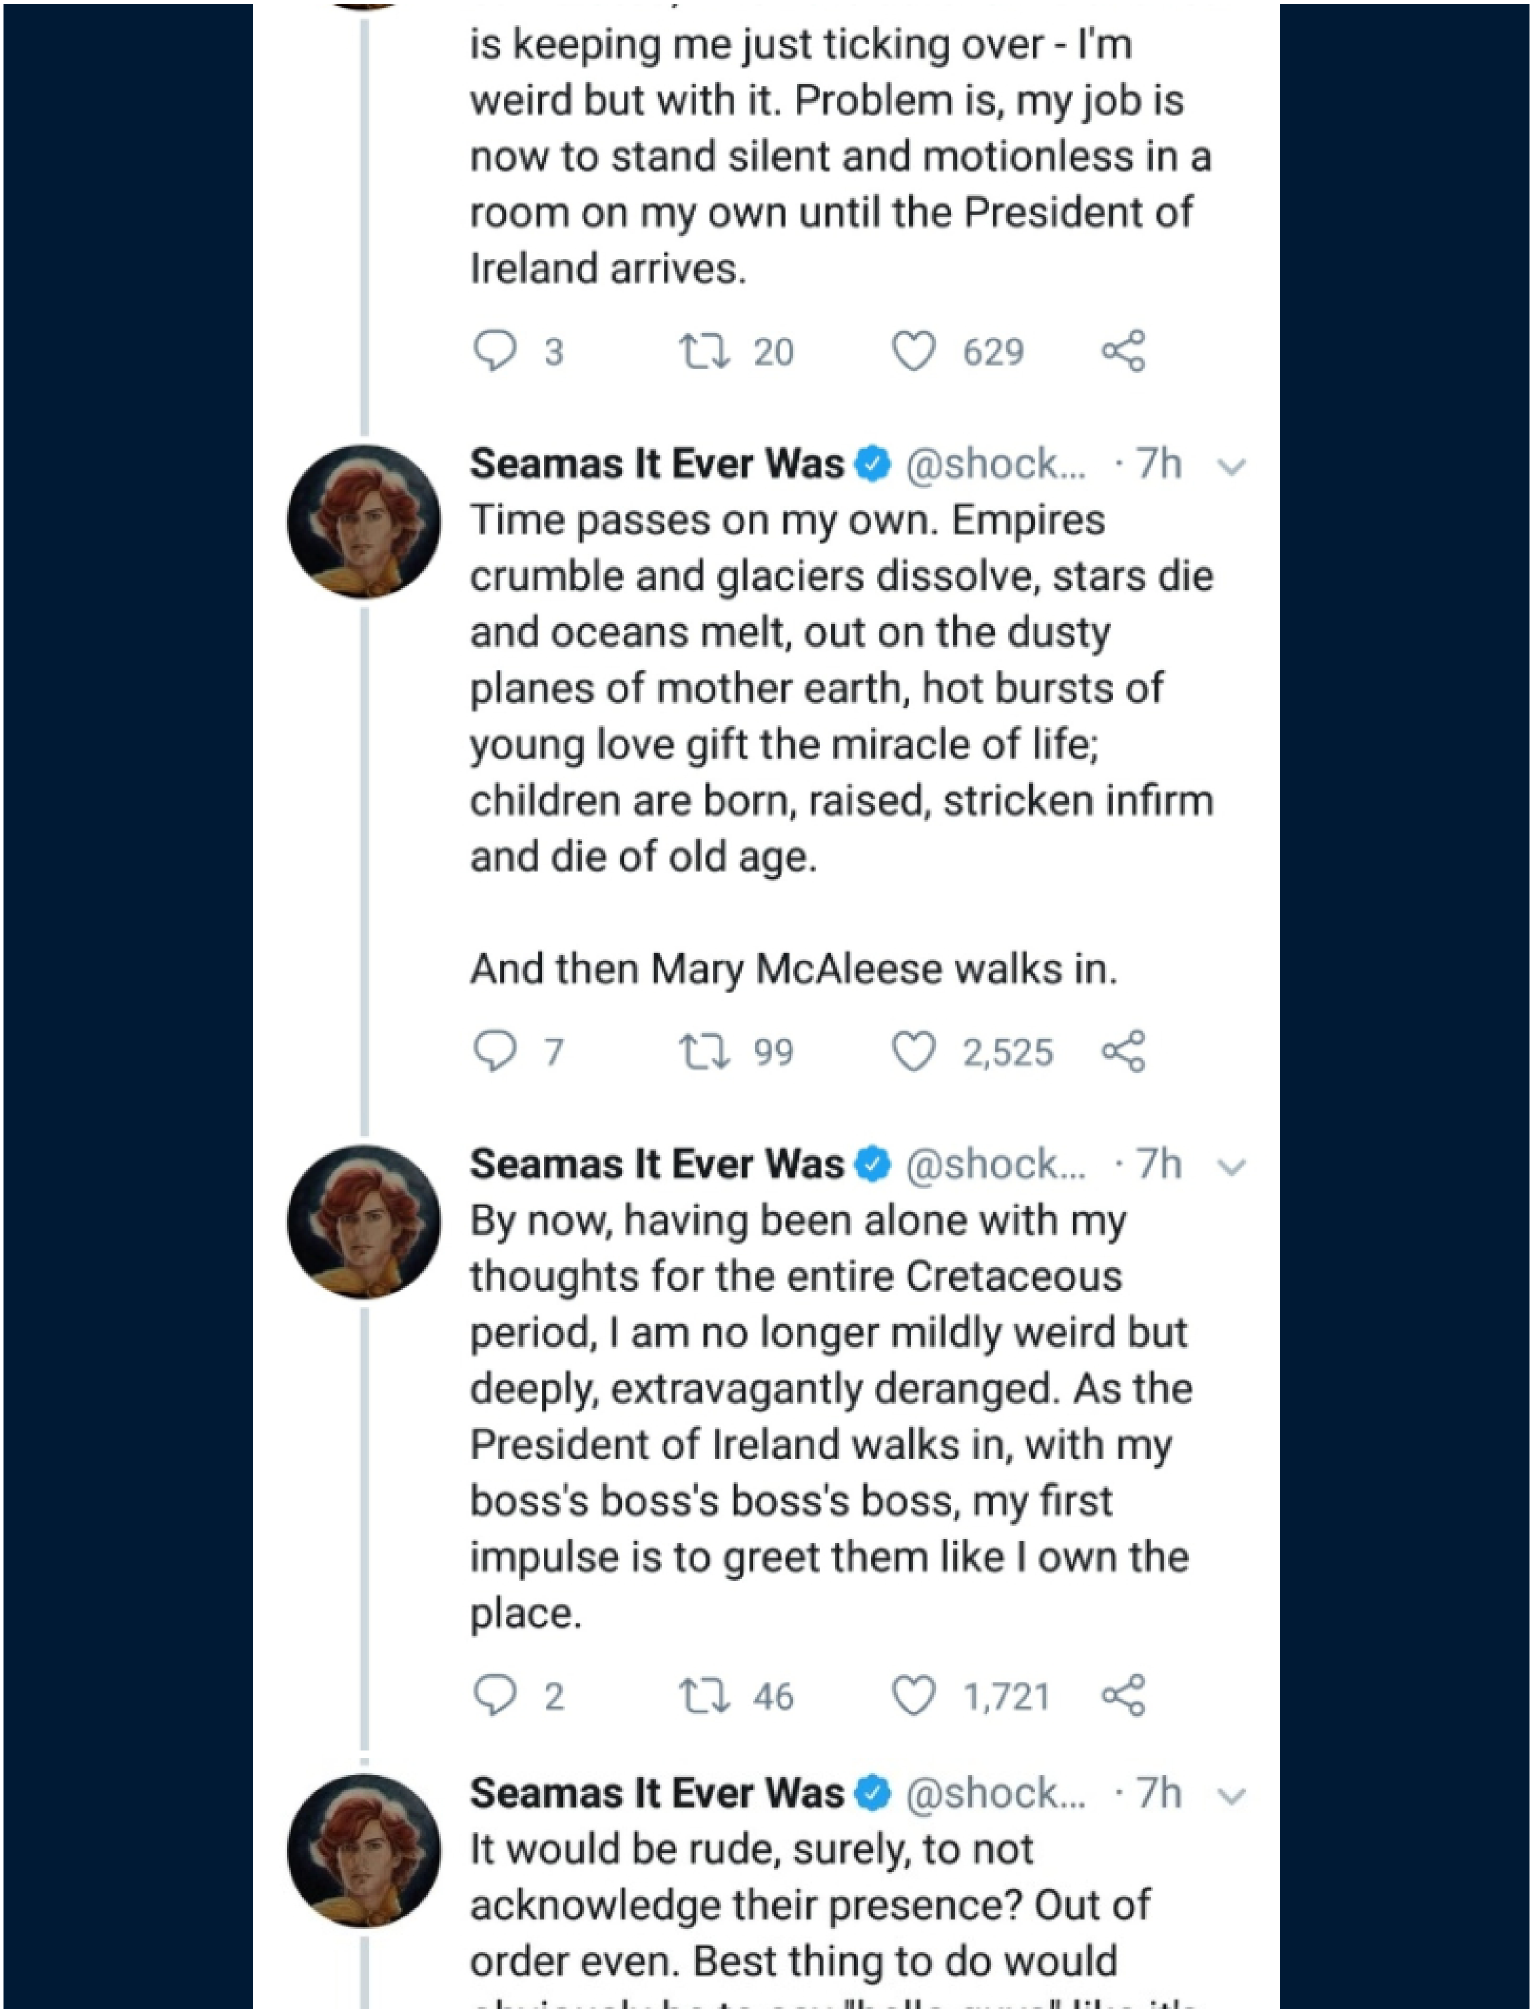
Seamas It Ever Was @shock... · 7h

The tray, btw, contains a white wine, a red wine, a G&T, a whiskey, a rum and coke and some mineral waters. Always found that mix weird. Imagine the President of Ireland seeing the rum and coke and going "oooooh nice one, ta - now tell me about this Latvian choir again".

3 17 658

Seamas It Ever Was @shock... · 7h

Right now I can hold it together when stimulated, when the adrenaline and fear



is keeping me just ticking over - I'm weird but with it. Problem is, my job is now to stand silent and motionless in a room on my own until the President of Ireland arrives.

Seamas It Ever Was @shock... · 7h

Time passes on my own. Empires crumble and glaciers dissolve, stars die and oceans melt, out on the dusty planes of mother earth, hot bursts of young love gift the miracle of life; children are born, raised, stricken infirm and die of old age.

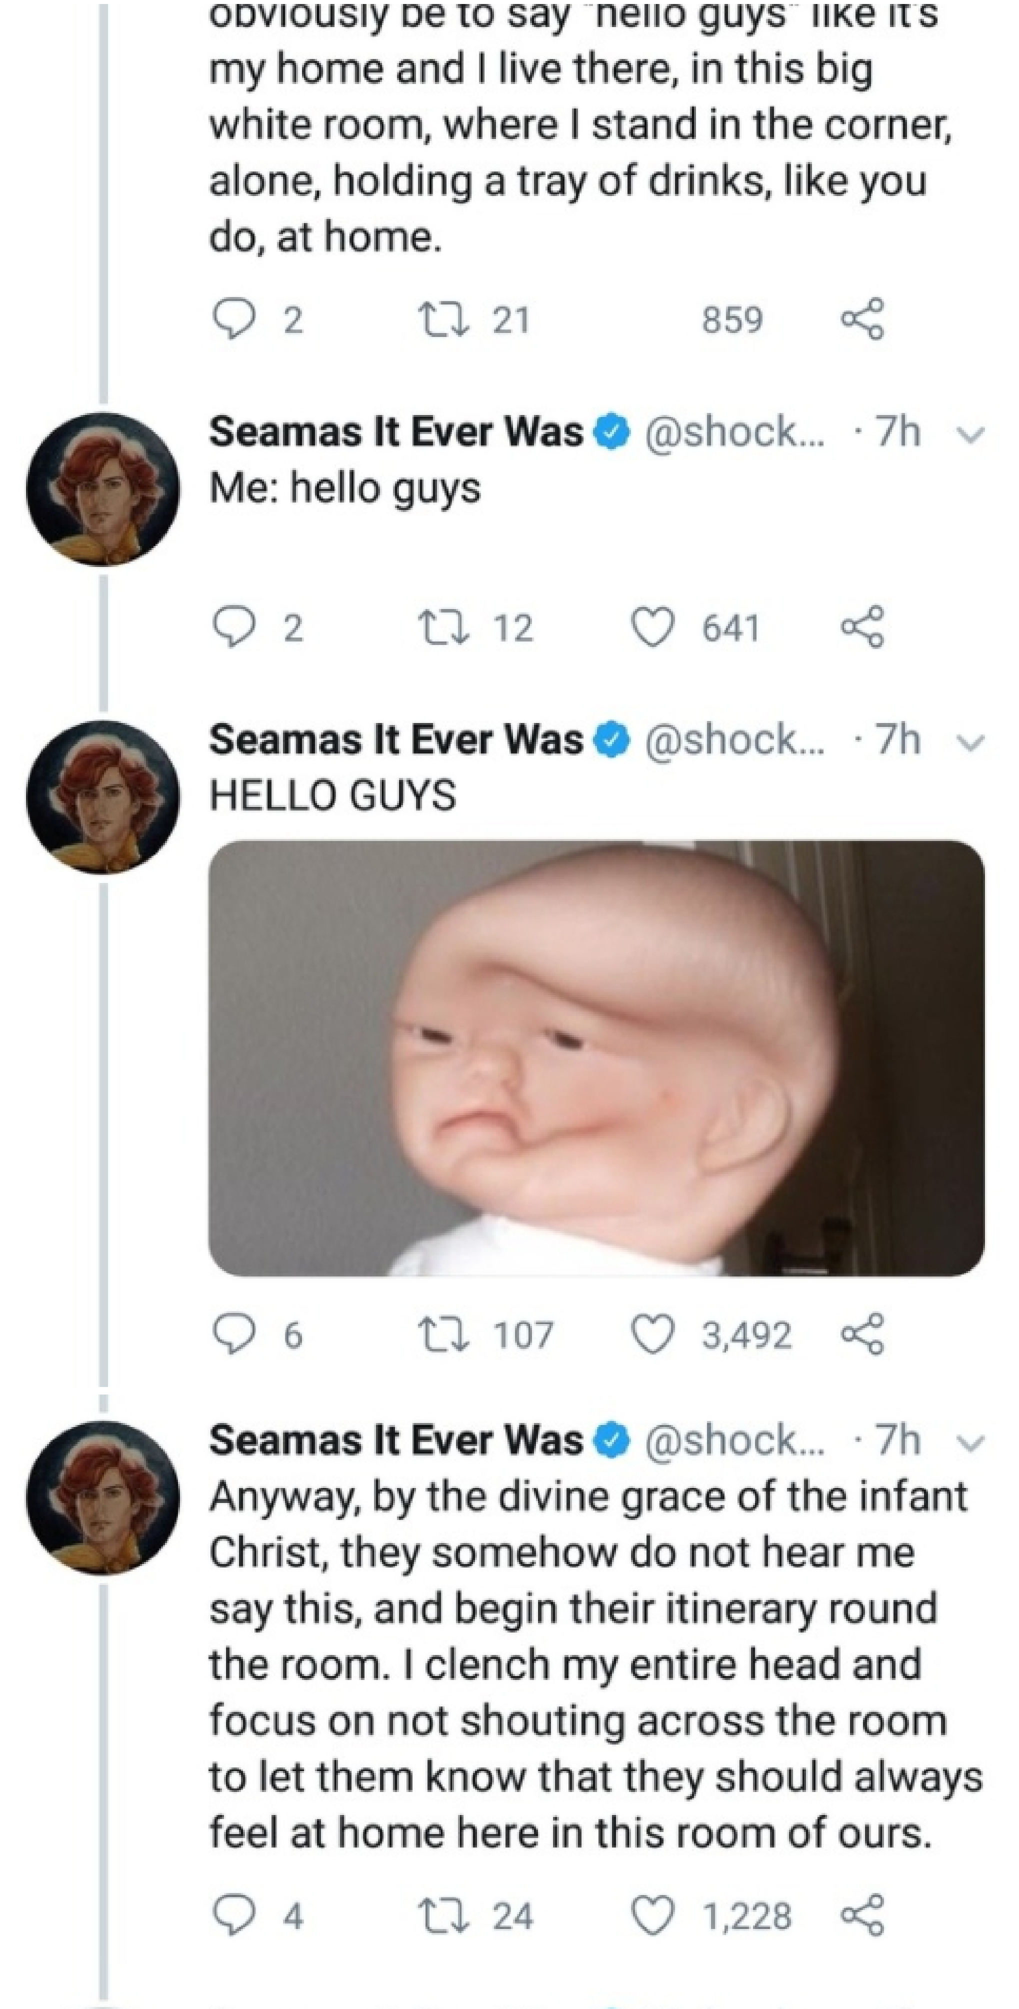
And then Mary McAleese walks in.

Seamas It Ever Was @shock... · 7h

By now, having been alone with my thoughts for the entire Cretaceous period, I am no longer mildly weird but deeply, extravagantly deranged. As the President of Ireland walks in, with my boss's boss's boss's boss, my first impulse is to greet them like I own the place.

Seamas It Ever Was @shock... · 7h

It would be rude, surely, to not acknowledge their presence? Out of order even. Best thing to do would



obviously be to say "hello guys" like it's my home and I live there, in this big white room, where I stand in the corner, alone, holding a tray of drinks, like you do, at home.

2 21 859

Seamas It Ever Was @shock... · 7h

Me: hello guys

2 12 641

Seamas It Ever Was @shock... · 7h

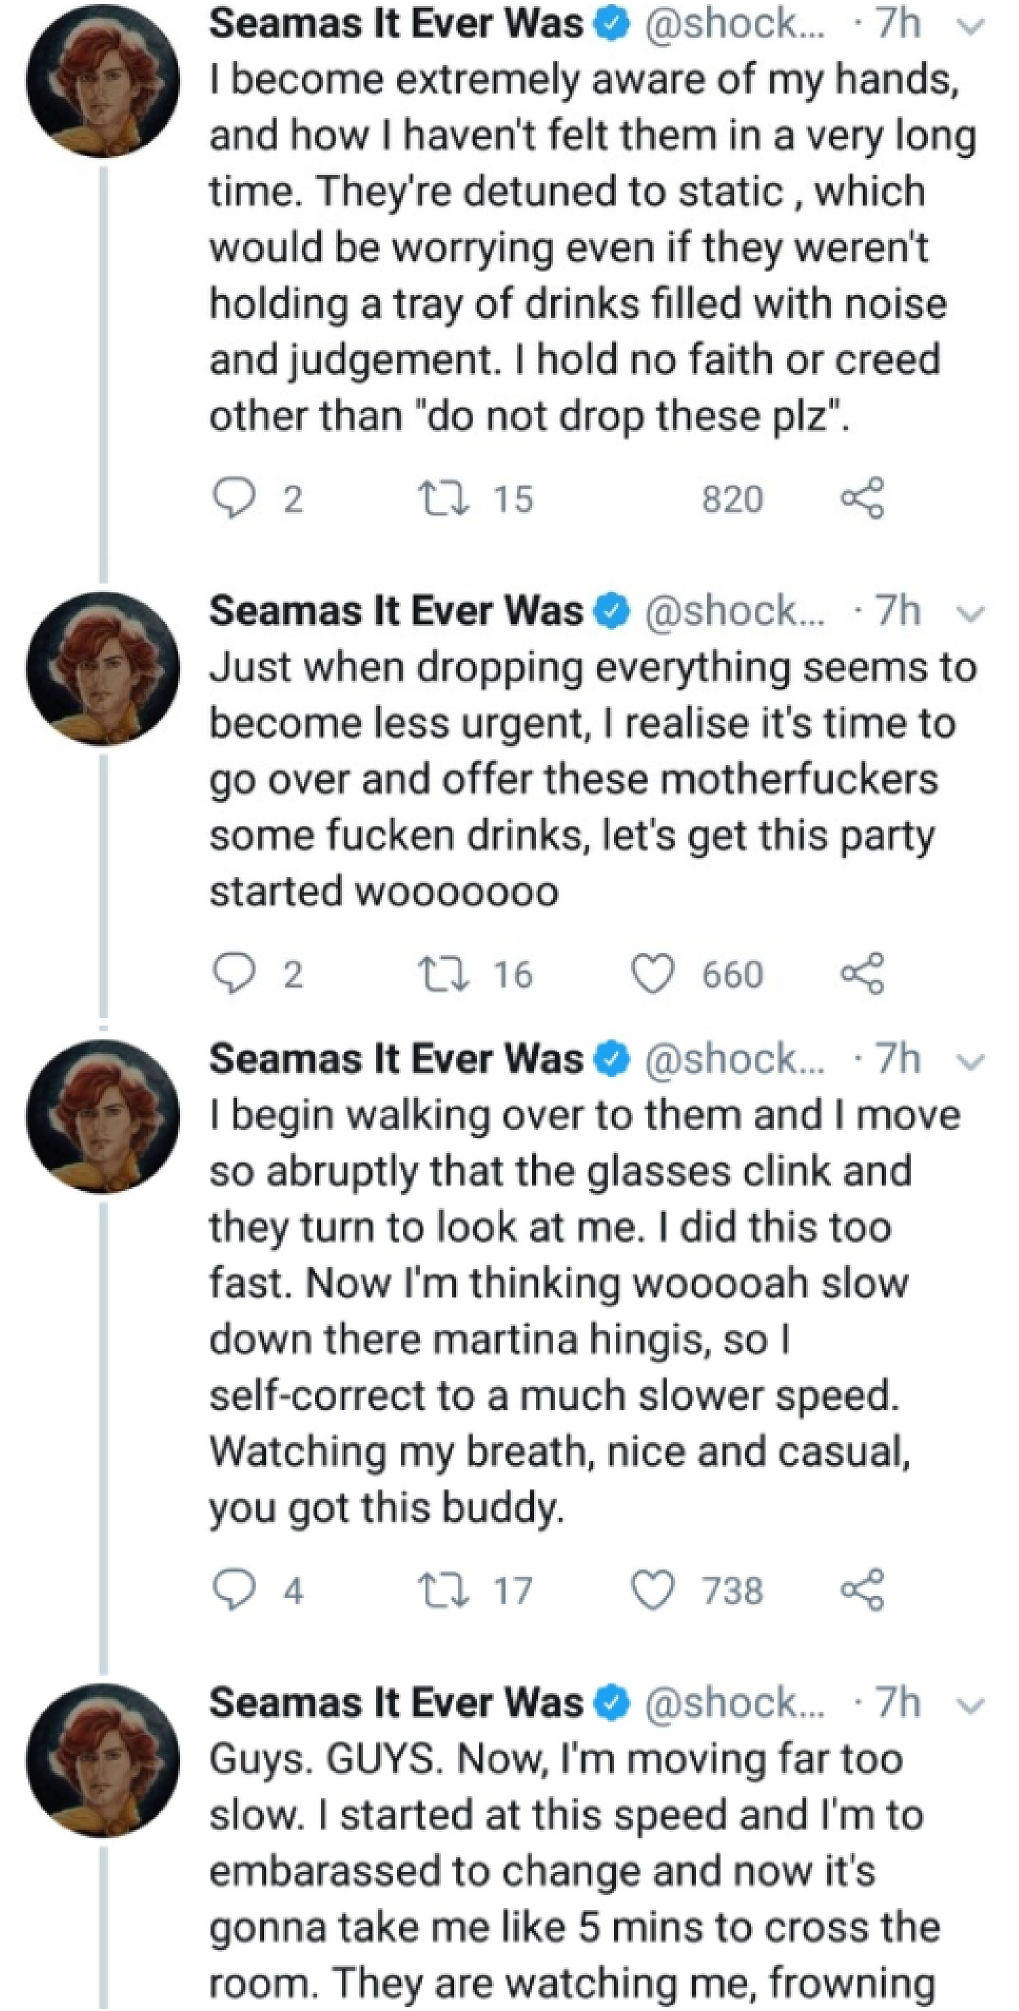
HELLO GUYS

6 107 3,492

Seamas It Ever Was @shock... · 7h

Anyway, by the divine grace of the infant Christ, they somehow do not hear me say this, and begin their itinerary round the room. I clench my entire head and focus on not shouting across the room to let them know that they should always feel at home here in this room of ours.

4 24 1,228



Seamas It Ever Was @shock... · 7h

I become extremely aware of my hands, and how I haven't felt them in a very long time. They're detuned to static , which would be worrying even if they weren't holding a tray of drinks filled with noise and judgement. I hold no faith or creed other than "do not drop these plz".

2 15 820

Seamas It Ever Was @shock... · 7h

Just when dropping everything seems to become less urgent, I realise it's time to go over and offer these motherfuckers some fucken drinks, let's get this party started wooooooo

2 16 660

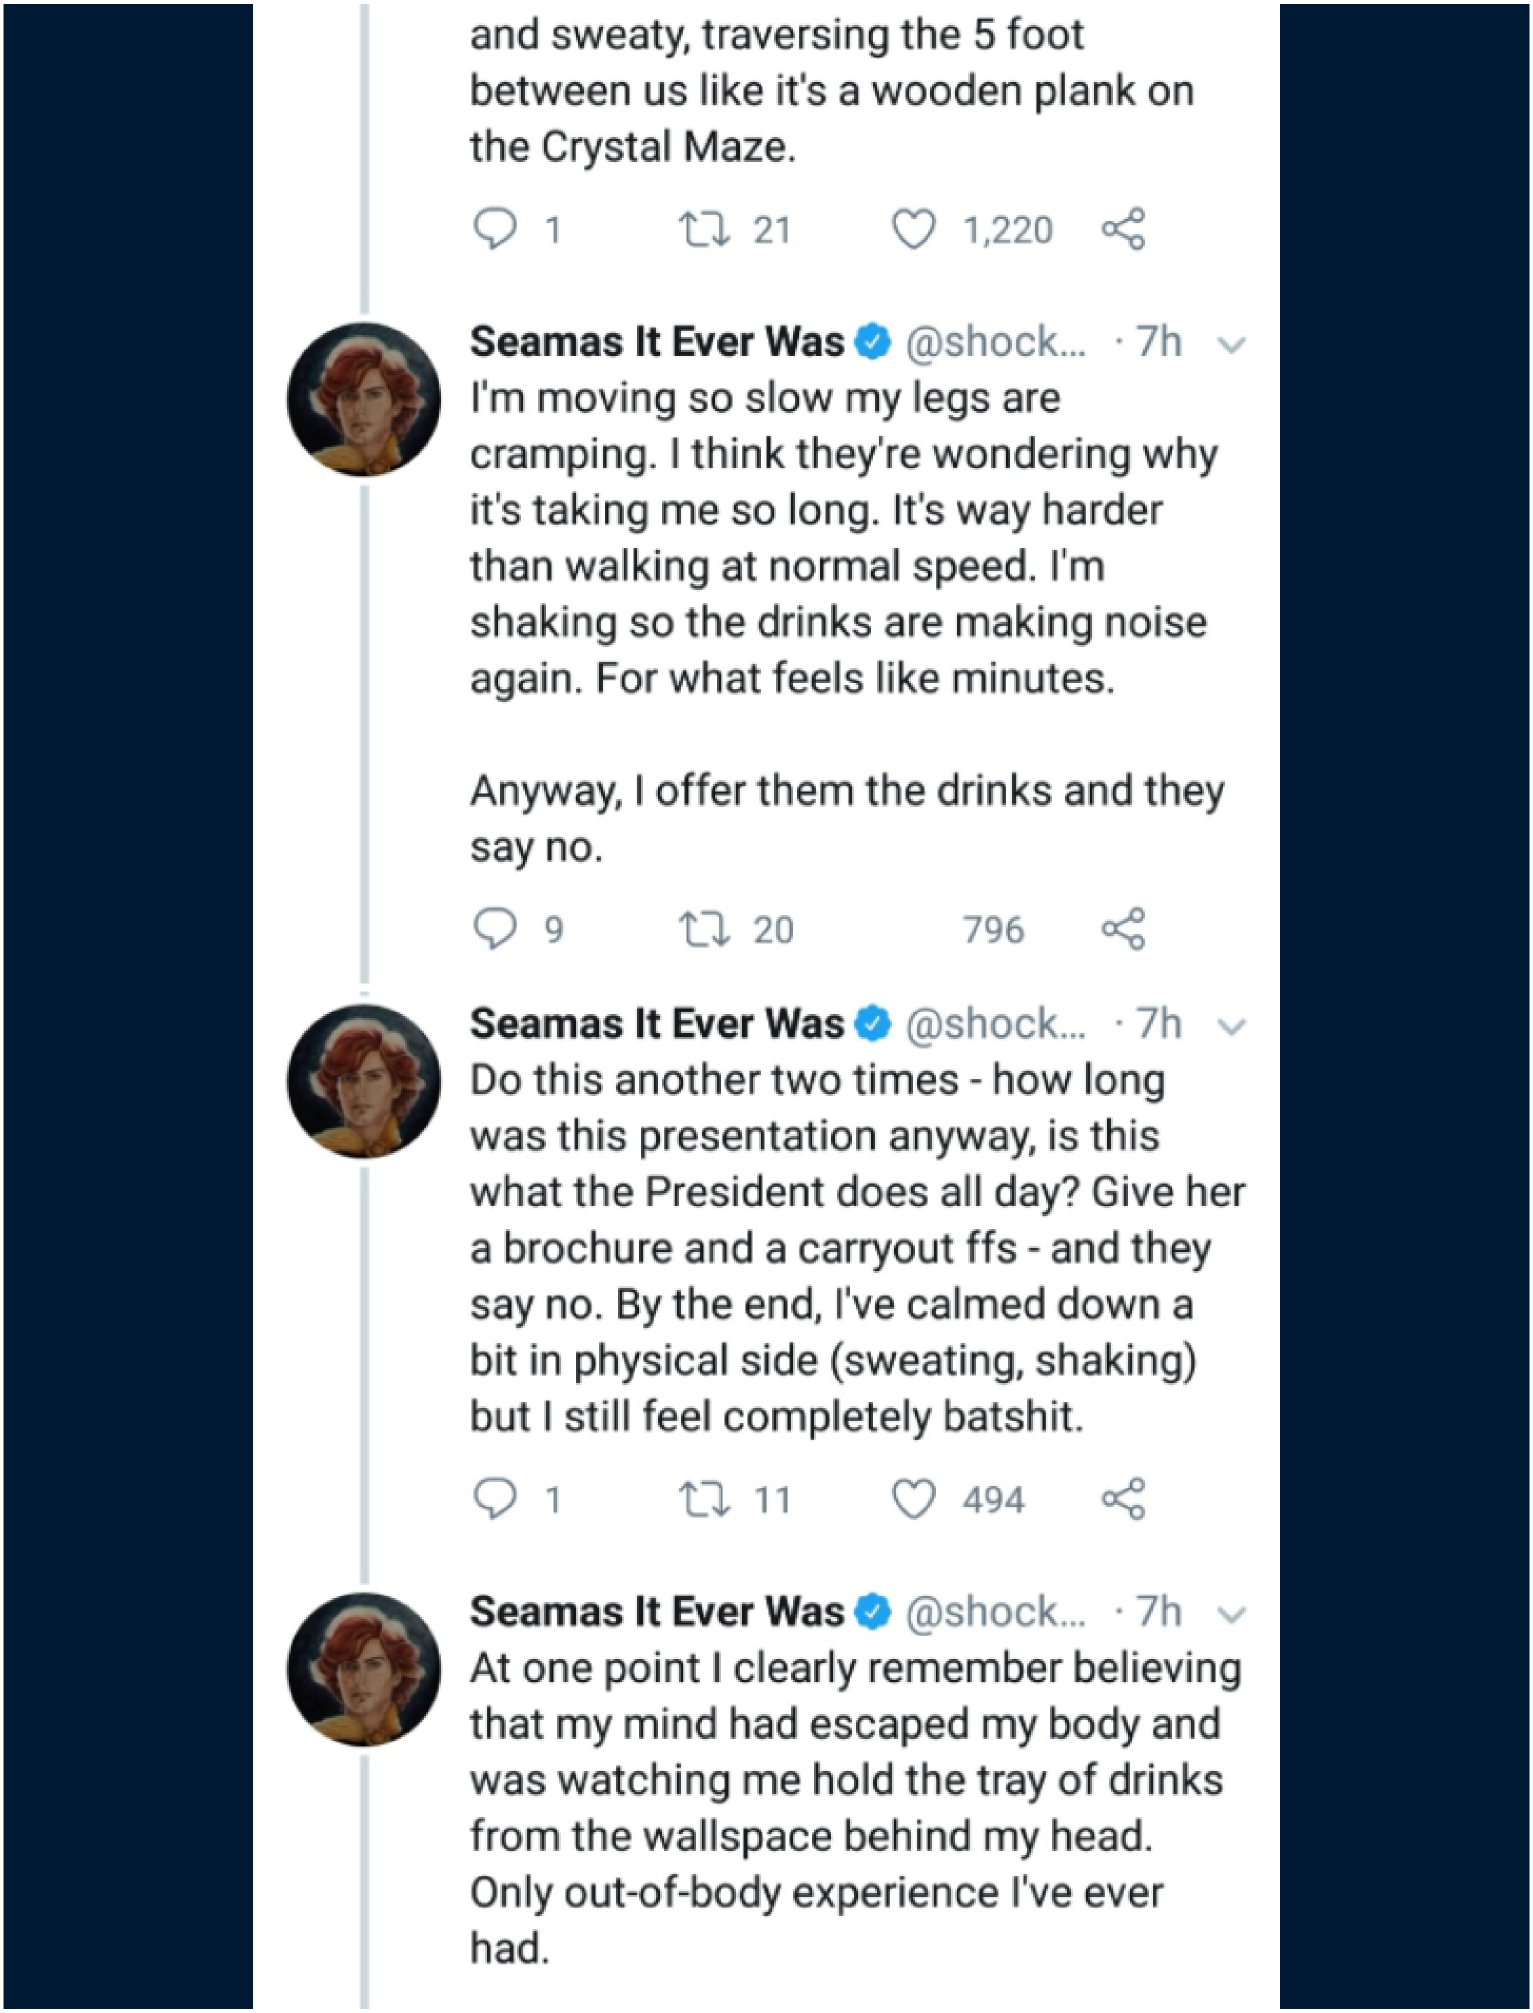
Seamas It Ever Was @shock... · 7h

I begin walking over to them and I move so abruptly that the glasses clink and they turn to look at me. I did this too fast. Now I'm thinking wooooah slow down there martina hingis, so I self-correct to a much slower speed. Watching my breath, nice and casual, you got this buddy.

4 17 738

Seamas It Ever Was @shock... · 7h

Guys. GUYS. Now, I'm moving far too slow. I started at this speed and I'm to embarassed to change and now it's gonna take me like 5 mins to cross the room. They are watching me, frowning



and sweaty, traversing the 5 foot between us like it's a wooden plank on the Crystal Maze.

Seamas It Ever Was @shock... · 7h

I'm moving so slow my legs are cramping. I think they're wondering why it's taking me so long. It's way harder than walking at normal speed. I'm shaking so the drinks are making noise again. For what feels like minutes.

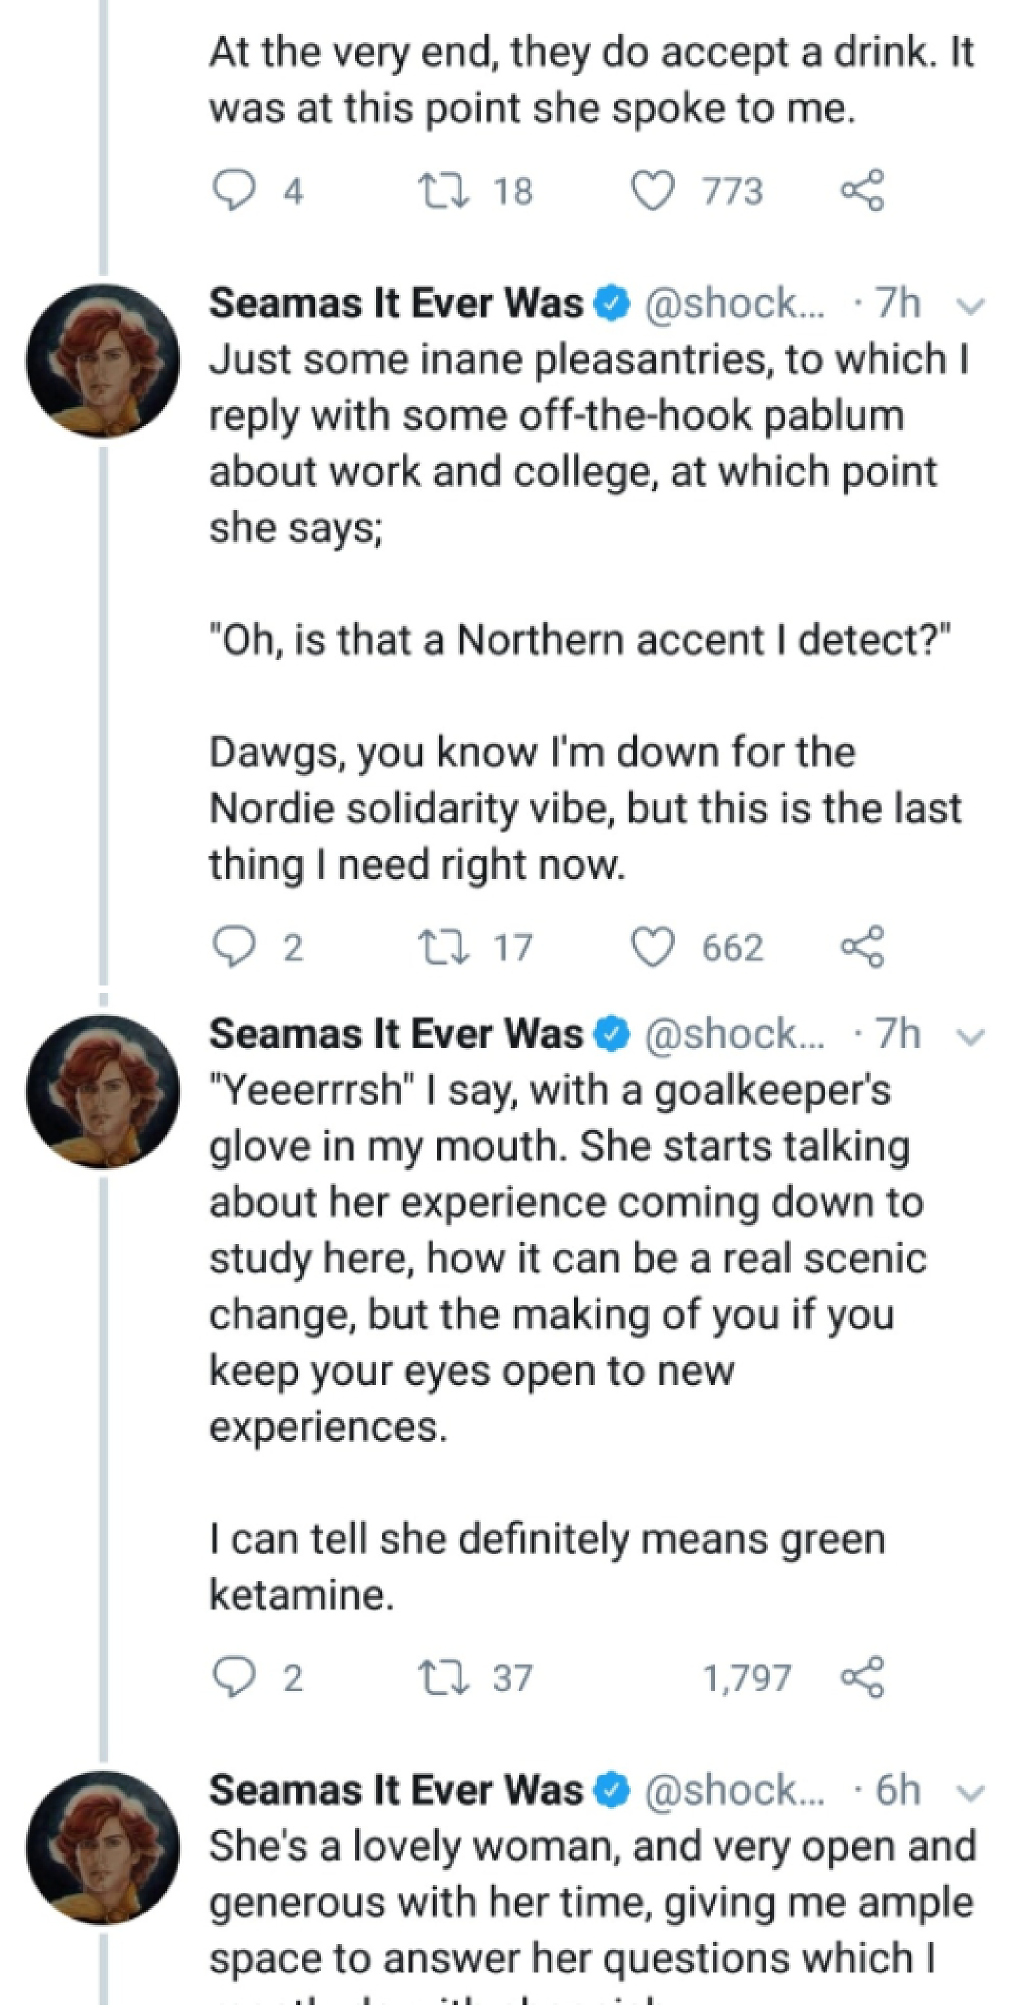
Anyway, I offer them the drinks and they say no.

Seamas It Ever Was @shock... · 7h

Do this another two times - how long was this presentation anyway, is this what the President does all day? Give her a brochure and a carryout ffs - and they say no. By the end, I've calmed down a bit in physical side (sweating, shaking) but I still feel completely batshit.

Seamas It Ever Was @shock... · 7h

At one point I clearly remember believing that my mind had escaped my body and was watching me hold the tray of drinks from the wallspace behind my head. Only out-of-body experience I've ever had.



At the very end, they do accept a drink. It was at this point she spoke to me.

4 18 773

Seamas It Ever Was @shock... · 7h

Just some inane pleasantries, to which I reply with some off-the-hook pablum about work and college, at which point she says;

"Oh, is that a Northern accent I detect?"

Dawgs, you know I'm down for the Nordie solidarity vibe, but this is the last thing I need right now.

2 17 662

Seamas It Ever Was @shock... · 7h

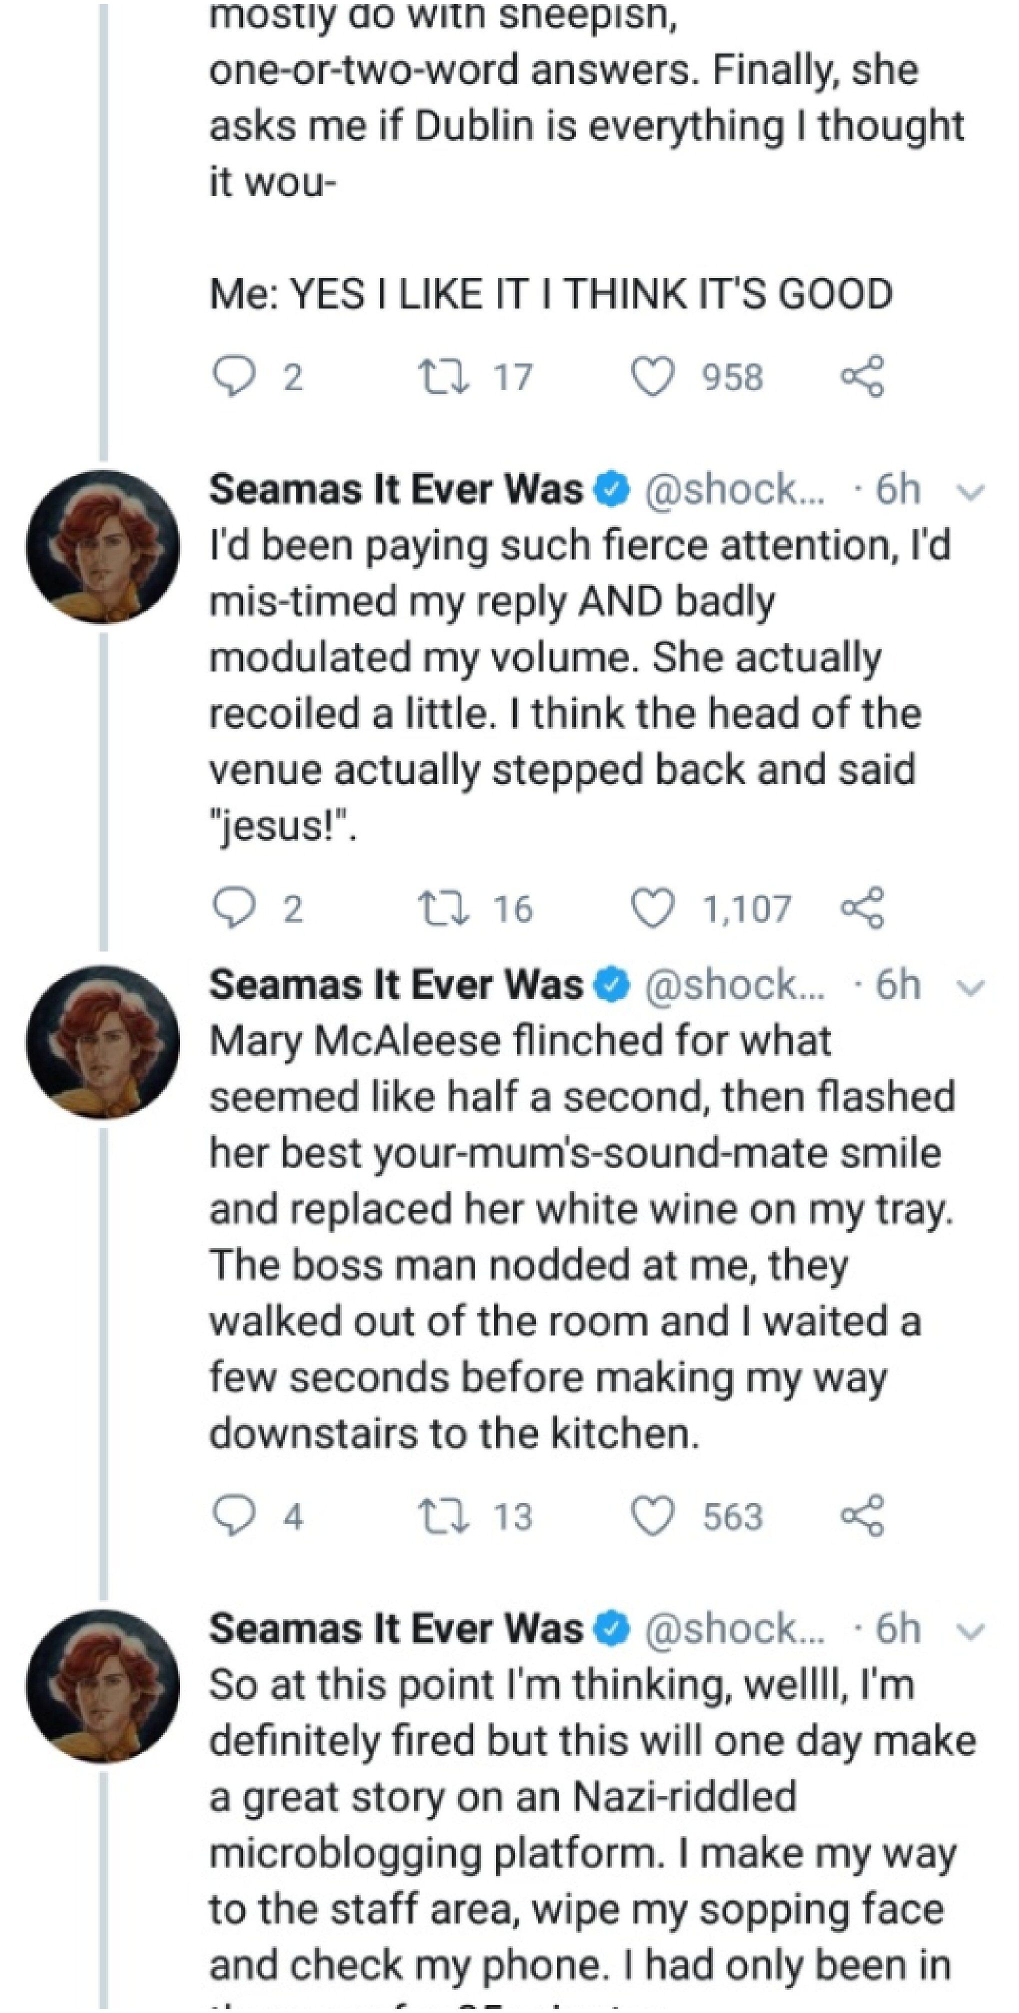
"Yeeerrrsh" I say, with a goalkeeper's glove in my mouth. She starts talking about her experience coming down to study here, how it can be a real scenic change, but the making of you if you keep your eyes open to new experiences.

I can tell she definitely means green ketamine.

2 37 1,797

Seamas It Ever Was @shock... · 6h

She's a lovely woman, and very open and generous with her time, giving me ample space to answer her questions which I



mostly do with sheepish, one-or-two-word answers. Finally, she asks me if Dublin is everything I thought it wou-

Me: YES I LIKE IT I THINK IT'S GOOD

2 17 958

Seamas It Ever Was @shock... · 6h

I'd been paying such fierce attention, I'd mis-timed my reply AND badly modulated my volume. She actually recoiled a little. I think the head of the venue actually stepped back and said "jesus!".

2 16 1,107

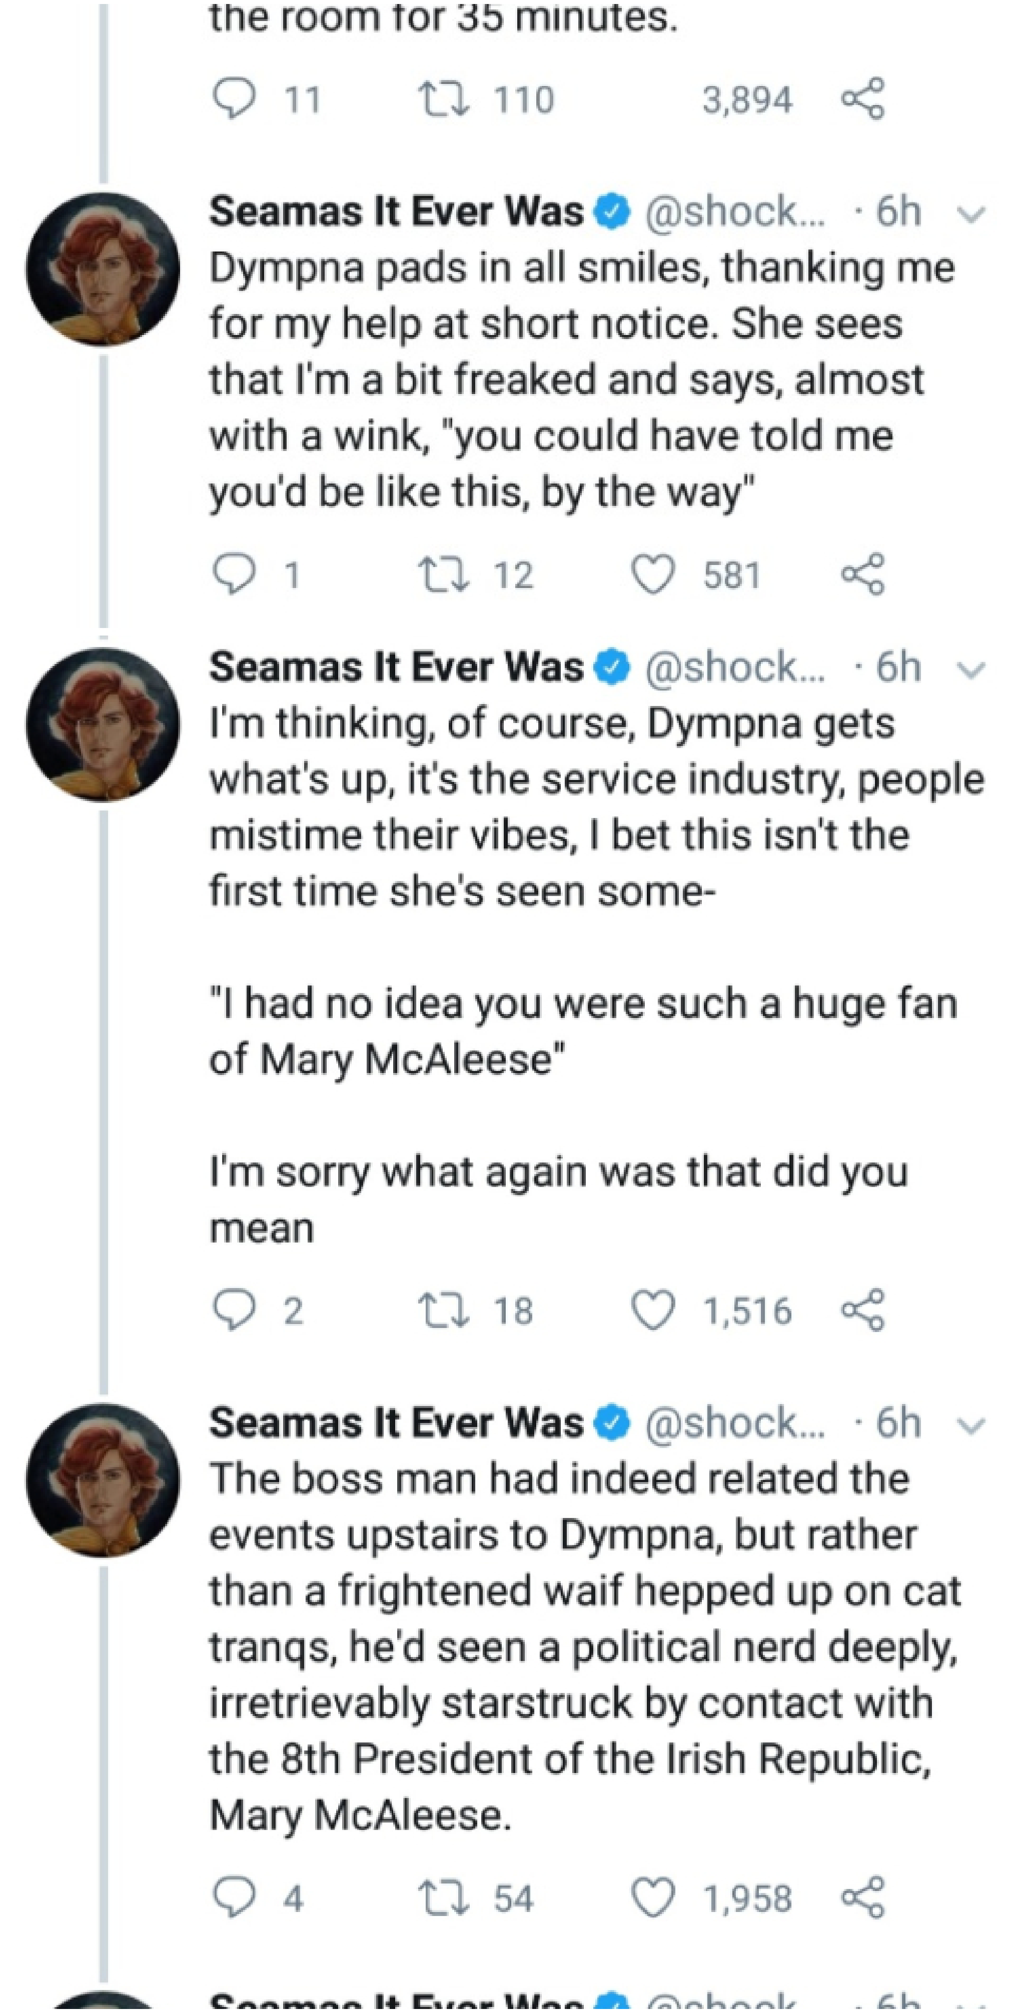
Seamas It Ever Was @shock... · 6h

Mary McAleese flinched for what seemed like half a second, then flashed her best your-mum's-sound-mate smile and replaced her white wine on my tray. The boss man nodded at me, they walked out of the room and I waited a few seconds before making my way downstairs to the kitchen.

4 13 563

Seamas It Ever Was @shock... · 6h

So at this point I'm thinking, wellll, I'm definitely fired but this will one day make a great story on an Nazi-riddled microblogging platform. I make my way to the staff area, wipe my sopping face and check my phone. I had only been in



the room for 35 minutes.

11 110 3,894

Seamas It Ever Was @shock... · 6h

Dympna pads in all smiles, thanking me for my help at short notice. She sees that I'm a bit freaked and says, almost with a wink, "you could have told me you'd be like this, by the way"

1 12 581

Seamas It Ever Was @shock... · 6h

I'm thinking, of course, Dympna gets what's up, it's the service industry, people mistime their vibes, I bet this isn't the first time she's seen some-

"I had no idea you were such a huge fan of Mary McAleese"

I'm sorry what again was that did you mean

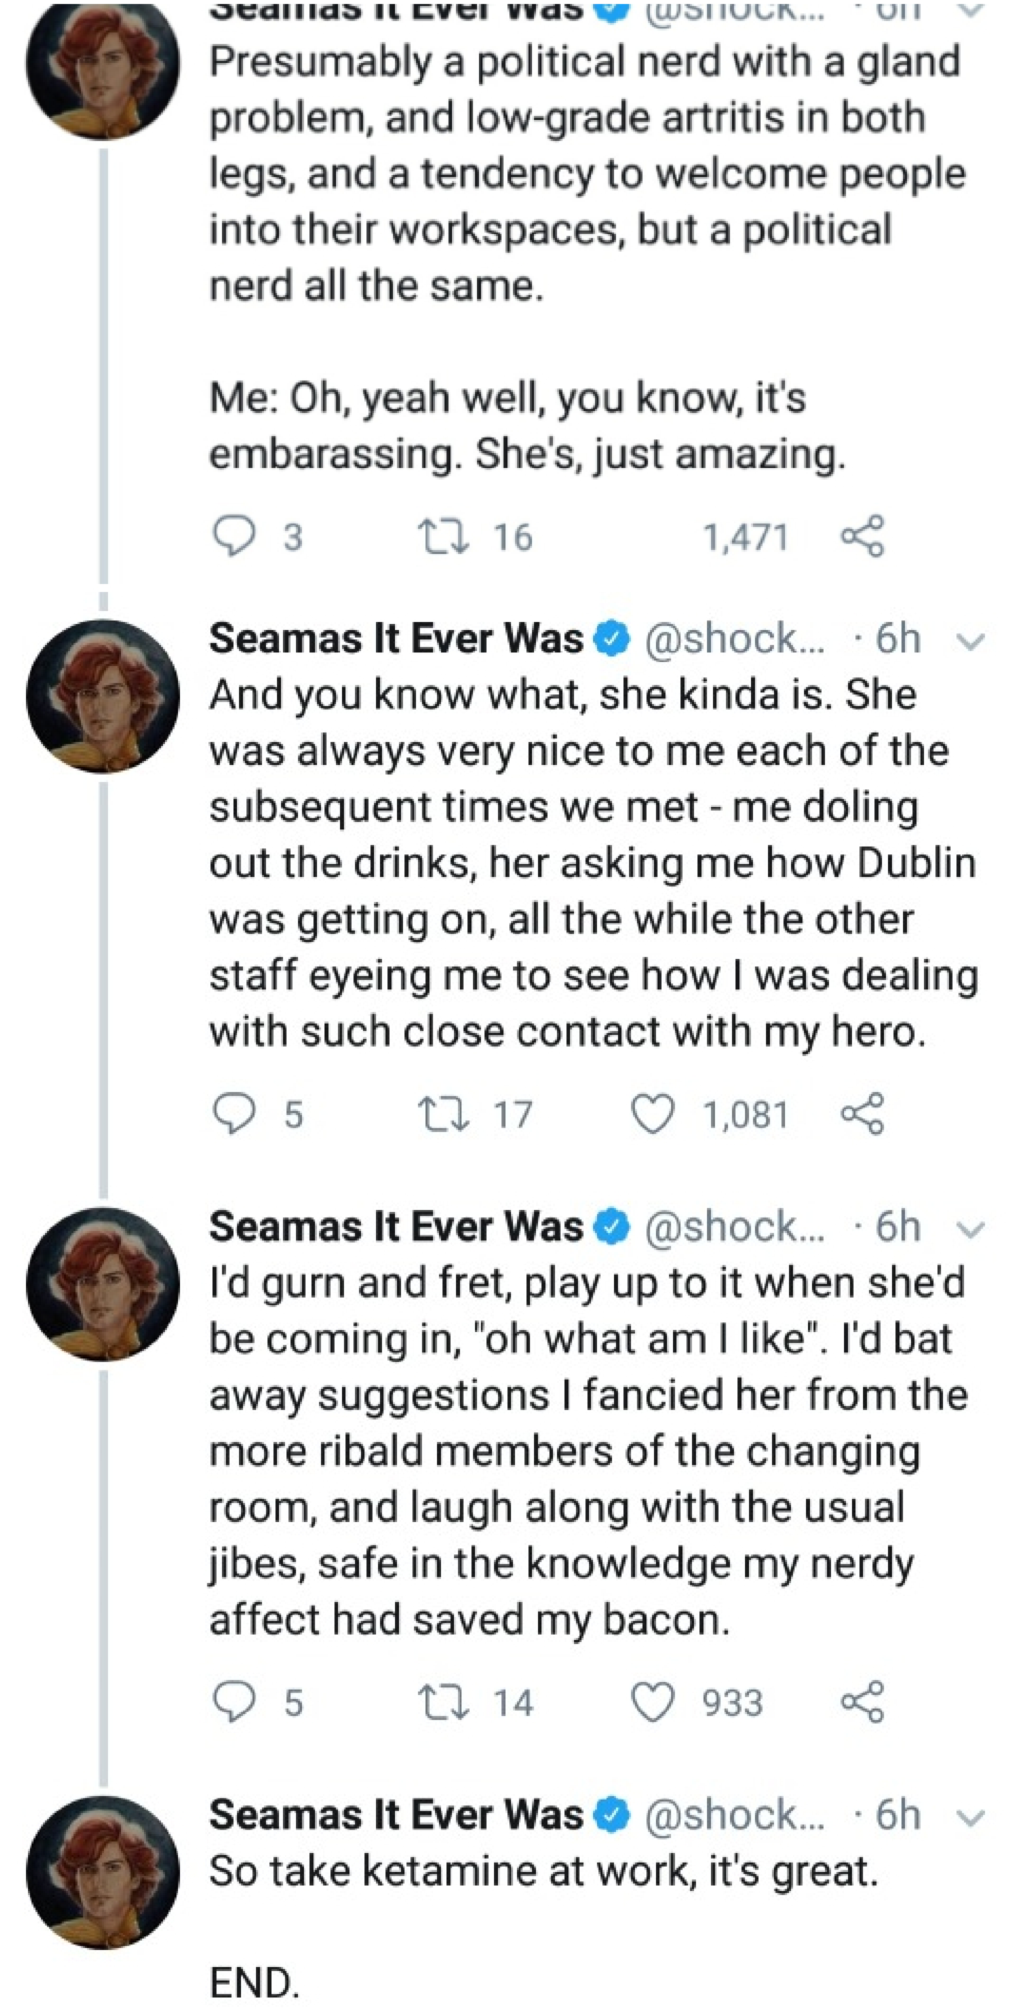
2 18 1,516

Seamas It Ever Was @shock... · 6h

The boss man had indeed related the events upstairs to Dympna, but rather than a frightened waif hepped up on cat tranqs, he'd seen a political nerd deeply, irretrievably starstruck by contact with the 8th President of the Irish Republic, Mary McAleese.

4 54 1,958

Seamas It Ever Was @shock... · 6h



Seamas It Ever Was @shock... · 6h

Presumably a political nerd with a gland problem, and low-grade artritis in both legs, and a tendency to welcome people into their workspaces, but a political nerd all the same.

Me: Oh, yeah well, you know, it's embarassing. She's, just amazing.

3 16 1,471

Seamas It Ever Was @shock... · 6h

And you know what, she kinda is. She was always very nice to me each of the subsequent times we met - me doling out the drinks, her asking me how Dublin was getting on, all the while the other staff eyeing me to see how I was dealing with such close contact with my hero.

5 17 1,081

Seamas It Ever Was @shock... · 6h

I'd gurn and fret, play up to it when she'd be coming in, "oh what am I like". I'd bat away suggestions I fancied her from the more ribald members of the changing room, and laugh along with the usual jibes, safe in the knowledge my nerdy affect had saved my bacon.

5 14 933

Seamas It Ever Was @shock... · 6h

So take ketamine at work, it's great.

END.

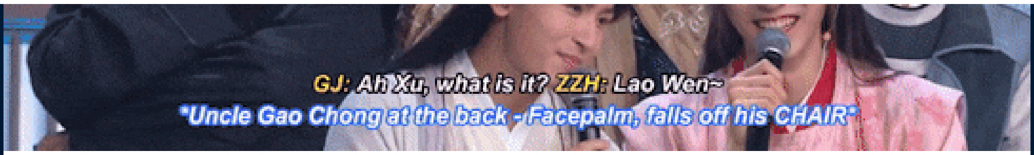
山河令 Word of Honor Concert - Day 1 Chaos in Summary

⇨ ⇨ ⇨ All You Need to Know About Day 1

(1) The Olds Ship WenZhou - Bonus Uncle Gao Chong face-palming and sliding off his chair

the three olds of the show shipping WenZhou like no one's business
LAO WEN <3 LAO ZHOU



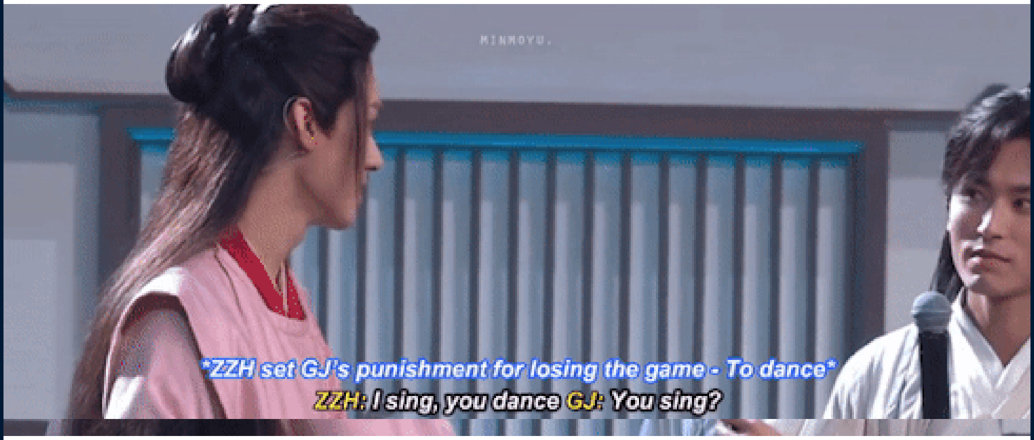
GJ: Ah Xu, what is it? ZZH: Lao Wen~
Uncle Gao Chong at the back - Facepalm, falls off his CHAIR

(2) Hugging Game - ZZH abandons GJ, leaving him betrayed and forlorn

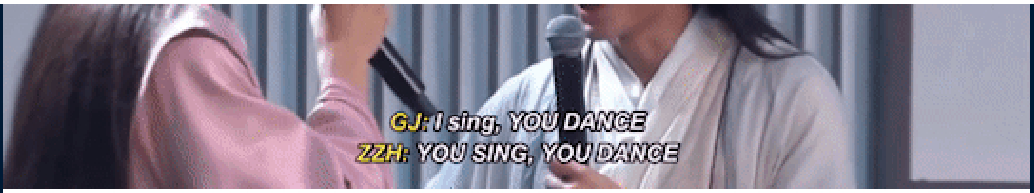
MINMOYU.
host says the number 4 (GJ hugging ZZH = 4)
GJ: *expects that ZZH is going to hug him*
ZZH: *abandons him for SXL*

MINMOYU.
ZZH: *laughs in mean and GJ's misery*

(3) ZZH & GJ Bickering - Because GJ wants to drag ZZH down with him to do the punishment



MINMOYU.
ZZH set GJ's punishment for losing the game - To dance
ZZH: I sing, you dance GJ: You sing?

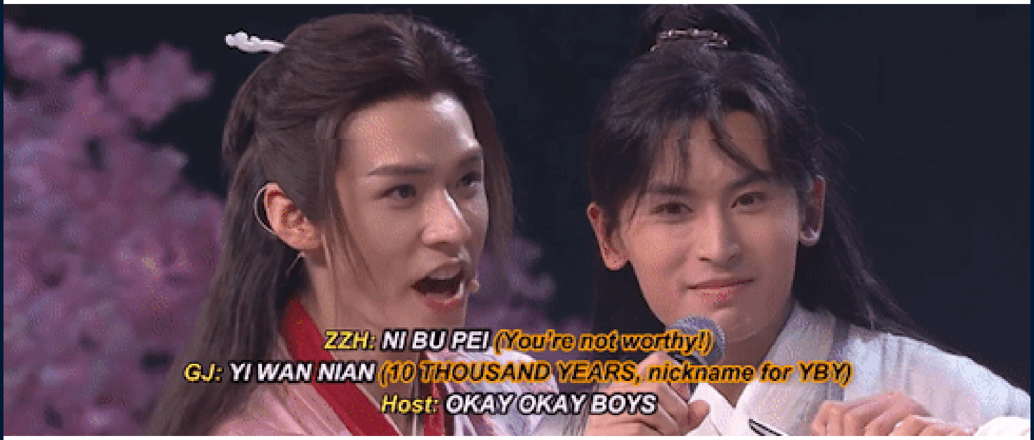


GJ: I sing, YOU DANCE
ZZH: YOU SING, YOU DANCE

MINMOYU.
GJ: I sing, YOU DANCE, you got it the other way round!!!

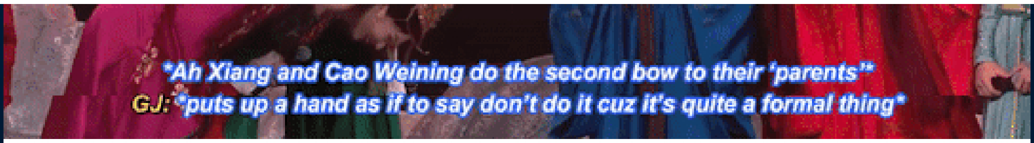
(4) Bullying Ye Baiyi in Ep 27 Re-Enactment (Comedy Ver.)

MINMOYU.
GJ: *in a cute, baby voice* IF YOU WANNA KILL ME, DO IT!
collapses on floor like an idiot



ZZH: NI BU PEI (You're not worthy!)
GJ: YI WAN NIAN (10 THOUSAND YEARS, nickname for YBY)
Host: OKAY OKAY BOYS

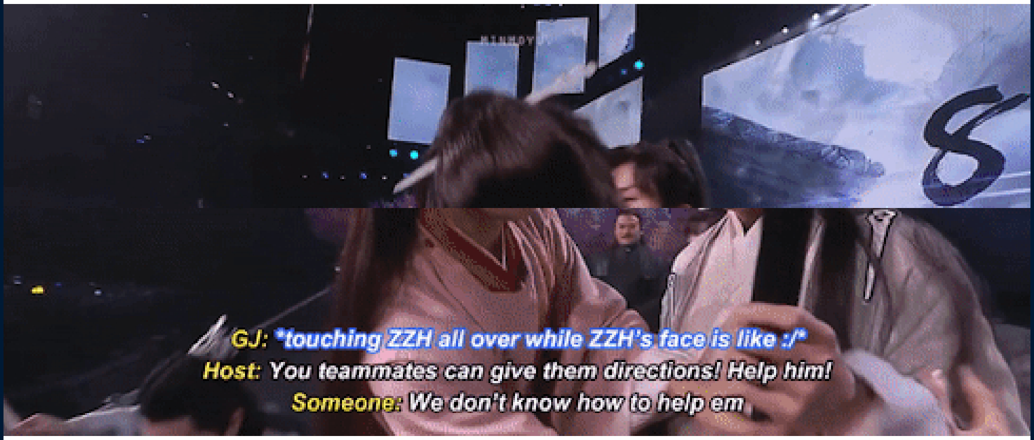
(5) CaoXiang Wedding Fix-It!!!!



Ah Xiang and Cao Weining do the second bow to their 'parents'
GJ: *puts up a hand as if to say don't do it cuz it's quite a formal thing*

MINMOYU.
embarrassed, proud gay dads looking at their daughter & son-in-law

(6) ZZH Touches GJ, GJ Touches ZZH, ZZH Gets Violent



MINMOYU.
GJ: *touching ZZH all over while ZZH's face is like :/*
Host: You teammates can give them directions! Help him!
Someone: We don't know how to help em

MINMOYU.
GJ: Where is it?! *still touching and trying to find the nails after time's up*

MINMOYU.
ZZH: *twirling like a Disney princess*

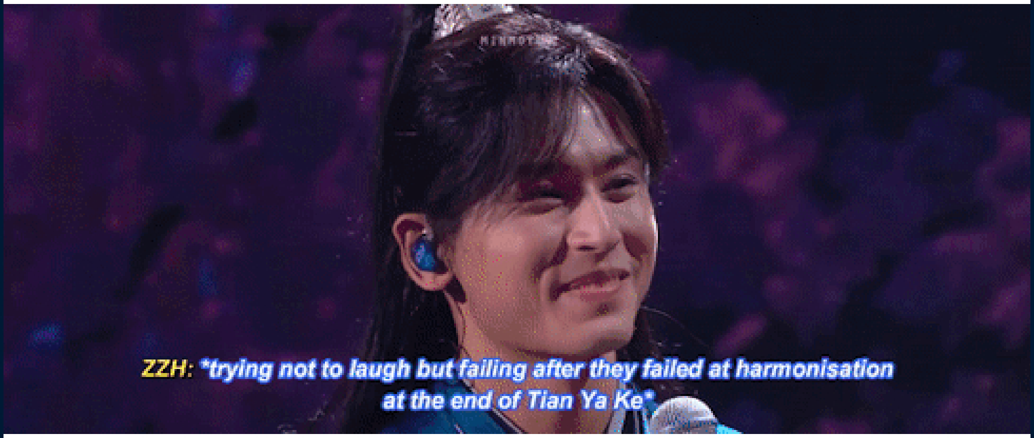
ZZH: *his turn to touch GJ to find the nails, super daring, finds one immediately by reaching right in*

ZZH: *when time was up and he couldn't find more, he tries to rip GJ's clothes off like a gangster* **Everyone:** *rushes to help GJ*

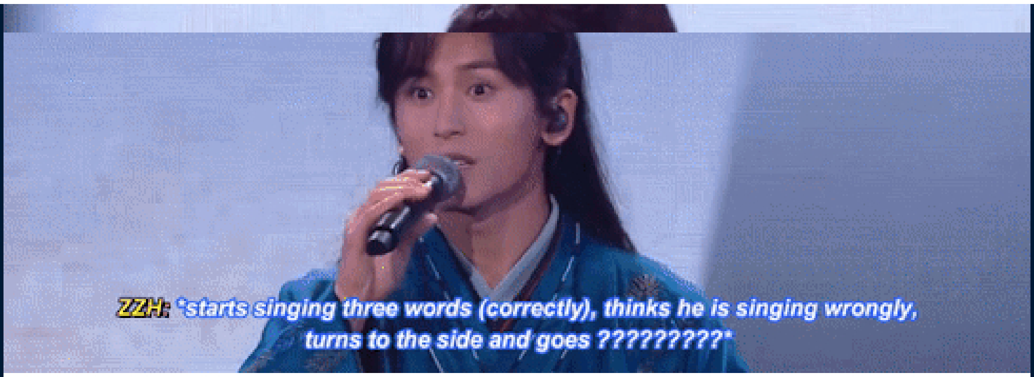
(7) Chen Zihan Says WenZhou Rights - She got balls

CZH: AH XING, WHEN IS IT GOING TO BE UR TURN TO BE MARRIED?
ZZH & GJ: O.O

(8) What Singing, What Concert - Off Key OTP

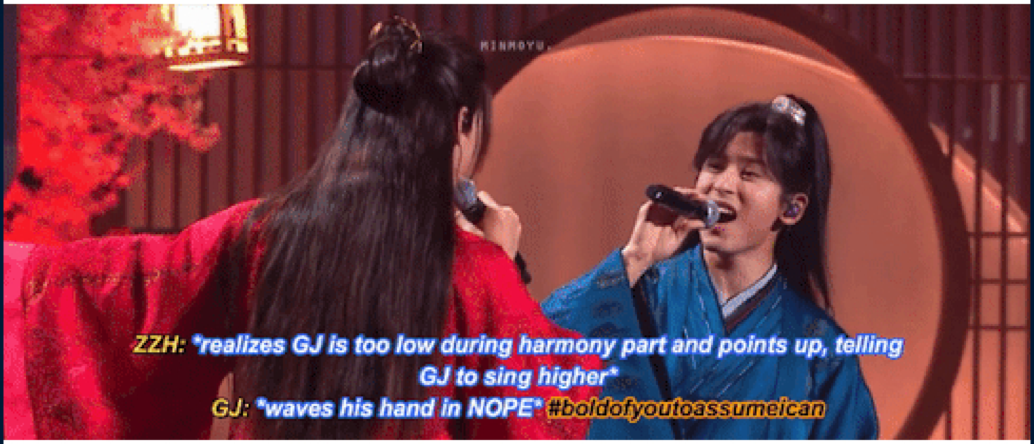


ZZH: *trying not to laugh but failing after they failed at harmonisation at the end of Tian Ya Ke*



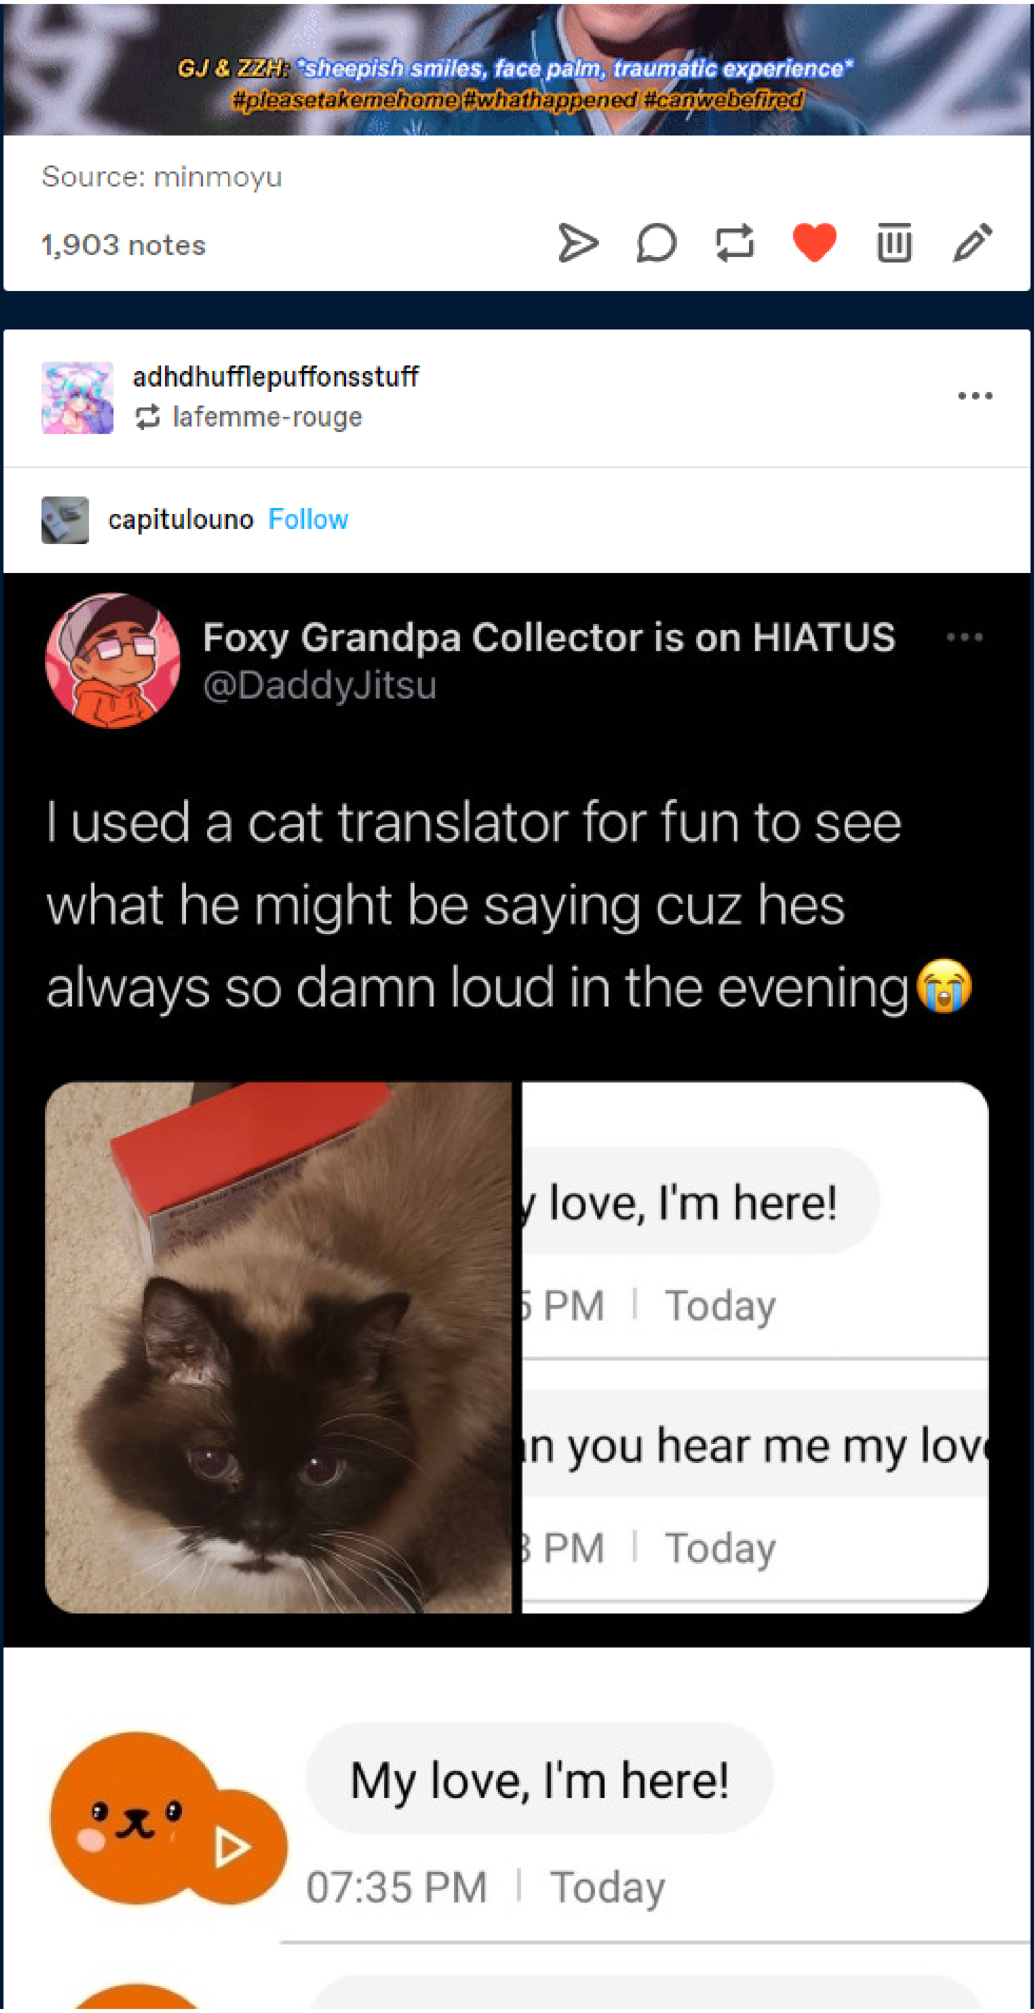
ZZH: *starts singing three words (correctly), thinks he is singing wrongly, turns to the side and goes ?????????*

GJ: *grabs ZZH and forcibly sings the line a bit off key but with sheer grit and determination to drag ZZH back from confusion*



ZZH: *realizes GJ is too low during harmony part and points up, telling GJ to sing higher*
GJ: *waves his hand in NOPE* #boldofyoutoassumeican

GJ & ZZH: *ending Tian Wen* #WEGIVEUP



GJ & ZZH: *sheepish smiles, face palm, traumatic experience*
#pleasetakemehome #whathappened #canwebefired

hey.

This fundraiser is for my mother Aimee Knight. She suffers from complex PTSD and brain trauma. There are several treatments to fix her mind, yet we can't afford them and they're not covered by insurance. My father is her caregiver, but has to work less now due to diabetes. For this Mother's Day, I want to give her hope and accountability. All donations received will go to her medical and legal needs.

https://www.gofundme.com/f/mother-recover-from-ptsd-police-assault?utm_campaign=p_cp+share-sheet&utm_medium=sms&utm_source=customer

thanks.

Help My Mother Recover from PTSD Police Assault, organized by Payton Knight

I love that in the ten years I've been on tumblr, tumblr users' attitude towards tumblr has come full circle, now we're back where we started at "tumblr is our beloved home, no other social media can compare, no other website has what we have, do not trust other websites, do not tell the outsiders about us", only this time we're like. Really exhausted and with a sense of irony about it.

A cat who has become protective of her little chicks.

(Source)

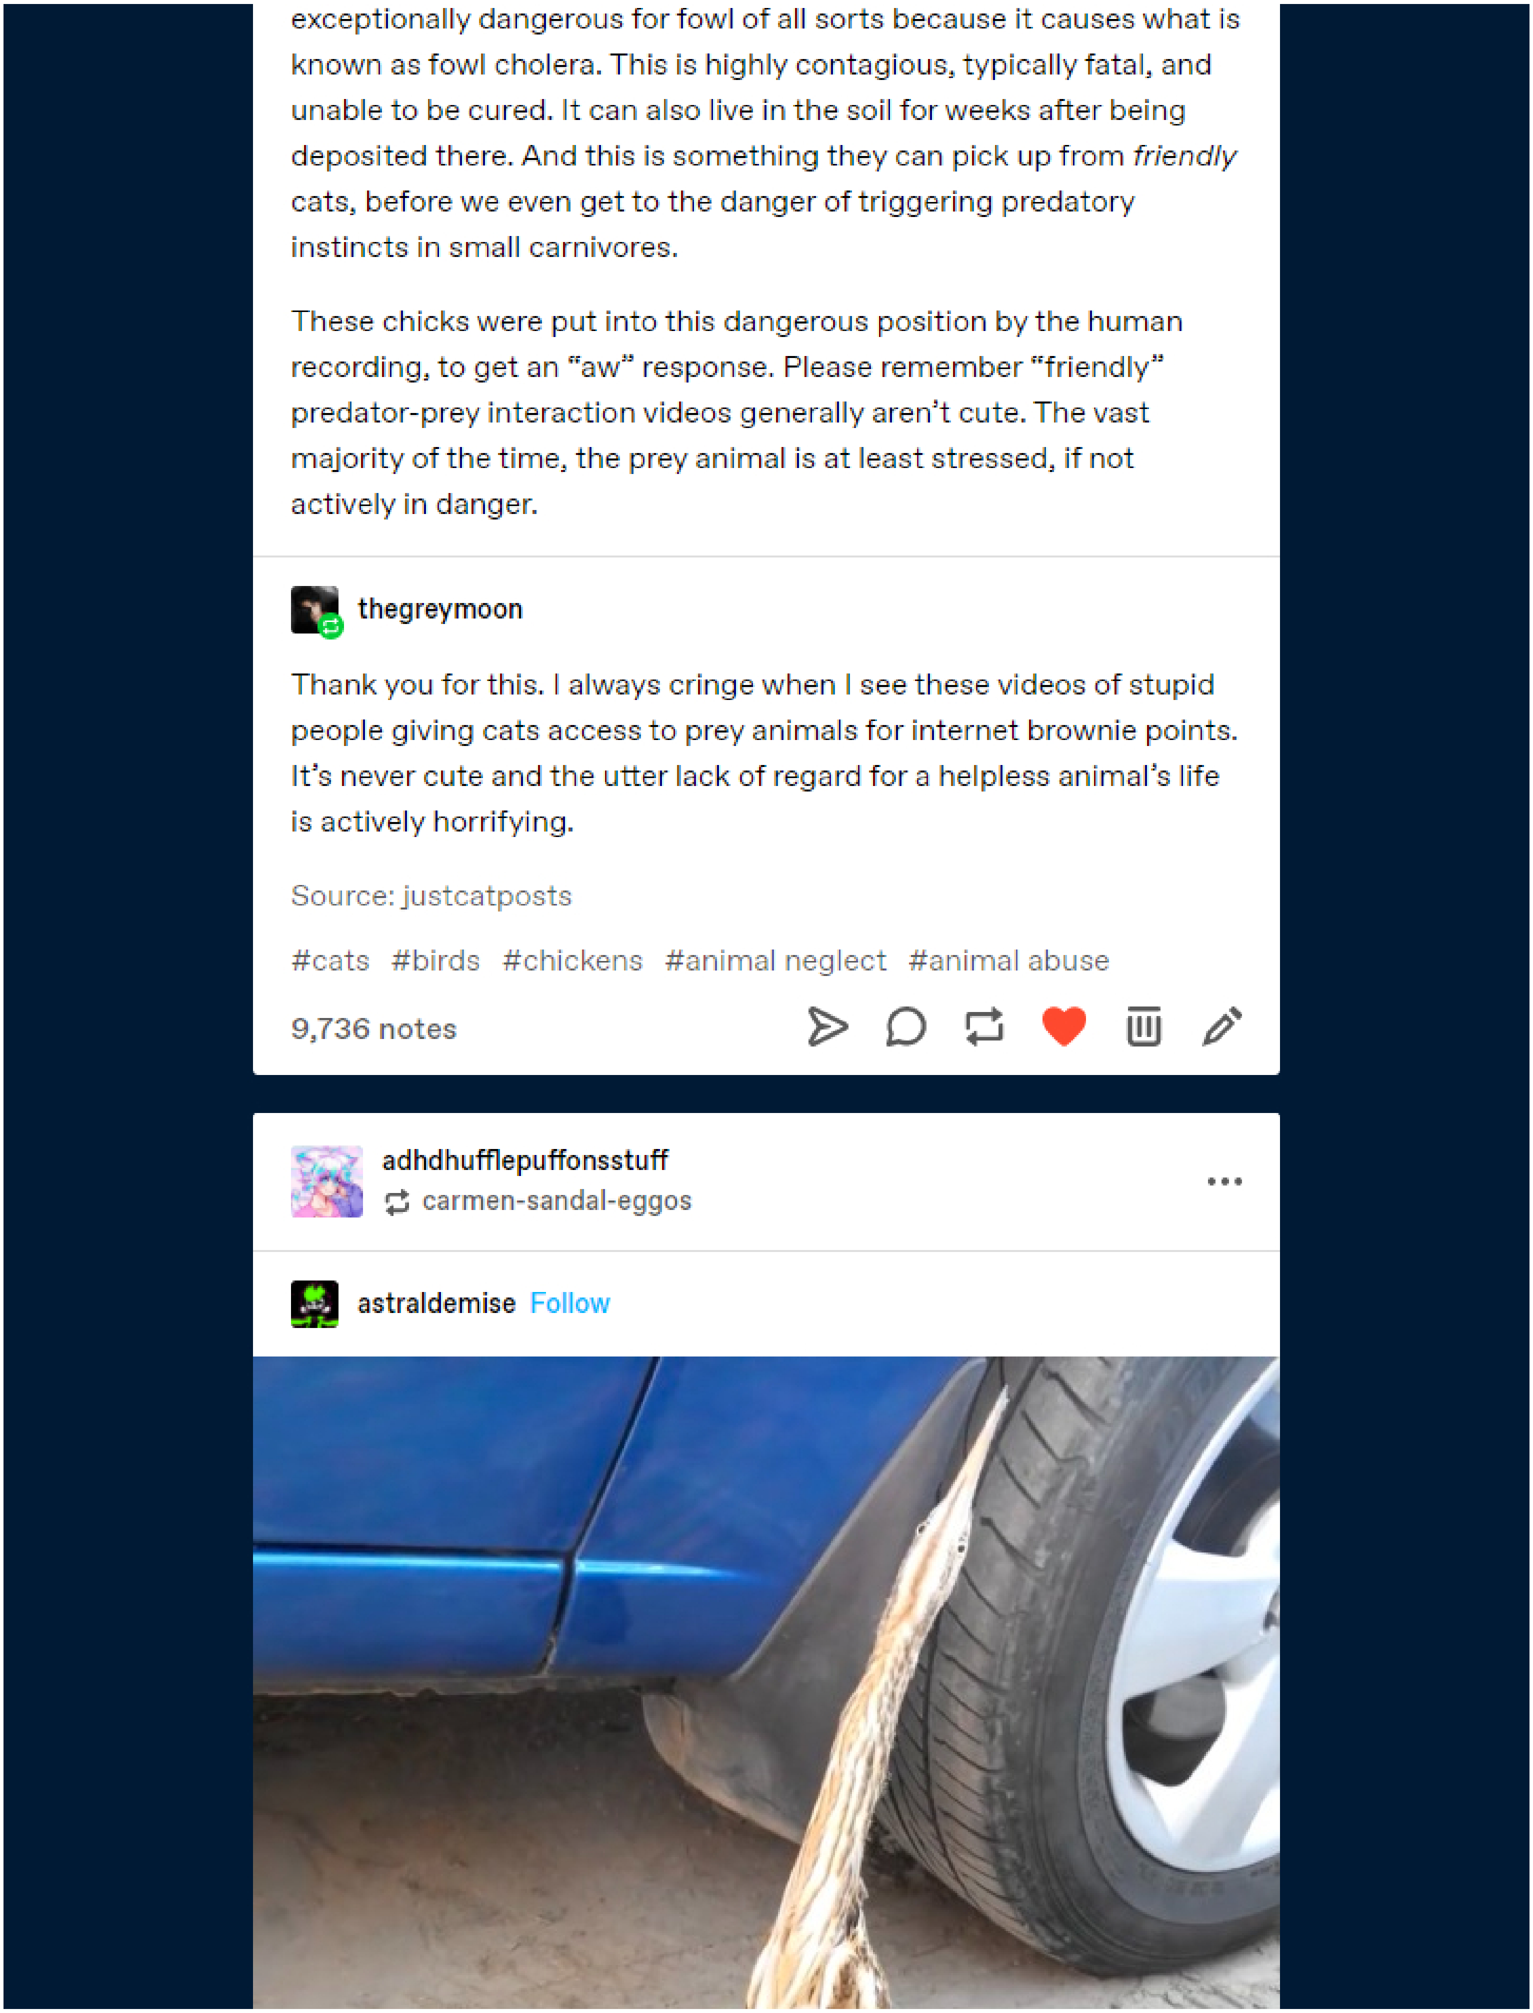
isthisanimalmediacute Follow

oh wow, this is super dangerous, this is a real good way to get dead chicks. the cat licks the chicks, and cat saliva is full of bacteria which practically poisons small animals if they ingest it or get it in a cut. the cat is also in prey mode, its watching a bird directly above the video taker and the camera even pans to the bird. if one of those chicks decided to run off or move too quickly in the cats peripheral vision, that's it.

never let cats interact with small prey animals like birds or reptiles or small mammals. this is incredibly irresponsible and stupid.

kedreeva Follow

The specific pathogen cats carry in their saliva (which is all over their fur) and around their claws is called *Pasteurella multocida*, and it's



exceptionally dangerous for fowl of all sorts because it causes what is known as fowl cholera. This is highly contagious, typically fatal, and unable to be cured. It can also live in the soil for weeks after being deposited there. And this is something they can pick up from *friendly* cats, before we even get to the danger of triggering predatory instincts in small carnivores.

These chicks were put into this dangerous position by the human recording, to get an "aw" response. Please remember "friendly" predator-prey interaction videos generally aren't cute. The vast majority of the time, the prey animal is at least stressed, if not actively in danger.

thegreymoon

Thank you for this. I always cringe when I see these videos of stupid people giving cats access to prey animals for internet brownie points. It's never cute and the utter lack of regard for a helpless animal's life is actively horrifying.

Concept: magical girl series that initially looks like it's going to take a grim twist, with the whole team getting brutally (but bloodlessly) massacred in their very first monster fight – but then the team leader wakes up the next morning perfectly fine and is like "dude, what the FUCK".

Whereupon the cute animal sidekick is like: "Oh, when you 'transform' we transport your human body to the astral plane and replace it with a magical construct that your mind operates remotely. You were never in any real danger – didn't you read the orientation manual?"

Our hero is obliged to admit that she did not, in fact, read the orientation manual.

After taking a moment to process, the protagonist asks the question that's surely on every viewer's mind: "If my powered up form is a drone, does that mean I can customise it?"

The rest of the series is basically a lighthearted combination of recurring fashion montages with increasingly outlandish customised bodies and the team abusing their conditional immortality to do stupid hold-my-beer stunts while the animal sidekick frets about the budget.

prokopetz Follow

@cool-guy-senpai replied:

> I love this but it needs at least one more gimmick to keep a whole 12 episodes going

There's an arc where the team starts running out of energy to transform and the cute animal sidekick scolds them for being so profligate, but it eventually turns out that their budget is fine and the real reason for the shortfall is that the animal sidekick has been committing embezzlement. The reveal segues into a recurring educational segment about various types of white-collar crime.

rslashrats Follow

i understand the sentiment with the whole "people prefer dogs over cats because cats have boundaries" thing but dogs have boundaries too. i feel like people need to stop acting like dogs don't also have boundaries

furbearingbrick Follow

Fun fact! The main reason chihuahuas have a reputation for being "mean" is that people deliberately tease them and ignore warning signals they'd otherwise heed if it were a medium- to large-breed. Goading your pet into a growling fit for a "funny" video isn't cute!

queerautism Follow

People often treat small dogs' warning signals as funny, and punish big dogs', because they think a big dog growling is dangerous. No, it's telling you it was something to stop, just like small dogs are. If you take that away, either by punishing or disregarding it as funny and continuing, what you get is a dog who feels the need to escalate closer to biting without warning next time.

rabbitindisguise Follow

I think the difference between the two is the lengths people expect them to *enforce* their boundaries rather than just having them

If you pet a cat when they're overstimulated, getting bit is a typical expected outcome even if the person doing it frames it negatively and blames the cat.

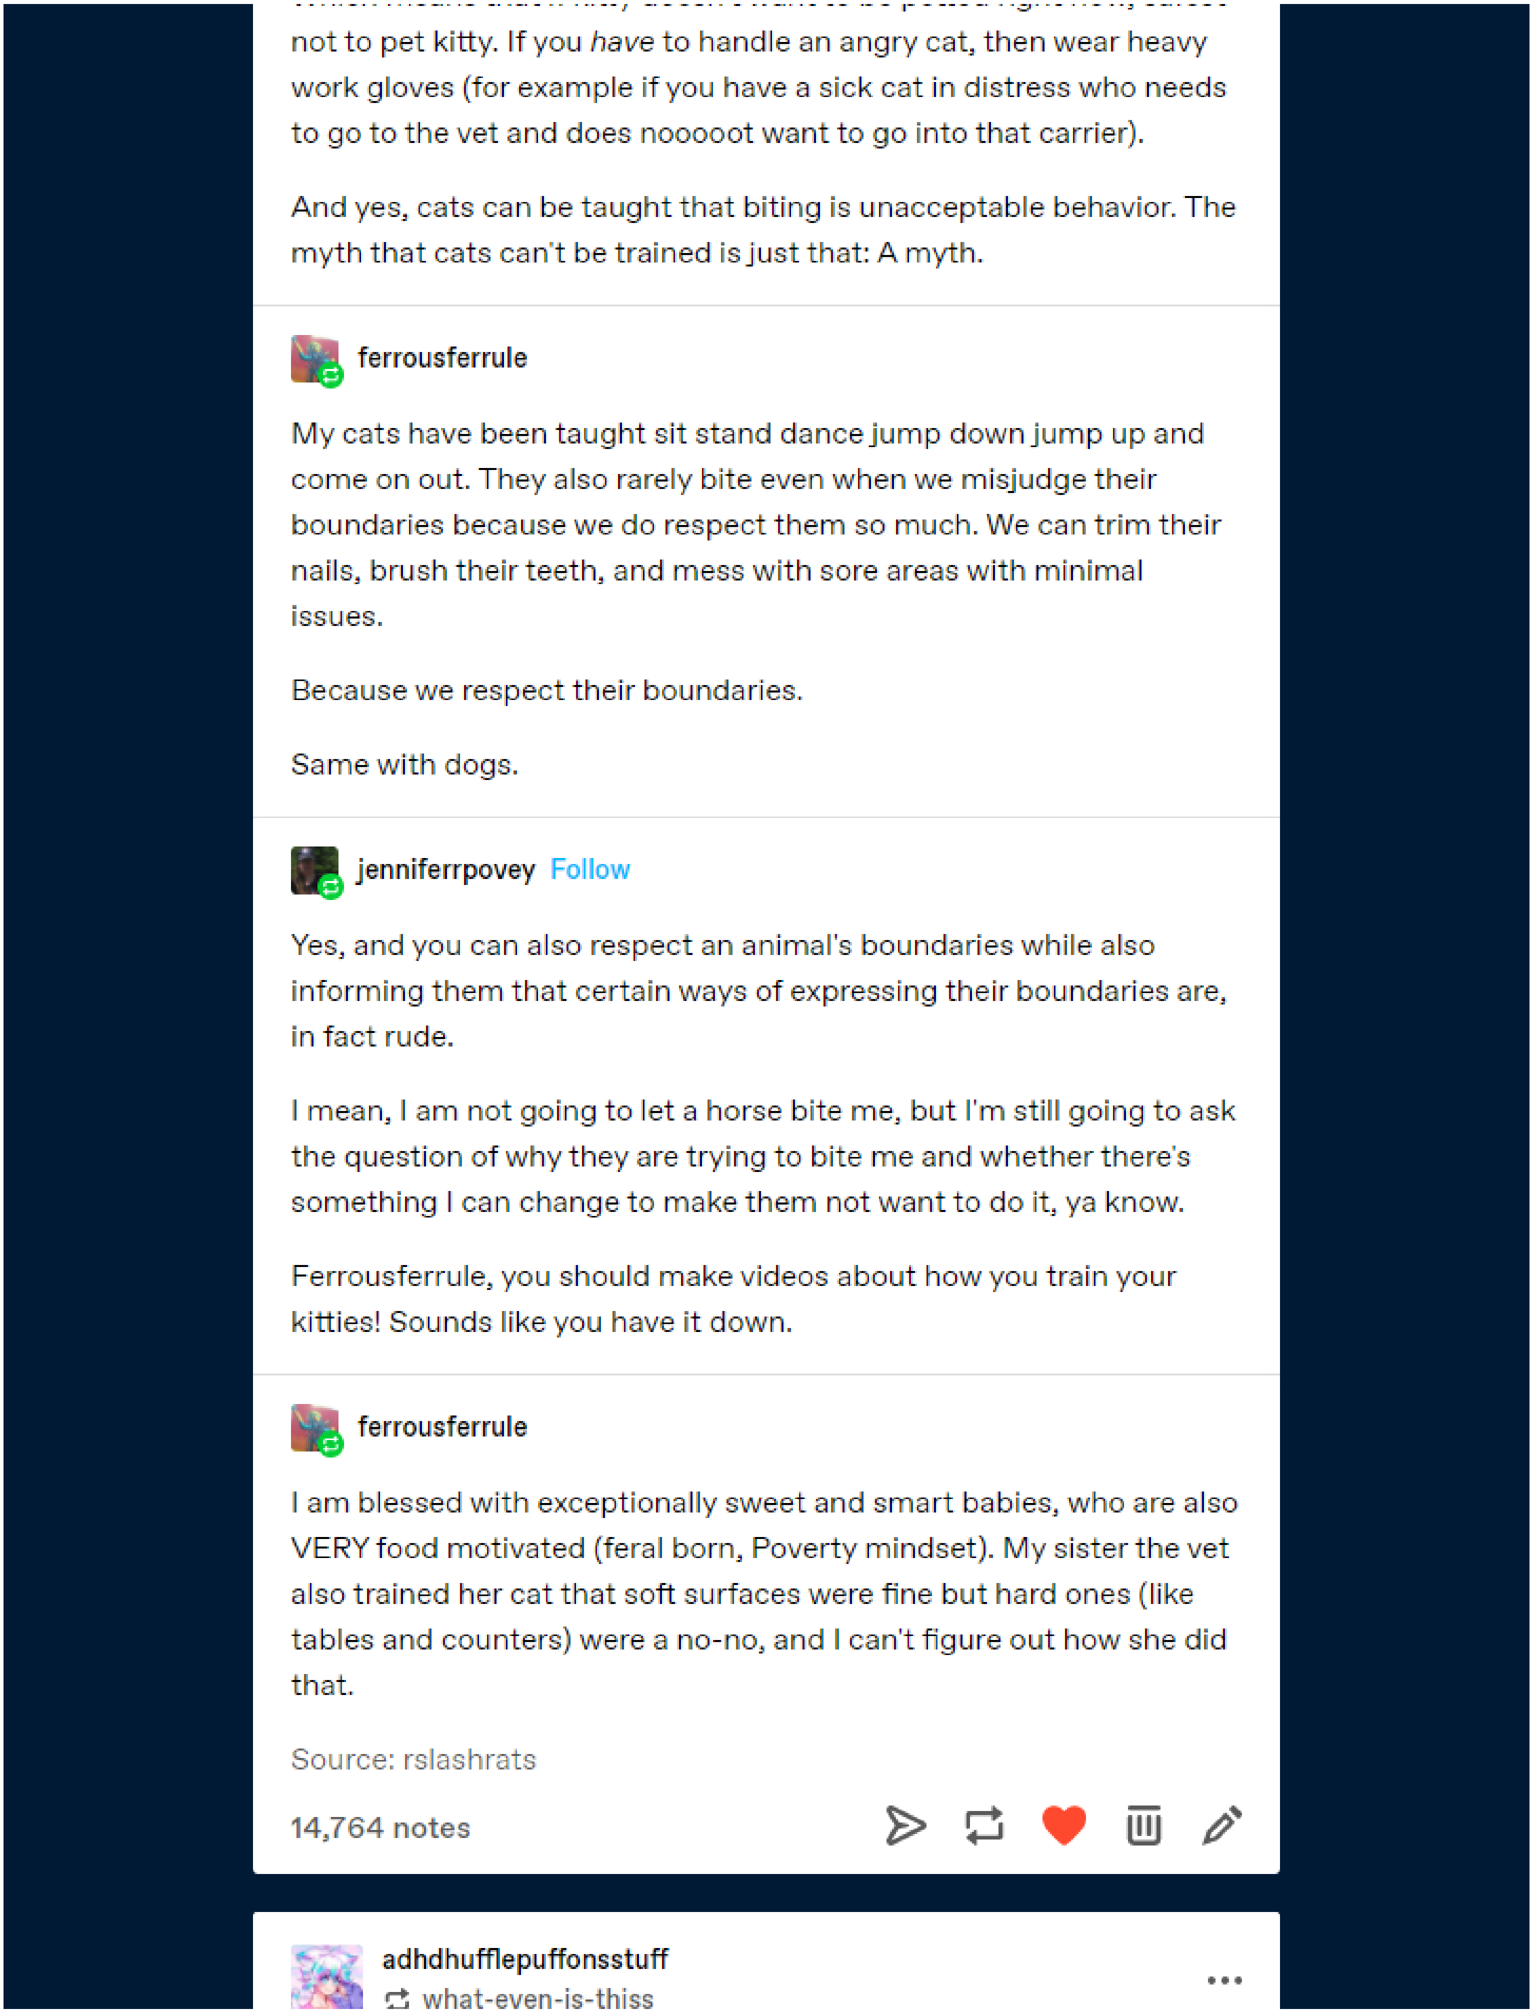
If you pet a (big) dog when they're overstimulated, getting bit is *scandalous*.

jenniferrpovey Follow

Despite the fact that being bitten by a cat is, in fact, *more dangerous*.

Cats carry a lot more bacteria in their mouths than dogs do, including something called *Pasteurella multocida*. This can cause cellulitis and septicemia and can be fatal without proper treatment.

Which means that if kitty doesn't want to be petted right now, safest



not to pet kitty. If you *have* to handle an angry cat, then wear heavy work gloves (for example if you have a sick cat in distress who needs to go to the vet and does nooooot want to go into that carrier).

And yes, cats can be taught that biting is unacceptable behavior. The myth that cats can't be trained is just that: A myth.

ferrousferrule

My cats have been taught sit stand dance jump down jump up and come on out. They also rarely bite even when we misjudge their boundaries because we do respect them so much. We can trim their nails, brush their teeth, and mess with sore areas with minimal issues.

Because we respect their boundaries.

Same with dogs.

jenniferrpovey Follow

Yes, and you can also respect an animal's boundaries while also informing them that certain ways of expressing their boundaries are, in fact rude.

I mean, I am not going to let a horse bite me, but I'm still going to ask the question of why they are trying to bite me and whether there's something I can change to make them not want to do it, ya know.

Ferrousferrule, you should make videos about how you train your kitties! Sounds like you have it down.

ferrousferrule

I am blessed with exceptionally sweet and smart babies, who are also VERY food motivated (feral born, Poverty mindset). My sister the vet also trained her cat that soft surfaces were fine but hard ones (like tables and counters) were a no-no, and I can't figure out how she did that.

Aphroditos, the Trans Aphrodite worshipped widely in Amathus and Athens.

This particular pose, where a feminine deity lifts up their skirt or dress to reveal a phallus, is called the *Anasyrma* or *Anasyromenos* and was widely regarded as an apotropaic gesture, averting evil influences and bringing forth good fortune.

> "There's also a statue of Venus on Cyprus, that's bearded, shaped and dressed like a woman, with scepter and male genitals, and they conceive her as both male and female. Aristophanes calls her Aphroditus, and Laevius says: Worshiping, then, the nurturing god Venus, whether she is male or female, just as the Moon is a nurturing goddess. In his Atthis Philochorus, too, states that she is the Moon and that men sacrifice to her in women's dress, women in men's, because she is held to be both male and female."

-Macrobius, ***Saturnalia*** (C. 431 BCE)

This combination of masculinity and femininity in the same Deity and their assocition with the moon, both of which were considered to have fertilizing powers, was regarded as having an influence over the entire animal and vegetable creation.

They were often identified with Ermaphroditos (Hermaphroditus), the intersex child of Aphrodite and Hermes

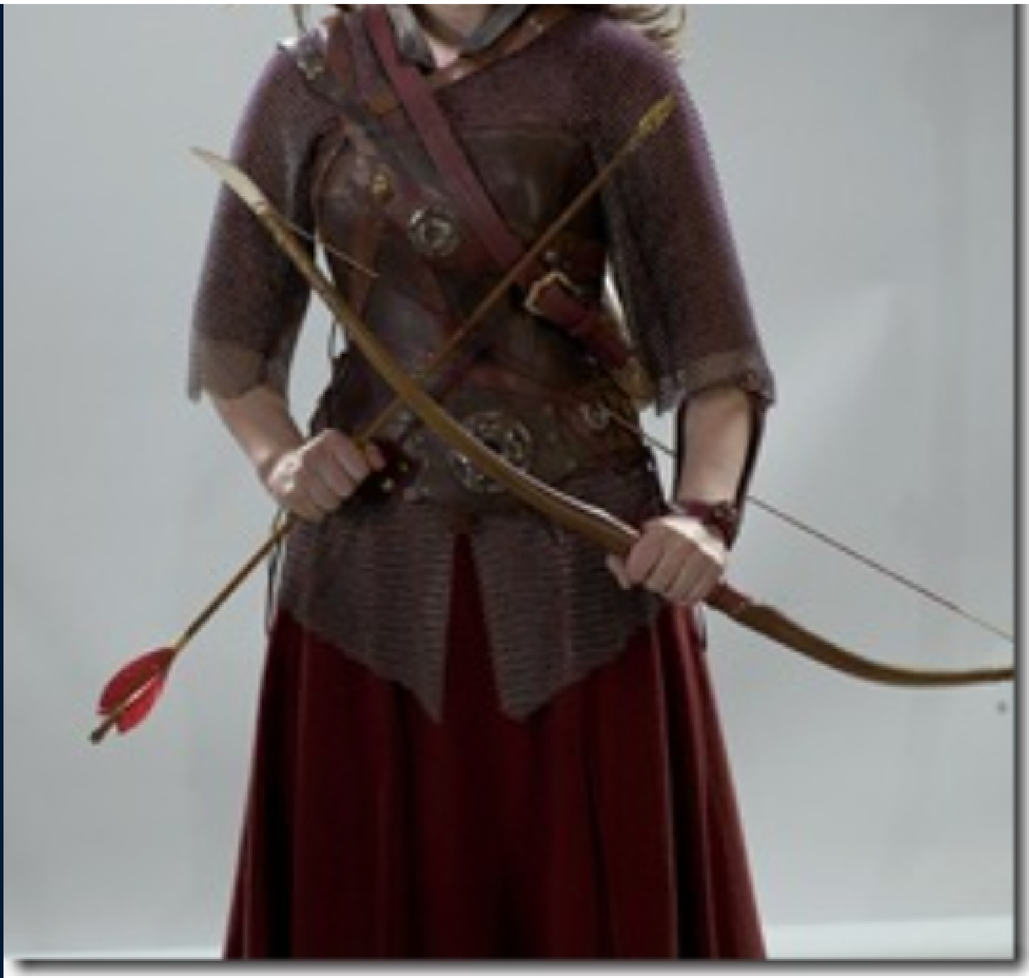
goldcrescent

can we take a second to ponder on the fact that a kids movie did lady armor better than the entire film and comic industry

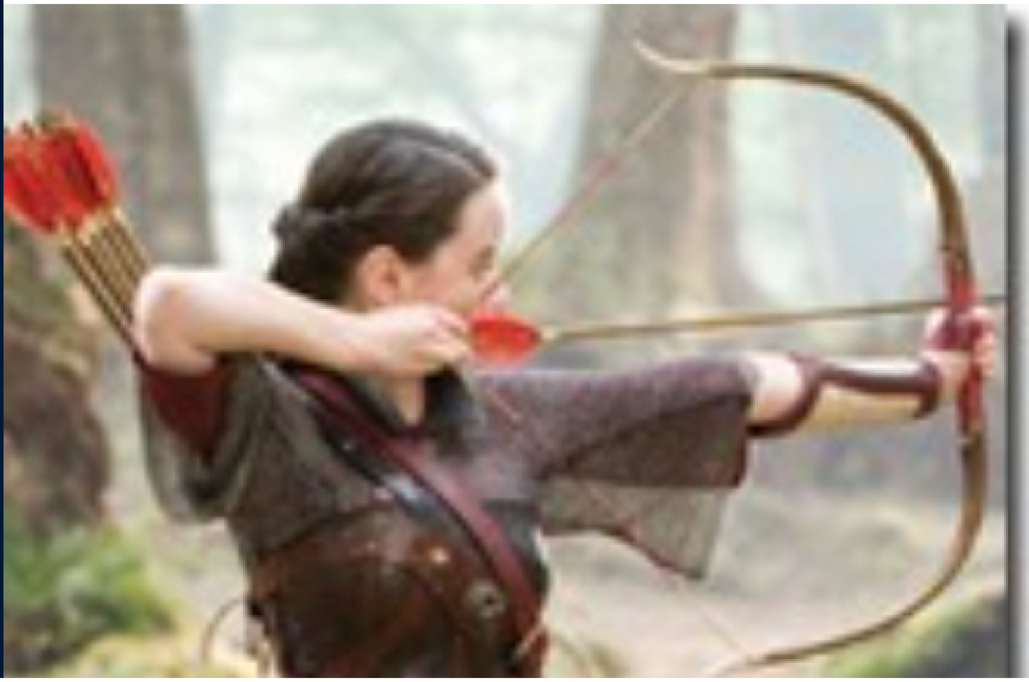
guess who i’m talking about

did you guess? Well you’re fucking WRONG because it’s Susan goddamn Pevensie

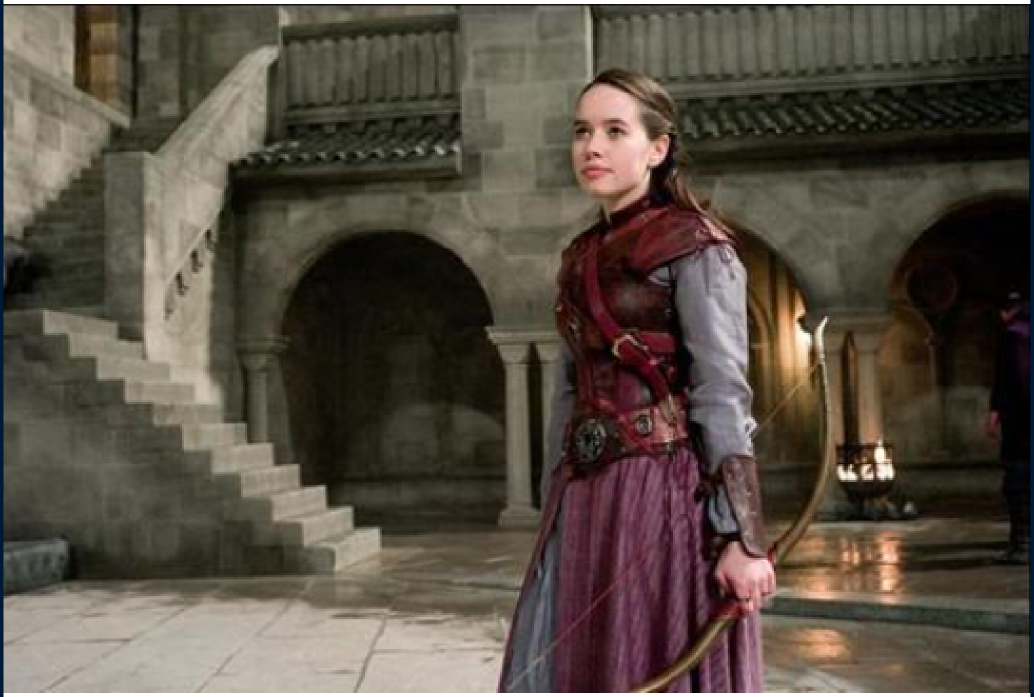


They gave her light armor, appropriate for a small archer:chainmail, an arm brace, chest plate, and a light skirt she can easily run around murderizing dudes in the face in

her hair is also only loose in the promo pictures because Susan is fucking busy not dying because her hair was flying into her eyeballs so she braids that shit back

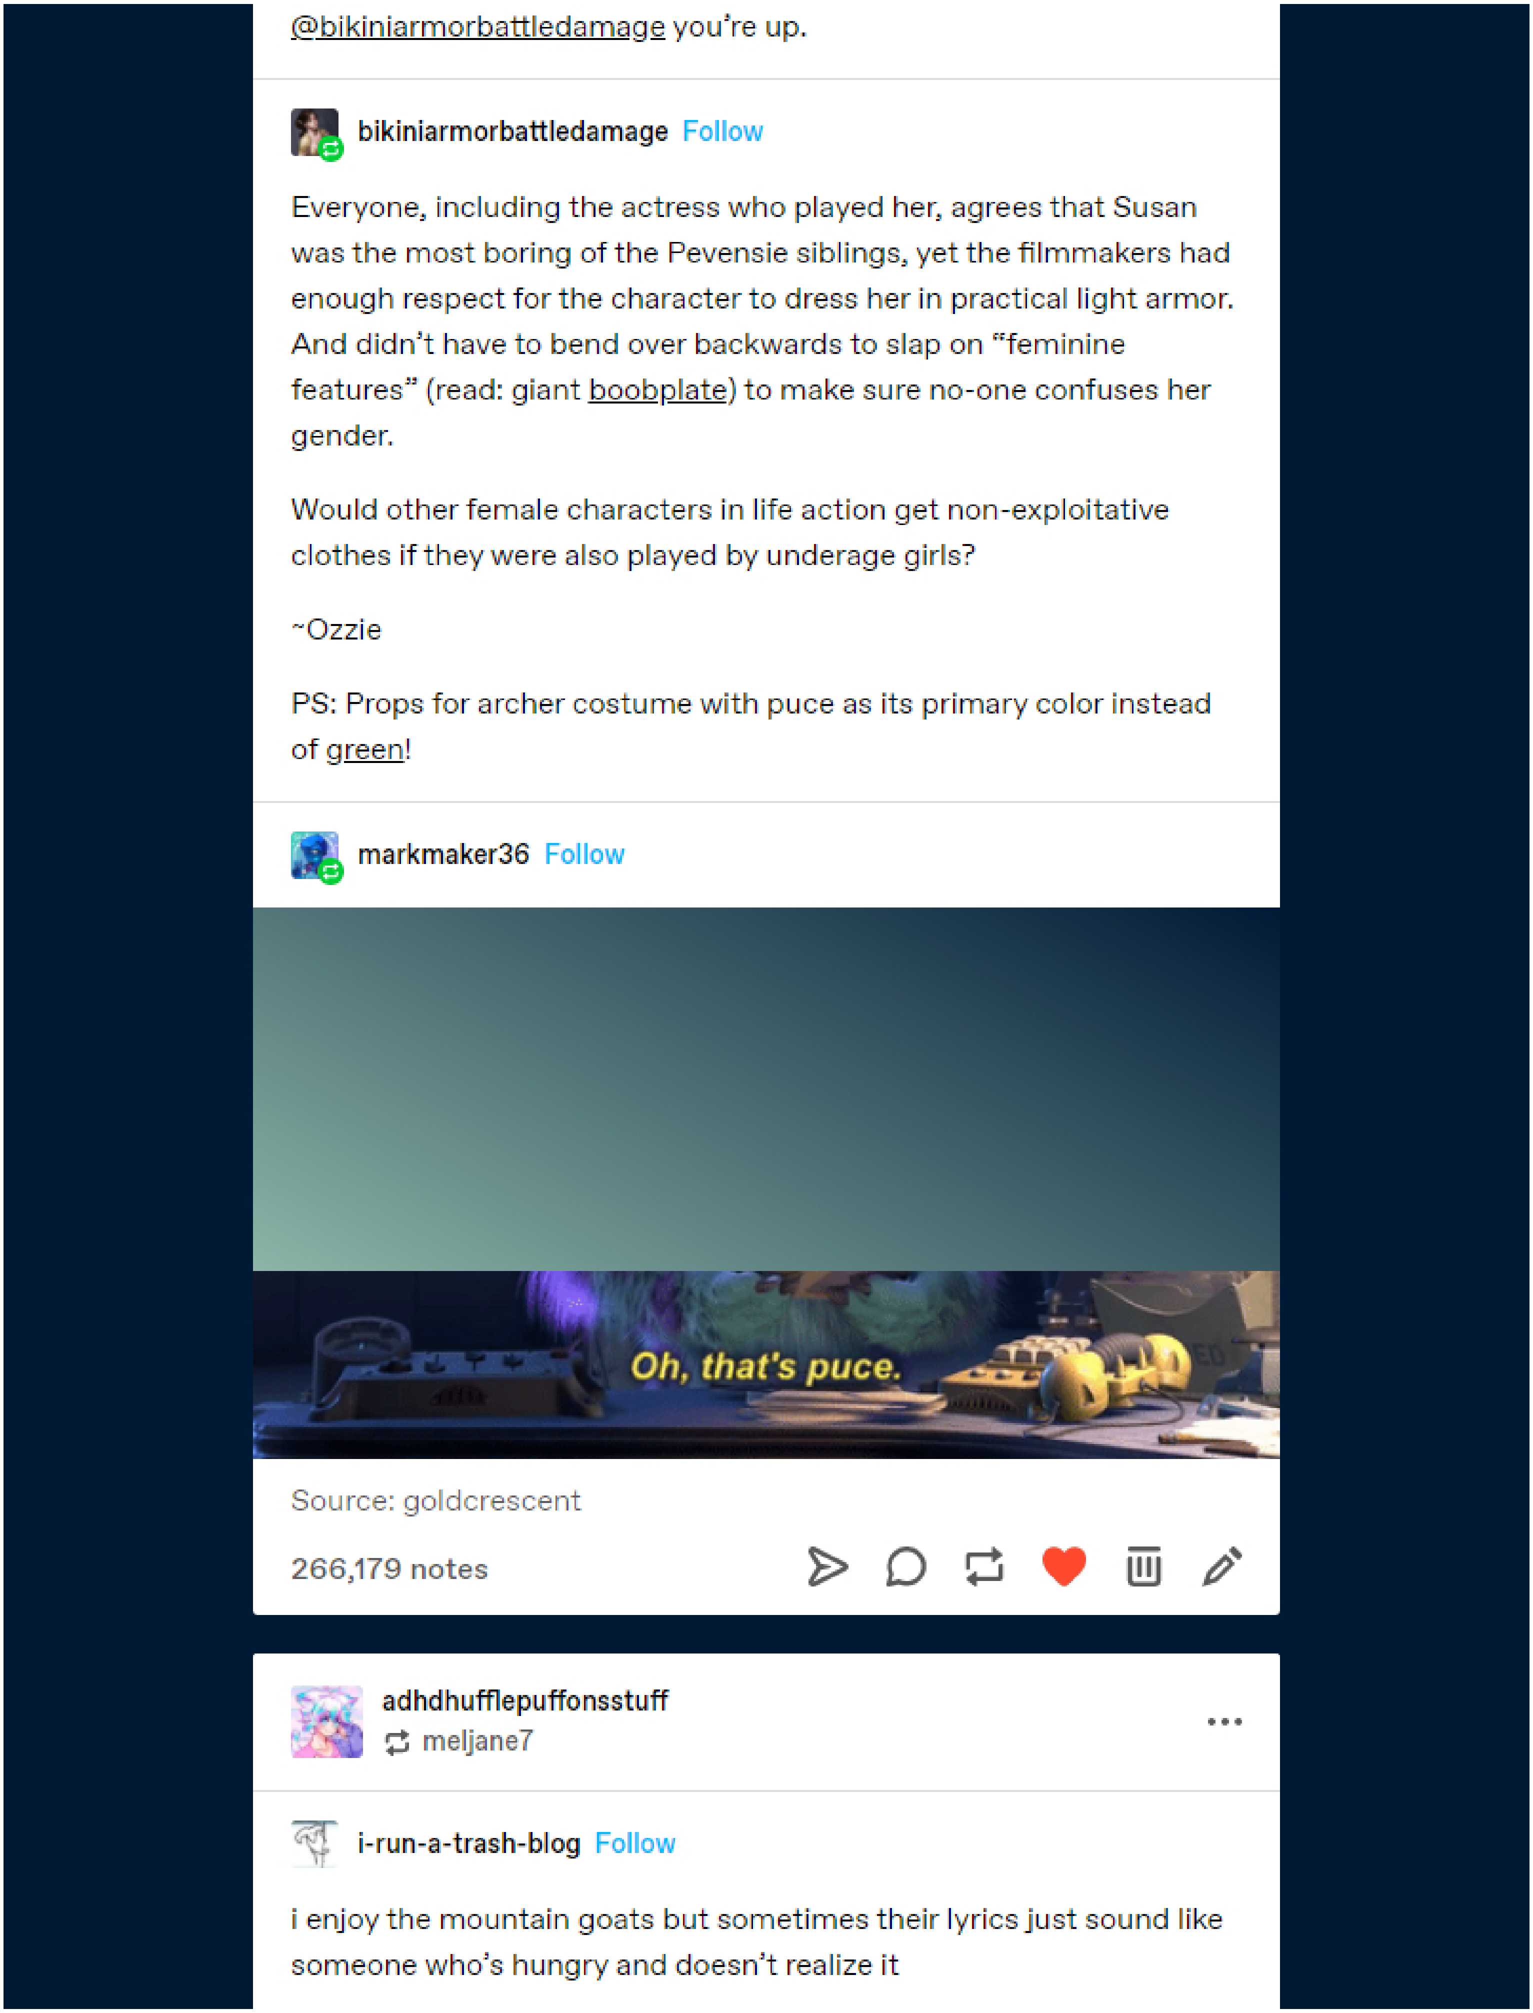


her mail shirt is also loose enough that it doesn't impede her arm movements it's almost like she's dressed for a fight wow



I like the pinks and purples under her bitchin as hell leather armor here, because you don't have to be masculine to shoot someone in the goddamn face

talvin-muircastle Follow



@bikiniarmorbattledamage you're up.

bikiniarmorbattledamage Follow

Everyone, including the actress who played her, agrees that Susan was the most boring of the Pevensie siblings, yet the filmmakers had enough respect for the character to dress her in practical light armor. And didn't have to bend over backwards to slap on "feminine features" (read: giant boobplate) to make sure no-one confuses her gender.

Would other female characters in life action get non-exploitative clothes if they were also played by underage girls?

~Ozzie

PS: Props for archer costume with puce as its primary color instead of green!

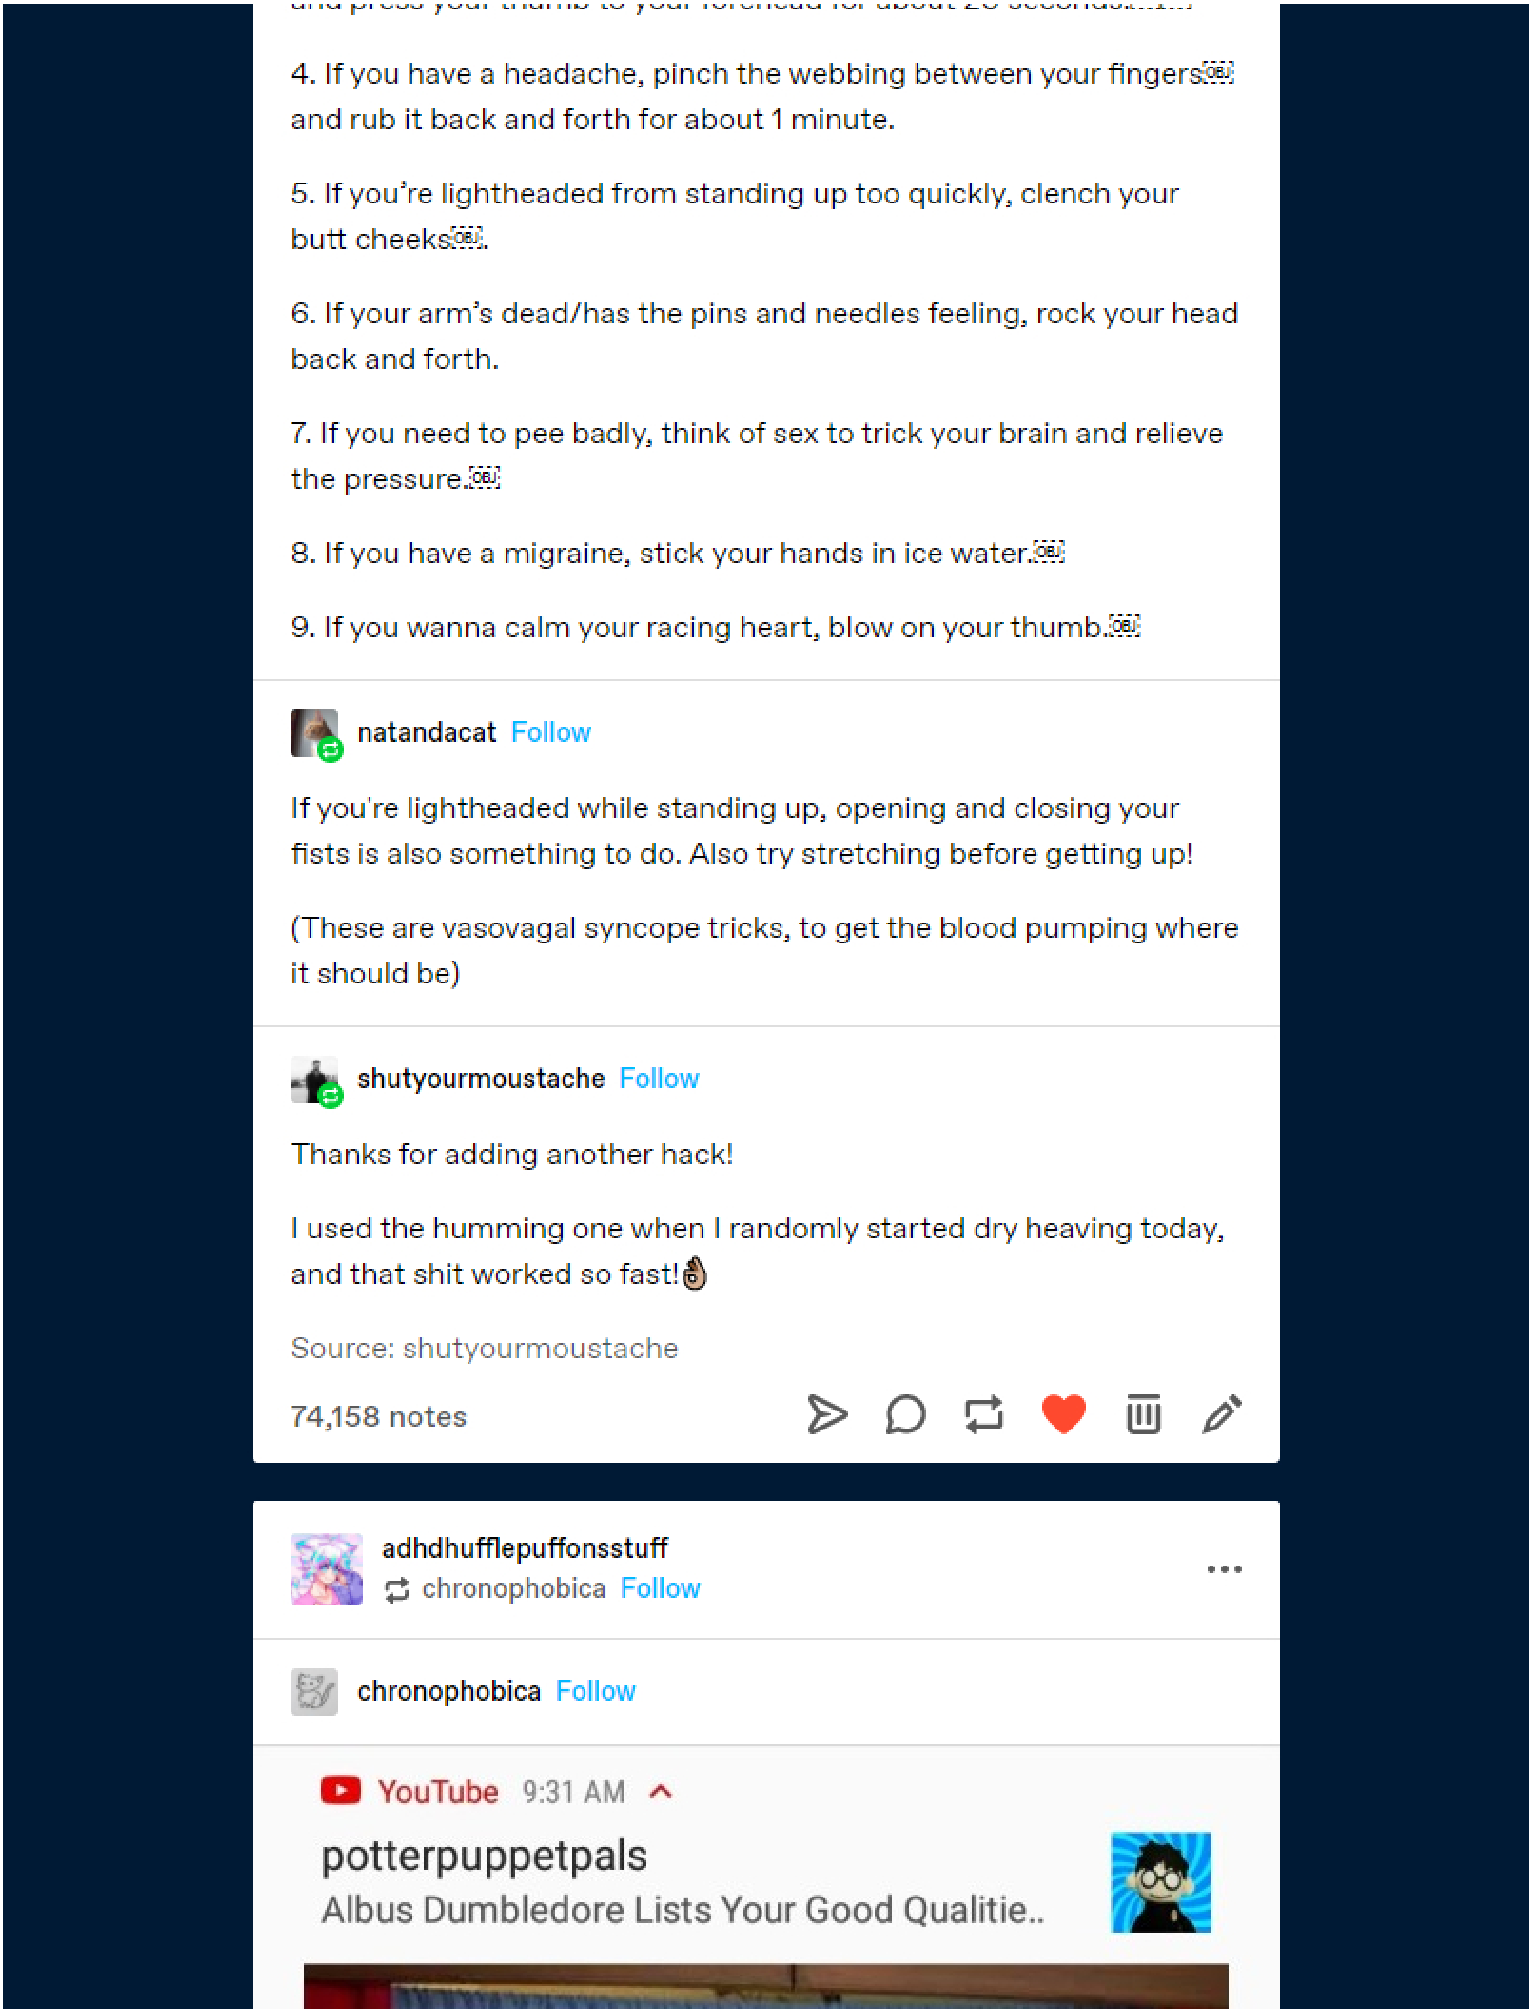
shutyourmoustache

So you don't have to watch the video every time you need one of these hacks immediately:

1. If you feel nauseated, smell rubbing alcohol.￼

2. If you feel like throwing up, start humming.

3. If you have a runny nose, put your tongue to the roof of your mouth and press your thumb to your forehead for about 20 seconds.￼￼



4. If you have a headache, pinch the webbing between your fingers￼ and rub it back and forth for about 1 minute.

5. If you're lightheaded from standing up too quickly, clench your butt cheeks￼.

6. If your arm's dead/has the pins and needles feeling, rock your head back and forth.

7. If you need to pee badly, think of sex to trick your brain and relieve the pressure.￼

8. If you have a migraine, stick your hands in ice water.￼

9. If you wanna calm your racing heart, blow on your thumb.￼

natandacat Follow

If you're lightheaded while standing up, opening and closing your fists is also something to do. Also try stretching before getting up!

(These are vasovagal syncope tricks, to get the blood pumping where it should be)

shutyourmoustache Follow

Thanks for adding another hack!

I used the humming one when I randomly started dry heaving today, and that shit worked so fast!👌🏽

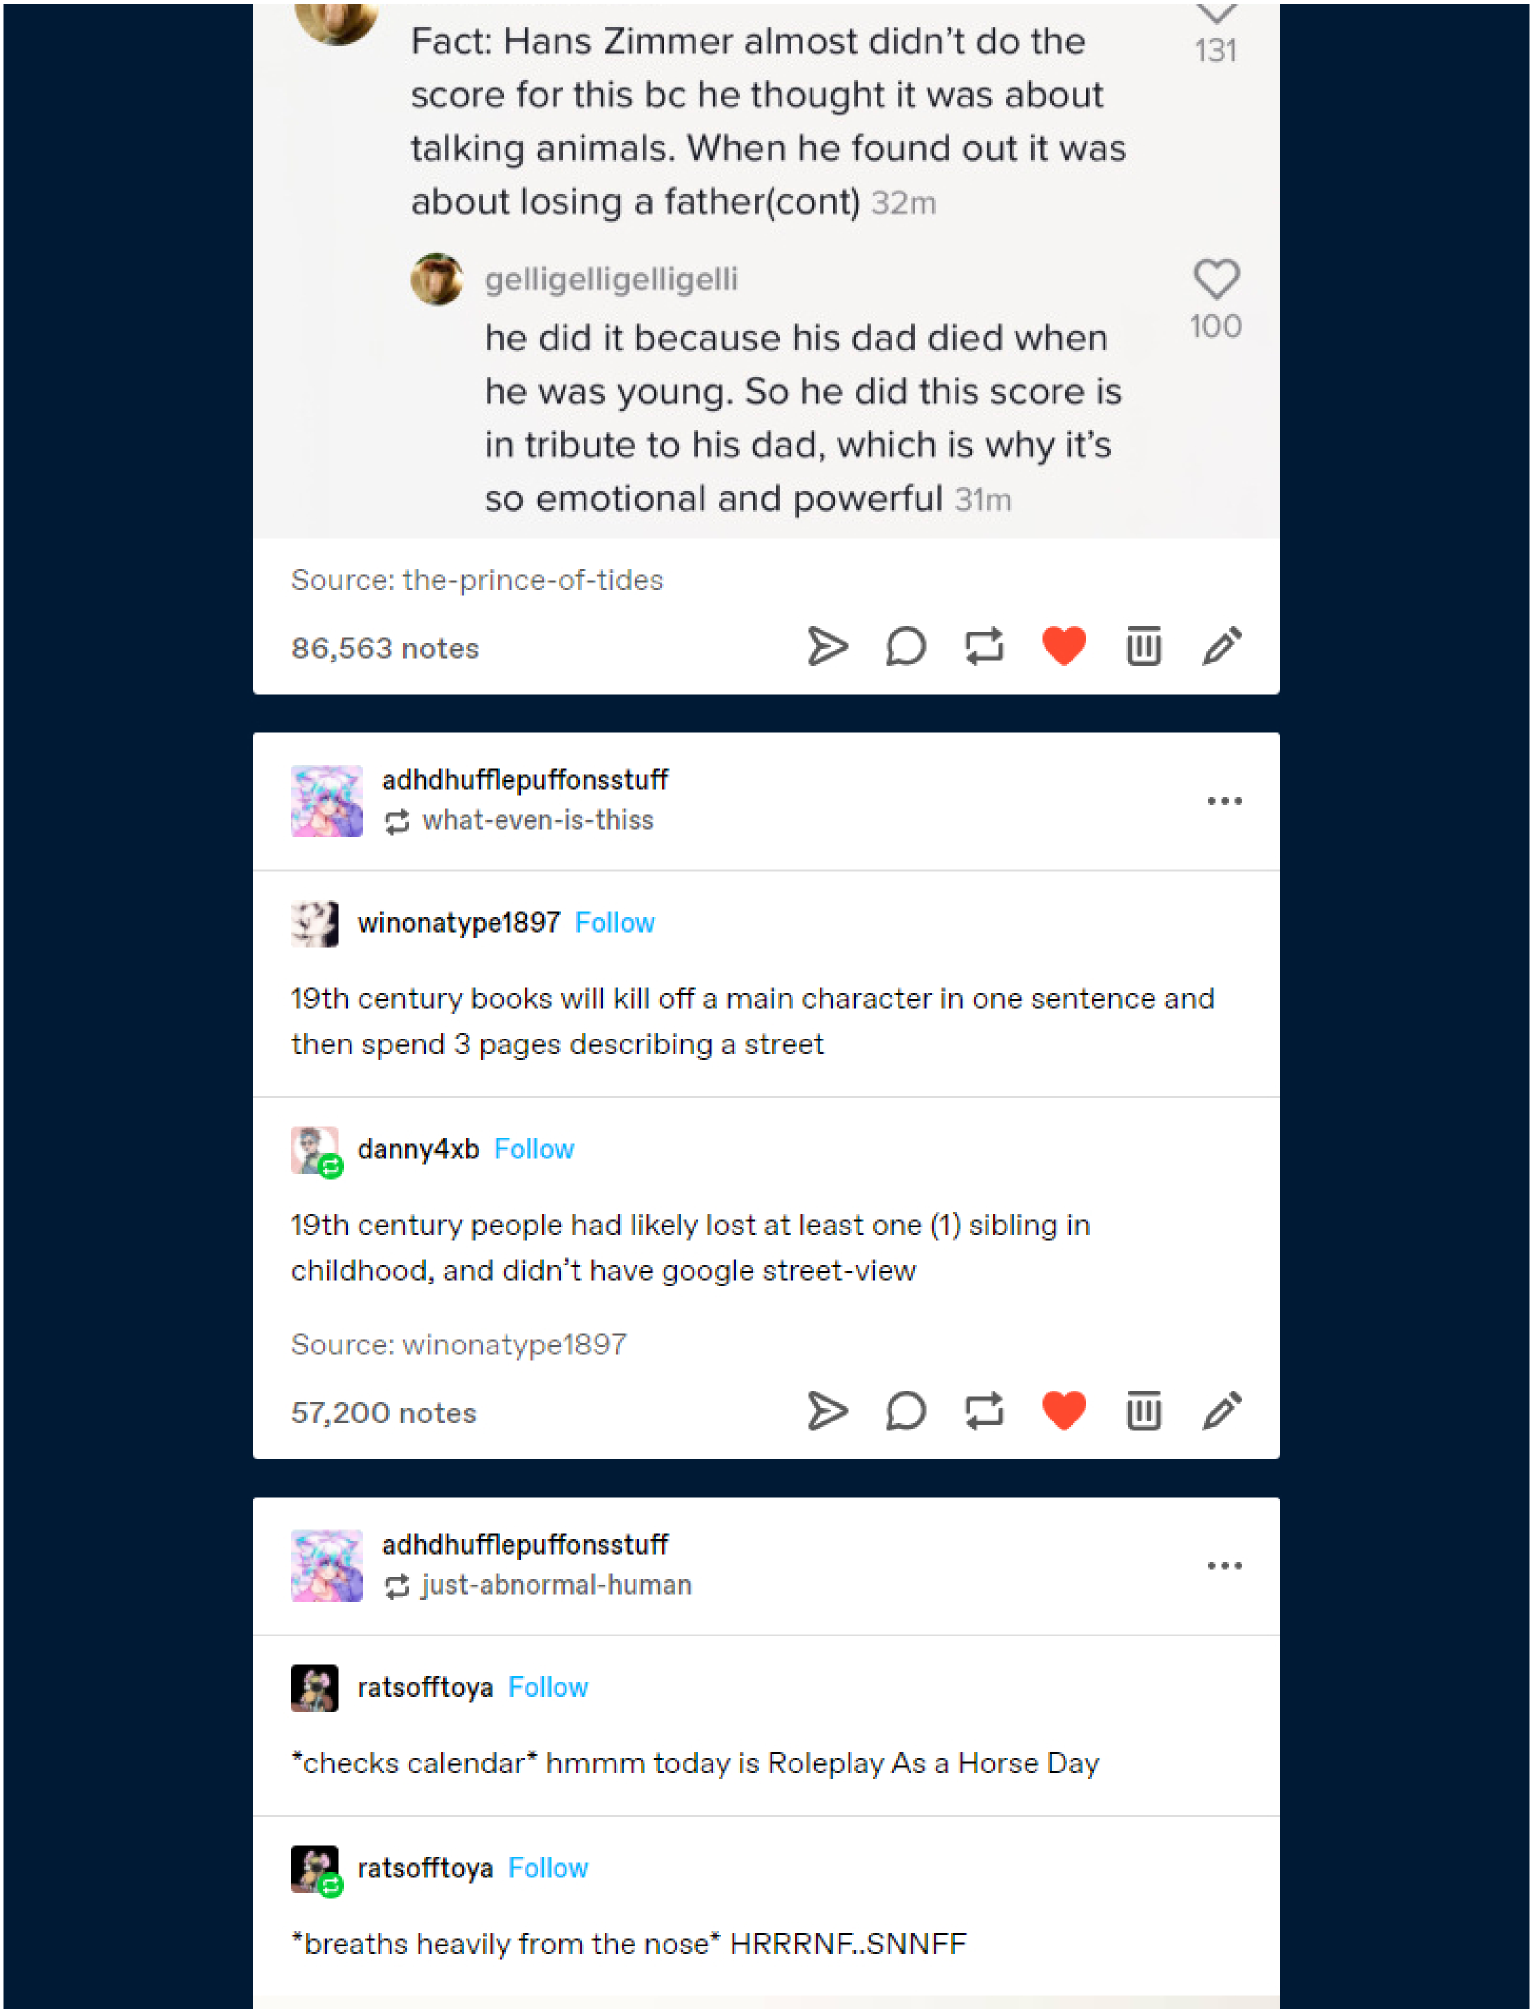
just felt like i should add this comment i found on this tik tok

gelligelligelligelli



Fact: Hans Zimmer almost didn't do the score for this bc he thought it was about talking animals. When he found out it was about losing a father(cont) 32m

gelligelligelligelli

he did it because his dad died when he was young. So he did this score is in tribute to his dad, which is why it's so emotional and powerful 31m
